THE LIGHTWEIGHT 4X4 THAT TAKES YOU PLACES OTHERS CAN'T

NOBODY BUT JIMNY

It's the original, rugged 4x4. Beginning with the LJ10A in 1970, the Jimny has forged a legendary reputation for being tougher than the terrain it travels. Lightweight but seriously capable, the Jimny takes you places others can't.

LOOKS BORN OF A LEGEND

The grabs attention with rugged and retro looks that take cues from its iconic past. Modern and boldly functional, it's been shaped by a strong desire to explore.

READY TO CONQUER THE WILD

Built to tackle the harshest weather and terrain, the Jimny goes where other vehicles fear to tread. Take on nature's challenges, unleash your spirit of adventure and get ready to explore.

EXTERIOR

OPTIMISED BUMPERS

All is clear for adventure. The Jimny is equipped with angled bumper edges that increase clearance at the wheels for comfortable traversing of obstacles. The moulded black material safeguards the body from stone chips and scratches.

LED HEADLAMPS WITH WASHERS

Take pride in the Jimny's heritage, symbolised by its iconic round headlamps. Washers are standard for LED headlamps, allowing confident driving in mud, dirt and snow.

PRACTICAL DRIP RAIL

Let the Jimny take you on your all-weather adventures. The drip rail keeps your head dry when entering and exiting by preventing water from dripping off the roof.

BONNET CORNERS

Stay on top of your surroundings, thanks to a bonnet that's carefully crafted to keep front corners in view for better situational awareness when navigating uneven terrain.

FOCUS ON WHAT MATTERS

With the Jimny, there's little to distract you from adventure. Its stylish black interior is humble, yet handsome, and its controls are designed for quick, easy operation. A seven inch multimedia unit integrates reversing camera, Apple CarPlay® and Android Auto™ so that you can enjoy every moment behind the wheel.

INTERIOR

INFOTAINMENT SYSTEM WITH SMARTPHONE CONNECTIVITY

(Jimny variant only) A seven inch touchscreen display enables intuitive operation of multimedia features including audio, hands-free phone and smartphone integration. By connecting your compatible iPhone via USB, Apple CarPlay® allows you to make phone calls, access your music, send and receive messages, and get directions all by voice command or a tap on the audio display. Android Auto™ puts Google Maps, Google™ Search and other Google services at the driver's fingertips in a non-distracting way.

DOWN-TO-EARTH DESIGN

Relish the sheer pleasure of simple, straightforward and sensible design. Colours are minimal. Every detail is thoughtfully and attractively crafted to support serious off-roading.

Apple CarPlay is available in the countries listed at the following link <https://www.apple.com/ios/feature-availability/#applecarplay-applecarplay> For more details including iPhone models compatible with Apple CarPlay, see: <https://www.apple.com/ios/carplay/> Apple, Apple CarPlay and iPhone are trademarks of Apple Inc., registered in the U.S. and other countries. Android Auto is available in the countries listed at the following link <https://www.android.com/auto/#hit-the-road> Android Auto connectivity requires the Android Auto app available on Google Play and an Android compatible smartphone running Android™ 5.0 Lollipop or higher. <https://support.google.com/androidauto/#6140477> Android and Android Auto are trademarks of Google LLC.

NOT LITE ON FUN OR ADVENTURE

Jimny Lite is the new, younger sibling of the much-loved flagship Jimny. We've trimmed the fat, sent it to the gym, put it on a low-carb diet, and now Jimny Lite is one mean, lean driving machine. If you ever coveted a Jimny but balked at the idea of forking out for the higher-end features, then the Jimny Lite is for you.

JIMNY LITE FEATURES

On the outside the Jimny Lite features 15" steel wheels, plastic-textured side mirror covers, black door handles, halogen projector headlights and daytime running lights.

Inside features an in-dash radio/CD player with Bluetooth connectivity, allowing your calls and music to be streamed effortlessly. Manually-operated air conditioning keeps you cool while the Jimny Lite's 5-speed manual transmission powers your daily drive like a true workhorse, just as you'd expect of the latest addition to the Jimny family.

NO LIMITS

It will take you anywhere, then bring you back again. The Jimny opens up every opportunity for adventure with the incredible 4x4 traction and powerful low-range capability of ALLGRIP PRO.

PACK FOR ADVENTURE

Whether navigating the urban jungle or exploring off the beaten track, the Jimny offers ample space and practical storage features to accommodate every need.

Note: Items are loosely placed in the rear storage area for illustrative purposes only and should be properly secured while driving.
Jimny variant shown

PROFESSIONAL TOOLS

PRACTICAL REAR STORAGE

Be packed and ready for every possibility. The thoughtfully designed rear storage area can be expanded by folding the rear seats, and the floor and seatbacks are resin-coated for easy removal of dirt. Flat all the way across, the expanded rear storage area allows crosswise storage of wide items. Screw holes provide support for optional accessories like luggage bars and utility hooks to enhance versatility and practicality.

HANDY FRONT SEAT STORAGE

Everything is within reach. Convenient pockets and trays keep your smartphone, beverages and other personal items close at hand. Nearby USB and accessory pockets also connect and power your mobile devices. A large, easy-to-grip handle provides solid support for the front passenger when entering or exiting the vehicle.

Note: personal items in the photos are shown for illustrative purposes only. Items should be properly secured while driving.

Jimny variant shown

OFF-ROAD PERFORMANCE

DEPENDABLE, ROBUST AND AUTHENTIC

Whether navigating the urban jungle or exploring off the beaten track, the Jimny offers ample space and practical storage features to accommodate every need.

'Jimny' variant shown

AMPLE BODY ANGLES AND CLEARANCE

Push outdoor exploration to the limit with an ample departure angle, ramp breakover angle, approach angle and ground clearance that lets you handle steep slopes, sharp descents and obstacles without scraping the bumpers or underbody of the Jimny.

RIGID LADDER FRAME

From the very first generation, the Jimny has always featured a ladder frame that offers a solid foundation for serious off-road performance.

3-LINK RIGID AXLE SUSPENSION WITH COIL SPRING

Settle for nothing less than full-width rigid axles in both the front and rear, which help the Jimny ensure superior grip on diverse surfaces. When an obstacle pushes one wheel up, the axle presses the other wheel down to increase tyre contact in rough road conditions.

4WD WITH LOW RANGE TRANSFER GEAR

At your command, the Jimny adapts to every situation. Shift the transfer lever to the 4L mode when the going gets tough for maximum torque and traction. On flat off-road trails and snow-covered roads, enter 4H to enjoy 4WD traction at higher speeds. Once you return to paved roads, shift to the 2H (2WD) mode for a smoother, quieter and more fuel efficient ride. Let ALLGRIP PRO satisfy your adventurous nature with its on and off-road mastery.

ALLGRIP
PRO

POWER YOUR OFF-ROAD AMBITIONS

Nothing stands in your way when driving the Jimny. It takes you wherever you want to go with unrivalled agility, precision control and powerful torque when you need it most.

PERFORMANCE

1.5L ENGINE

Feel empowered by the Jimny. Its robust 1.5L engine generates strong torque throughout a wide rpm range for powerful off-road performance. Small and lightweight, it also delivers high fuel efficiency. (Automatic transmission not available with Jimny Lite variant).

HILL HOLD CONTROL

Move upward and onward when starting on steep slopes. Even on bumpy slopes that vary on the right and left sides, this feature helps prevent rearward rolling so you can focus on controlling acceleration.

HILL DESCENT CONTROL

On tricky descents, with a push of a button, the system is designed to automatically apply the brakes and maintain a fixed speed — so you can concentrate on steering without using the brake pedal or clutch.

BRAKE LSD TRACTION CONTROL

Cover slippery ground with confidence. If two wheels diagonal from each other lose grip while you're travelling over slippery surfaces, this feature will automatically brake the slipping wheels and redistribute torque to the other two wheels, allowing the Jimny to make its escape.

SAFEGUARD YOURSELF AND OTHERS

Safety is a priority whether trekking through the wilderness or commuting in the city. The Jimny offers the protection of 6 SRS airbags and the added confidence of ESC (Electronic Stability Control) as well as the advanced features of Suzuki Safety Support[†]—offering even greater peace of mind.

SAFETY

AUTONOMOUS EMERGENCY BRAKING (AEB)[†]

When moving, the Jimny uses two sensors—a monocular camera and a laser sensor—to determine if there is a risk of collision with a forward vehicle or pedestrian.

HIGH BEAM ASSIST

(Jimny variant only) Enjoy safer, more relaxing and courteous night driving with this feature designed to automatically switch the headlights between high and low beams depending on the lighting environment and presence of other vehicles.*

*When travelling 40km/h or faster with the headlamp switch in auto position.

Note: There is a limit to the ability of the monocular camera and laser sensor to detect obstacles and lanes, and control the vehicle. Please do not rely on the system; always drive safely.
†AEB is designed to support the driver only in emergency situations. The driver remains responsible for the vehicle at all times.

WEAVING ALERT

After a long day, it helps to have some support. If the vehicle is wandering due to your drowsiness or fatigue, this system is designed to issue audio and visual warnings to keep you alert.

LANE DEPARTURE WARNING

The v helps you stay on track. Should you unintentionally stray from your lane while driving at high speed*, this feature is designed to vibrate the steering wheel and issue a visual warning to encourage safer driving.

*While travelling at approximately 60km/h or faster.

ESC (ELECTRONIC STABILITY CONTROL)

6 AIRBAGS

CONFIGURE YOUR DREAM CAR WITH SUZUKI'S CARFIGURATOR

Nothing is better than video games. Except Suzukis.

Well, with *Setup: The Game*, you can have both at the same time.

And now all the Suzukis are unlocked, so all your favourite characters are fully playable and fully buyable.

You can now design your dream Vitara, Swift, Swift Sport, Ignis, Jimny or S-Cross. Rack up points. Pick up in-game achievements. Then buy your Suzuki creation and drive it in real life.

And the best part? It's free to play.

So what are you waiting for?

Pick your Suzuki. Make it your own. Then make it really your own. By buying it.

PLAY NOW
