# A world of complete freedom

How do we begin to describe the many virtues of the SJ413 Samurai range?

**PRACTICAL?** Certainly. The SJ413 range has a model to suit all requirements. Whether for business or pleasure, for off-road or town and country, you can be sure there's a model for you.

**RUGGED?** Positively. With a tough chassis design and heavy duty suspension that can handle a payload of up to 240kg, the SJ413 range has been designed to take the rough with the smooth, on many types of surface.

**RELIABLE?** Definitely. Powered by a well proven 4-cylinder 1.3 litre engine that delivers 63bhp at 6,000rpm, the range offers an impressive balance of power and reliability - in style.

**MULTI-PURPOSE?** Undeniably. A 5-speed manual transmission is coupled with a 2-speed transfer box, giving 10 forward gears and allowing for easy switching to 4-wheel drive on difficult terrain or during adverse weather conditions such as snow. In 4-wheel drive mode you can select between high ratio

for fairly demanding ground, and low ratio over exceedingly tough terrain.

**ECONOMICAL?** Absolutely. The 1.3 litre engine, coupled with the 5-speed manual gearbox, gives the right balance between performance and economy. It can also run on unleaded fuel without the need for modification.

**STYLISH?** Undoubtedly. From the uncompromising exterior to the spacious interior, every model combines user practicality with individual style and character. Good visibility, fully supportive

seats and an ergonomically designed instrument panel are the key to user practicality.

**FLEXIBLE?** Unquestionably. With a complete range of models that offers everything from a soft top to a hard top, passenger to utility, AND a long wheel base version, the SJ413 Samurai has a selection to suit a wide variety of individual tastes.

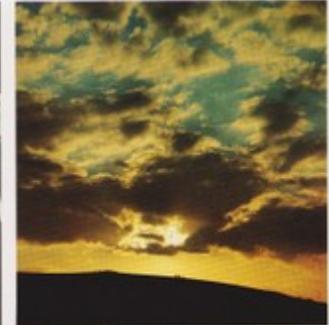

**TOTAL MOBILITY?** No problem. The SJ413 range offers a world of complete freedom.

# More space. More comfort

More space. More comfort. More convenience. Add to that, the comprehensive virtues of the SJ413 range, and you'll soon see why the SJ413 Samurai Long Wheel Base (LWB) Hard Top offers excellent value for money. Introduced for 1990, the LWB has an extended wheel base reaching 2.37 metres, giving an overall length in excess of 4 metres. As a result, an impressive luggage capacity of 35 cu.ft. is available with the rear seats in position, and as much as 50 cu.ft. with the 50/50 split rear seats folded forward, offering the practical and convenient benefits of a

generous luggage area.

Stylish looks are standard too. Features such as the side body stripes, wheel centre caps and colour keyed grille panel which are incorporated on all passenger models, are complemented by a sturdy white resin hard top body protection mouldings, flared wheel arches and rear mud flaps, giving excellent protection and providing the LWB with an extra touch of individuality and character.

Driven by the same impressive 4-cylinder 1.3 litre engine incorporated on all SJ413 models, this power unit produces 63 bhp at 6000 rpm and maximum torque of

73.7 lb.ft at 3500 rpm, giving a good balance between economy and all round driveability. With the engine designed to run on unleaded fuel without modification, the 5-speed gearbox further enhances fuel economy, while the flexibility of four-wheel drive is available through the 2-speed transfer box.

You'll find the spacious interior comfortable and sensibly designed for both driver and passenger. In the front, convenient features like the parcel tray and lockable glove box are easily to hand, and the high back reclining seats with head restraints and cloth trim provide an

agreeable level of comfort. A comprehensive instrument panel incorporates a digital clock and tachometer, as well as oil pressure and 4WD indicators.

All in all, the SJ413 Samurai LWB Hard Top is an excellent complement to the Samurai model range, with its innovative design and standard features providing exceptional value and competitive all round performance.

# Versatile performer

No matter where, no matter when, you'll find the SJ413 Samurai passenger models offer you superb economy, plenty of power, well proven reliability and an abundance of style. Take one to work and experience the all round driveability of the 1.3 litre lightweight aluminium engine with its excellent power-to-weight ratio, and the practicality of its design and features providing comfortable motoring

whether in the city or on the open road. Or take a relaxing weekend drive in the country. Explore the mountains, take to the hills, seek out an historic village with a rough cobbled street. Map out your route and let the Samurai take you on a voyage of discovery. On-road or off-road, the passenger models will take you to pastures new, showing their versatile four-wheel drive along the way.

Whatever your choice - practical estate or stylish soft top - there's a model to suit your purpose and taste. And all models can accommodate four adults in style on the fully supporting seats with comfortable cloth trims. With a 40 litre fuel tank, there's plenty of fuel on hand for that long range country drive. The soft top option gives you the extra excitement of open air driving. With a

tough, high quality deluxe hood and full carpeting throughout, you also get an extra touch of luxury.

So if you're looking for a stylish and practical method of transport that's perfectly suited to the different demands of urban and rural environments, then the SJ413 Samurai passenger range offers a great choice.

# Smooth operator

Sound commercial vehicles that make sound business sense. That's the SJ413 Samurai commercial range. Whether you're a farmer climbing over steep hills to keep an eye on your sheep, or a surveyor charting the remote regions of Britain, these purpose-built commercial vehicles offer you solid all round driveability with the flexibility of four-wheel drive.

Robust and durable, you'll find each

model makes an excellent working partner with plenty of loading area in the back for all types of equipment, and a heavy duty suspension that can handle a payload of 240kg. And they're extremely manoeuvrable, giving accessibility to the more remote farms and forests of Britain. At the same time they're equally at home operating in city streets, commuting from town to town, in style, on errands, with purposeful practicality.

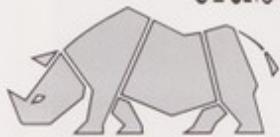

The strong 3-door van featuring an all-metal body will give you a secure interior and excellent protection from the elements. And for extra style, you'll find the soft top with its tough, high quality hood is also available with a deluxe option featuring full vinyl rear trim panels, practical rear mats, wheel centre badges and stylish side stripes. With selectable four-wheel drive, a lightweight 1.3 litre engine for spirited

performance and a 5-speed manual transmission for good fuel economy, the commercial models offer on and off-road reliability and combine superb economy with rugged performance.

Flexible and dependable, with 4WD when you need it, the SJ413 commercial range offers the perfect business proposition for any commercial operation.

# Rhino club

If you're a 4x4 enthusiast, then the Suzuki Rhino Club is just right for you! With free membership for Suzuki 4x4 owners everywhere, the Rhino Club provides all the latest news, views and information about the Suzuki 4x4 scene. And once you become a member, you can let everyone know with a wide range of personalised accessories and merchandise available including wax jackets, T-shirts, Rhino Club wheel covers and Rhino Club mugs.

There's also a special magazine for club

members. "Rhino News" is distributed on a quarterly basis, keeping members up to date on the many activities arranged by the club throughout the year. "Rhino News" gives readers the opportunity to let other members know what they've been getting up to in their Suzuki's, whether it's driving across the Sahara desert, cruising down to Spain or tackling a difficult pass in Scotland. Events such as the annual Rhino Rally for the club members are also arranged. Offering a great family day out, there is a

variety of entertainment, including the chance to drive your Suzuki round a tough, specially designed four-wheel drive course. For those a little less adventurous, a beginners course provides the ideal opportunity to experience off-road driving with a Suzuki in a safe and controlled environment. "Rhino News" provides the latest update on the "Save Our Rhinos" campaign. Up and down the country from Marwell to Woburn, Paignton to Edinburgh, Suzuki Rhino Roadshows have been raising vital

funds for the preservation of this threatened species. Through the Suzuki Rhino Club, all members have the chance to help save this magnificent animal from total extinction. Whether it's off-road events, fund raising, or fun weekends, the Rhino Club provides the perfect opportunity for you to meet up with other Suzuki 4x4 drivers, share experiences, enjoy the thrill of 4x4 driving and generally have a great time!

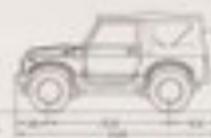

**RESPECT YOUR COUNTRY'S LAW** Section 11.11 gives you the opportunity to apply off-road driving, but it is important to recognize that the country has rights too. So, always be environmentally aware and consider both the wildlife and other country users. Remember, when you drive on unconsolidated tracks (green lines) the same laws apply as for surfaced. Don't forget that all lanes are not green lanes. And never drive off-road without obtaining permission.

If you do want to experience off-road driving, it is worthwhile contacting the Land Access & Rights Association, the 4x4 Wheel Drive Club or the IWC Motor Sports Association. For further information, the *Senate Care booklet '4x4 Multi-Purpose Vehicle Safe Driving Techniques'* can be obtained from Senate Care or your local financial adviser. Remember that driving off-road can be dangerous, so contact it as soon as possible.
