

# VITARA

Way of Life!

# STRONGER. BOLDER. STYLED FOR ALL ADVENTURES

Get ready for an appearance beaming with strength and energy. With Vitara's bold styling, stealing the spotlight wherever you go. Charge your drive with a vigorous outer impression – and elevate your senses with the inner refinement of a full-grown SUV.

## 1.6-litre petrol engine

With torque performance through all gears from low to high, this engine produces powerful driving on city roads as well as winding lanes. Furthermore, the reduced friction and weight in the engine and associated parts ensure outstanding fuel economy.

## 6-speed automatic transmission

(For 1.6-litre petrol engine)  
With enlarged gear ratio widths for all gears, the 6-speed automatic transmission offers excellent acceleration, even from standing starts and enhances fuel economy in high-speed cruising. An integrated cooler heightens automatic transmission fluid cooling performance, further contributing to enhanced fuel efficiency.

**Paddle shift** (For 6-speed automatic transmission)  
Gear changes can be made quickly and easily using the paddle shifts installed behind the steering wheel, making driving enjoyable and sporty like with a manual transmission.

## ALLGRIP SELECT

## ALLGRIP system

"A vehicle that can take on rough roads and go places that cars couldn't go in the past." With this philosophy, our first four-wheel drive model was developed in 1970. This was the start of ALLGRIP, Suzuki's renowned four-wheel drive technology. Our 4WD technology has been refined to provide drivers with even more excitement, pleasure and reassurance. With ALLGRIP in your Vitara, you can expand your range of activities and enhance your diverse lifestyles.

## Four driver-selectable modes

Choose your driving mode from the 4WD driving modes (auto, sport, snow and lock), using a simple push-and-turn dial on the centre console. The multi-information colour display in the centre of the meter cluster informs you about the current ALLGRIP drive mode in operation.

## Hill descent control

When the vehicle is travelling down a steep downward slope and engine braking is not sufficient to slow the vehicle, hill descent control applies the brakes and keeps the vehicle at certain low speeds. This allows the driver to concentrate on steering.

## Auto Mode

Prioritises fuel economy in typical driving conditions and switches to 4WD when detecting slippage.

## Sport Mode

Improves cornering performance by allocating more torque to the rear wheels. For a better engine response, it optimises the accelerator/torque characteristics.

## Snow mode

Optimal for snowy, unpaved and other slippery surfaces as it enhances traction during acceleration and promotes stability.

## Lock Mode

For extricating the vehicle from snow, mud, or sand, the system apportions more torque to the rear wheels. The ESP®\* and other control technologies are optimised to get the car free. Lock mode automatically switches to Snow mode at speeds over 60 km/h.

\*ESP® is a registered trademark of Daimler AG.

## SUPERIOR INTERIOR

Feel right at home in the refined interior. Advanced feature and quality craftsmanship deliver comfort and driving satisfaction, on and off the road.

**New soft pad instrument panel**  
Internal soft pad on the upper instrument panel ensures a premium feel to the cabin space.

**New geometric pattern seats**  
Stylish suede designed front and rear seats ensure maximum support and comfort for both driver and passengers.

**New clock design**  
Embedded into the dashboard, the clock adds a modern and sophisticated touch to the driver's space.

### Premium feel cabin space\*

Getting into the Vitara is like entering a refined world full of high-quality materials. Offering a space where you find every button, switch and dial in its natural place. Enjoy an interior that you are never quite ready to leave.

### Panoramic sunroof (GLX)

The panoramic sunroof consists of two glass panels (one in front of the other), both of which can be slid. The two glass panels are slid overlappingly so as not to affect the cabin or carrier space.

### New 4.2" multi-information colour LCD display

An advanced multi-information 4.2-inch colour LCD display occupies the centre of the meter cluster to inform the driver with accurate and reliable data on vehicle behaviour and operation. The dynamic display visually illustrates a wide range of features such as ALLGRIP drive modes, G-force, engine output and torque, and accelerator and brake use, among others. With a wide variety of options to choose from, your ride is never going to be short of fun again.

## STATE-OF-THE-ART CONNECTIVITY

### 10.1" infotainment system with smartphone connectivity

A 10.1-inch touchscreen display enables intuitive operation of multimedia features including audio, hands-free phone, navigation system and smartphone integration. Features can be selected from the four main operating modes—Listen, Call, Drive and Connect. The Smartphone Linkage Display Audio works with Apple CarPlay, Android Auto™ and MirrorLink™.\* By connecting your compatible iPhone via USB, Apple CarPlay allows you to make phone calls, access your music, send and receive messages, and get directions all by voice command or a tap on the audio display. Android Auto puts Google Maps™, Google™ Search and other Google services at the driver's fingertips in a non-distracting way. MirrorLink™ lets various applications on your smartphone appear on the vehicle's touchscreen display, allowing you to access your smartphone's features.

\*Apple CarPlay is available in the countries listed at the following link: <http://www.apple.com/ios/feature-availability/#applecarplay-applecarplay> \*For more details including iPhone models compatible with Apple CarPlay, see: <http://www.apple.com/ios/carplay/> \*Apple, Apple CarPlay and iPhone are trademarks of Apple Inc., registered in the U.S. and other countries. \*Android Auto is available in the countries listed at the following link: <https://www.android.com/auto/#hit-the-road> \*Requires the Android Auto app on Google Play and an Android compatible smartphone running Android™ 5.0 Lollipop or higher: <https://support.google.com/androidauto/#6140477> \*Android and Android Auto are trademarks of Google LLC. \*MirrorLink™ is compatible with the smartphones listed at the following link: <https://cert.mirrorlink.com/ProductListing/> \*MirrorLink™ is a registered trademark of the Car Connectivity Consortium LLC.

### Multifunctional steering wheel

The user-friendly multifunctional steering wheel gives the driver full control. Within easy reach, radio and Bluetooth® connectivity for smartphone can be controlled. The drive support function for cruise control is also integrated to ensure comfort and security.

## PLENTY OF SAFETY

### TECT body frame

The Vitara's body design centres on Suzuki's TECT concept, resulting in a structure that efficiently absorbs and disperses the energy in the event of a collision.

### 7 Airbags

Driving performance is complemented by protective safety features, including standard SRS airbags for the driver and front passenger, front SRS side airbags that reduce impact to the chest in side collisions and SRS curtain airbags that reduce impact to the head.

Notes: SRS airbags are only effective when seatbelts are used and may not function properly depending on crash conditions. Please refer to the owner's manual for conditions to bear in mind. In an actual crash, SRS curtain airbags and front SRS side airbags inflate only on the side of impact.

### ESP®

Should the wheels lose traction, the Electronic Stability Programme ESP®\* automatically adjusts the engine and brakes to help keep the driver in control.

\*ESP® is a registered trademark of Daimler AG.

### Front and rear parking sensors

Ultrasonic sensors in the bumpers detect obstacles and issue audio-visual warnings that the driver can see on the multi-information display and hear as a warning sound alert.

Major Equipment

Engine		Petrol 1.6L
Drive system		2WD/ALLGRIP
Transmission		6AT
Grade		GLX
CHASSIS		
Tyres and wheels	215/55R17 + alloy wheels (painted)	S

High-mount stop lamp		S

S : Standard  
\* :Bluetooth is a registered trademark of Bluetooth SIG, Inc.  
\*\*:ESP is a registered trademark of Daimler AG.  
The ESP is designed to help keep the vehicle under control. However, the degree of engine torque reduction, the wheels that brake and their braking force vary according to the driving conditions.  
ESP is essentially a system to assist stable driving. In the case of slippage or skidding that exceeds the limits of grip between tyres and road surface, ESP will still function but may not be effective.  
\*\*\*:without Lane Departure Prevention and Traffic Sign Recognition functions.
