LIVE IT UP IN EVERY WAY

Wide cabin for all your friends and ample luggage space for a weekend getaway, there is enough room for all. Further, an air conditioner adds comfort and the new generation display audio connects to excitement. Comfortable, convenient and entertaining features transform everyday drives into fun filled moments.

Storage utility

Convenience is assured for you, thanks to multiple storage spaces for all your different items.

Glove box

Front console tray
& drink holder

Front door pocket
& bottle holder

Rear door pocket
& bottle holder

Air conditioner

12V accessory socket

Air conditioner vent

Speedometer

**LIVE BIG
EVERY MOMENT**

PERFORMANCE THAT LEAVE A BIG IMPRESSION

The engine is the perfect reflection of your spirit, providing a lively and invigorated drive while ensuring the best fuel-efficiency so you can drive your style anywhere you want.

1.0L DUALJET engine

The 1.0L DUALJET engine lets you get the best out of every drive. It delivers comprehensive advantages in thermal efficiency resulting from a better compression ratio, dual injection system and friction reduction, realising a high-level of balanced dynamic performance and fuel efficiency.

MORE SAFETY FOR MORE FUN

Engine Auto Stop Start system (EASS)

EASS system automatically stops the engine when you stop the car, for example while you wait for the traffic lights to change. This prevents unnecessary fuel consumption and helps limit exhaust emissions and engine noise.

*Operation of Engine Auto Stop Start system requires certain conditions to be met.

ESP®

ESP® detects wheel slip, for instance when you turn the steering wheel sharply and/or the road is slippery, it automatically affects control over the engine torque and brakes to suppress the wheel slip and helps you stay in directional control.

ABS

In an emergency braking situation, the Anti-lock Braking System (ABS) keeps tyres from locking up and helps you maintain steering ability.

Dual Airbag

Hill hold control

Hill hold control is designed to prevent the vehicle from rolling backwards when you restart the car on a slope. It engages the brakes for up to two seconds after you remove pressure from the brake pedal to depress the accelerator.

Rear parking sensors

Ultrasonic sensors in the rear bumper detect obstacles while the driver is reversing the car. Warning sounds help keep the driver informed of the distance to the obstacle.

MAJOR EQUIPMENT

CHASSIS					
Tyres and wheels	165/70R14 + steel wheels with full wheel cover	S	Audio Antenna	Antenna	S
Spare tyre and wheel	165/70R14 + steel wheels	S		Front speakers	2
