Way of Life!

Fuel economy and CO₂ * results for the Suzuki S-Cross range in mpg (L/100km): **Combined 37.7 (7.5) to 44.9 (6.3), CO₂ emissions: 141 to 120g/km.** Figures shown are for comparability purposes; only compare fuel consumption and CO₂ figures with other cars tested to the same technical procedures. These figures may not reflect real life driving results, which will depend upon a number of factors including the accessories fitted (post-registration), variations in weather, driving styles and vehicle load.
*There is a new test used for fuel consumption and CO₂ figures. The CO₂ figures shown, however, are based on the outgoing test cycle and will be used to calculate vehicle tax on first registration.

A blue Suzuki SX4 S-Cross is shown from a front-three-quarter view, driving on a wet, winding asphalt road. The car is splashing water, and its headlights are on. The background is a dense forest of tall evergreen trees, with a mountain peak visible in the distance under a cloudy sky. The car's license plate area displays 'SX4 S-CROSS'.
