## SUZUKI...MAKE THE SMART MOVE

After more than 70 years in business, we know a thing or two about engineering great products. Our vehicles are frequently applauded for safety, reliability and environmental responsibility...yet the magic of Suzuki remains a mystery to many who have yet to check us out. All of the vehicles in our line-up are designed with practicality and value in mind, but they include features and styling elements that make them fun. That's why buying a Suzuki is a smart move.

## 2004 AERIO SEDAN

### TRUST THE EXPERTS

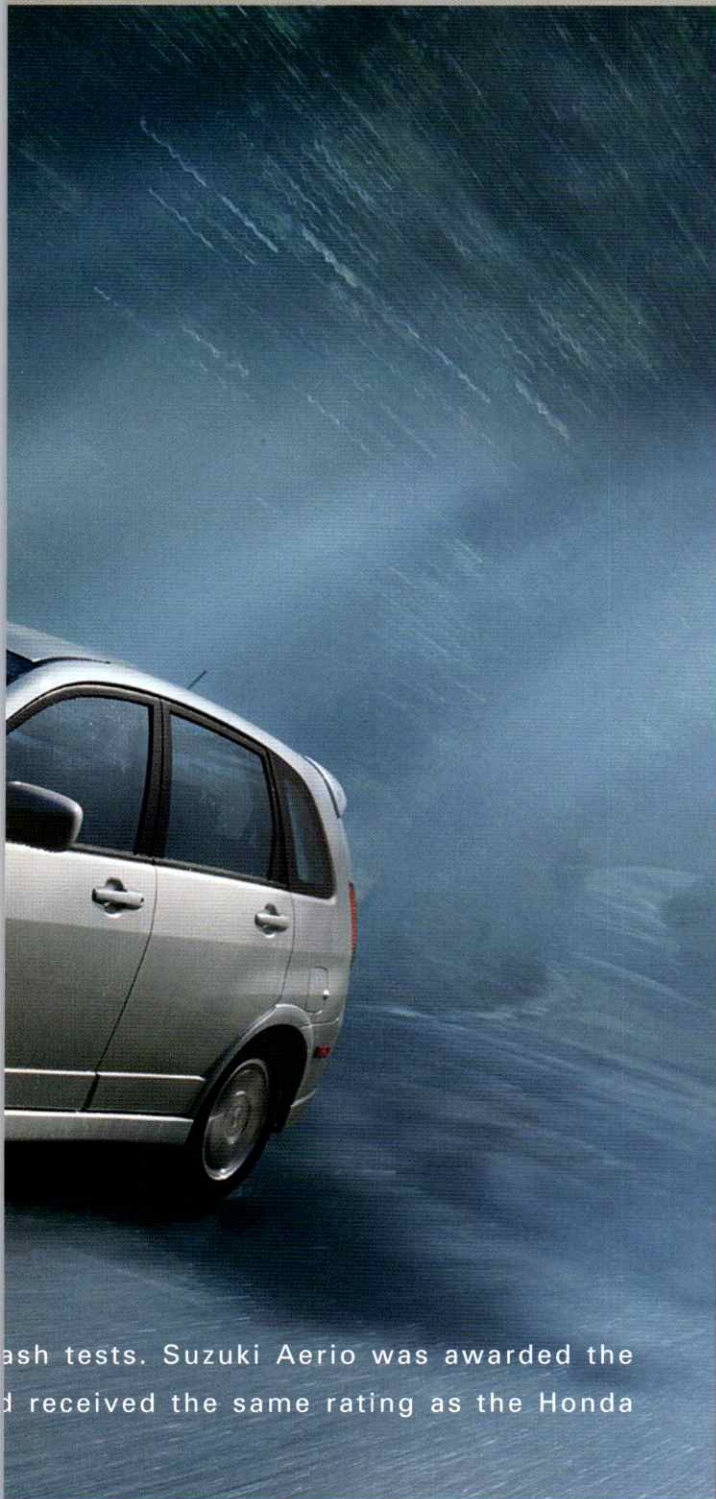

Aerio's exceptional Japanese engineering has proven effective in a crash test with the highest safety rating possible, selected a "Best Pick" by the IIHS as the best car in its class, along with the Civic and the Toyota Corolla for the 64 km frontal offset crash test.

### FEEL SAFE

All 2004 Aerio models are engineered with safety in mind. The reinforced front and side impact beams provide maximum strength while the front and side airbags divert energy from a collision away from occupants. Many leading-edge safety features are standard on all models.
