Life takes a leap

Once in a while evolution misses a step and takes a leap. Welcome one such rare engineering feat, the all new Celerio. Its breakthrough technology will change the way you drive. It's loaded with the revolutionary Auto Gear Shift, a first* in India. And it gives you best-in-class mileage of 23.1[†] kmpl. Add to it the advanced K-Next Engine, the distinctive CICO Styling and the XpanDesign interiors. Everything about it tells you that from right now, your life is about to take a leap.

EZ DRIVE

The breakthrough EZ Drive technology is here to transform your driving experience for ever, with the Auto Gear Shift and an incredible mileage. Now no more changing gears or stressing about fuel bills.

THE EASE OF AN AUTOMATIC WITH THE FUEL ECONOMY OF A MANUAL.

The revolutionary Auto Gear Shift gives you freedom to make every drive easy without having to press the clutch pedal or change gears. It is based on an electronic control unit which drives the precision hydraulic actuator to control the clutch engagement and the gear shifting. It also ensures that the gear and clutch operations happen at optimal timings. This gives you the ease of driving an automatic with the fuel efficiency of a manual transmission.

EZ TECHNOLOGY

The Celerio's advanced technology is designed to excite. It delivers a best-in-class fuel efficiency and also gives you a peppy drive. Right from ignition, you know you're going to experience a one-of-a-kind drive.

K-NEXT ENGINE

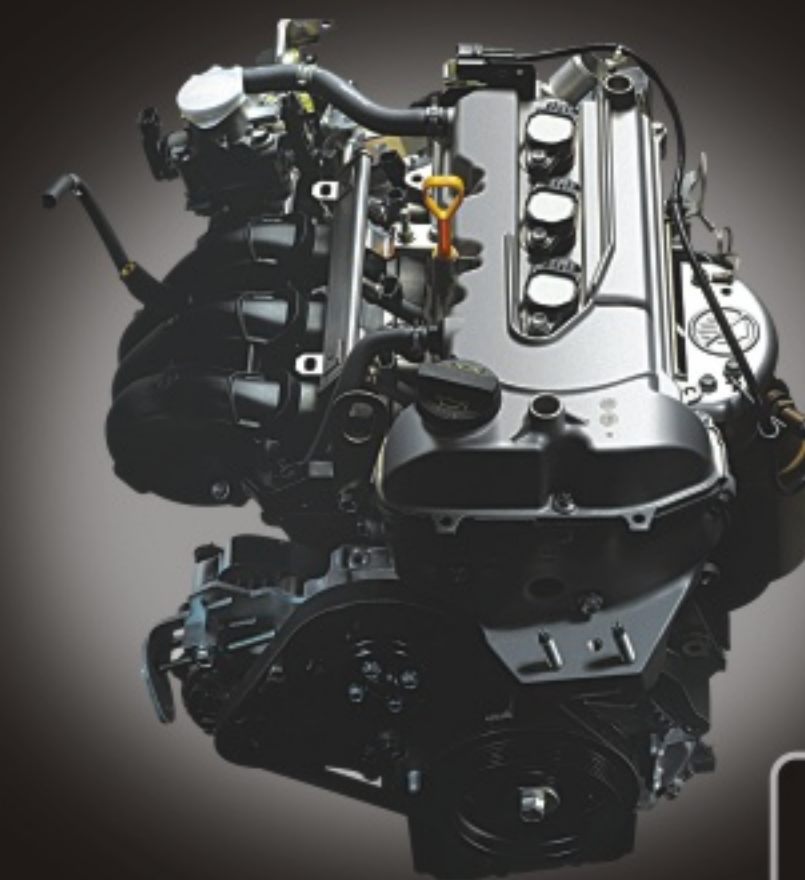

The K-Next engine is better in every way. Apart from Flatter Engine Torque, it has Drive-by-Wire technology resulting in a peppier drive. Along with that, various improvements like optimized compression ratio, reduced frictional losses, low viscosity engine oil and re-designed valves and springs lead to better fuel efficiency. So now, you enjoy a faster throttle response, better torque delivery and upon that class leading fuel efficiency too.

DRIVE-BY-WIRE TECHNOLOGY

An electronic throttle body gives you better torque delivery and more responsive drive besides aiding higher fuel efficiency.

ALL NEW TRANSMISSION

The next generation transmission reduces mechanical losses and aids improvement in fuel economy. It also enables effortless gear shift operation and reduces noise in the cabin.

EZ STYLE

Maruti Suzuki has designed a car especially for you. It's not only stunning to look at, but incredibly practical too. Curves make a car and the Celerio has them flowing in and out in a thrilling new design that we call CICO Styling i.e. Curve In Curve Out Styling. This lends it a sculpted youthful body that is aerodynamically better and exudes energy.

CHISELLED PROFILE

Sculpted side body contours and long stroke shoulder character gives the vehicle a muscular stance, highlighting the dynamic yet compact design.

STAND-OUT ROAD PRESENCE

Its modern aerodynamic lines, combined with a wide planted stance gives the car a confident road presence.

DYNAMIC FRONT

A bold, striking front profile, with a modern unifying look, accentuated by rich metallic details on the grille.

ORVM-TURN INDICATORS

When you take turns be noticed in an effortless way.

FRONT FOG LAMPS

Get brighter and safer illumination in poor light and foggy conditions.

ALLOY WHEELS

Sporty alloy wheels create a dynamic presence on the road.

SWEEPING WAVE DASH DESIGN

This dynamic design with dual tone greige interiors brings a whole new aesthetic to the interiors

EZ SPACE

The interiors of the Celerio have been intelligently designed to maximize space and comfort. It gives you a roomy cabin - spacious headroom, legroom and shoulder-room and a large boot space. You also have the option of 60:40 split flexibility in the rear seats to increase luggage capacity. That is what we call XpanDesign. The flowing curves of the dashboard and the way it merges with the rest of the interiors give the cabin a premium feel. All of it comes together to create a space that's perfect for you and your family to settle into and enjoy the drive.
