

2007 SUBARU
FORESTER

THINK

WHAT MAKES A SUBARU, A SUBARU?

It is a heritage of innovation and spirited performance. A dedication to keeping you safe, with the control to avoid an accident and the protection to survive one. A commitment to building smart and efficient vehicles that fit your life. In creating an intelligently sized SUV that is thoughtfully designed inside and out, we remain focused on these ideals. Because we never stop thinking of vehicles that go beyond your expectations.

AUXILIARY AUDIO JACK FOR MEDIA PLAYERS Keep your personal playlists handily accessible with the new auxiliary audio jack, which will accommodate your iPod® or virtually any portable media player. Just plug it in and your tunes will flow through the speakers.

HEATED SEATS A thoughtful interior welcomes you as soon as you step inside. Shivering on cold mornings while waiting for the cabin to warm up becomes a thing of the past with the available heated seats for the driver and front passenger. The dual setting lets you choose between warm and extra toasty.

SIRIUS™ SATELLITE RADIO Listen to rock, jazz, oldies—most any format you imagine—without loss of signal and in digital-quality sound, wherever your journey may take you. Most Foresters are prewired for satellite radio so that you can access the SIRIUS feed with available equipment and your paid subscription.

The Subaru FORESTER “Best Small SUV,” three years in a row.¹

Its intelligent size and remarkable versatility redefine what a sport utility vehicle can do. Its crash test scores are at the top of its class. Its balanced and powerful boxer engine, surefooted Subaru Symmetrical All-Wheel Drive and agile handling combine to take the SUV to new levels of control, drivability and safety. Little wonder the experts at *Car and Driver* continue to name it the “Best Small SUV.” It all provides the most valuable asset of all—peace of mind.

2.5 X

Motivated by a stout 173-horsepower engine and offering extraordinary flexibility with generous cargo capacity, the Forester 2.5 X is only modest in its price point.

2.5 X | Premium Package

Along with all the convenience of the 2.5 X, this optional package has many additional features like a panoramic moonroof, alloy wheels, automatic climate control and heated seats.

2.5 X | L.L.Bean® Edition

With unique leather-trimmed upholstery, wood and leather-wrapped steering wheel and a durable cargo-area lining, it's as stylish as it is versatile. And it comes standard with a 4-speed automatic transmission.

2.5 XT | Limited

The Forester flagship, with a 224 turbocharged horsepower engine, leather-trimmed upholstery and luxurious features such as a premium audio system and panoramic moonroof.

¹ *Car and Driver*, March 2006.

The wide sky. The road ahead.

FEEL

All the important people with you.

Open your mind to the possibilities.

Forester 2.5X L.L.Bean Edition shown with Desert Beige leather.

COMFORT The Forester brings new levels of control not just on the road, but also over your environment. Its spacious cabin, complete with utility, convenience and premium features, lets you govern your surroundings to your exact preferences. Choose upscale cloth upholstery or the luxury of leather, with unique Alcantara® accents on the L.L.Bean® Edition. Find your ideal driving position with the available 8-way power driver's seat and take the chill off with dual-stage seat heaters. Feel the beat from the available in-dash six-disc CD changer while passengers enjoy the roomy rear-seat comfort. Because every journey is enhanced when the family is content.

AUTOMATIC CLIMATE CONTROL Just set it and drive. It's easy to find the most comfortable environment for you and your passengers with available climate control, which automatically adjusts the heat or air conditioner to maintain your chosen temperature. The air filtration system keeps harmful particles out, and seven fan settings let you customize the airflow.

L.L.BEAN EDITION Like its namesake, ruggedness meets style. Inside the dual-toned exterior are seats trimmed in supple Desert Beige leather with perforated Alcantara on the seat bolsters, and L.L.Bean embossing. And a wood and leather-wrapped shifter handle and MOMO® brand steering wheel wait for your input.

PANORAMIC MOONROOF The wide-open sky, available at the touch of a button. Significantly larger than conventional sunroofs, the available panoramic moonroof lets the sunshine and fresh air in for both the front and rear passengers. Enjoy the outdoors without leaving your car.

VERSATILITY

Inside the intelligently proportioned exterior is an interior just as well thought out. The ample, flexible space helps you carry all the accoutrements of your busy life. Start with the spacious cargo area with low liftover height. Follow up with rear seats split 60/40 for greater versatility. A wide array of storage bins, pockets, tiedowns and hooks lets you organize and secure. And it comes with a roof rack that holds up to 150 lbs. Go ahead, bring everything you need.

68.6 cu. ft.

CARGO VOLUME The cargo area of the Forester offers a highly configurable space that lets you transport a myriad of differently sized objects. Put both rear seatbacks up to carry up to three passengers. The 60/40 split-folding rear seats allow for two passengers and a long article, or one passenger and gear for your entire team. Or fold both rear seatbacks for up to 68.6 cu. ft. of capacity.

Forester 2.5 XT Limited shown with Anthracite Black leather.

CARGO-AREA UNDER-FLOOR STORAGE Under the cargo-area floor, you'll find a compartmentalized tray that's perfect for organizing small items prone to sliding around. And they're kept out of sight, away from prying eyes.

MULTIFUNCTION CENTER CONSOLE Have access to the items you want close to you during the drive. Flip its lid, and rear-seat passengers get two extra cupholders. And the dual-tiered center console provides a 12V power outlet and a sliding armrest.

Forester 2.5X shown in Garnet Red Pearl with optional Premium Package and accessory roof-mounted crossbars with ski/snowboard attachment.

CONFIDENCE TO ARRIVE SAFELY.

At Subaru, we have a different take on safety. Because we believe our innovations like standard Subaru Symmetrical All-Wheel Drive and boxer engine not only give you traction and stability for active driving, but also active safety to help steer clear of an accident altogether. With advancements to protect you in an unavoidable collision, it's the kind of safety that lets you drive with confidence. **It's what makes a Subaru, a Subaru.**

The Best Rollover Rating among all SUVs!
★★★★★ for front and side impact collisions!¹

- National Highway Traffic Safety Administration

¹ Government star ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program. Visit safercar.gov for more information.

Every Subaru was designed to achieve the highest crash test scores in its class. But to help keep you from having to test it out yourself, we've engineered the Forester to provide control and agile handling characteristics. Then we equipped it with active safety features that help you to negotiate an

emergency situation. In the event of an impact, its numerous passive safety systems help to minimize the results of the encounter. It all combines to form a multidimensional approach to safety that results not only from selected features, but from every aspect of the vehicle.

Subaru Symmetrical All-Wheel Drive

There are only four parts of the car that touch the pavement—your tires. And you want to know that they’re adhering to the road, no matter what the path or the weather has in store. The unique Subaru Symmetrical All-Wheel Drive system delivers traction that you can depend on. Its ideal balance helps to ensure stability and poise. And its efficiency at transmitting power delivers greater grip and quick response to slippage. Providing you with better handling in slick conditions, and enhanced performance in any condition. It’s a system that puts you in control of your Forester, and possibly your well-being.

MORE PREDICTABLE TRACTION

IT’S WHAT MAKES A SUBARU, A SUBARU.

CONTINUOUS AWD Under normal conditions, power is split 50/50 between the front and rear wheels. Should wheel slippage occur, the viscous-center locking differential that is coupled with the 5-speed manual transmission automatically helps transfer power to the wheels with the most amount of traction.

ACTIVE AWD Paired with the available automatic transmission, the Active AWD system monitors parameters like wheel slippage and vehicle speed, adjusting power to the front or rear wheels with the most traction. This computer-controlled system anticipates and actually seeks to maintain optimal adhesion.

CONTROL The Subaru Symmetrical All-Wheel Drive system, with its fore, aft and lateral balance, results in neutral cornering and superior handling. Unlike two-wheel-drive vehicles, which may be more prone to understeer or oversteer, the full-time AWD automatically transfers power to all four wheels. This results in greater traction and cohesion for more predictable handling.

HANDLING Safety hasn't traditionally been synonymous with fun to drive. But the Forester proves that you can have the best of both. Every drivetrain component and every chassis part has been engineered to optimally blend control, performance and comfort. From the precise rack-and-pinion steering with its quick response to the 4-wheel disc brakes¹ and fully independent suspension, it's all geared toward providing driving pleasure with no compromise on the confidence-inspiring security that defines the Forester.

¹ Not available on base Forester 2.5X.

HEAVY-DUTY RAISED SUSPENSION Unlike most SUVs, the Forester provides nimble and agile handling thanks to its car-bred, SUV-optimized 4-wheel independent suspension. While making quick work out of irregularities in the road, it provides swift response to steering input. Yet its ground clearance of 8.1 inches (7.9 in. for 2.5 XT Limited) is comparable to many truck-based SUVs.

SELF-LEVELING REAR SUSPENSION Exclusive to the Forester 2.5X L.L.Bean® Edition, this system features self-adjusting rear struts that react to load weight to maintain optimum vehicle ride height. The result is consistent ground clearance and enhanced balance overall, even when you've filled its considerable space with gear. Or taken advantage of its 2,400-lb towing capacity.

Forester 2.5 XT Limited shown in Urban Gray Metallic.

Subaru Boxer Engine It's what makes a Subaru, a Subaru.

Press the accelerator to get outstanding power, along with a healthy dose of innovation. At the heart of the Forester is our legendary SUBARU BOXER engine, with pistons laid flat in horizontal opposition. Used in every Subaru, this design

lowers the center of gravity, promoting precise handling and enhanced stability, while increasing durability and reducing vibration. It's the force that gives you greater control, and greater safety.

LESS VIBRATION The 180-degree boxer engine layout allows the pistons to move in exact horizontal opposition, effectively negating the vibrations of the opposing pistons. Its smoothness not only sweetens power delivery, it helps increase longevity.

SUBARU BOXER ENGINE

INLINE ENGINE

V-TYPE ENGINE

GREATER STABILITY The SUBARU BOXER engine's lightweight, compact design lowers the vehicle center of gravity. Providing more stable handling characteristics to better keep the car along its intended path, especially when changing direction quickly.

PERFORMANCE Forester engines are rally-proven for remarkable reliability. Constructed of aluminum-alloy for reduced weight and time-tested durability. Enhanced with i-Active Valve Lift System in the 2.5X and Active Valve Control System in the 2.5 XT Limited for abundant horsepower and a broad torque curve. And Electronic Throttle Control (ETC) provides a more precise response to your right foot. With such exceptional engines to motivate the Forester, imagine how the Forester will motivate you.

2.5X The naturally aspirated four-cylinder engine makes 173 horsepower for spirited acceleration, while providing superior fuel economy of 22 city/29 highway mpg.¹

2.5 XT The functional hood scoop is the only external hint to the thrill that awaits you. Fortified by an intercooled turbo-charger that raises horsepower to 224 and torque to 226 lb-ft, the 2.5 XT Limited delivers proven acceleration that rivals or bests that of many sports cars. They'll never see it coming.

5-SPEED MANUAL TRANSMISSION For those who prefer to shift on their own. Fully synchronized to deliver smooth and precise shifts, our manual transmission also features a Hill Holder* system to help minimize rolling backwards on inclines.

4-SPEED AUTOMATIC TRANSMISSION Around town, this smooth-shifting unit maximizes fuel economy. For more spirited driving, the transmission adapts to your driving patterns for better drivability.

¹ With 5-speed manual transmission.

ACTIVE SAFETY Our multidimensional approach to keeping you safe only begins with the traction of Subaru Symmetrical AWD and balanced and responsive handling to keep you in control. These inherent advantages are supported by a comprehensive array of innovative and robust features to help protect you in an emergency. To help you avoid an impending accident, Forester is equipped with 4-wheel antilock brakes (ABS) which prevent lockup so you can retain steering control, and Electronic Brake-force Distribution (EBD) for more even and stable braking.

CONTROL Standard full-time AWD automatically adjusts power to all four wheels, helping to maintain greater traction, no matter what the road surface or the weather has in store, helping you to keep better control of your Forester.

ELECTRONIC BRAKE-FORCE DISTRIBUTION Working in conjunction with the ventilated front and 4-wheel antilock brakes, EBD offers more even and stable braking by optimally apportioning power front to rear in emergency or heavy braking situations.

PASSIVE SAFETY Subaru innovations not only help you avoid a collision. They help you and your passengers survive one, thanks to features like front seat belt pretensioners and load-limiters, crumple zones, side-impact beams and a Ring-Shaped Reinforcement Frame to help better absorb the impact of a crash. And a full array of air bags offers protection for the front and sides.¹ Since its introduction, the Forester has consistently received the highest crash-test scores in its class, in both federal governmental and Insurance Institute for Highway Safety (IIHS) testing.²

SIDE-IMPACT AIR BAGS Mounted in the front seats to help provide the best protection no matter what our ideal seat position is. Designed to help protect both your head and torso, they helped the Forester achieve the highest crash test safety scores in its class.

ACTIVE HEAD RESTRAINTS In the event of a rear-end collision, the active front-seat head restraints provide another layer of protection by automatically moving forward to cradle your head to help minimize the possibility of whiplash.

¹ Always wear seat belts. Children should be properly restrained in the rear seat. ² For more information, contact the Insurance Institute for Highway Safety or visit their website at www.iihs.org. Government star ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program. Visit Safercar.gov for more information.

Accessories

Outfit your Subaru to be as unique as your adventures. Backed by a 3-year/36,000-mile limited warranty,¹ Genuine Subaru Accessories give you the ability to take everything—and anything—you need.

Forester 2.5 XT Limited shown in Urban Gray Metallic.

HEAVY-DUTY ROOF CARGO BASKET Shown above with fork-mounted bike carrier and front-wheel holder (each sold separately). Accommodates up to 100 pounds. Vehicle also shown with splash guards and rear bumper cover.

TURBO BOOST GAUGE Illuminated turbo boost gauge mounts conveniently to side of steering column.

AUTO-DIMMING MIRROR WITH COMPASS When bright headlights from the rear are detected, the rearview mirror automatically darkens to reduce glare. Includes electronic compass. Also available with HomeLink.[®]

CARGO TRAY Help protect the carpeted floor from your muddy gear with this rugged tray that lines the cargo area.

AVAILABLE ACCESSORIES

Ownership Benefits

Enjoying your Subaru for years to come—that’s the promise of our comprehensive warranties and roadside assistance program. It’s a fact attested by the 96% of Subaru vehicles sold in the past 10 years that are still on the road today.¹ It’s the confidence you feel when you get behind the wheel.

NEW CAR LIMITED WARRANTY
3 years or 36,000 miles, whichever comes first.

POWERTRAIN LIMITED WARRANTY
5 years or 60,000 miles, whichever comes first.

WEAR ITEM LIMITED WARRANTY
3 years or 36,000 miles, whichever comes first.

RUST PERFORATION LIMITED WARRANTY
5 years, unlimited mileage.

THE SUBARU ROADSIDE ASSISTANCE PROGRAM covers all 2007 Subaru vehicles during the first 3 years or 36,000 miles, whichever comes first. By calling the toll-free number in the Owner’s Information Kit, Subaru owners can take advantage of any of the following benefits:

24-hour Roadside Assistance, seven days a week, 365 days a year, throughout the United States. Emergency Towing Service to the nearest authorized Subaru dealer.

Emergency Roadside Assistance for jump starts, gasoline (up to two gallons), flat tire change, emergency lockout service (lost key or key is locked in the vehicle) and emergency fluid replacement.

SUBARU ADDED SECURITY[®] could be the most important option you choose. Protect your investment with a Subaru Added Security extended service contract—the **only** one backed by Subaru of America, Inc. Ask your salesperson for coverage details and assistance in selecting the plan that’s best for you, up to 7 years or 100,000 miles.

SUBARU.COM begins your Subaru experience. Here, you can find extensive information, including specs, photos and reviews. Build your own Subaru, locate dealers and schedule a test drive. After your purchase, activate your free My.Subaru site, where Subaru owners can track their vehicle’s service history, schedule service appointments, receive special offers exclusive to My.Subaru members and much more.

¹ For complete warranty and program information, including coverage and exclusions, see your Subaru dealer.
¹ Based on R. L. Polk & Co. vehicle registration statistics for period ending 7/31/05.

¹ Accessories backed by 3-year/36,000-mile New Car Limited Warranty when installed at time of vehicle purchase. For complete details on warranty coverage and exclusions, see your Subaru dealer or log on to www.subaru.com.

SUBARU SYMMETRICAL ALL-WHEEL DRIVE

Continuous All-Wheel Drive	Models equipped with 5-speed manual transmission utilize a viscous-type locking center differential and limited-slip rear differential. ⁴ Torque distribution normally configured at a 50/50-split front-to-rear. If wheel speed differs between front and rear axles, the system helps distribute power to the wheels with the most traction.
Active All-Wheel Drive	Models equipped with 4-speed automatic transmission utilize an electronically controlled variable multiplate transfer clutch and viscous-type limited-slip rear differential ⁴ to distribute power to where traction is needed. Sensors monitor parameters such as wheel slippage, throttle position and braking to help determine torque distribution to the wheels with optimum traction.

CHASSIS

Steering	Engine-speed-sensing variable power-assisted rack-and-pinion. Turns lock-to-lock: 3.0. Turning circle: 34.8 ft. (2.5 XT Limited: 35.4 ft.).

● Standard ○ Optional – Not available

¹ Subaru has applied the new SAE method for measuring horsepower and torque. ² Some 2007 Forester 2.5X models with the naturally aspirated 2.5-liter engine distributed for sale in California (and in Maine, Massachusetts, New York and Vermont which have adopted California Specification Emission Control Systems and Warranties and are registered for use in those states) will be specially equipped to meet the California-certified Partial Zero Emission Vehicle (PZEV) credited Super Ultra Low Emission Vehicle (SULEV2) requirements. The manufacturer's PZEV emission control system warranty coverage is for 15 years or 150,000 miles, whichever comes first. For complete warranty information, including coverage and exclusions, see your Subaru dealer. ³ Regular unleaded gasoline with an octane rating of 87 AKI or greater may be used. Using regular unleaded gasoline could result in reduced engine performance. See Owner's Manual for more detailed information. ⁴ Limited-slip rear differential not available on base Forester 2.5X. ⁵ Optional as part of 2.5X Premium Package only. See optional equipment listing above. ⁶ Available as an accessory. Satellite radio hardware and required monthly subscription sold separately. See your dealer. ⁷ The Supplemental Restraint System (SRS) (air bags) affords the driver and the front passenger additional protection in moderate to severe frontal and side-impact collisions. This system provides supplemental protection only, and seat belts must be worn in order to avoid injuries to out-of-position occupants upon bag deployment and to provide the best combined protection in a serious accident. Children should always be properly restrained in the rear seat.
