Way of Life!

Irresistible personality and style

What exactly makes Swift so sought after? A quick glance suggests it starts with attitude. Every angle has been designed to work flawlessly and look the part. The new front bumper with built in LED daytime running lamps (RSX) tells you it's got substance too, hinting at the technology inside. Or perhaps it's as simple as knowing you're setting out in a car that wants to have fun as much as you do.

Born to perform

Swift is a car designed to catch your attention – and keep it. It's responsive, agile and has plenty of power to impress. The superb fuel economy and low emissions of this world class supermini only adds to its appeal. Energy-efficient with handling and performance – it's what every car dreams of being, and what you will love when it's yours.

POWER WHERE YOU NEED IT

Swift's 1.4 litre engine delivers an outstanding power-to-weight ratio with maximum efficiency, or put simply, a lot of fun at minimum cost. It also has lower CO2 emissions than many similar sized units.

AUTOMATIC

The four-stage electronic automatic transmission has an easy-grip shift knob that adds a natural feeling to gear changes.

FIVE SPEED MANUAL

The 5-speed transmission is designed to take advantage of the engine's torque potential and to provide an overdrive for smooth, efficient highway driving.

HIGH PERFORMANCE SUSPENSION

Swift's suspension system has been tuned to ensure the best possible combination of stability, comfort and quietness.

You won't want to get out

Swift's modern interior is both functional and fun. Every detail has been designed to be instantly visible and intuitively to hand. The advanced audio system envelops you in your favourite sounds, with a USB socket for your MP3 player or phone. Swift RSX adds a Garmin™ touch-screen satellite navigation and infotainment system including 2D and 3D maps, handsfree calling, CD and SD card playing, and six speakers placed around the cabin. Whichever Swift you choose, it's like travelling first class on every journey. You won't want to take a short cut home.

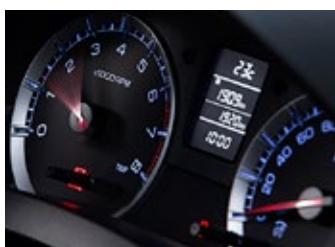

AIR CONDITIONING

All models feature air conditioning with pollen filter for added comfort. In the RSX, a digital climate control system automatically adjusts air temperature, fan speed and vents to keep the cabin comfortable.

ADJUSTABLE STEERING

Set your optimal driving position with a tilt-adjustable steering wheel. The RSX model also features telescopic adjustment for precise positioning.

INFORMATION DISPLAY

Speed, fuel consumption and driving range are clustered together for easy viewing, with the tachometer and temperature displays featured in GLX and RSX models.

AUDIO CONTROL

Fine-tune your music with the touch of a button, built in to the steering wheel for convenient, safe operation on the move (GLX and RSX).

CRUISE CONTROL

Keep a comfortable, safe and consistent pace on long trips and open roads. Just set your chosen speed and cruise (GLX and RSX).

HANDSFREE CALLING

Bluetooth® connectivity allows you to make and answer calls while you're travelling, without moving your hands from the wheel or your eyes from the road (GLX and RSX).

KEYLESS ENTRY

Unlock your Swift by pressing a button on the door handle, and start the car with the key tucked safely in your pocket (RSX).

Sit back and enjoy the ride

Whether you're in the driver's seat, passenger seat, or travelling in the back, there's plenty of space in Swift to get comfy. The cleverly designed split seating and storage areas mean there's room for your gear. Everything from the slick, sporty textured upholstery to the height adjustable driver's seat, says settle in and make the most of the journey.

DRIVER'S SEAT

An adjustable driver's seat ensures you're in the ideal driving position, with 240mm of fore-aft adjustment and 58mm vertically. This provides all-round visibility, as well as comfort and support.

FLEXIBLE SPACE

The 60:40 rear seats fold down to allow larger items to be stowed in the rear, while still providing space for two rear passengers.

GLOVEBOX WITH INTERIOR SHELF

A roomy glovebox and shelf are integrated with the dash, optimising the available space and maintaining the sleek contours.

BOTTLE HOLDERS

Keep refreshments close at hand with cup and bottle holders in the doors and centre console.

POCKETS

Deep pockets in the front and rear doors provide handy storage for all the small bits you might need on the road.

LUGGAGE ROOM

Even with five people aboard, Swift offers flexible luggage space with a removable false floor area (GLX & RSX).

Star power with 5-star safety

Every journey you make in your Swift needs to be fun. But it is safe too. That's why we build a host of top safety features into any Swift model you choose. In fact Swift achieved the maximum ANCAP safety rating of 5 stars. So when you drive, you're in safe hands – and free to focus on enjoying the ride.

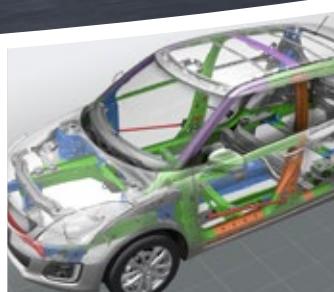

SEVEN AIRBAGS

Protection comes from front and side airbags for the driver and front passenger, a knee airbag for the driver, and left and right side curtain airbags.

ABS WITH EBD

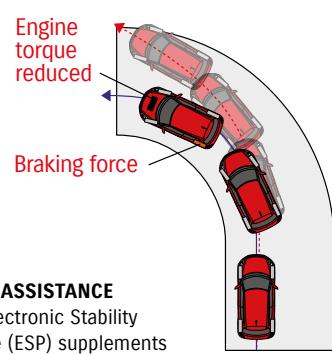

In an emergency, ABS and EBD prevents the tyres from locking up and adds stability to evasive manoeuvres. Front ventilated disc brakes deliver superior braking force with precise response. Rear disc brakes standard on RSX model.

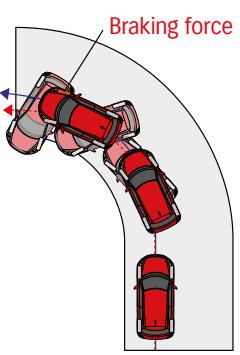

SAFETY ENGINEERED BODY

Swift's body incorporates Suzuki's TECT (Total Effective Control Technology) for lightness and occupant safety. Crumple zones absorb and dissipate energy, while remaining energy is directed around the cabin.

Front wheel-slip

Rear wheel-slip

→ Without ESP®

STABILITY ASSISTANCE

Suzuki's Electronic Stability Programme (ESP) supplements the inherent stability by automatically adjusting the engine and brakes if the wheels lose traction.
