SUBARU
ALL-WHEEL DRIVE

WRX

WRX
2.4 TURBO

WRX

THEY DON'T MAKE 'EM LIKE THIS ANYMORE

The Next Generation WRX is packing a larger capacity 2.4L Turbocharged Boxer engine which delivers 270 horsepower via the Variable Torque Distribution and control of Subaru All-Wheel Drive. With Subaru Performance Transmission and an 8-speed paddle shift you'll feel faster shifting and better downshift blipping control, or opt for the

6-speed manual transmission for ultimate control. Every WRX Premium features the new aggressively aerodynamic design, new driver and front passenger bucket seats, 18" alloys, and 11.6" infotainment centre. The tS model (tuned by STI) adds STI interior design features, electronic control dampers, and Drive Mode Select for a personalised driving experience.

WE STILL DO.

WHAT MAKES IT A SUBARU

On New Zealand roads we expect the unexpected. Whether that's unexpected road surfaces, conditions, or the odd wayward sheep, every Subaru comes fully-equipped to handle it.

SCAN TO DISCOVER WHAT'S UNIQUE ABOUT SUBARU

SYMMETRICAL ALL-WHEEL DRIVE

Given the roads Kiwi drivers have to contend with, our Symmetrical All-Wheel Drive system is an indispensable feature for getting around in NZ.

The way it works is simple – as soon as your Subaru senses a loss of traction in any of the four wheels, it instantly transfers that power to the other wheels that still have grip, giving them the extra oomph to get you out of trouble. It happens so seamlessly you probably won't even notice it, you'll just feel that famous Subaru handling.

Delivering confidence & control

Most cars only distribute power to two wheels, while Subaru's All-Wheel Drive system delivers targeted power to all four wheels simultaneously, giving you twice the grip capacity.

Standard on all NZ new Subarus

We believe in All-Wheel Drive so much that it comes standard in every new Subaru sold through our Authorised Subaru Centres. The way we see it, with NZ's diverse conditions, anything less is sub-standard.

Engineered for perfect balance

For nearly 50 years our engineers have been perfecting a platform that is symmetrical, creating an innate sense of balance, with a lower centre of gravity, for greater stability around corners and a smoother power delivery.

EYESIGHT® TECHNOLOGY*

Eyesight® is Subaru's award-winning system of cameras and clever computing that acts as your second pair of eyes. It provides a host of safety and driver convenience features. And comes standard in all automatic Subarus.

It uses three-dimensional images captured by cameras mounted at the top of the windscreen to monitor the road, and other road users ahead of you. It can do everything from recognising and preventing potentially dangerous situations to making heavy traffic a bit less tedious.

EyeSight Features:

- Pre-collision brake, brake assist and throttle management
- Adaptive cruise control
- Lead vehicle start alert
- Lane sway and lane departure warning
- Lane keep assist
- Autonomous emergency steering
- Lane centring function
- Speed sign recognition

*EyeSight technology not available on manual transmission WRX.

BOXER ENGINE

Every Subaru has another hidden advantage over ordinary cars: its distinctive 'flat' Boxer engine. Horizontally opposed pistons are balanced with the punching action of two boxers, hence the name, and allow for a lower profile engine. When combined with the AWD platform, every Subaru handles like a dream. And the Boxer engine benefits the driver in other ways too.

Lower centre of gravity. More control.

Designed to sit horizontally in the engine bay, the iconic Boxer gives you a low centre of gravity for better handling, balance, and a smoother drive.

More power. Less vibration.

The evenly balanced forces of the engine produce more torque with less vibration. And with less vibration, comes less noise, and greater cabin comfort.

Flatter engine layout. Higher level of safety.

Perhaps most importantly of all, if a severe frontal collision occurs, due to its low position, the engine will slide below the cabin – not into it.

2.4L TURBOCHARGED BOXER ENGINE

The next generation WRX features an all-new 2.4L Direct Injection Turbocharged Boxer engine for quicker, more powerful and responsive acceleration. The engine produces a massive 202kW of power at 5600rpm, as well as 350Nm of torque at 2000-5200rpm.

DRIVER MONITORING SYSTEM

The Driver Monitoring System adds further convenience and safety to every drive. Using a driver facing camera and facial recognition technology it knows who is driving and can look out for driver fatigue.

Driver personalisation – Your Subaru can recognise you (and four others) and adjust to your personal preferences, including: driver's seat position, preferred door mirror angle, Multi-Function Display settings, air conditioning settings, and other instrument cluster displays. (Even driver specific fuel efficiency stats for the competitive families.)

Wandering gaze warning – warns both passengers and the driver through a visual and audio alert if the driver continues to look away from the road ahead.

Driver drowsiness warning – can detect if the driver is dozing or getting drowsy and offer a warning. (Drowsiness is recognised by calculating the time ratio the driver's eyes are closed.)

DRIVE MODE SELECT

Available in the tS models, Drive Mode Select makes your WRX, yours. With a range of customisable aspects to the driving experience it gives you total control of your WRX and its drive characteristics. This new feature enables you to set up the steering feel, throttle responsiveness, electrically controlled dampers, and other key functions for a personalised driving experience.

CONNECTIVITY

With a spectacular 11.6" tablet like touch screen, the infotainment system comes complete with Apple CarPlay™ and Android Auto™ making device connectivity seamless. Satellite Navigation is also standard across the WRX range.

SUBARU VISION ASSIST

With driver warnings, extra camera angles, and clever features, Subaru Vision Assist gives you extra confidence whether it's changing lanes, or parking in a tight spot. It features:

- Blind spot monitor
- Lane change assist
- Rear cross traffic alert
- Adaptive driving beam
- Side view monitor
- Front view monitor
- Reverse automatic braking*

*Some features are only available on certain models.

5-STAR SAFETY

For us, safety isn't optional, and it shouldn't be for you either. That's why we've engineered every Subaru to achieve an ANCAP 5-star safety rating, the highest possible.

SMART KEY & REAR POWERED GATE

For ultimate convenience, every WRX comes with a Smart Key that enables Push Button Start and keyless entry. The WRX GT Premium and WRX GT tS models also feature a Rear Powered Tailgate that can be opened with the hands-free sensor. Simply place your arm next to the badge while holding the keys. Ideal for when your hands are full.

SUBARU INTELLIGENT DRIVE

SI-DRIVE regulates key engine functions which enables the driver to choose from three distinctive driving modes on selected models: **Intelligent (I)** Mode for everyday city driving and optimised fuel efficiency, or **Sport (S)** Mode for highway driving, enhanced acceleration and consistent power delivery. To take driving to the next level, shift to **Sport Sharp (S#)**.

SUBARU PERFORMANCE TRANSMISSION

Subaru's newly developed Sport Lineartronic gearbox, now with a variable torque distribution center differential, and sports shifting control, delivers 30% faster upshifts and 50% faster downshifts, utilizing adaptive shift control to perform rev-matching downshifts when braking. This adaptive shift control maintains the ideal ratio when cornering and helps aid faster exits on corners. New ratio revisions to the lower gears have improved acceleration, while the total ratio coverage has also been expanded. And it now offers automatic downshift blipping control and an 8-speed manual mode with advanced shift logic taking WRX to a whole new level.

ABOUT WRX

STEELBOOK

WRX

2.4T PREMIUM

STANDARD FEATURES INCLUDE:

- ✦ 2.4L Direct Injection Turbocharged Boxer Engine
- ✦ 202kW / 350Nm
- ✦ 6 Speed Manual or Subaru Performance Transmission
- ✦ Symmetrical All-Wheel Drive
- ✦ 11.6" Touch Screen
- ✦ Harman Kardon Speakers
- ✦ Apple CarPlay and Android Auto
- ✦ Front and Side View Monitors
- ✦ Satellite Navigation
- ✦ Blind Spot Monitoring
- ✦ Rear Cross Traffic Alert
- ✦ Lane Centring Assist
- ✦ Driver Monitoring System with Facial Recognition
- ✦ Ultrasuede and Synthetic Leather Trim
- ✦ Leather Steering Wheel and Gear Shift
- ✦ 10 Way Drivers Seat and 8 Way Passenger Seat
- ✦ Electric Sunroof
- ✦ 18" Alloy Dark Grey Wheels
- ✦ Fourth Generation EyeSight including Lane Centring Function, Speed Sign Recognition and Lane Departure Warning with Steering Vibration (auto only)
- ✦ Black Wheel Arch Mouldings
- ✦ Passenger Seat Cushion Airbag
- ✦ Rain Sensing Wipers and Dusk Sensing Headlights

WRX

2.4T tS

ADDS TO THE FEATURES OF WRX 2.4T PREMIUM:

- ✦ Drive Mode Select, Allowing Drivers to Customise Key Aspects of the Driving Experience
- ✦ Electronic Control Dampers
- ✦ Unique 18" Alloy Wheels
- ✦ STI Steering Wheel
- ✦ STI Badging on Instrument Cluster
- ✦ Exterior tS Badge
- ✦ Subaru Performance Transmission Only

WRX

GT PREMIUM

STANDARD FEATURES INCLUDE:

- 2.4L Direct Injection Turbocharged Boxer Engine
- 202kW / 350Nm
- Subaru Performance Transmission
- Symmetrical All-Wheel Drive
- 11.6" Touch Screen
- Apple CarPlay and Android Auto
- Front and Side View Monitors
- Satellite Navigation
- Blind Spot Monitoring
- Rear Cross Traffic Alert
- Lane Centring Assist
- Driver Monitoring System with Facial Recognition
- Leather Upholstery
- Leather Steering Wheel and Gear Shift
- 10 Way Drivers Seat and 8 Way Passenger Seat
- Electric Sunroof
- 18" Alloy Wheels
- Fourth Generation EyeSight including Lane Centring Function, Speed Sign Recognition and Lane Departure Warning with Steering Vibration (auto only)
- Passenger Seat Cushion Airbag
- Rain Sensing Wipers and Dusk Sensing Headlights
- Powered Rear Tailgate with Handsfree Badge Sensor

WRX

GT tS

ADDS TO THE FEATURES OF WRX GT PREMIUM:
