Way of Life!

small car loaded with big ideas

Here it is. Larger than life and ready to live. Introducing the new Celerio, a small car that is creating big standards. Loaded with Suzuki small car know-how, but with space for more, Celerio beckons for a drive in the city. Climb aboard and experience all that's new.

Room to breathe

When it comes to interior space and comfort, Celerio is literally head and shoulders above the rest. With ample room for legs and big ideas, you can stretch out and relax in a stress-free riding environment. And thanks to the intelligent design, getting in and out is just as comfortable. While the easy to read meters are sleek and stylish, there's more that meets the eye behind the wheel of Celerio. The high seating position and expanded visibility increase the sense of freedom, while the interior design exudes superior comfort and quality to make driving through town an exercise in easy living and looking good.

Large clear instrumentation

Audio system with Bluetooth® and USB input

Air conditioning with pollen filter

Lower console box

Glove box

Bottle holders

Driver's side pocket

Driver's side vanity mirror and ticket holder

Shopping bag hook

LUGGAGE CAPACITY 254 L

(VDA METHOD)

Massive Luggage Space

Celerio offers more than enough luggage capacity to fit your lifestyle, including convenient hooks for holding shopping bags in place. And for large and odd-shaped cargo, the rear seats offer a variety of setups.

CELERIO

Manual 4.7L /100 km
CVT 4.8L /100 km

K10B Engine

The K10B 1.0-litre petrol engine offers dynamism in a lightweight design. So not only do you get to enjoy the quick, vigorous drive, weight-reducing innovations to the engine unit, mounts, radiator and fuel tank offer better fuel performance.

Newly developed front and rear suspension

The Swift-derived suspension has been designed with ride comfort and handling in mind. Beyond achieving great performance, Celerio also incorporates weight- and space-saving innovations.

Continuously Variable Transmission

The CVT incorporates an auxiliary gearbox that increases gear ratio range for a good balance between acceleration performance from a standing start and fuel efficiency at speed.

5-speed manual

A new 5-speed manual transmission provides comfort in traffic and smooth acceleration through all five gears. Numerous innovations help save fuel by minimising torque loss.

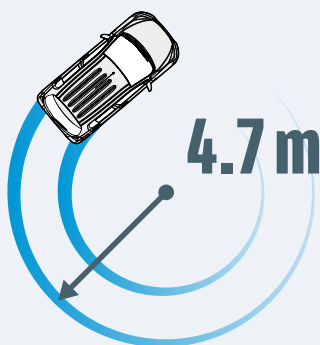

Brakes

Enhancements to pedal ratio and booster properties optimise pedal force, deceleration and stroke for smooth braking while innovative weight-reduction measures contribute to fuel saving.

Turning radius

Celerio's compact turning radius makes navigating even tight city streets effortless.

Compact dimensions

Small on the outside, yet large on the inside. Celerio's easy-to-handle compact dimensions also provide plenty of interior space.

High-rigidity, low-weight body

Making effective use of high-tensile materials, Suzuki Total Effective Control Technology (TECT) realises a high-rigidity, low-weight body that improves collision safety.

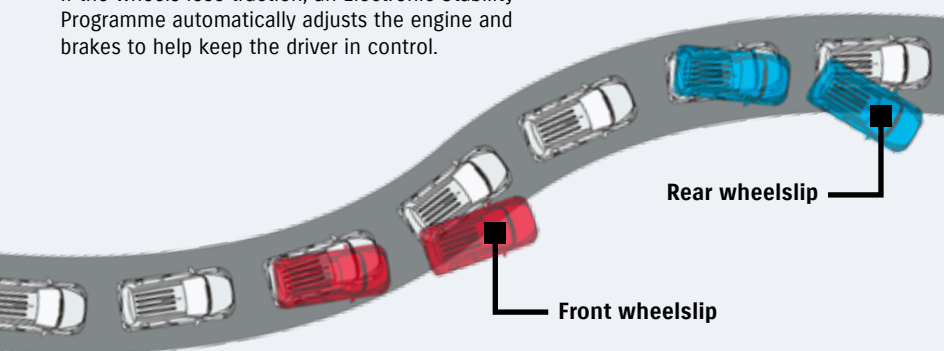

Six airbags for four star safety (ANCAP)

Front airbags mitigate the impact to driver and front passenger in the event of a frontal collision. And for side collisions, curtain airbags are fitted to help mitigate impact to the head, while front side airbags lessen impact to the chest and lumbar area.

ESP® (Electronic Stability Programme)

If the wheels lose traction, an Electronic Stability Programme automatically adjusts the engine and brakes to help keep the driver in control.

ESP is a registered trademark of Daimler AG.

Without
Brake Assist

With
Brake Assist

Brake Assist

Brake Assist adjusts braking force when the brake pedal hasn't been fully depressed in an emergency braking situation. Based on the speed at which the brake pedal is depressed, the onboard computer determines whether it is an emergency braking situation and adds brake force to achieve optimum deceleration.
