

HEAT UP!

THE NEW
XV GT
EDITION

THE NEW XV GT EDITION

Fire up the streets with the bold and tough XV GT Edition. Built with sleek accessories designed by the renowned Masahiko Kobayashi, former Chief Designer (Head of Global Advanced Design Studio) at Subaru Corporation, with over 25 years of experience. He is the man behind the Levorg, WRX, WRX STI, first-generation XV and more. This XV GT Edition has new, sleek and sporty enhancements plus special leather seats inspired by high-performance European grand tourers. Feel the heat with the XV GT Edition now.

01 Front Bumper Lip Extension

Added for a sleeker look.

02 Rear Bumper Lip Extension

Offers added protection to the bumper area while giving it a rugged accent.

03 Side Skirts

Lending a more robust feel.

04 Bespoke Alloy Wheels

Exclusively manufactured to complete the bold look of the XV GT Edition.

05 Roof Spoiler

Improves aerodynamics and handling due to more effective downforce.

06 Superview Around Recognition Three-sixty System

Makes manoeuvring and parking in tight spaces easier with the four cameras, strategically positioned for a clearer view.

07 Special Leather Seat Upholstery

Inspired by the cabins of high-performance grand tourers from Europe.

BOLD SAFETY

Symmetrical All-Wheel Drive

Designed to distribute power to all wheels for better steering response. It offers surefooted stability even at high speeds or in bad weather, plus balance and traction on wet roads too.

Subaru Global Platform

Taking superior driving capabilities to a new level, the Subaru Global Platform delivers improved manoeuvrability, reduced vibration and noise, plus the confidence to navigate all roads.

Direct Fuel Injection Boxer Engine

In addition to the lower centre of gravity, the 2.0-litre horizontally-opposed engine now comes equipped with Direct Injection to boost fuel economy, engine output and performance.

All-Around Safety

The increased use of high-tensile steel provides a stronger frame that improves impact energy absorption by 40%. A total of 7 SRS airbags – front, front-side, curtain, and knee – offer a higher level of protection.

BOLD FEATURES

X-MODE

The newly evolved X-MODE lets you tackle surfaces covered with snow, dirt or gravel with [SNOW/DIRT] mode or [D.SNOW/MUD] mode for deep snow, mud or dry dirt. It utilises the high torque and quick response of the drive motor for improved ability to avoid getting stuck, further enhancing driving performance and sense of security. Its Hill Descent Control also offers a controlled and constant speed even on downhills.

LED Headlamps with Auto-leveliser

These auto-levelling bifunctional LED headlamps combine low and high beams and are steering-responsive, ensuring good visibility around turns at night.

Spacious Boot

In addition to being more spacious, the luggage compartment also has a wider, almost square opening, allowing greater ease when loading and unloading bulky luggage and other items.
