

WRX STI

SUBARU

Confidence in Motion

AN ATHLETE'S **SOUL.** A CHAMPION'S **HEART.**

CELEBRATE THE EXCEPTIONAL.

Greatness in a car is rare. Achieving legendary status is exceptional.

This is the final edition of the 2.5i WRX STI Type UK. Limited to just 150 vehicles, it celebrates the pinnacle of SUBARU's competition-driving performance. Each car will feature an exterior 'Final Edition' badge on the door panel and a numbered interior badge to celebrate the last build volume of these iconic cars.

The specification befits the heritage. The final edition boasts 19" alloy wheels, powerful Brembo® brakes and exceptional handling capability. It's truly a car built for drivers.

This is the last opportunity to own and experience a new WRX STI yourself. If you live to drive... seize it.

/// STI

A HIGH- PERFORMANCE LEGEND.

///

For fans of motorsport worldwide, it takes just three letters to spell thrilling performance: STI. The WRX STI offers fresh styling, but the bonnet scoop and dramatic, downforce-generating rear spoiler leave no question about what it is, or what it's built for. Beneath the surface, it generates performance that is more focused and more invigorating than ever.

WRX STI

ALWAYS DEMAND MORE.

Do more of what you love to do, and make no apologies for it. The WRX STI was built to help you extract maximum excitement and adventure from every moment. The combination of Symmetrical All-Wheel Drive and a balanced low centre of gravity drivetrain delivers confidence and capability, whatever the situation. Excitement, like adventure, is addictive. The WRX STI is poised to bring more of what you crave.

INSTANT POWER. CONTROL YOU CAN TRUST.

WRX STI

Whilst the 2.5-litre turbocharged SUBARU Boxer engine generating 300 PS and 407 Nm of torque provides electrifying acceleration, driving performance isn't just about numbers. Active Torque Vectoring makes handling more precise. It effectively brakes the inside wheels under cornering and helps apportion greater torque to the outside wheels, preventing understeer and oversteer and allowing a more predictable course through corners.

WRX STI

ENGINEERED TO BE SIMPLY EXCEPTIONAL.

From the moment you first fire it up, the WRX STI all but begs you to let it loose on whatever curvy stretch of asphalt you can find. Its rigid frame offers precise control and makes the most of every bit of ferocious grip coming from its Symmetrical All-Wheel Drive powertrain. Chassis roll rigidity, suspension coils and shock absorbers are all fine-tuned to ensure impressive control and stability for a quiet, comfortable and exciting driving experience. SUBARU SI-Drive (SUBARU Intelligent Drive) means you can even match the car's handling to your mood and the conditions. Choose between intelligent mode, sport mode and sport-sharp mode.

PERFORMANCE THAT IGNITES EXCITEMENT.

In motorsport, it takes teamwork to win races. High-performance driving is no different – it relies on synergy between car and driver. The natural pedal feel and sporty gear stick throw make changes instinctive and satisfying.

More powerful Brembo® brakes are comprised of opposing piston 6 Pot brake calipers at the front and 2 Pot at the rear, both made with a monoblock body to avoid uneven pad wear. Ventilated cross drilled brake discs deliver better heat dissipation and superior fade-resistance for consistent pedal feel, ensuring the WRX STI has impressive stopping power and reliable braking, even under extreme conditions.

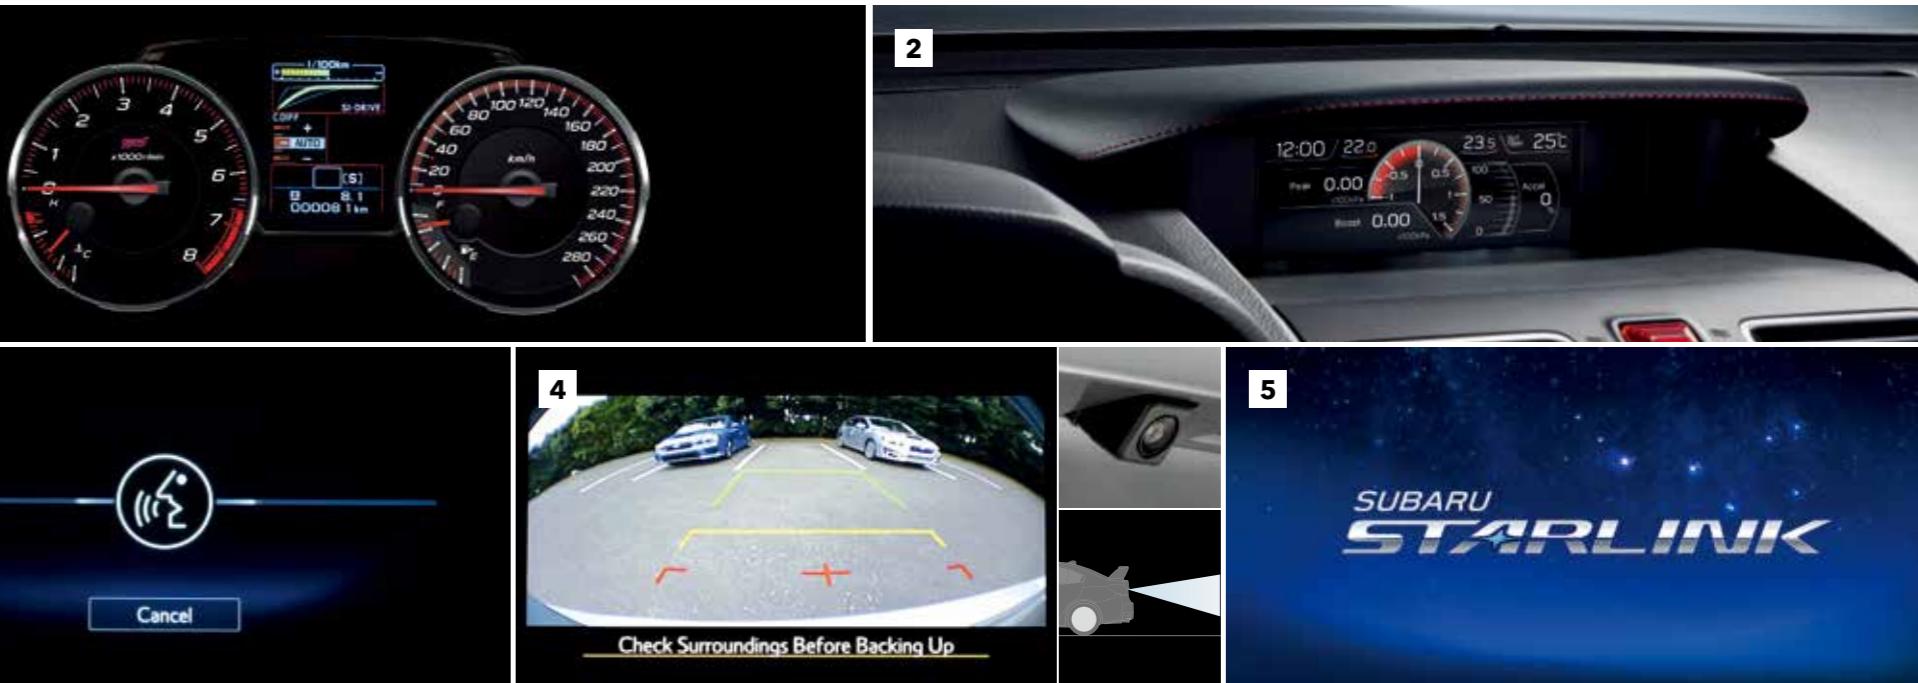

WRX STI

DESIGNED TO LET YOUR INSTINCTS TAKE THE LEAD.

Experience the exclusive STI feel admired by motor enthusiasts worldwide. As you start your engine from the WRX STI cockpit, only the sleek and elegant black interior keeps your adrenaline under control. Feel the sculpted support of the leather and Alcantara® seats as you fasten the sporty red seatbelts. Take command of the engine power through every straight or turn with the precise, satisfying gear stick. Read the wider, high-resolution 5.9" multi-function display effortlessly to monitor all the real-time vehicle information you need.

Stay entertained and connected.

Going on the road doesn't mean you'll have to leave it all behind. Stay in touch, yet undistracted with technology that's intuitive and easy to use. The WRX STI keeps you connected via infotainment and audio systems that you can either control with the touch of your fingertips or the sound of your voice.

1 Sport Gauges with LCD Display

Vital driving information is only a glance away with these crisp, easy-to-read gauges. The easy-to-see white illumination and red needles perform a full sweep to get you ready for the drive. A 3.5" LCD display located in the centre of the array displays current fuel consumption, average fuel consumption, driving range and SI-Drive indicator.

4 Reversing Camera

When you engage reverse gear, the reversing camera displays a live colour image along with guidelines to assist in parking manoeuvres.

2 Multi-function Display

The wider and high-resolution 5.9" multi-function display is easier to read. It displays a variety of key vehicle information, including; fuel economy screen, eco-evaluation screen, driving condition, clock with outside temperature and maintenance information.

5 SUBARU STARLINK^{*2}

Access the audio system and make phone calls via the SUBARU STARLINK Infotainment System. Control operations via the central 7" multi-function touchscreen, steering wheel controls, or simply use your voice. Can't find your favourite music? Just connect your smartphone or other mobile music device via the USB ports or auxiliary audio input jack.

*1 Voice Recognition is compatible with select languages only.
*2 Driver is responsible for safe driving. Please refrain from operating the touch screen while driving.

SUBARU Core Technology

Symmetrical All-Wheel Drive

Stability reassures on the road. But stability also offers agility that excites and inspires confidence. SUBARU vehicles are gifted with a superior ability to put you in charge behind the wheel, thanks to the inherently stable design of Symmetrical All-Wheel Drive, which features the SUBARU Boxer engine. The unique design of this system efficiently delivers power to all four wheels at all times for enhanced control on all roads and in poor conditions. It also allows the main components to be aligned longitudinally for excellent side-to-side balance and handling precision. What's more, it creates a low centre of gravity for engaging responsiveness. The unique advantages of Symmetrical All-Wheel Drive make for exceptionally rewarding handling and equip you to better avoid danger.

Sport-Tuned Chassis

Years of heated competition, extensive testing and advances in materials and engineering have combined to inspire the chassis design for the WRX STI. Exceptional stability and lightning quick response were central to this development, as high-tensile steel is employed throughout the frame to optimise its torsional rigidity and better control the vehicle's weight. What's more, the suspension is tuned to exacting standards with stiff stabilisers and quick spring rates, expertly balancing stiffness and compliance to create immediate response and an unprecedented connection between driver, car and the road.

Active Torque Vectoring

This technology helps make handling more precise, whilst allowing you to safely enjoy your driving experience. As you enter a corner and lateral g-forces take hold, the system can route power to select wheels to help you keep your intended line. Your WRX STI responds to your steering input more immediately, offering greater driving engagement.

1 SI-DRIVE

SUBARU Intelligent Drive (SI-DRIVE) lets you adapt the driving character of the WRX STI to your needs or desires. Whilst in Intelligent Mode [I], acceleration is smooth with an eye toward optimal efficiency. Select Sport Mode [S] for linear response, and versatile command of every condition. To extract the maximum response from the turbocharged engine, switch to Sport Sharp Mode [S#]. It gives you the most direct throttle response and precise rev control across the entire rpm range.

2 Multi-Mode DCCD

The Multi-Mode Driver's Control Centre Differential (DCCD) has been enhanced for even better handling ability. It allows you to dial in the centre differential locking of the WRX STI and so shape its handling.

3 2.5-Litre DOHC Turbo SUBARU Boxer Engine

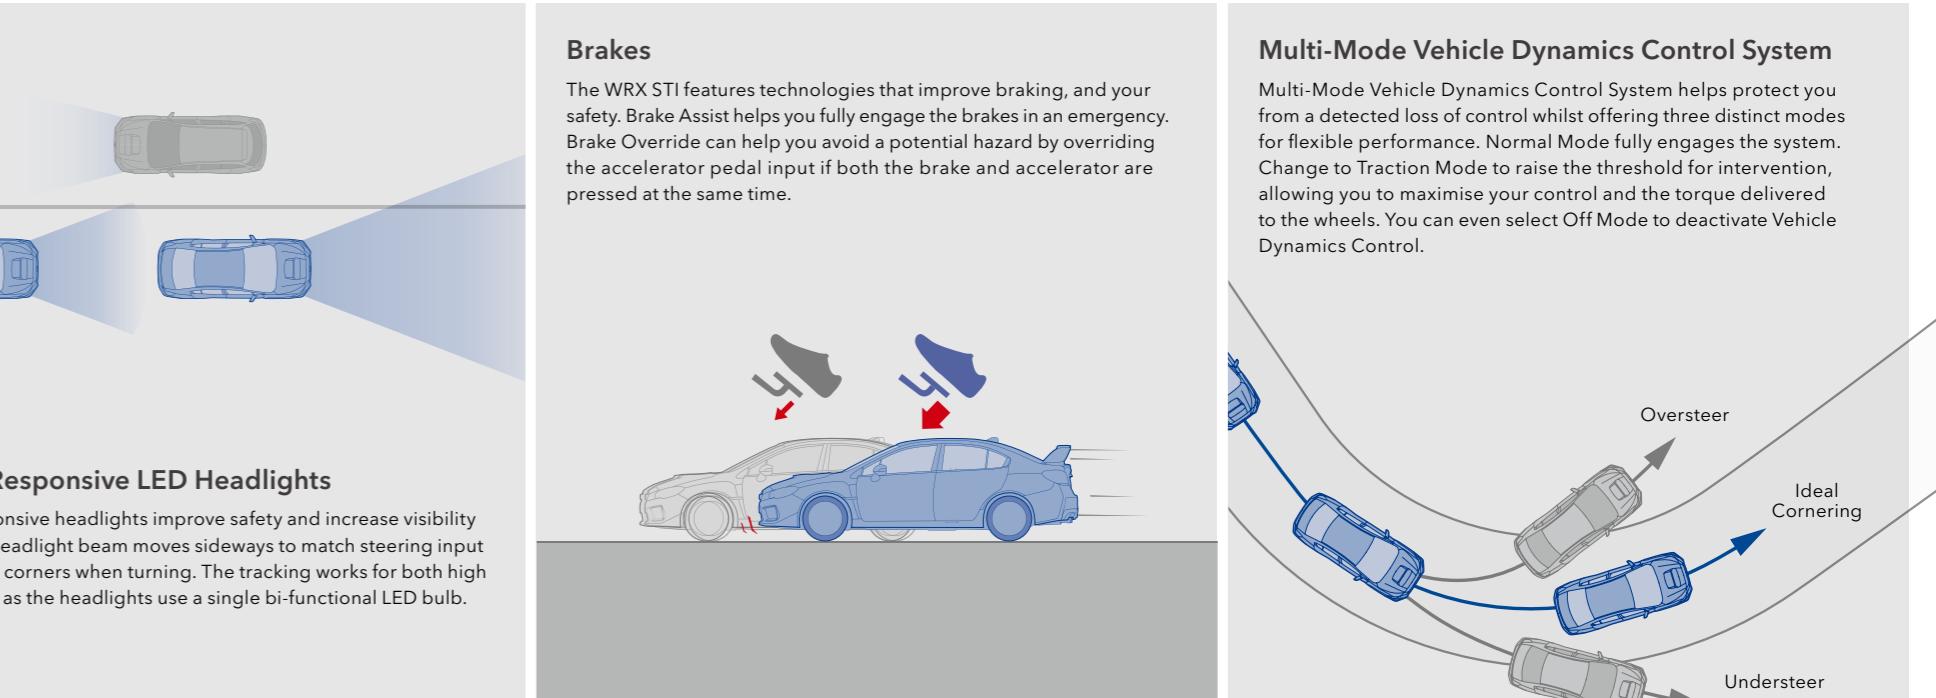

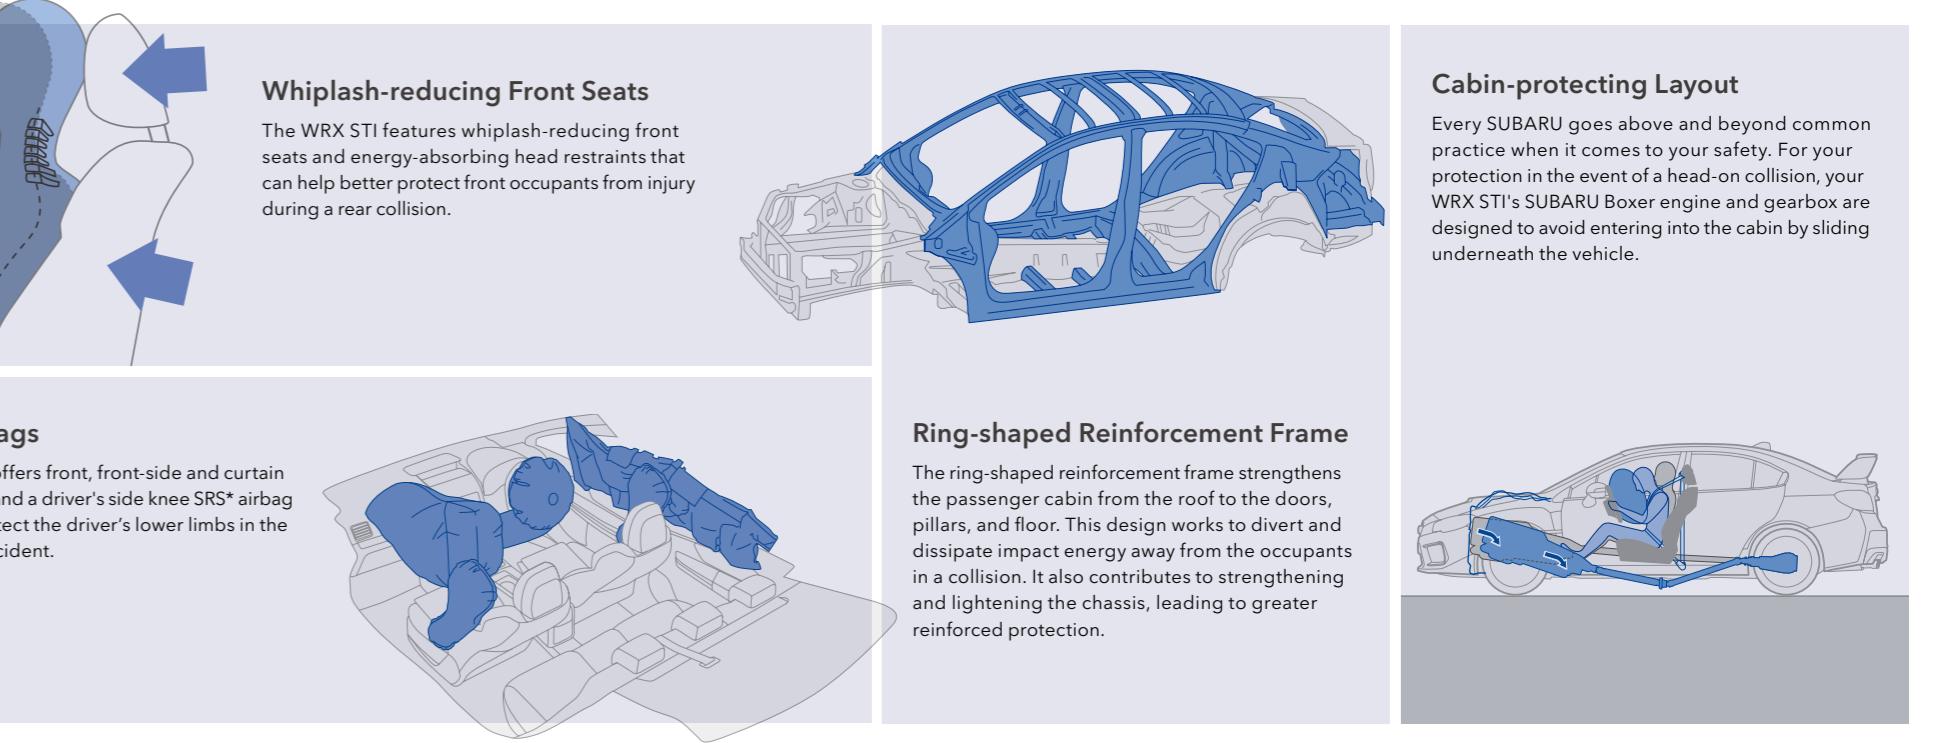

MAX OUTPUT	300 PS @ 6,000 rpm
MAX TORQUE	407 Nm @ 4,000 rpm
FUEL CONSUMPTION (COMBINED)*	25.9 MPG
CO ₂ EMISSIONS*	252 g/km

Few motors have the same reputation for pure excitement on any road as the 2.5 litre turbo of the WRX STI. It flawlessly fuses raw power with total poise as its turbo spool almost instantaneously and unleashes power for intense acceleration: a perfect match for the WRX STI.

* Fuel consumption and CO₂ emissions: According to EC71/2017/01/64W

The confidence you need for the excitement you deserve.

As you take the WRX STI to the edge, you'll have the peace of mind knowing SUBARU has given it exceptional safety characteristics. This includes the protection of a resilient Ring-shaped Reinforcement Frame and driver's side knee airbag. With the assistance of Multi-Mode Vehicle Dynamics Control featuring Active Torque Vectoring, and powerful Brembo® brakes, your vehicle can help you avoid danger before it strikes. And your control is further enhanced by the one-of-a-kind poise and grip of Symmetrical All-Wheel Drive.

* SRS: Supplemental Restraint System. Must be used with seatbelts.

1 LED Steering Responsive Headlights (SRH)

Powered by LEDs, these bi-functional headlamps combine low and high beams and are steering-responsive, ensuring good visibility around corners at night.

3 Brembo® Brakes

The ultimate name in high-performance braking, Brembo® produce powerful brakes that can take the punishment of hard driving. The calipers come in an exclusive yellow paint for an eye-catching look, whilst the larger ventilated discs give you an extra level of precision and control for a sportier driving experience.

5 Variable Intermittent Windscreen Wipers

Wiping interval and speed can be adjusted accordingly to suit driving conditions.

7 Rear Diffuser & Twin Dual Tailpipes

Twin exhaust tailpipes hint at the WRX STI's sporty performance.

2 19" Aluminium-alloy Wheels

Striking new 19" alloy wheels are equipped with lower profile tyres to raise the performance limit when cornering, provide excellent take-off response and add to the WRX STI's sports styling.

**4 Heated Door Mirrors**

Heated door mirrors are standard on the WRX STI to reduce misting caused by ice or condensation and improve visibility.

**6 Roof Carrier Brackets**

Whenever the need arises, attach and remove a roof carrier quickly and easily with integrated roof carrier brackets.

**8 Large Boot Spoiler**

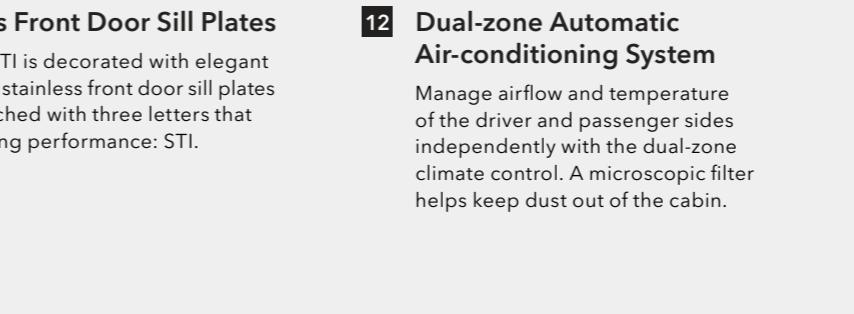

A stylish aerodynamic large boot spoiler generates downforce for the WRX STI.

**9 Dimpled Leather-wrapped D-shaped Steering Wheel**

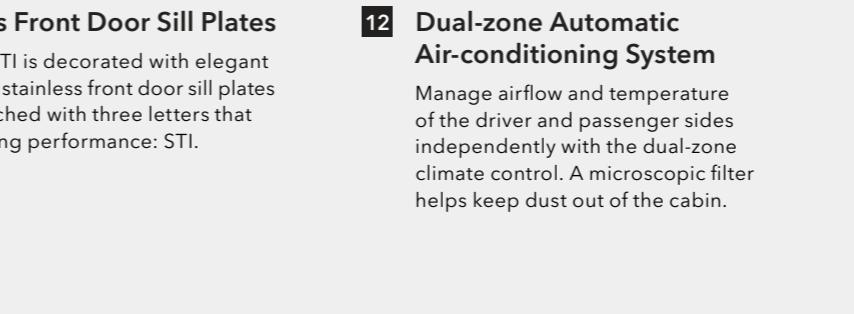

The ergonomically designed D-shaped leather steering wheel incorporates dimpled textured leather sections, red over stitching, a high gloss black panel and red STI badge.

11 Stainless Front Door Sill Plates

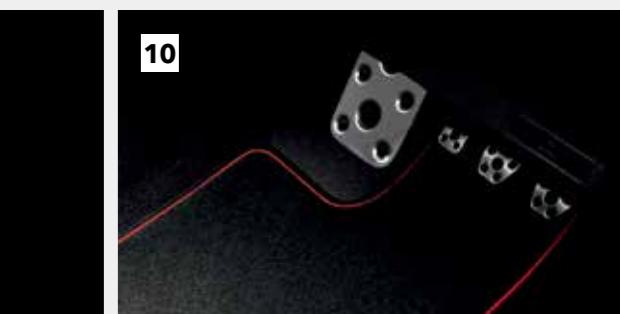

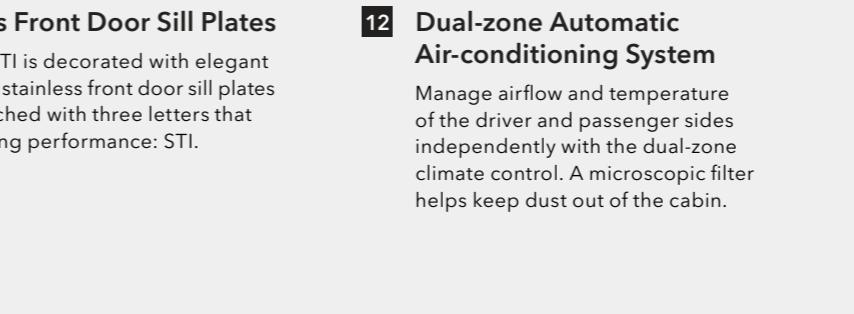

The WRX STI is decorated with elegant and stylish stainless front door sill plates that are etched with three letters that spell thrilling performance: STI.

**13 Steering Wheel Mounted Audio & Cruise Control Switches**

Adjust music volume, answer calls or set the cruise control via the conveniently mounted steering wheel switches.

**14 Rear Armrest with Cup Holders**

A rear seat armrest with cup holders has been added for rear passenger convenience.
