

# NEW Ignis

Passenger car, SUV or the perfect blend of both?

Enter the new Ignis from Suzuki - chunky, solid and with style to spare, compact yet spacious - a car that can handle your lifestyle.

NEW **Ignis**  
IN YOUR LIFE

A broad, tough looking stance sets the new Ignis apart. Combining bold vertical headlamps, solid-wrap around bumpers and sweeping contours from the front to rear. The new Ignis is striking whichever way you look at it.

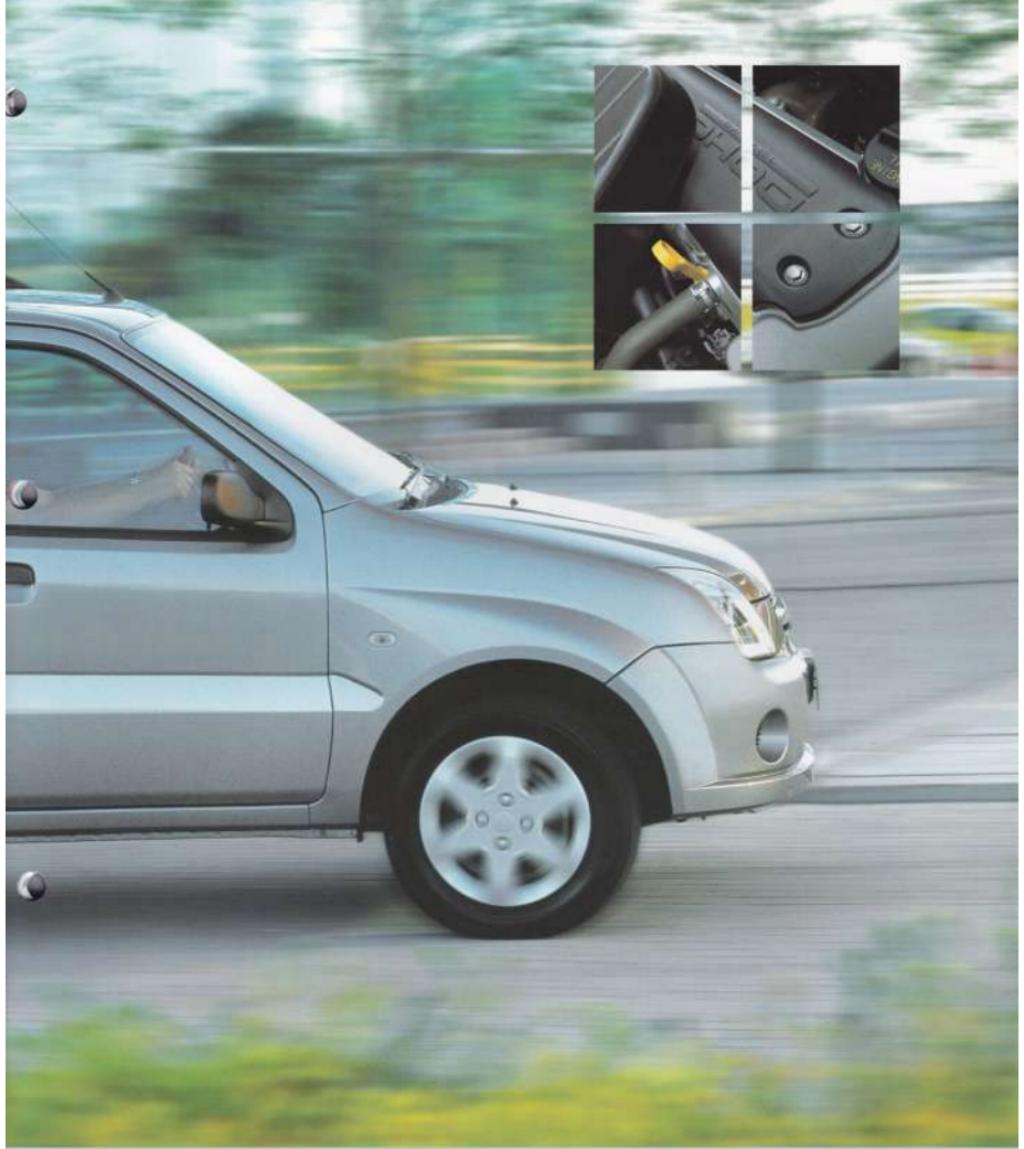

## NEW **Ignis** EXTERIOR

Variable Valve Timing across the range provides lively all round performance through a 1.3 manual or 1.5 automatic gearbox.

If 4WD is more up your street then opt for Suzuki's 4GRIP permanent 4WD mated to a 1.5 manual transmission, allowing greater control and performance on rough roads.

Whatever you choose you can be sure the Ignis will provide you with a light, agile, responsive and comfortable ride - it's a pleasure to drive.

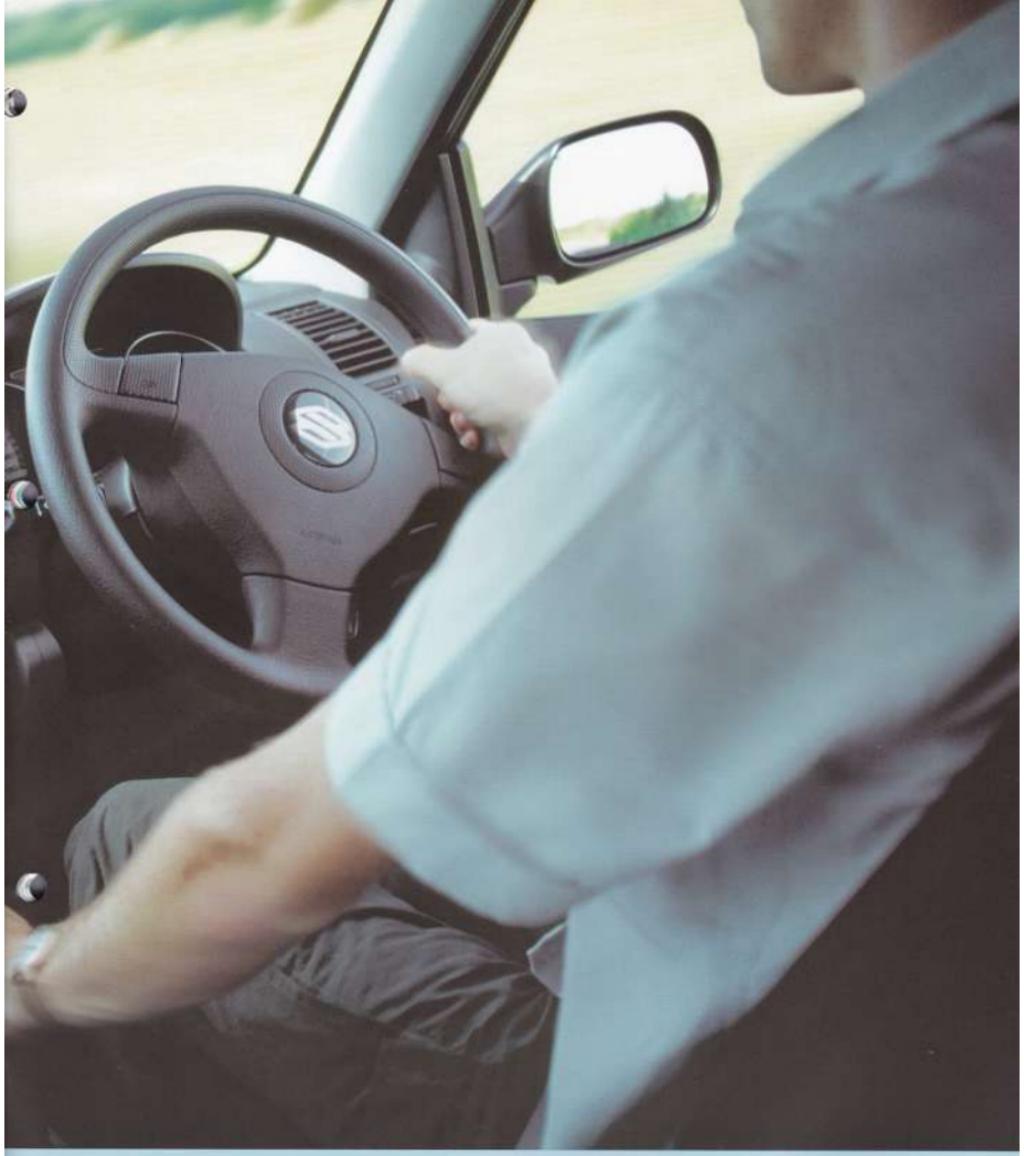

NEW **Ignis**  
PERFORMANCE

The interior puts you in control and makes driving fun. The controls fall naturally to hand and all round visibility is superb. On the move its quiet and comfortable with plenty of rear legroom.

The Ignis seats five in comfort, the load space is flexible (526 litres with rear seat backs folded), there's a cup holder in every door pocket and other neat storage ideas including a front passenger seat under tray.

NEW Ignis  
INTERIOR COMFORT

Protecting you is high priority. Driver and front passenger airbags, front side airbags and ABS with EBD are standard across the range. In the event of a rear collision the front headrests move forward reducing the load on your head and neck, whilst the pedal release mechanism helps to prevent leg injuries.

What's more, standard engine immobiliser, remote central locking, deadlocks and visible VIN mean that if you have to leave your Ignis alone, you can be sure everyone else will too.
