

ALL-NEW Jimny

Way of Life!

EXTERIOR

READY TO CONQUER THE WILD

Built to tackle the harshest weather and terrain, the all new Jimny goes where other vehicles fear to tread. Take on nature's challenges. Unleash your spirit of adventure and get ready to explore.

Optimised bumpers

All is clear for adventure, including angled bumper edges that increase clearance at the wheels for assured climbing over obstacles. Their moulded black material safeguards the body from stone chips and scratches.

Practical drip rail

Let the Jimny take you on your all-weather adventures. The drip rail can keep your head dry and your spirits bright when entering and exiting by helping to prevent water from dripping.

Bonnet corners

Stay on top of your surroundings, is carefully crafted to keep front corners in view for better situational awareness when navigating uneven terrain.

INTERIOR

STAY FOCUSED ON WHAT MATTERS MOST

In the new Jimny, there's little to distract you from driving. Its stylish black interior is humble yet handsome. And controls are designed for quick and easy operation even when wearing gloves.

Down-to-earth design
Relish the sheer pleasure of simple, straightforward and sensible design. Colours are minimal. Every detail is thoughtfully and attractively crafted to

Illuminated meter cluster
road, the meter are always illuminated for clear viewing.

The functional design complements the straightforward beauty of the interior.

DEPEND ON ROBUST AUTHENTICITY

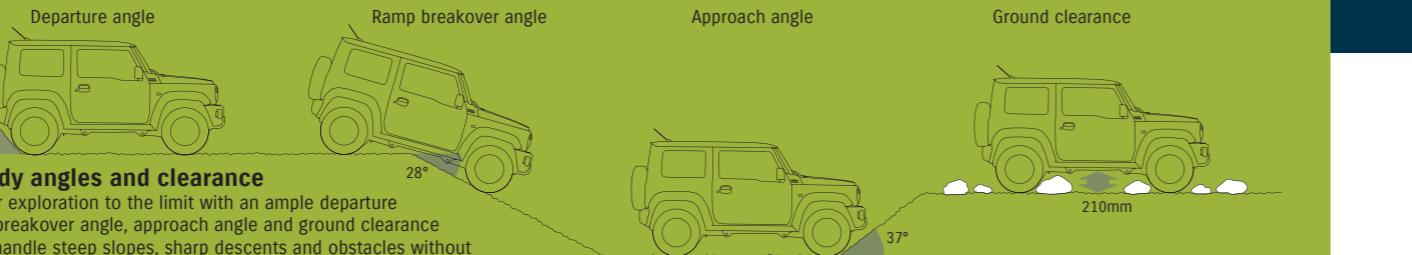

rigid axle suspensions with coil springs and 4WD with a low-range transfer gear.

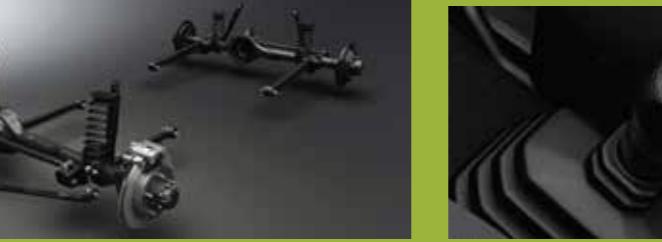

Rigid ladder frame

With a rigid ladder frame, the Jimny's body is specially designed to absorb impact in the event of a collision.

Ample body angles and clearance

Push outdoor exploration to the limit with an ample departure angle, ramp breakover angle, approach angle and ground clearance that let you handle steep slopes, sharp descents and obstacles without scraping the bumpers or underbody of the Jimny.

3-link rigid axle suspension with coil spring

Settle for nothing less than full-width rigid axles in both the front and rear, which help the Jimny ensure superior grip on diverse surfaces. When an obstacle pushes one wheel up, the axle presses the other wheel down to increase tyre contact in rough road conditions.

ALL GRIP PRO

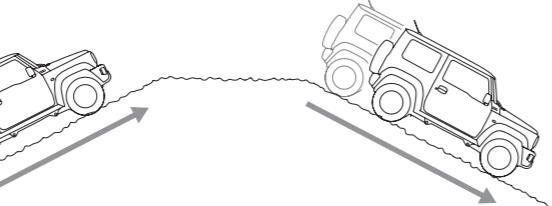

4WD with low range transfer gear

At your command, the Jimny adapts to every situation. Shift the transfer lever to the 4L mode for off-road driving on snow-covered roads, enter 4H to enjoy 4WD traction at higher speeds. Once you return to paved roads, shift to 2H for better fuel efficiency.

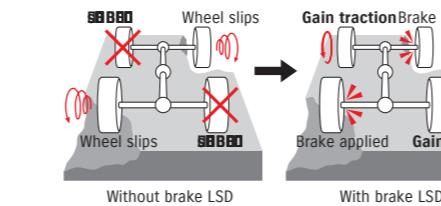

New 1.5L engine

Feel empowered in the Jimny. Its robust 1.5L engine generates strong torque and maximum torque. Small and lightweight, it also delivers

Hill Hold Control

Move upward and onward when starting on steep slopes. Even on bumpy slopes that vary on the right and left sides, this feature helps prevent rearward rolling so you can focus on controlling acceleration.

Hill Descent Control

On tricky descents, with a push of a button, the system is designed to automatically apply the brakes to each wheel to prevent the wheels from losing grip while you're travelling over slippery surfaces. This feature is designed to automatically brake the slipping wheels, allowing the Jimny to make its escape.

Brake LSD Traction Control

When the wheels diagonal from each other lose grip while you're travelling over slippery surfaces, this feature automatically concentrates on steering without using the brake pedal or clutch.

SAFEGUARD YOURSELF AND OTHERS

Safety is a priority whether trekking through the wilderness or commuting in the city.

Thanks to Suzuki's safety technology, you can always drive with peace of mind.

SRS airbag system for collision safety

availing 40km/h or faster with the headlight switch in auto position.

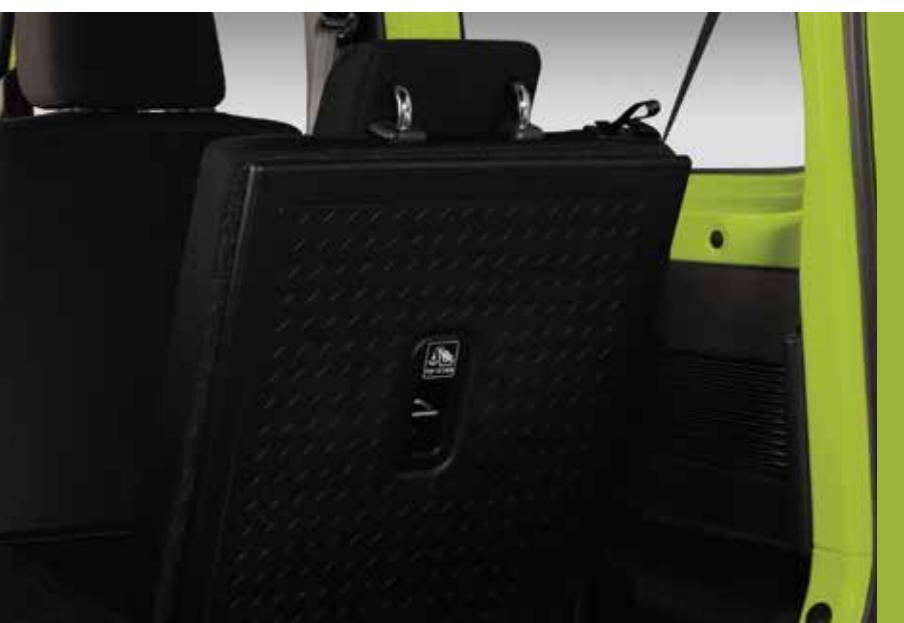

Injury mitigation body for pedestrian safety

In the unfortunate event of a collision with a pedestrian, head and leg injuries are mitigated by a bonnet and surrounding parts that are designed to absorb impact.

1. Impact-absorbing wipers
2. Impact-absorbing cowl top
3. Impact-absorbing bonnet hinges

4. Impact-absorbing fenders
5. Impact-absorbing bonnet
6. Impact-absorbing front bumper

LARGE CARGO SPACE

The new Jimny comes with foldable back seats that allows for extra cargo space on your adventures. Be it camping gear or travel luggage, there is ample room for it all.

Adjust according to your needs

You can choose to fold both seats for maximum space or just one if there is a passenger.

Based on Suzuki's T-EC concept, the Jimny's body is specially designed to absorb impact in the event of a collision.

Electronic Stability Program

Electronic Stability Program helps the driver stay in control of the vehicle by preventing wheel slippage and helping the driver stay in control of the vehicle.

ESP is a registered trademark of Daimler AG. Please refer to the Owner's Manual for availability.

Front wheel slippage

Front wheel slippage
Without ESP: Engine torque reduced, Braking force.
With ESP: Engine torque reduced, Braking force.

Rear wheel slippage

Rear wheel slippage
Without ESP: Without ESP: Braking force.
With ESP: With ESP: Braking force.
