

SUBARU

# FORESTER |

## Welcome to a world of new possibilities.

Introducing the all-new Forester. Completely redesigned inside and out, Forester has reached new levels of comfort, safety, and versatility to support you through all your daily adventures—while encouraging you to go on new ones. With a tough, compact body that's easily manoeuvrable yet spacious and comfortable inside, Forester gives you the peace of mind from knowing everyone's fully enjoying their time.

## Ready for anything.

Face new challenges. Explore the great outdoors. Do all the things you always wanted to do. It's easy with the all-new Forester's new look that triggers your desire for adventure. With its sharp yet robust styling that exudes confidence and capability, Forester effortlessly handles all your outdoor adventures while keeping everyone happy, comfortable, and safe.

## Performance you can trust. Capability you can feel.

The all-new Forester gives you total driving confidence with its fun-to-drive nature, responsive handling, and outstanding ride comfort. Balanced and stable around turns even with its SUV weight, the Forester was carefully engineered to reduce fatigue on extended adventures for an enjoyable driving experience for all. And with Symmetrical All-Wheel Drive and the improved X-MODE standard on all models, you can reach your destination with comfort and peace of mind.

### X-MODE and Hill Descent Control

Confidently conquer any road and enjoy the all-new Forester's true driving potential with the new X-MODE dial switch. Select [SNOW/DIRT] mode for slippery surfaces covered with snow, dirt, or gravel, or [D.SNOW/MUD] mode for especially treacherous roads on which tyres can become stuck, such as deep snow, mud, or dry dirt.\*<sup>1</sup> Plus, Hill Descent Control helps maintain a controlled and constant speed even on slippery downhills, adding even more peace of mind to your drive.\*<sup>2</sup>

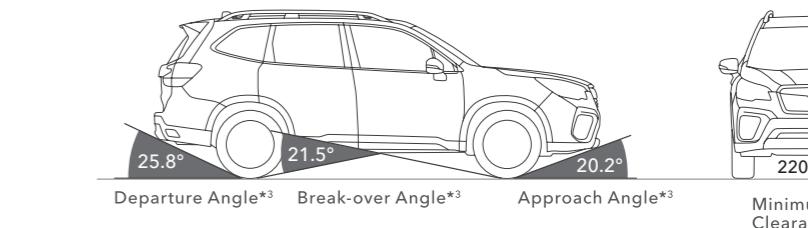

### SIDRIVE

Subaru Intelligent Drive (SIDRIVE) lets you drive how you want, where you want, in any scene. Select Intelligent Mode for balanced, smooth, and environmentally friendly performance, or Sport Mode for an immediate and energetic response for sporty and smooth driving at any speed.

### High Ground Clearance

The all-new Forester was designed for not only high SUV ground clearance, but also with careful consideration for approach, departure, and break-over angles. All have been optimised to help you conquer obstacles without sustaining damage or getting stuck.

\*1 2-mode X-MODE only available in premium grades.  
\*2 Driver is always responsible for safe and attentive driving. Effectiveness of Hill Descent Control depends on many factors such as vehicle maintenance, weather, tyres and road conditions.  
\*3 When equipped with 18-inch wheels.

\*1 2-mode X-MODE only available in premium grades.  
\*2 Driver is always responsible for safe and attentive driving. Effectiveness of Hill Descent Control depends on many factors such as vehicle maintenance, weather, tyres and road conditions.  
\*3 When equipped with 18-inch wheels.

## Plenty of space for all your memories.

An expanded cargo area, easier-to-use power rear gate\*, and cargo light are just some of the things that make the all-new Forester the most versatile and convenient yet. Supportive of even the most active lifestyle, Forester is ready to help you do all the things you love doing, and make each adventure more meaningful.

### Cargo Area

The wider opening and square design make it easier to organise, load, and unload even large objects without needing to tilt them. The back of the 60/40-split folding rear seats have been optimised for a flatter cargo floor, making it easier to store longer items with them folded down. Plus, the sides of the cargo area are made of easily wiped-clean, durable material which dirt and scratches are hardly noticeable, so you can fully enjoy your rugged outings with peace of mind.

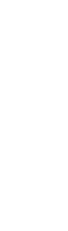

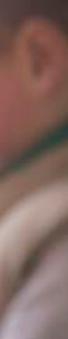

### Power Rear Gate\*

The power rear gate allows access to the cargo space with a single switch, even when your hands are full. The multi-lock switch lets you conveniently lock the rear gate and lock all doors at the same time.

### Cargo Features

The 1/2 power supply rear seat folding switch, and bag hook are consolidated in the same area for ease of use. The cargo net hooks are installed in the four corners of the cargo area for convenient luggage net use.

## Comfort for

The all-new Forester provides comfort to every passenger, in every seat. Its convenience begins even before you enter the vehicle, as the door openings have been specially designed to make getting in and out easy for everyone. Once inside you'll notice the expanded and spacious cabin, with conveniences such as the seatback pockets and rear ventilation system, while the quiet cabin reduces unwanted road noise and vibrations so everyone can share quality time together on the road.

Centre C

The centre console box compartment is large enough to store your electronic devices like small tablets. There's also a 12V power socket inside for your convenience.

**Convenient Seat**

Seat height, side sill placement, and pillar design allow smooth seat access for rear passengers.

S

The rear side sill steps are wider, flatter and have a slip-resistant surface for convenient roof rail use.

## Feel connected, wherever you go.

Designed with both advanced functionality and ease of use in mind, the all-new Forester provides you with the latest infotainment functions and intuitive controls. Combined with comfortable front seats that encourage a natural driving position, you'll feel right at home, no matter how far you go.

### Multifunction Display

The new 6.3-inch full-colour LCD multifunction display at the top of the instrument panel provides you and your passengers with useful information in an easy-to-understand view.

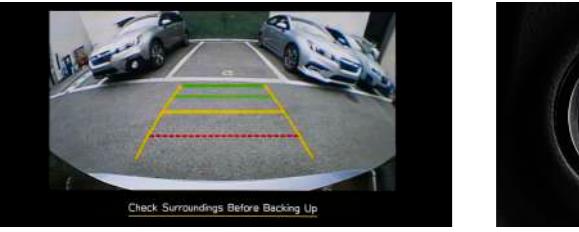

### Meter Display

The 4.2-inch full-colour LCD meter display helps you understand useful driving information with a quick glance so you can keep your eyes on the road.

### Side View Monitor\*

The Side View Monitor projects images on the multifunction display from a camera mounted on the bottom of the passenger side door mirror—a blind spot in many driving situations—for added safety and convenience when manoeuvring around close objects.

### Rear View Camera

When you shift into Reverse, the camera displays a live colour image on the head unit display along with guidelines to making parking easy. Plus, a rear view camera washer washes dirt off the lens to ensure a clear view.

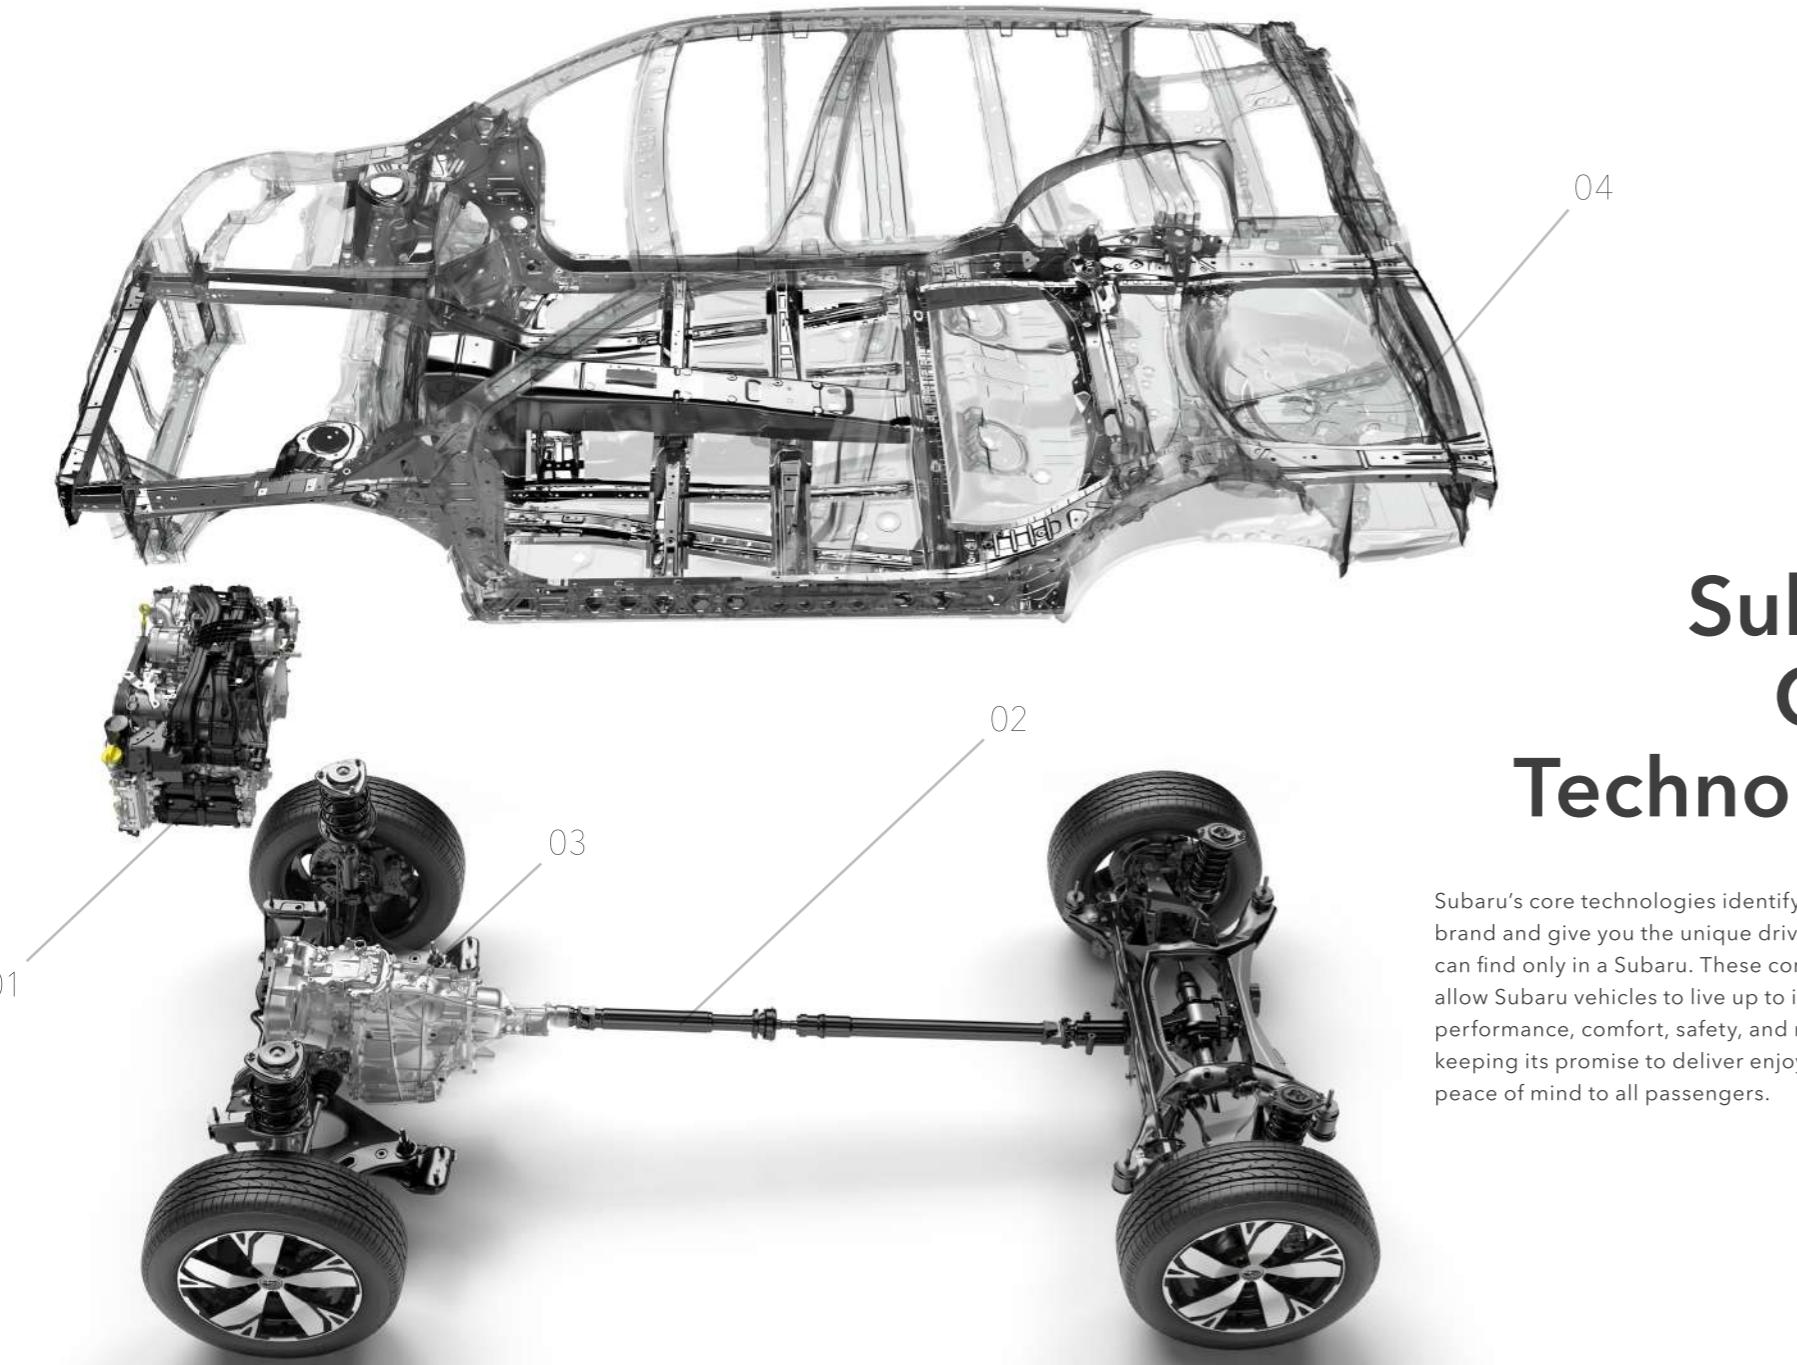

### Keyless Access and Push-button Start System

Your key fob gives you easy keyless access into your vehicle and allows you to start the engine with a simple push of the start button.

\* Only on i-S ES.

Driver is always responsible for safe and attentive driving. Please refrain from operating the touchscreen while driving.

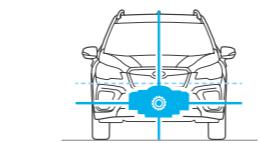

# Subaru Core Technology

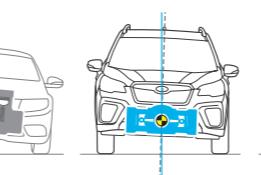

Subaru's core technologies identify the Subaru brand and give you the unique driving feel you can find only in a Subaru. These core systems allow Subaru vehicles to live up to its standards in performance, comfort, safety, and reliability while keeping its promise to deliver enjoyment and peace of mind to all passengers.

## 01 **SUBARU BOXER Engine**

A boxer engine, or a horizontally opposed engine, is an engine configuration in which its pistons move toward each other in a horizontal direction. Subaru has been committed to the SUBARU BOXER engine for over 50 years for its many advantages over other engine types, providing durability and reliable performance in its vehicles.

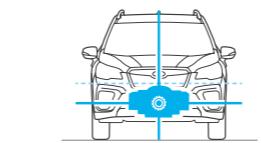

**Increased Stability**  
The low centre of gravity and flat design give it better side-to-side stability than other engine types.

**Naturally Balanced**  
The engine's flat design is inherently rigid and self-balancing, generating less vibration than other engine types.

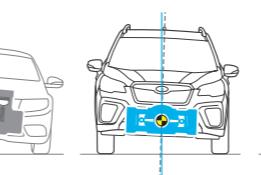

## 02 **Symmetrical All-Wheel Drive (AWD)**

Subaru's Symmetrical AWD distributes power to all wheels for better traction on wet and slippery roads. Laid out in a horizontally symmetrical plane, this system has a well-balanced low centre of gravity design for a more stable and safer ride.

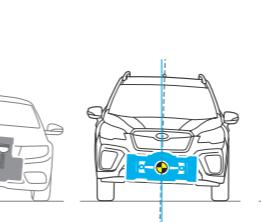

## 03 **Lineartronic + Active Torque Split AWD**

Lineartronic adjusts to any ratio in its range for smooth and stepless gear changes that keep the engine in its most efficient range for efficient and smooth acceleration, driving performance and better fuel efficiency. It comes paired with Subaru's active torque split AWD system. Its default torque is well-balanced front to rear and adjusts in response to real-time traction conditions.

**More Fun to Drive**  
More responsive handling allows you to steer the car just as intended for better hazard avoidance. Even with its high ground clearance, the all-new Forester securely hugs the road around turns, resulting in a car that's safer and more fun to drive, even on long trips.

**Ride Comfort**  
Improvements in chassis rigidity, suspension, and stabilisers efficiently absorb shocks from the road and hide uneven surfaces, allowing more comfort and less fatigue on long rides.

**Comfortable Cabin Space**  
Unpleasant vibrations and noise have been reduced to ensure all passengers enjoy the ride. Suspension improvements and a highly rigid chassis allow for a comfortable cabin in front of all.

## 04 **Subaru Global Platform**

The Subaru Global Platform (SGP) is the underlying platform that will underpin the next generation of Subaru vehicles. Enhancing all-round safety and performance, it goes beyond better performance to offer a driving feel you can only find in a Subaru. It's the future of Subaru and delivers even more enjoyment and peace of mind to all drivers and passengers.

### More Fun to Drive

More responsive handling allows you to steer the car just as intended for better hazard avoidance. Even with its high ground clearance, the all-new Forester securely hugs the road around turns, resulting in a car that's safer and more fun to drive, even on long trips.

### Ride Comfort

Improvements in chassis rigidity, suspension, and stabilisers efficiently absorb shocks from the road and hide uneven surfaces, allowing more comfort and less fatigue on long rides.

### Comfortable Cabin Space

Unpleasant vibrations and noise have been reduced to ensure all passengers enjoy the ride. Suspension improvements and a highly rigid chassis allow for a comfortable cabin in front of all.

# Subaru All-Around Safety

When your car gives you peace of mind, life becomes more enjoyable. That's why at Subaru, safety comes first. Originally rooted in aircraft manufacturing, Subaru continues its 'people first' policy by fine-tuning, testing, and retesting its advanced safety features, developed over 50 years. With the latest in collision protection/avoidance systems and unique technologies like Subaru Global Platform and Symmetrical All-Wheel Drive, Subaru continuously strives to improve All-Around Safety to envision an accident-free future.

## PRIMARY

Primary Safety begins at the underlying design stage. Outstanding visibility, optimal driving position, and intuitive controls help keep you safe from the moment you enter your vehicle.

## PREVENTIVE

With advanced safety technologies such as EyeSight<sup>®1</sup>, Preventive Safety helps avoid collisions before they happen.

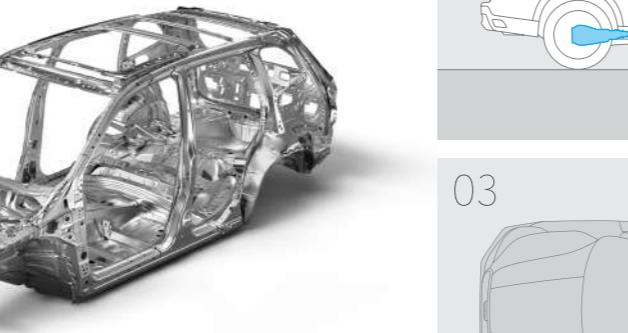

## ACTIVE

Thanks to technologies like Symmetrical All-Wheel Drive and SGP, Active Safety allows precise control of your vehicle by fine-tuning the basic elements of driving—driving, turning, braking—so you can enjoy each drive with peace of mind.

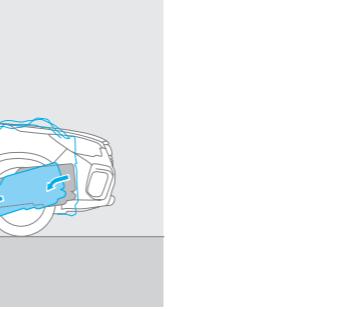

## PASSIVE

Passive Safety is designed to keep you safe in the event of a collision, with features such as the cabin-protecting engine layout and SRS<sup>®2</sup> airbags.

05

**05 PREVENTIVE**  
**Subaru Rear Vehicle Detection (RVD)<sup>®3</sup><sup>4</sup>**  
Sensors placed in the rear corners of the vehicle alert you of vehicles in your blind spots for safer lane changes. RVD also warns you of potential collision danger while driving in reverse into a street with cross traffic.

<sup>®1</sup>EyeSight is a driving support system which may not operate optimally under all driving conditions. The driver is always responsible for safe and attentive driving and is always in charge of traffic regulations. System effectiveness depends on many factors such as vehicle maintenance, weather, and road conditions. See Owner's Manual for complete details on system operation and limitations for EyeSight, including function in this brochure.

<sup>®2</sup>Effective when used in conjunction with seatbelts.

<sup>®3</sup>The driver is always responsible for safe and attentive driving and is always in charge of traffic regulations. Please do not depend solely on the Advanced Safety Package features for safe driving. These are limitations to the features of this system. See Owner's Manual for complete details on system operation and limitations. Please ask your retailer for more details.

<sup>®4</sup>Only on i-S<sup>®</sup>E.

<sup>®5</sup>Only on i-S<sup>®</sup> and i-S<sup>®</sup>E.

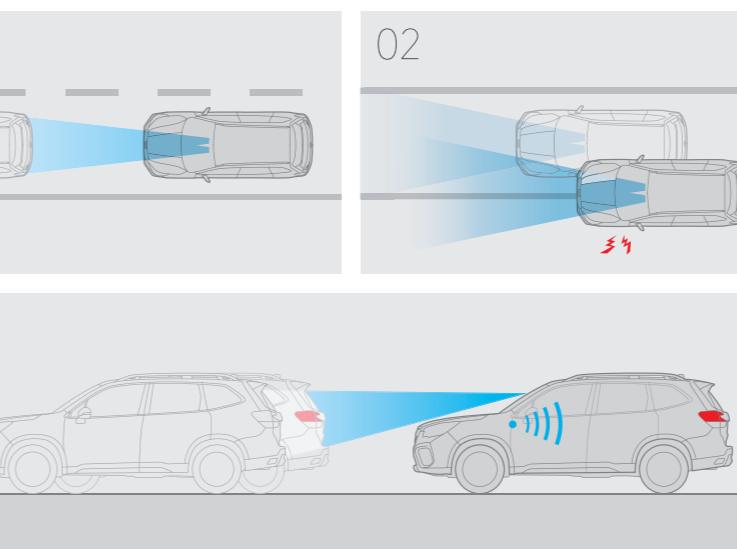

## Subaru EyeSight Driver Assist Technology

EyeSight<sup>\*1</sup>, Subaru's cutting-edge driving support system, works like a second pair of eyes for the road ahead, using a pair of stereo cameras to capture colour images with excellent image recognition—nearly as capable as the human eye. When spotting potential danger, such as

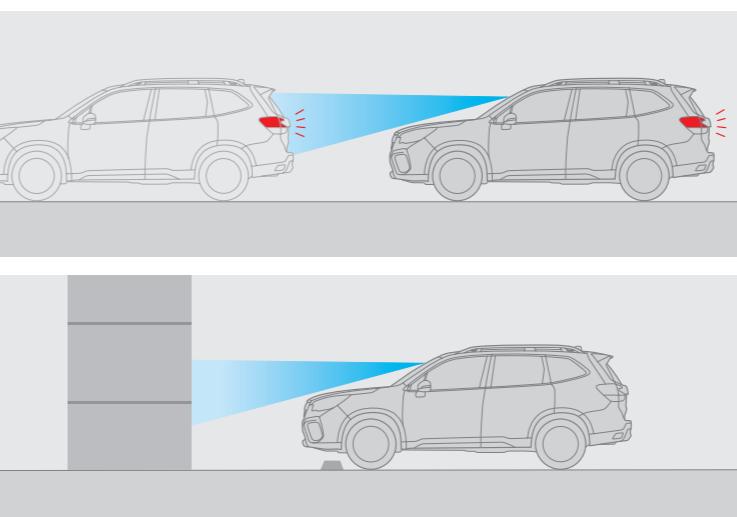

vehicles, motorbikes, bicycles, and pedestrians<sup>\*2</sup>, it warns the driver and applies the brakes when necessary, enabling even more confident driving and peace of mind.

### Driver Assist

### Accident Prevention

For illustration purposes only. Not actual measurements.

#### 01 Adaptive Cruise Control

When it senses a vehicle in front, Adaptive Cruise Control maintains a set distance from the vehicle ahead by continuously monitoring the distance and speed difference and adjusting the engine, transmission, and brakes to keep your speed in line with traffic flow from about 0 km/h to 180 km/h. Designed for use on freeways, highways, and similar roads, it can detect a lead vehicle and its brake lamps to keep pace in stop-and-go highway traffic, reducing fatigue on long drives.

#### 03 Lead Vehicle Start Alert

When you're at a stop and traffic starts moving again, Lead Vehicle Start Alert prompts you to take action with a buzzer and a flashing indicator.

#### 02 Lane Sway and Departure Warning

At speeds of about 60 km/h or more, Lane Sway Warning helps you stay alert with a buzzer and flashing indicator if it detects lane drift or sway. At speeds of about 50 km/h or more, Lane Departure Warning sends you a buzzer and a red flashing indicator when it detects lane departure without signaling.

#### 05 Pre-Collision Throttle Management

When there is an object in front and you're the lead in the lane instead of the reverse, Pre-Collision Throttle Management can alert you with a buzzer and a flashing indicator, and cut engine power to minimize possible impact of a lead frontal impact.

\*1 EyeSight is a driving support system which may not operate optimally under all driving conditions. The driver is always responsible for safe and attentive driving and observance of traffic regulations. System effectiveness depends on many factors such as visibility, maintenance, weather, and road conditions. See Owner's Manual for complete details on system operation and limitations for EyeSight including functions in this brochure.

\*2 Pre-Collision Braking System may not work in all situations. Depending on the speed difference from an object, the object's height, and other conditions, every situation may not meet the necessary conditions for EyeSight to work optimally.

## LINEUP

### FORESTER 2.0i-S EyeSight / 2.0i-S

DIMENSIONS..... L x W x H: 4625 x 1815 x 1730 mm  
ENGINE..... Horizontally opposed, 4-cylinder, 4-stroke, DOHC  
16-valve, petrol  
CAPACITY..... 1995 cc  
MAX OUTPUT..... 115 kW (156 PS) / 6,000 rpm

## FEATURES

### 01 LED Headlamps with Auto-leveliser\*

These auto-leveling bifunctional LED headlamps combine low and high beams and are steering-responsive\*, ensuring good visibility around turns at night.

### 02 18-inch Aluminium-alloy Wheels\*

The robustly styled multi-spoke 18-inch aluminium-alloy wheels are paired with 225/55R18 tyres.

### 03 LED Front Fog Lamps\*

These stylish and sporty LED fog lamps have a large light coverage area, improving visibility at night or in poor weather.

### 04 LED Rear Combination Lamps

The rear combination lamps give the all-new Forester that distinct Subaru look with C-shaped lamps that represent its functionality.

### 05 Roof Rails

Conveniently access the roof rails with the rear side sill steps. Loopholes\* are available so ropes can be tied down securely so you can carry any object with peace of mind.

### 06 Dual Air-conditioning System

The passenger-synced air-conditioning system efficiently provides a pleasant indoor cabin atmosphere to every occupied seat. Choose from four operation modes to adjust to anyone's temperature preference. For further convenience, you can also select your mode via the 6.3-inch Multifunction Display.

### 07 USB Power Outlets (Front and Rear)

USB charging ports are available for both front and rear seat passengers, increasing convenience for everyone.

### 08 Divided Seatback Pockets

Conveniently keep your magazines, smartphones, and tablets organised with the divided seatback pockets.

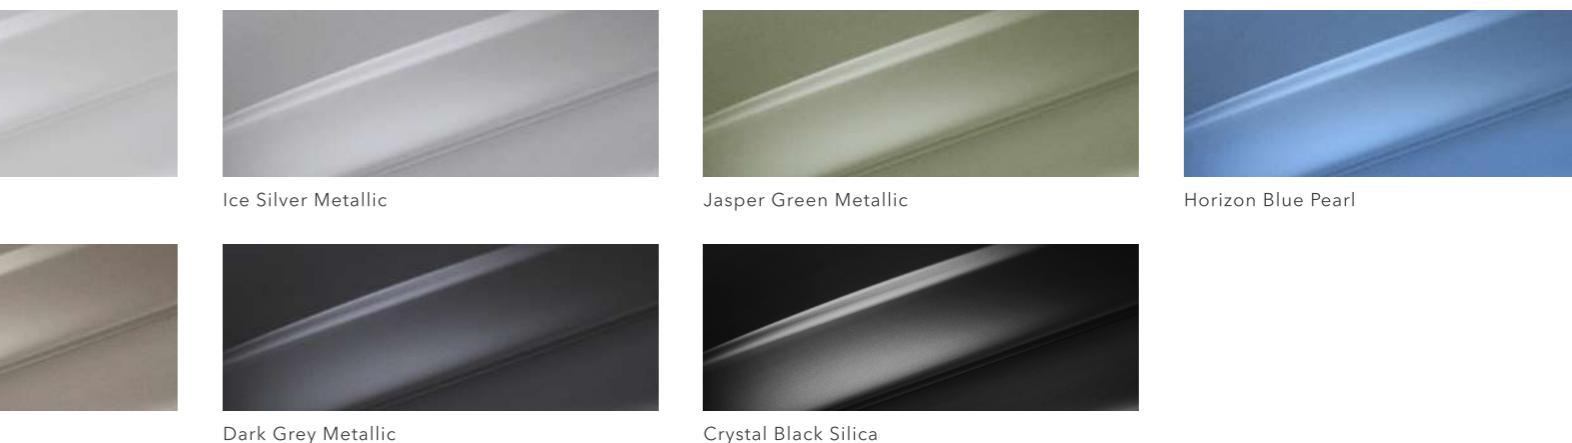

### 09 Electronic Parking Brake (EPB)

Use your vehicle's parking brake with a push of a button. EPB also deactivates when you step on the gas for your convenience.

### 10 Rear Ventilation System

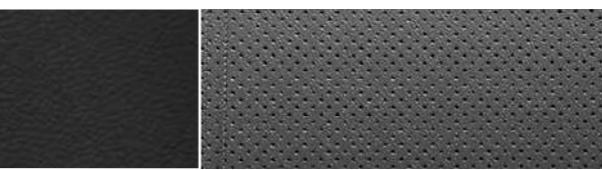

Vent grilles have been installed behind the centre console box so rear passengers can travel in comfort.
