SUBARU

Confidence in Motion

ENGINEERED TO INSPIRE TRUST

Experience innovation and refinement that's set apart from any other. Take in the refined styling that has even more of a presence with a sporty hexagonal grille and raked headlights. Turn the key and discover the assuring control built into the Subaru Legacy. It begins with the acclaimed combination of Symmetrical All-Wheel Drive and SUBARU BOXER engine, providing heightened response, lush power delivery and sublime balance. You'll feel it all working together to captivate the road as well as your imagination, because you can trust the engineering inside.

about Symmetrical AWD.

Symmetrical All-Wheel Drive

Symmetry gives you balance. Balance gives you control. That is why Subaru has been developing and perfecting the Symmetrical AWD system since 1972. Matched with the SUBARU BOXER engine for an almost perfectly symmetrical layout, it maximises the power delivery with exceptional traction and generates balance and stability for total control in almost any condition, giving you the confidence to delight in every kilometre.

Dynamic Performance

Exceptional traction makes acceleration feel immediate and exhilarating. And the symmetry helps the Legacy deliver responsive handling because it's more stable during cornering, for a unique feeling of control at all times.

Constant Contact

The more your tyres are engaged with the road, the more control you have. Power is routed to all four tyres all the time in order to maintain the strongest connection to the road as possible, maximising handling and control.

Agility In An Emergency

In bad weather, or in the precious seconds it takes to react to a sudden situation, the symmetrical drivetrain with almost total side-to-side balance provides the stability, agility and traction that help you step around danger.

Keep your profile low and your expectations high.

SUBARU BOXER Engine

The Legacy drives with a unique sense of spirit, so you won't be surprised by how uniquely it is powered. The horizontally-opposed SUBARU BOXER engine boasts a lower, flatter profile than other engine types. This gives the entire car a lower centre of gravity for balanced handling to match its smooth, torque-rich power.

Increased Stability

Because the engine block has a flatter profile and sits lower in the chassis, the overall vehicle is more stably balanced and resistant to side-to-side motion than other designs.

Smooth Power

At any rpm the engine delivers immediate, responsive power that comes on smooth. The pistons lay flat and work against each other to reduce vibrations, making the ride as easy and comfortable as it is exciting.

Long-lasting Performance

The engine's flat design is inherently rigid and self-balancing, generating less vibration than "V-type" or "in-line" engines for more durability and more reliable performance.

Scan the code and watch video to find out more about Boxer Engine.

BOXER
DIESEL

Exhilaration in every corner.

What's inside:

A cohesive level of engineering that is united to make sure every drive is responsive, powerful and always safe.

What it does:

The Legacy offers you a unique combination of immediate response and fluid ride to ensure a drive that is confident and thrilling in all circumstances.

Subaru Dynamic Chassis Control Concept

Legacy elevates the inherent advantages of its signature Subaru layout-balance, composure and response-with the Subaru Dynamic Chassis Control Concept (DC³). The body uses high-tensile steel in critical areas to achieve high strength and light weight. A highly rigid Cradle Mount front-end structure delivers an accurate, natural steering feel whilst allowing the engine and suspension to be effectively isolated from the cabin for a smoother, quieter ride. The result is everything that makes driving a pleasure: confidence with comfort, sportiness with safety, and elegance with efficiency - all in impeccable balance.

Front Suspension

Legacy's strut type front suspension features a highly rigid Cradle Mount System, a wide tread and long wheel travel. Together they deliver flatter cornering as well as a quieter, more comfortable ride over a variety of road surfaces.

Rear Suspension

Expertly balancing sporty handling with refinement, Legacy's double wishbone rear suspension handles rough roads and sharp corners with poise and precision. To maximise stability and provide increased responsiveness, the suspension features pillow ball bushings in the lower control arms. Tyre contact is improved under all conditions whilst keeping unwanted vibration away from the passenger compartment.

Performance defined. Inside out.

What's inside:

The horizontally-opposed design of the SUBARU BOXER engine fires with a powerful punch-counterpunch action.

What it does:

Whether you're inspired by intelligent efficiency, refined responsiveness or the thrill of power, your Legacy will consistently respond with balanced, smooth performance.

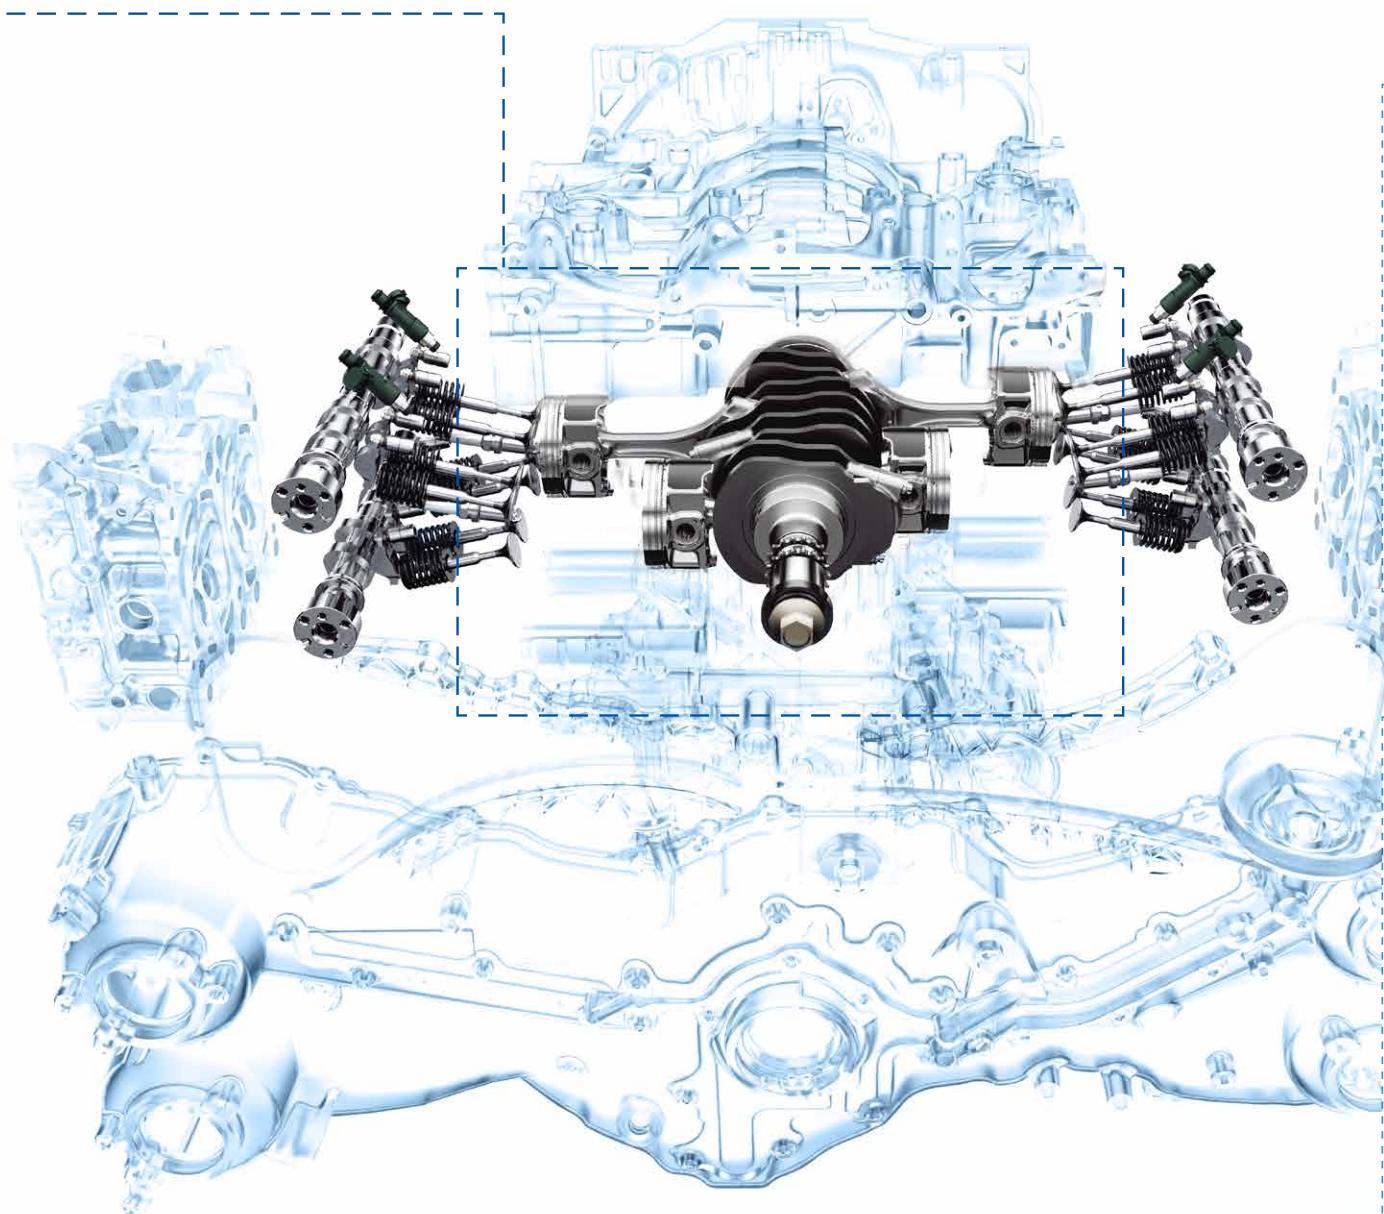

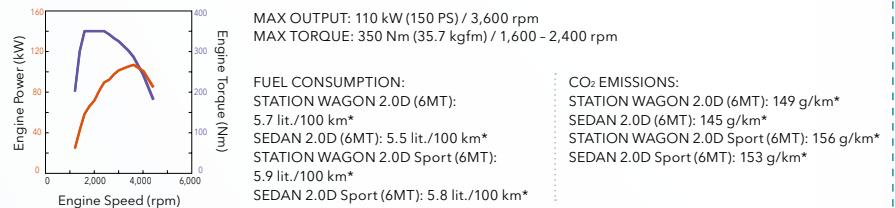

Redesigned Engine

The SUBARU BOXER engine has always offered exceptional balance and smooth response, but we've figured out a way to make driving a Subaru even more inspiring. Subaru engineers painstakingly reviewed the effectiveness of every valve, port and piston to create an engine that is lighter and uses fuel more efficiently. Not only does this new engine achieve new heights of efficiency, but it offers better low-end torque response – meaning you'll feel immediate, satisfying response every time the accelerator is pressed.

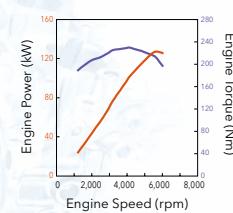

2.0-LITRE DOHC TURBO SUBARU BOXER DIESEL

The inherent rigidity, smoothness and quiet operation of the SUBARU BOXER engine make it the ideal configuration for the world's first BOXER DIESEL to power a passenger vehicle. Higher pressure common-rail fuel injection, an improved oxidizing catalyst with closed Diesel Particulate Filter (DPF), a variable nozzle turbo and electric power steering reduce fuel consumption and CO₂ emissions. Ceramic glow plugs quicken starting in cold weather. And whilst meeting the ultra-clean EURO5 emission standards, it delivers even more torque compared to the previous model year. A prodigious 350-Nm of peak torque is delivered at a lower 1,600 rpm – providing smooth, free-breathing performance at any speed. In addition, the retuned powerplant combined with the redesigned 6-speed manual transmission provide a 7% improvement in fuel efficiency over previous models.

2.5-LITRE DOHC SUBARU BOXER

Naturally smooth and strong, Legacy's 2.5-litre DOHC engine delivers higher torque with high fuel efficiency. Refinements throughout help it deliver a prodigious 235-Nm of torque at a lower 4,100 rpm to make it more responsive around town and more satisfying on the highway. Combined with the improved Lineartronic CVT, it's more efficient and clean-running to reward on every drive.

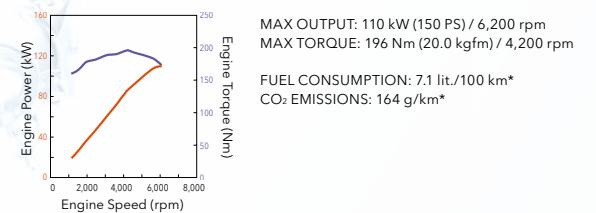

MAX OUTPUT: 127 kW (173 PS) / 5,600 rpm
MAX TORQUE: 235 Nm (24.0 kgfm) / 4,100 rpm

FUEL CONSUMPTION:
 2.5i: 7.3 lit./100 km* (LINEARTRONIC)
 2.5i Sport: 7.5 lit./100 km* (LINEARTRONIC)

CO₂ EMISSIONS:
 2.5i: 168 g/km* (LINEARTRONIC)
 2.5i Sport: 174 g/km* (LINEARTRONIC)

2.0-LITRE DOHC SUBARU BOXER

The revised, 2.0-litre DOHC petrol engine offers both power and efficiency in a compact package. Combined with an improved Lineartronic transmission, the powerplant delivers robust torque, smooth yet formidable response and fuel economy that stands out in its class.

MAX OUTPUT: 110 kW (150 PS) / 6,200 rpm
MAX TORQUE: 196 Nm (20.0 kgfm) / 4,200 rpm

FUEL CONSUMPTION: 7.1 lit./100 km*
CO₂ EMISSIONS: 164 g/km*

* Fuel consumption and CO₂ emissions: According to 715/2007/EC-566/2011. EURO5 emissions standards.

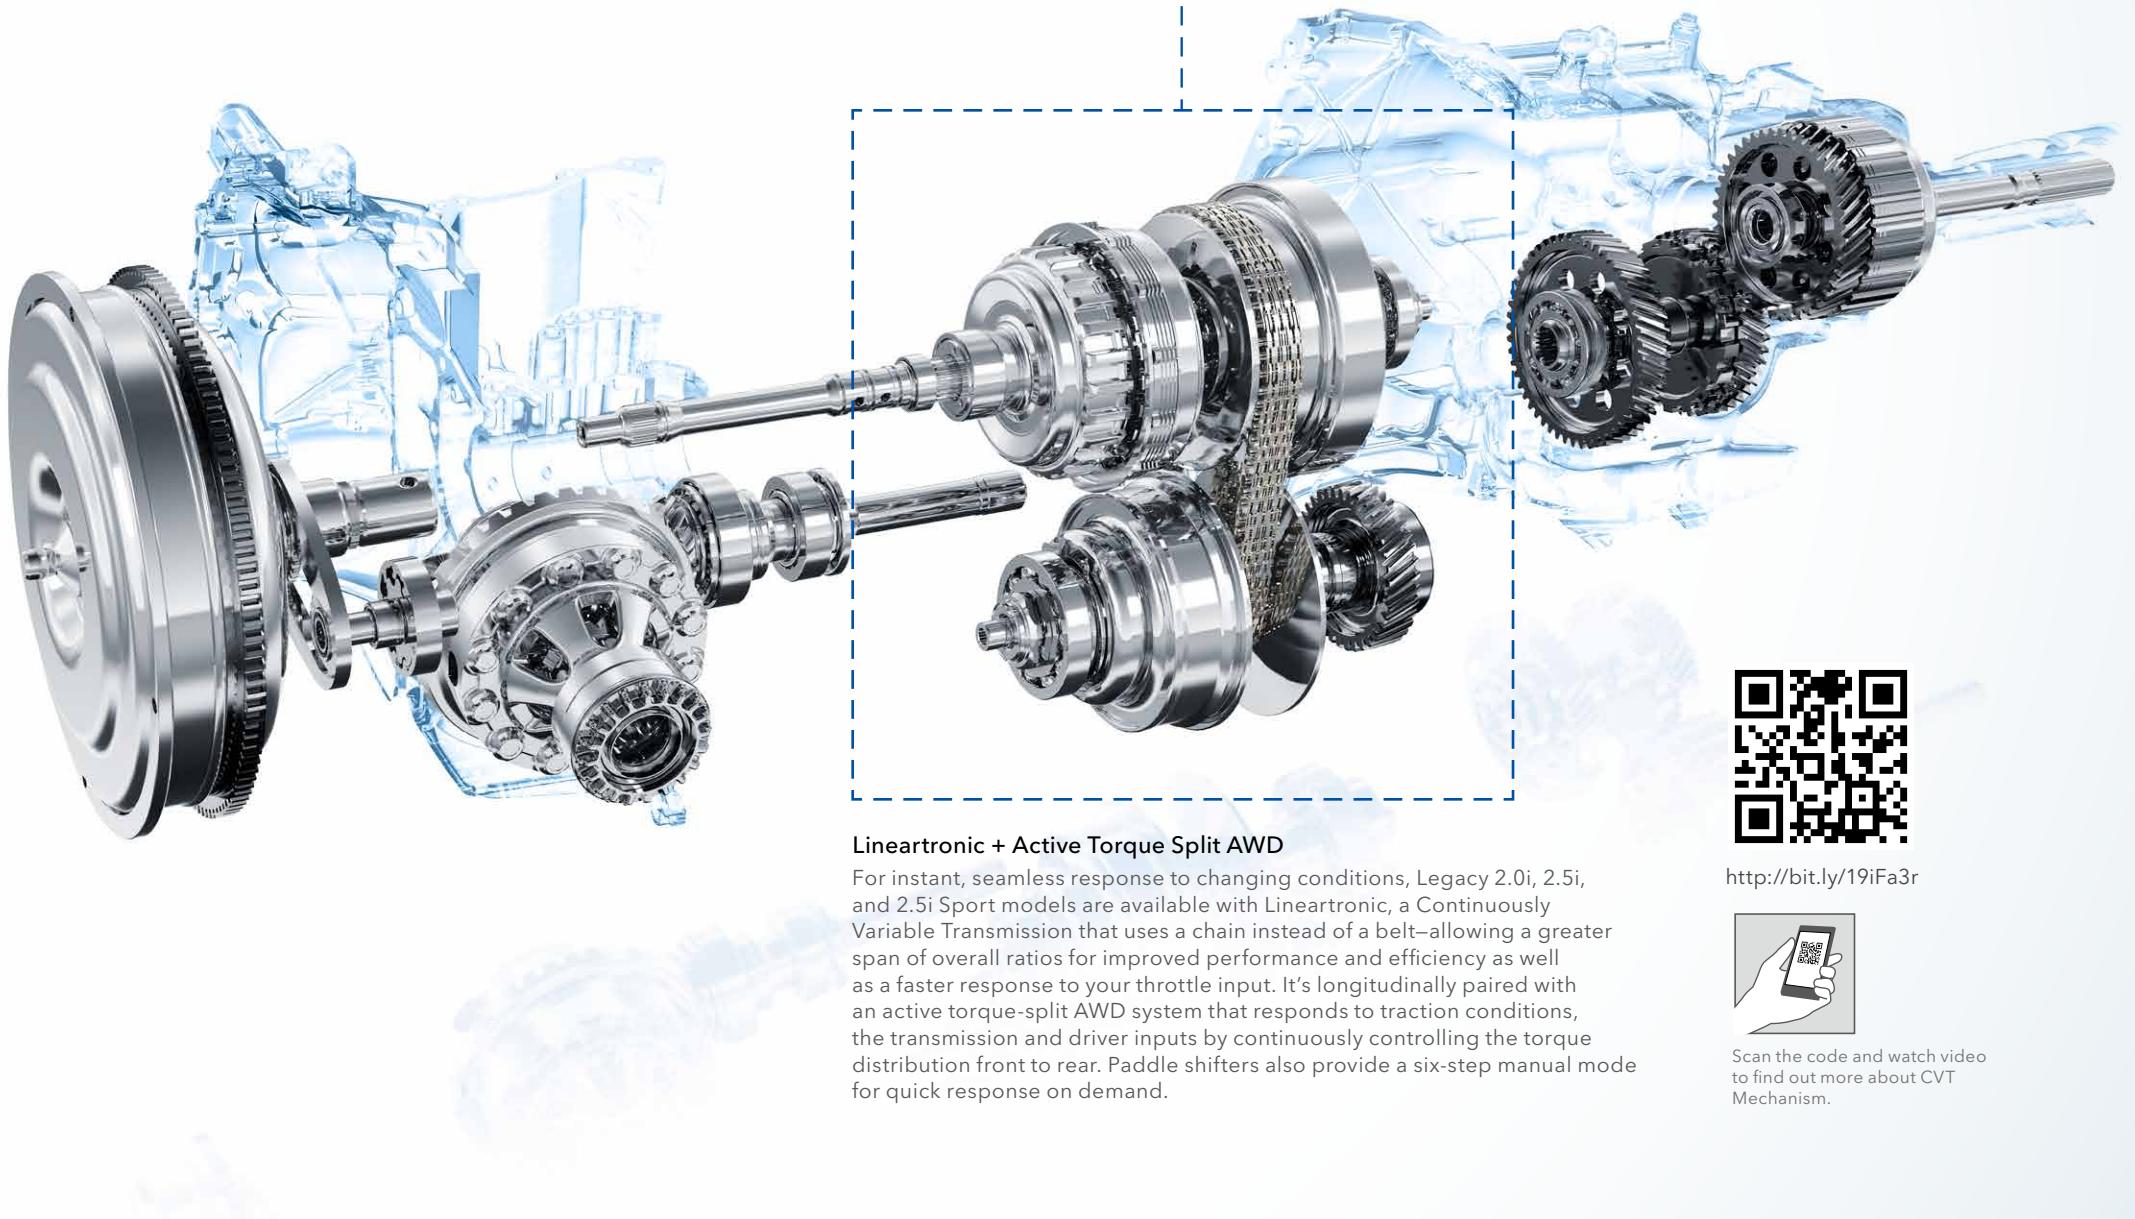

Confidence in every gear.

What's inside:

Legacy offers a choice in transmissions, each one mated to its own variation of Symmetrical AWD.

What it does:

The choice is yours. Whether you decide on manual mode or automatic, you'll always enjoy the distinctly stable balance and control of the Symmetrical AWD.

6-Speed Manual Transmission + Viscous Centre Differential AWD

For maximum control and sporty satisfaction, a slick-shifting 6-speed manual transmission is standard on 2.0D models. It's paired with an AWD system utilising a centre differential with viscous LSD (Limited Slip Differential). If wheel speed differs between the front and rear axles, the system helps distribute power to the wheels with the most traction. The 6-speed offers smoother, more precise shifting, along with the compact size and lightweight that add to Legacy's sporty feel.

Paddle Shifters

Every Legacy equipped with the innovative Lineartronic includes a sporty manual mode with paddle shifters mounted on the steering wheel.

<http://bit.ly/19iFa3r>

Scan the code and watch video to find out more about CVT Mechanism.

Lineartronic + Active Torque Split AWD

For instant, seamless response to changing conditions, Legacy 2.0i, 2.5i, and 2.5i Sport models are available with Lineartronic, a Continuously Variable Transmission that uses a chain instead of a belt—allowing a greater span of overall ratios for improved performance and efficiency as well as a faster response to your throttle input. It's longitudinally paired with an active torque-split AWD system that responds to traction conditions, the transmission and driver inputs by continuously controlling the torque distribution front to rear. Paddle shifters also provide a six-step manual mode for quick response on demand.

Believe what you see.

It's in the boldness of its shape. It's in the feel of elevated ambience inside, and in the intelligence of features that fit your needs. The genius of Subaru takes the intangible and makes it accessible through prodigious attention to comfort and convenience as well as innovative features that keep you connected to the world and your Legacy.

Filled with a deeper sense of comfort.

Legacy Sedan and Station Wagon offer plenty of room for you and your passengers, whilst efficiently making use of the interior space. Its spacious cabin easily accommodates five adults, and the sensible exterior size makes it easy to manage. Headroom, legroom and cargo room all comfortably coexist in stylish harmony inside a body that remains sleek and sporty outside.

1 High-Resolution Navigation*¹ Colour Display

Legacy's navigation system provides faster and more efficient guidance along with greater multimedia functionality. The 7-inch VGA touchscreen features a dual screen mode to simultaneously control audio and navigation. The system also supports the viewing of videos and photos through USB storage and SD cards. And its advanced voice recognition lets you speak naturally to give commands, whether in English, Dutch, French, German, Russian, or Spanish.

2 Audio System with Colour Display

A vivid 4.3-inch colour display and refined controls highlight an audio system that integrates CD/WMA*²/MP3 playback, AUX and USB inputs, iPod*³ control, Bluetooth®*⁴ hands-free functionality, SRS CS Auto*⁵ sound, and voice tag recognition.

3 Control in your hands. Or hands-free.

Standard satellite switches on the steering wheel place audio controls conveniently at the driver's fingertips. An available Bluetooth®*⁴ hands-free system automatically links with your registered mobile phone.

4 iPod. MP3. Your music, pure and simple.

Plug your iPod*³ or other mobile music device into the standard AUX and USB input jack, and your digital music plays through Legacy's audio system.

*1 Optional.
*2 WMA: WMA is a trademark of Microsoft corporation in the United States and/or other countries.

*3 Apple, iPhone and iPod are registered trademarks of Apple Inc.

*4 Bluetooth is a registered trademark of Bluetooth SIG, Inc. America.

*5 SRS CS Auto Sound System and SRS® symbol are trademarks of SRS Labs, Inc.

Savour abundance within.

The Subaru Legacy cabin immerses you and your passengers in modern comfort as well as technology, without distracting you from the essential. You'll find joy and ease in finding that every feature you need is within reach as well as the ones that you didn't know needed.

1 High-grade Multi-function Display*

Stay fully aware for confident and efficient driving. Located conveniently in the instrument panel, it shows you time, temperature, self-check maintenance alerts, and safety information such as Vehicle Dynamics Control (VDC) monitoring. Also, it features an advanced environmental performance and efficiency display that keeps you apprised, and allows you to totally track your fuel efficiency—even allowing you to compare the efficiency of different trips.

2 Enhanced rear vision. Easier parking.

A Rear Vision Camera System is standard on all models. When the driver shifts into reverse, the camera displays a live colour image on Legacy's in-dash display, along with guidelines to assist in parking manoeuvres.

3 Cruise Control

Standard electronic cruise control allows the driver to maintain a preset speed on the open road. Located on the steering wheel, the controls are finished in a modern dark-metallic sheen.

* Optional on 2.0D, standard on 2.5i, 2.5i Sport, and 2.0D Sport models.

The inner ability to accommodate.

As versatile as you are, the Legacy offers quick and easy design solutions to accommodate many situations. Whether you're sporting the Sedan or Station Wagon, the smartly designed suspension allows for road-handling performance as well as a flexible cargo area that can comfortably fit four 9-inch golf bags.

Loaded with inspiration.

Legacy Station Wagon combines the road-handling performance of a sport Sedan with expanded cargo-handling capacity. Its smartly designed suspension allows for a flexible cargo area, as well. Levers mounted in the rear allow you to easily release the 60/40 split-folding rear seats for easy access. And shopping bag hooks round out the thoughtful details.

Versatility with security.

Legacy Station Wagon's retractable cargo cover helps to keep luggage out of view and away from sunlight. With lightweight yet sturdy aluminium construction, the cover is easily removed to make way for larger cargo when the rear seats are folded down.

Places for life's little things.

Thoughtful engineering is evident throughout the spacious cabin of the Legacy. A roomy console includes a 12-volt power port and padded armrest lid. There are also pockets in the front seatbacks, four cup holders, generous front and rear door pockets, each with its own bottle holder. Sedans also include a trunk-through in the rear centre armrest.

In control. Out of danger.

What's inside:

Legacy's all-wheel drive traction, natural agility, and active safety systems are always ready to help step around danger that comes your way.

What it does:

Since we know the best way to survive an accident is to steer clear of it, a confident and quick reaction helps keep you out of harm's way.

Active Safety, to avoid a collision.

Many of the same features which make a Legacy fun to drive also keep its occupants out of harm's way. The stable, responsive handling of its Symmetrical AWD is enhanced by the low centre of gravity of its SUBARU BOXER engine. Its available Vehicle Dynamics Control System, sure-footed suspension, 4-wheel antilock brakes, Traction Control System, and quick steering equip the driver with excellent evasive abilities.

Braking System

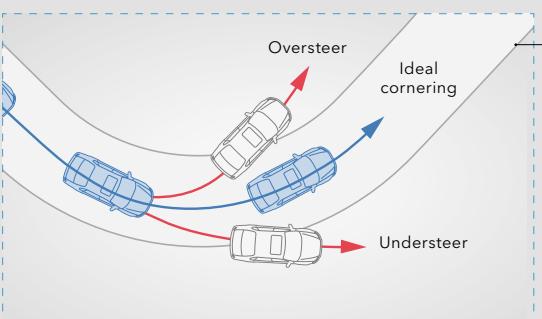

The standard 4-wheel disc brakes feature lightweight aluminium rear calipers and a strong, reassuring brake feel. The Antilock Braking System (ABS) includes Electronic Brake-force Distribution, to reapportion front/rear braking pressure when the vehicle is loaded. To ensure maximum braking during an emergency, the Legacy features both Brake Assist and Brake Override. There's also Subaru Hill Holder that helps prevent rollback when starting off on a 5% or steeper grade, by applying the electronic parking brake and automatically releasing it once you're underway.

Scan the code and
watch video to find
out more about
AWD Risk Aversion.

Vehicle Dynamics Control System

Standard in every Legacy, Vehicle Dynamics Control (VDC) monitors and analyses if the vehicle is following the driver's intended course via an array of sensors. If the vehicle approaches the limits of stability, the AWD torque distribution, engine output and brakes at each wheel are adjusted to assist in keeping the vehicle on course.

A deeper sense of safety.

What's inside:

Legacy's smart construction is partnered by advanced technologies to deliver substantial protection upon impact.

What it does:

In the unfortunate situation that a crash is inevitable, you always know you and your passengers are in capable hands.

Passive Safety, to better survive a collision.

At Subaru, there is never an end to the pursuit of safety. We set high standards, constantly Legacy's designed with occupant protection as a high priority. Its body structure is intelligently strengthened in critical areas to help minimise the impact energies that reach the cabin. Front SRS* airbags, front-side and curtain SRS* airbags, whiplash-reducing front seats, and 3-point seatbelts all around help protect occupants.

Pedestrian Protection

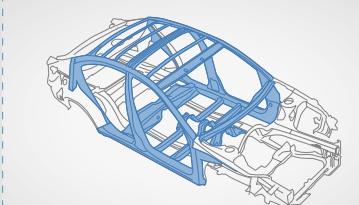

Legacy was designed with the objective of providing a high level of pedestrian protection. Shock-absorbing space between the bonnet and engine helps to reduce pedestrian injury in an accident, as do an energy-absorbing front bumper and a specially designed area around the windshield wipers.

Scan the code and
watch video to find
out more about
History of Crash
Testing.

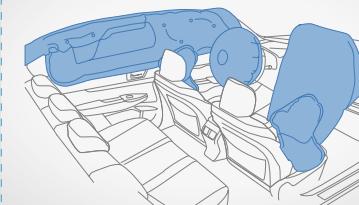

<http://bit.ly/11tWIYR>

Ring-shaped Reinforcement Frames

The Ring-shaped Reinforcement Frames strengthen the passenger cabin from the roof to the doors, pillars and floor. This design helps divert and dissipate impact energy from the occupants in a collision. The front crumple zone is integral to the frame.

Seats, Seatbelts and SRS* Airbags

Standard on every Legacy are front SRS* airbags, plus front-side SRS* airbags and curtain SRS* airbags. Height-adjustable front seatbelts feature pretensioners to hold passengers firmly in place, and load limiters that ease peak forces to the chest. In a rear collision, front seats utilise rigid frames, firm headrests and such details as energy-absorbing mounting of the inner seat springs, all to help reduce the chance of whiplash.

Break Away Engine

Every Subaru goes above and beyond common practice when it comes to your safety. In the event of a head-on collision, your Legacy's SUBARU BOXER engine and gearbox are designed to absorb the impact and break away from the cabin for your protection.

* SRS: Supplemental Restraint System. Effective when used in conjunction with seatbelts.

Thoughtfully equipped inside and out.

Auto On/Off Headlamps

A light sensor turns on the headlamps automatically at dusk, and shuts them off when you remove the key from the ignition.

Front Fog Lamps

Multi-reflector fog lamps emit a wide, flat beam that reflects less glare in fog, for added safety.

Automatic Rain-sensing Windshield Wipers

Available automatic windshield wipers detect rainfall on the glass and adjust their wiping intervals and speed accordingly.

Heated Door Mirrors

The large side mirrors include power adjustment and folding, electric heating, and integrated LED turn signals.

Keyless Access with Push Button Start*1

Available Keyless Access with Push Button Start lets you unlock, start and drive your Legacy without taking a key from your pocket.

Dual-zone Air Conditioning

All models feature dual-zone automatic climate control with a digital display and one-touch defrost mode for the windshield.

Multi-information Display

Positioned atop the dash for easy viewing, a digital readout displays the outside temperature, current fuel consumption, average fuel consumption and a clock.

Electronic Parking Brake

Push button parking brake is easier to operate and takes up less space than a pedal or lever, and right in reach with its convenience center console location.

Power Glass Sunroof*1

The large, internally sliding sunroof with manual sunshade delivers a panoramic view and fresh breezes for front and rear passengers.

18-inch Aluminium-alloy Wheels

Legacy 2.0D Sport and 2.5i Sport models are equipped with multispoke 18-inch aluminium alloy wheels and 225/45R18 high-performance tyres.

17-inch Aluminium-alloy Wheels

Legacy 2.5i model feature elegant 17-inch wheels paired with tyres designed for secure grip and quick response.

4-way Steering Column

To help set your optimum driving position, the adjustable steering wheel tilts up-down and telescopes in-out.

Heated Front Seats*2

Available heated front seats offer two settings, for rapid heating or soothing warmth.

Illuminated Vanity Mirrors

Lighted and covered vanity mirrors are provided for both the driver and front passenger.

Power Driver's Seat*2

10-way power driver's seat includes power-adjustable lumbar support. On models with leather interior, 2-seat position memory function and a key linked memory function*1 included.

Rear-cabin Vents*3

Legacy models with leather interior includes adjustable rear-cabin air vents in the console between the front seats.

*1 Optional.

*2 Optional on 2.0D and 2.0i.

*3 Optional on 2.0i, 2.5i, and 2.5i Sport.

Accessories

Personalise your ride.

Whilst every Legacy comes generously equipped, Subaru accessories are the perfect way to tailor your Subaru to your life and your style. Whether you want to add convenience, enhance functionality, or personalise your Legacy's appearance, Subaru accessories are designed to provide the same fit and quality as your Subaru vehicle. For more details, ask for the accessory brochure or visit your nearest Subaru dealer.
