

SX4 S-CROSS

THE BEST OF BOTH WORLDS

From sports and camping to travel and adventure, pack more in with the all new Suzuki S-Cross. Let your imagination run wild as each city street turns into a path to freedom. With its stunning European design, the reassurance of 5-star safety, outstanding fuel economy and an extra roomy cabin, the S-Cross is ready to play.

SX4
S-CROSS

SEE THE EXTRAORDINARY

The moment you see the all new Suzuki S-Cross you'll want to make it your own. The edgy crossover design says let nothing hold you back. The dynamic performance promises you won't have to. From the front, the S-Cross is bold and dynamic. From the rear, you see the solid stability of an all-terrain master. Look from the side and be moved by sporty lines that flow toward freedom. No matter what angle, no matter where you go, the message is the same: stand apart from the crowd.

Vehicle shown with optional accessories.

HID HEADLAMPS

Auto-levelling high-intensity discharge (HID) with washers and LED position lamps (LTD).

FRONT FOG LAMPS

Chrome-accented fog lamps echo the dynamic contours of the headlamps (LTD).

INTEGRATED ROOF RAILS

The black (GLX) or silver (LTD) roof rails combine sharp looks with aerodynamic smoothness, and ensure the S-Cross is always ready for your next adventure.

AERODYNAMIC MIRRORS

The body-coloured door mirrors are shaped for low drag, low wind noise, and accordingly superior fuel economy. They have built-in turn-signal lamps on the LTD model.

REALISE YOUR POTENTIAL

S-Cross is built to challenge expectations on and off road. Its strong go-anywhere performance and smart design inspires new directions. Its innovative technology opens new roads. It begs you to cast limitations aside and expand your definition of freedom. Now, see how far that freedom can take you.

POWER WHERE YOU NEED IT

Designed to deliver higher energy output with maximum efficiency, the 1.6 litre S-Cross engine is more fuel-efficient, with lower CO₂ emissions than many similar sized units.

CVT AUTOMATIC

Continuously variable transmission provides smooth power delivery and improved fuel efficiency, and can also be operated in a 7-stage 'steptronic' mode from the gear lever, or via steering wheel mounted paddle shifters (LTD).

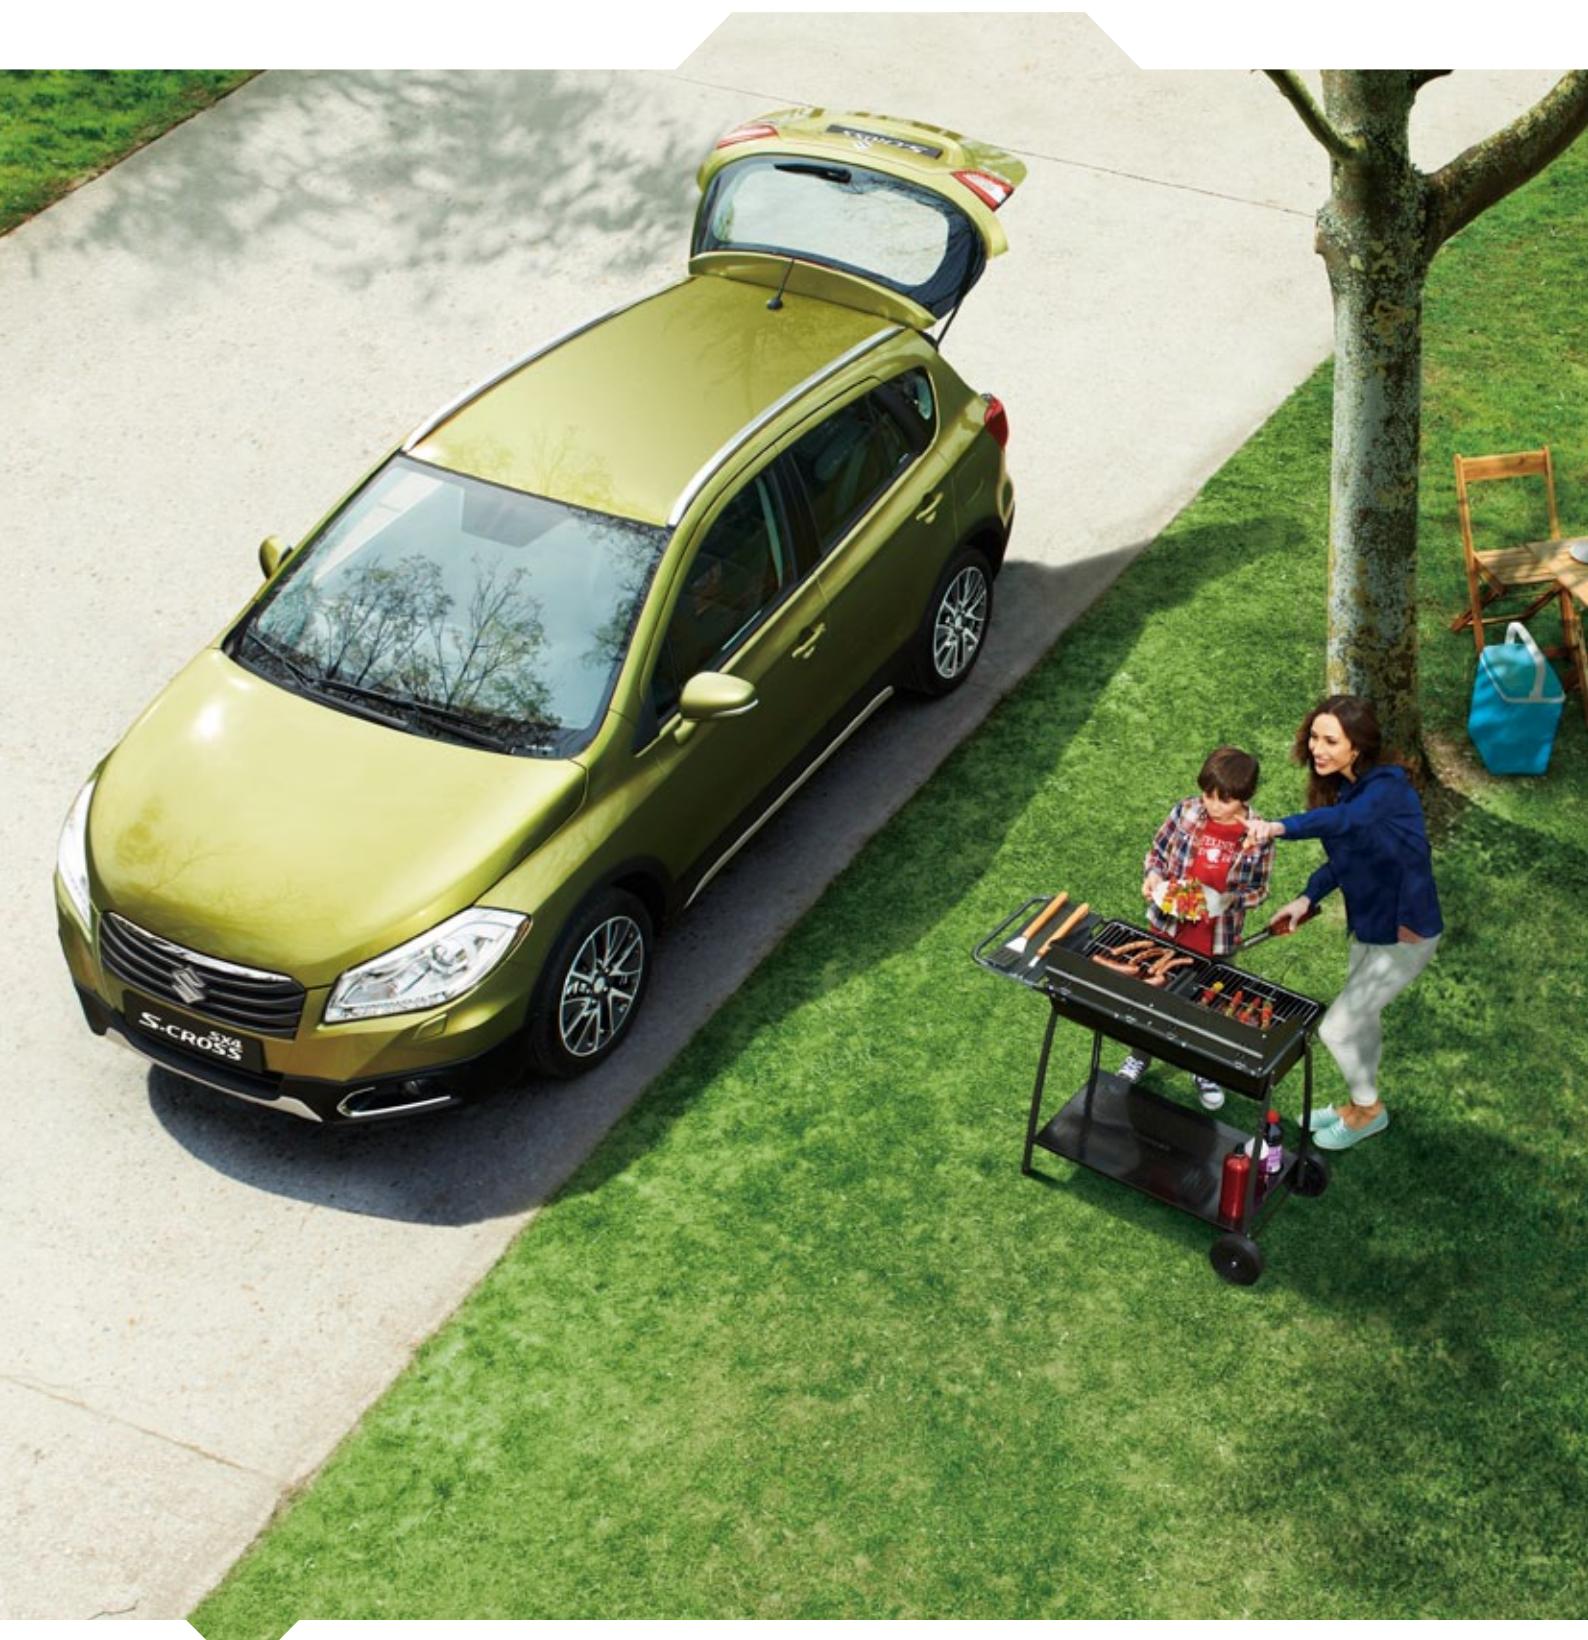

FIVE SPEED MANUAL

The 5-speed transmission is designed to take advantage of the engine's torque potential and to provide an overdrive for smooth, efficient highway driving.

HIGH-PERFORMANCE SUSPENSION

The S-Cross suspension system has been tuned to ensure the best possible combination of stability, comfort, and quietness.

SPREAD YOUR WINGS

S-Cross is all about having no borders. For a big load of cargo, big dreams, or a big family, the innovative design accommodates it all with room to spare. Its flexibility gives you options: more things to carry, more places to go, and more ways to enjoy life. The aerodynamic lines give a feeling of perpetual motion. Let that be your inspiration.

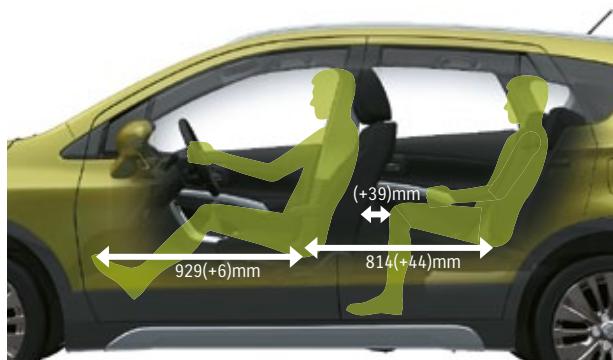

BUILT TO TRAVEL

Even with five people aboard, there's 430 litres of luggage space. A multi-position luggage board, light, luggage hooks and a 12V accessory socket provide added convenience.

FLEXIBLE SPACE

The 60:40 rear seat configuration allows larger items to be stowed in the rear, while still providing space for two passengers.

ROOMIER CABIN

Five adults can stretch out in comfort with increased cabin room compared to the SX4. Plentiful legroom assures a relaxing ride.

ADJUSTABLE STEERING WHEEL

Telescopic and tilt adjustment on the steering wheel allows drivers to position it according to their size and personal preference.

ADJUSTABLE SEATING

A height adjustable driver's seat ensures the ideal driving position, providing all-round visibility, as well as better comfort and ease of entry and exit. The LTD model has dual-position seatbacks in the rear, creating extra space for luggage or relaxation.

HANDY STORAGE SPACES

Console boxes provide extra storage space, along with bottle and cup holders, and a seatback pocket. The centre console box also contains a built-in USB port.

INTERIOR LIGHTING

In addition to cabin overhead and centre lighting, the LTD model features vanity mirrors lights, map lamps, centre lower console box lighting and illuminated front footwells.

FEEL THE DIFFERENCE

Step inside the all new S-Cross and you're immediately wrapped in refinement. You feel the quality in the plush seats and flowing surfaces, and sense that every detail is exactly where it should be. The car becomes part of you, as inspired and excited about exploring the world as you are.

(Leather interior shown not available in NZ)

AIR CONDITIONING

Dual-zone climate control gives personalised comfort by letting the driver and front passenger set temperatures independently of each other (LTD). GLX models include standard air conditioning, and both models feature a pollen filter for added comfort during summer travel.

INFORMATION DISPLAY

A quick glance at the comprehensive display shows temperature and fuel consumption, speedometer, tachometer, driving range and a gear optimiser indicator when in manual. Driving mode is shown in ALLGRIP models.

KEYLESS ENTRY AND START SYSTEM

Lets you unlock the vehicle by pressing a button on the door handle, and start the car while the key stays safely in your pocket (LTD).

SAT NAV AND INFOTAINMENT SYSTEM

LTD models come complete with a new Garmin™ satellite navigation system, a 6.1-inch touch-screen display, 2D and 3D maps, and voice recognition. The system also controls audio, USB input with iPod control and Bluetooth® calling.

REVERSING CAMERA

A rearview camera feeds into the dashboard display to help you reverse easily, with enhanced visibility and confidence (LTD).

AUDIO CONTROL

A high quality, MP3 compatible audio system enables you to take your own soundtrack along for the ride. Buttons are built into the steering wheel, allowing you to fine-tune your music on the road.

CRUISE CONTROL

Keep your speed under the legal limit while cruising comfortably and consistently on open roads and longer trips.

HANDSFREE CALLING

Bluetooth® connectivity allows you to answer calls while you're travelling, without moving your hands from the wheel or your attention from the road.

AUTOMATIC WIPERS

The wipers start automatically when they sense raindrops, and adjust their speed to match the rainfall and speed of the car (LTD).

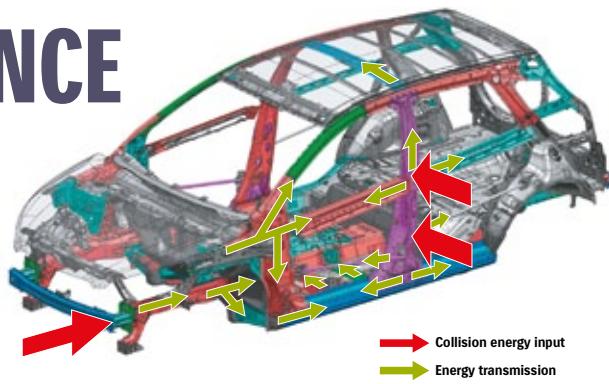

EXPLORE WITH CONFIDENCE

Let your sense of adventure take the lead in the all new S-Cross.

Set out in a vehicle that's been designed and built for the unexpected.

High performance technologies help keep you safe on the road, backed up by top-of-the-line safety features. Take the adventurous road.

Take the safe road. They're the same in the S-Cross.

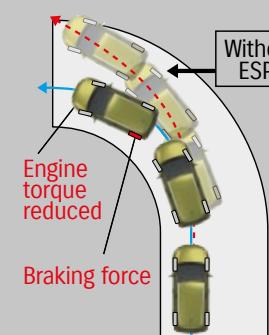

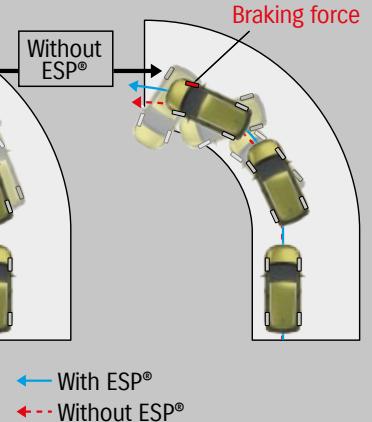

SEVEN AIRBAGS

Extra protection comes from front and side airbags for the driver and front passenger, a knee airbag for the driver, and left and right side curtain airbags.

Front wheelslip

Rear wheelslip

ESP® CONTROL SYSTEM

An Electronic Stability Programme (ESP) supplements the inherent stability by automatically adjusting the engine and brakes if the wheels lose traction.

HILL-HOLD ASSIST (CVT)

Hill-hold assist prevents the vehicle from rolling backwards when moving your foot from the brake to the accelerator pedal, making hill-starts safer.

5-STAR SAFETY

S-Cross has received a maximum 5-star rating in the new independent crash testing results from Euro NCAP, and acknowledged as one of Europe's safest cars.

SAFETY-ENGINEERED BODY

The body incorporates Suzuki's TECT (Total Effective Control Technology) for lightness and occupant safety. Crumple zones absorb and dissipate energy, and remaining energy is directed around the cabin.

ABS WITH EBD

Braking force on each wheel is automatically adjusted to provide exactly the right amount of pressure and bring the car to a safe, controlled stop.

BRAKE OVERRIDE SYSTEM

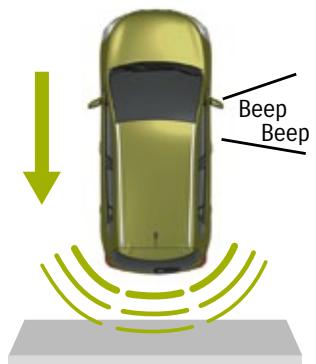

All models are fitted with throttle override technology, enabling the driver to halt the car in the unlikely event the brake and accelerator pedal are depressed at the same time. Should impact occur, the brake pedal will detach, further protecting the driver.

REAR PARKING SENSORS

Four ultrasonic sensors in the rear bumper help with parking by detecting obstacles and sending a visual and audio warning to the driver (LTD).

SEATBELTS

Front and rear seats are equipped with three-point ELR seatbelts with pretensioners and force limiters for enhanced safety. Rear seats also include two ISOFIX and three child seat tether anchorages.

ALLGRIP. ALL EVERYTHING.

The all new S-Cross is a true all-weather, all-terrain, all-you-need performer. Refined on the road, tough when you venture off it, it's an invitation to go wherever you please. The selectable ALLGRIP iAWD (intelligent All Wheel Drive) technology delivers driving pleasure and peace of mind in any conditions. Just set the dial and let the S-Cross conquer the road or whatever surface lies before you.

AUTO MODE

Prioritises fuel economy in typical driving conditions. The system automatically switches to 4WD if it detects slippage.

SPORT MODE

Improves cornering performance by allocating more torque to the rear wheels. Engine response is improved by optimizing the accelerator and torque characteristics in a CVT-equipped vehicle.

SNOW MODE

Optimal for snowy, unpaved, and other slippery surfaces. Enhances traction during acceleration and promotes stability.

LOCK MODE

For getting out of snow, mud, or sand. Apportions more torque to the rear wheels, while the ESP and other control technologies are optimised to get the car free.
