# SX4

It's nice to be able to go where you want, when you want. In fact, it's better than nice. It's great. That's why we're so excited about our latest offering, the SX4. A compact crossover with all-wheel drive, it will take you just about anywhere you desire. Within reason, of course. But beyond its obvious capabilities, it's also a heck of a lot of fun to drive. And at the end of the day, really, that's what it's all about.

# XL7

So you're married. Have some kids. Maybe a dog or three. Would you rather own a family vehicle that's kinda spacious? Or one that comfortably seats up to seven? Uh huh. That's what we thought. So without further ado, we introduce the XL7. Not only is it exceedingly spacious, but it's safe and offers a very sophisticated ride. In short, it's a family vehicle you'll be proud to own. But don't take our word for it. Read on and see for yourself.

**GRAND  
VITARA**

We don't like the slick adjectives that run rampant in the automotive industry. And so we're not going to use them to sell you on the merits of the 2007 Grand Vitara. Radical? Hardly. We're just confident that once the facts are laid out in front of you, no fluffy words will be needed to convince you any further: This is an SUV you'll be glad to call your own.

**SWIFT<sup>+</sup>**

They don't come more easy going than the Swift+. Easy to drive. Easy to park. Easy to load up. Easy to afford. Okay. That's enough. You get the point. At any rate, the car just feels right. From the moment you hit the gas to the moment you put it in park. Drive one. You'll see what we mean.

*AERIO*

What can we say, the Aerio's got attitude. A little on the outside. Some on the inside. And let's not forget under the hood. Is it something you can deal with? Absolutely. Is it something your average Joe will have a problem with? We certainly hope so. In any case, it's all fun and perfectly legal. Which is good.

To avoid injury from an inflating airbag always place children twelve years old and under in the rear seat. Always move both driver and passenger seats as far back from airbags as practical; never transport a child in a rear-facing seat in the front seat. Always, use the seat belts and buckle up properly. Fuel economy estimates are determined by using Transport Canada approved testing methods.
