SWIFT GL+

It all adds up to a lot of fun

Suzuki Swift, New Zealand's favourite supermini, has now been taken to a whole new level. The limited edition Swift GL+ raises the fun factor with an exciting package of factory extras designed to complement the Swift's already impressive list of features.

With more additions than an algebra book, the Swift GL+ makes a unique statement in style and performance. Stunning 16 inch alloy wheels help you stand out from the crowd and augment the Swift's agile handling. Additional exterior design features including colour-matched mirrors and door handles and a GL+ badge create a heightened sense of style and finesse.

Impressive interior upgrades include a luxurious leather steering wheel and a high-quality 6-speaker entertainment system. This features USB and Bluetooth hands-free so you can enjoy your favourite tunes or use your phone safely. Add air conditioning with pollen filter and you'll find the cabin of the Swift GL+ is so comfortable, you'll never want to leave.

On the road the Swift GL+ has even more positives. A zesty 1.4 litre, 16 valve VVT engine

gives you plenty of pep while being frugal on fuel. And for a car that loves the open road so much, cruise control makes a welcome addition. When travelling long distances, just set your desired speed and cruise to your destination in comfort and safety.

Should you need to stop in a hurry, it's reassuring to know ABS with Electronic Brake Force Distribution, and Electronic Stability Programme are on your side. These electronic systems combined with 7 airbags and a strategically strengthened TECT body design, have led to the Swift GL+ being awarded the highest possible EuroNCAP safety rating – 5 out of 5 stars.

Of course, 'fun to the power of ten' is built into every Swift, but with all these valuable extras and upgrades, the limited edition GL+ is on another level altogether.

INFORMATION DISPLAY

Speed, tachometer, fuel consumption, temperature and driving range are clustered together for easy viewing.

AUDIO CONTROL

Fine-tune your music with the touch of a button, built in to the steering wheel for convenient, safe operation on the move.

CRUISE CONTROL

Keep a comfortable, safe and consistent pace on long trips and open roads. Just set your chosen speed and cruise.

HANDSFREE CALLING

Bluetooth® connectivity allows you to make and answer calls while you're travelling, without moving your hands from the wheel or your eyes from the road.

SEVEN AIRBAGS

Protection comes from front and side airbags for the driver and front passenger, a knee airbag for the driver, and left and right side curtain airbags.

STABILITY ASSISTANCE

Electronic Stability Programme (ESP) supplements the inherent stability by automatically adjusting the engine and brakes if the wheels lose traction.

ABS WITH EBD

In an emergency, ABS and EBD prevents the tyres from locking up and adds stability to evasive manoeuvres. Front ventilated disc brakes deliver superior braking force with precise response.

5 STAR SAFETY

The combination of ABS, ESP®, 7 airbags and TECT body design has gained Swift GL+ the highest possible 5-stars in 2010 EuroNCAP safety ratings.

NZ's no.1 adds even more fun!

It's New Zealand's no.1 selling Supermini – and the reasons to buy one just keep adding up! The Swift GL Plus is packed with exciting extras. But it's an extremely limited edition so see your Suzuki dealer today.
