

S-CROSS
Turbo

Way of Life!

DEFINE YOUR DESTINATION

Powered with a 1.4 litre, responsive Boosterjet Turbo engine, the new S-Cross Turbo and Turbo Prestige SUVs are raring to get into wherever life takes you.

From country roads to city cruising, from carrying golf clubs to shopping bags, S-Cross Turbo also comes with an incredibly generous boot capacity that gives new meaning to the term 'cargo space'.

Add the hi-tech convenience of Apple CarPlay®, smooth, aerodynamic European lines, and a striking new front grille design; and you'll soon discover the new S-Cross is packed with style as well as substance.

BOOSTERJET *Turbo*

Boosterjet direct-injection turbo engine

The Boosterjet is a newly developed direct-injection turbo engine that produces a smooth surge of responsive power while also delivering superb fuel economy. The instant acceleration performs like a larger engine and adds to the agility of every drive.

TURBO PERFORMANCE

The new S-Cross Turbo and Turbo Prestige both come with a powerful 1.4 litre Boosterjet Turbo engine – so superior performance and driving pleasure go hand-in-hand.

Helping generate greater torque from lower speeds, the new Turbo engine's enhanced efficiency helps achieve an economical fuel consumption rate of just 5.9L/100km*. In fact, from city peak hour to country back roads, the Boosterjet Turbo engine optimises your power and efficiency wherever you're travelling, while significant structural weight savings result in an impressive power-to-weight ratio that will also help you save at the pump.

Coupled with a 6-speed automatic transmission, the new S-Cross Turbo raises the bar for smooth driving performance across the board.

Newly evolved high-performance suspension

The S-Cross Turbo features MacPherson-strut suspension on the front wheels. This is a lighter, stiffer suspension frame with increased dimensions for the struts which help provide superior handling stability. The rear wheels have torsion-beam suspension which give a better feeling of stability as the car is cornering, while enhanced spring coils lead to superior ride comfort. The benefits of numerous tests on European roads have lead to optimal damper tuning that give a better combination of handling stability and ride comfort.

6-speed automatic transmission

Expansive gear change ratios ensure high performance even at low speeds such as standing starts and hill climbs as well as improved fuel efficiency at high speeds.

*ADR 81/02 results for automatic transmission. NEDC Fuel Consumption figures may not mimic real-life driving conditions and should be considered for comparison against other vehicles only.

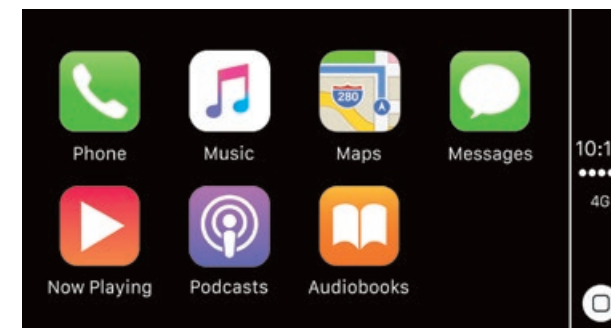

HI-TECH MEETS HIGH STYLE

Sleek, flowing surfaces and a wide, uncluttered dash interface make driving an immersive and enjoyable experience.

A new, highly advanced yet simple-to-follow multimedia satellite navigation system – with Apple CarPlay® and a reversing camera – puts knowledge, pleasure and control at your fingertips. Simply tap the user-friendly 7-inch touchscreen or use voice recognition to plan your route, call your friends or enjoy your favourite music.

Shift paddles let you take control of the driving experience and change gears without letting go of the steering wheel, whilst the cruise control helps you maintain a driver-set speed.

Steering wheel-mounted audio and Bluetooth controls are also practical and convenient, allowing the driver to concentrate on the road.

Apple CarPlay®

The Smartphone Linkage Display Audio works with Apple CarPlay® by connecting your compatible iPhone via USB. Apple CarPlay® allows you to make phone calls, access your music, send and receive messages, get directions all by voice command or by tapping on the display.

7-inch multi-touch colour display

The WVGA (Wide Video Graphics Array) display gives you intuitive control of audio and video, as well as hands-free phone and navigation systems. This includes Bluetooth® connectivity, full iPod® integration and AM/FM radio and audio playback options.

For more information and to check the compatibility of your device with any of the different technologies, please visit the relevant website for Apple CarPlay®. Apple CarPlay® is a registered trademark of Apple Inc.

TRAVEL IN STYLE

The new S-Cross Turbo's innovative, intelligent design gives you the flexibility to carry more things to more places, but still leaves you with plenty of room to move. So whether you've got a big load of 'stuff' or you're packing for a big holiday, S-Cross Turbo gives you freedom as well as functionality.

Settle in and get comfortable. The roomy seats expand the feeling of space and comfort, whilst the Turbo Prestige adds a touch of luxury with leather accented seats. Continue to cosy up with an array of creature comforts with a push button start and dual-zone climate control.

Keyless push start system: If you're carrying the S-Cross's remote-control unit, you can lock and unlock the doors and start the engine without using a key.

Adjustable rear seatback: The rear seatback can be set at either of two angles. One promotes relaxation. The other creates more luggage space.

Reversing camera: The navigation system has a reversing camera to help you reverse easily.

Automatic wipers and lights (Turbo Prestige only): The wipers start automatically when they sense raindrops, adjusting their speed to match the extent of rainfall and the speed of the car. Head and tail lamps turn on and off in accordance with the ambient brightness.

Dual-zone automatic air conditioner: The air conditioner gives personalised comfort by letting the driver and front passenger set temperatures independently of each other.

Overhead console with map lamps: The overhead console incorporates map lamps and a holder for sunglasses.

17-inch polished alloy wheels: Distinctive sporty styling adds to the dynamic look of the Turbo Prestige models.

17-inch alloy wheels: Premium-looking style that complements the Turbo model's sporty appeal.

Flexible space: Even with five people aboard, there's 430 litres of luggage space. By folding down the 60:40-split rear seatback, you can expand the space in diverse ways. A multi-position luggage board gives even greater flexibility.

SPACE TO SPARE

Providing 430 litres of luggage space – one of the largest capacities in the category, even with five people on board – the new S-Cross Turbo SUV gives you space to spare, and then some.

The versatile cargo bay is simple to rearrange, creating enough room for everything or anything. You can even start packing for a weekend getaway with all the smart space you need for all-out enjoyment.

Front centre armrest and console box with USB port: The front centre armrest can be slid to the optimal position. It incorporates a console box with a built-in USB port.

Rear centre armrest with cup holders: A retractable centre armrest heightens comfort for rear passengers. It incorporates cup holders for two people.

Seatback pocket: A pocket on the back of the front passenger seat is just the right size for maps and books.

Extra convenience: The luggage area incorporates a 12V DC power socket and hooks for holding luggage in place.

Hill-hold control: A hill-hold control function makes hill-starts easy by preventing the S-Cross from rolling backward when the driver moves his or her foot from the brake pedal to the accelerator pedal.

Impact safety and pedestrian protection: The body exemplifies Suzuki's TECT (Total Effective Control Technology) concept for lightness and occupant safety.

Rear parking sensors (Turbo Prestige only): Ultrasonic sensors in the rear bumper help with parking by detecting obstacles and issuing warnings that the driver can see on the multi-information display and hear as beeps.

SAFE AND SURE

In the S-Cross Turbo, exceptional performance is crossed with advanced safety features.

Enjoy the protection that comes with 7 airbags (dual front, side and curtain airbags and a knee airbag for the driver), Electronic Stability Control (ESC) and Suzuki's Total Effective Control Technology (TECT), while ABS brakes with Electronic Brakeforce Distribution (EBD) and Brake Assist System (BAS) deliver reassuring stopping power.

Get into the new S-Cross and you and your family will be surrounded by safety at every turn.

ESC (Electronic Stability Control): If the wheels lose traction, ESC automatically adjusts the engine and brakes to help keep the driver in control.

- 1.4L Boosterjet Direct-Injection Turbo Engine
- Multimedia satellite navigation system
- Apple CarPlay®
- 6-speed automatic transmission
- 7 airbags & ESC
- 5.9L per 100km fuel economy*
