

2004

ACURA

— MDX —

TAKE THE ADVANCED ROUTE

The Acura MDX is lauded as one of the most advanced luxury sport-utility vehicles on the planet. And with the enhancements we've added for 2004, it's even more so. To begin with, the evolved V6 engine now boasts 265 horsepower to awaken the senses, while Acura's legendary VTM-4 four-wheel drive system allows you to take this power virtually anywhere. It even looks

more powerful, thanks to its aggressive new exterior styling. Then there's the state-of-the-art interior. Innovative side curtain airbags now offer even more peace of mind. And for your enjoyment, Acura's DVD Entertainment and sophisticated Navigation Systems are available as an option package. Take the wheel of the MDX today. There's no better way to advance.

FEATURES

- 3.5-Litre, 24-Valve, SOHC, VTEC 6-Cylinder Engine

- 17-Inch Alloy Wheels with All-Season 235/65R17 Tires
- Dual-Stage Front Airbags, Side Airbags and Side Curtain Airbags

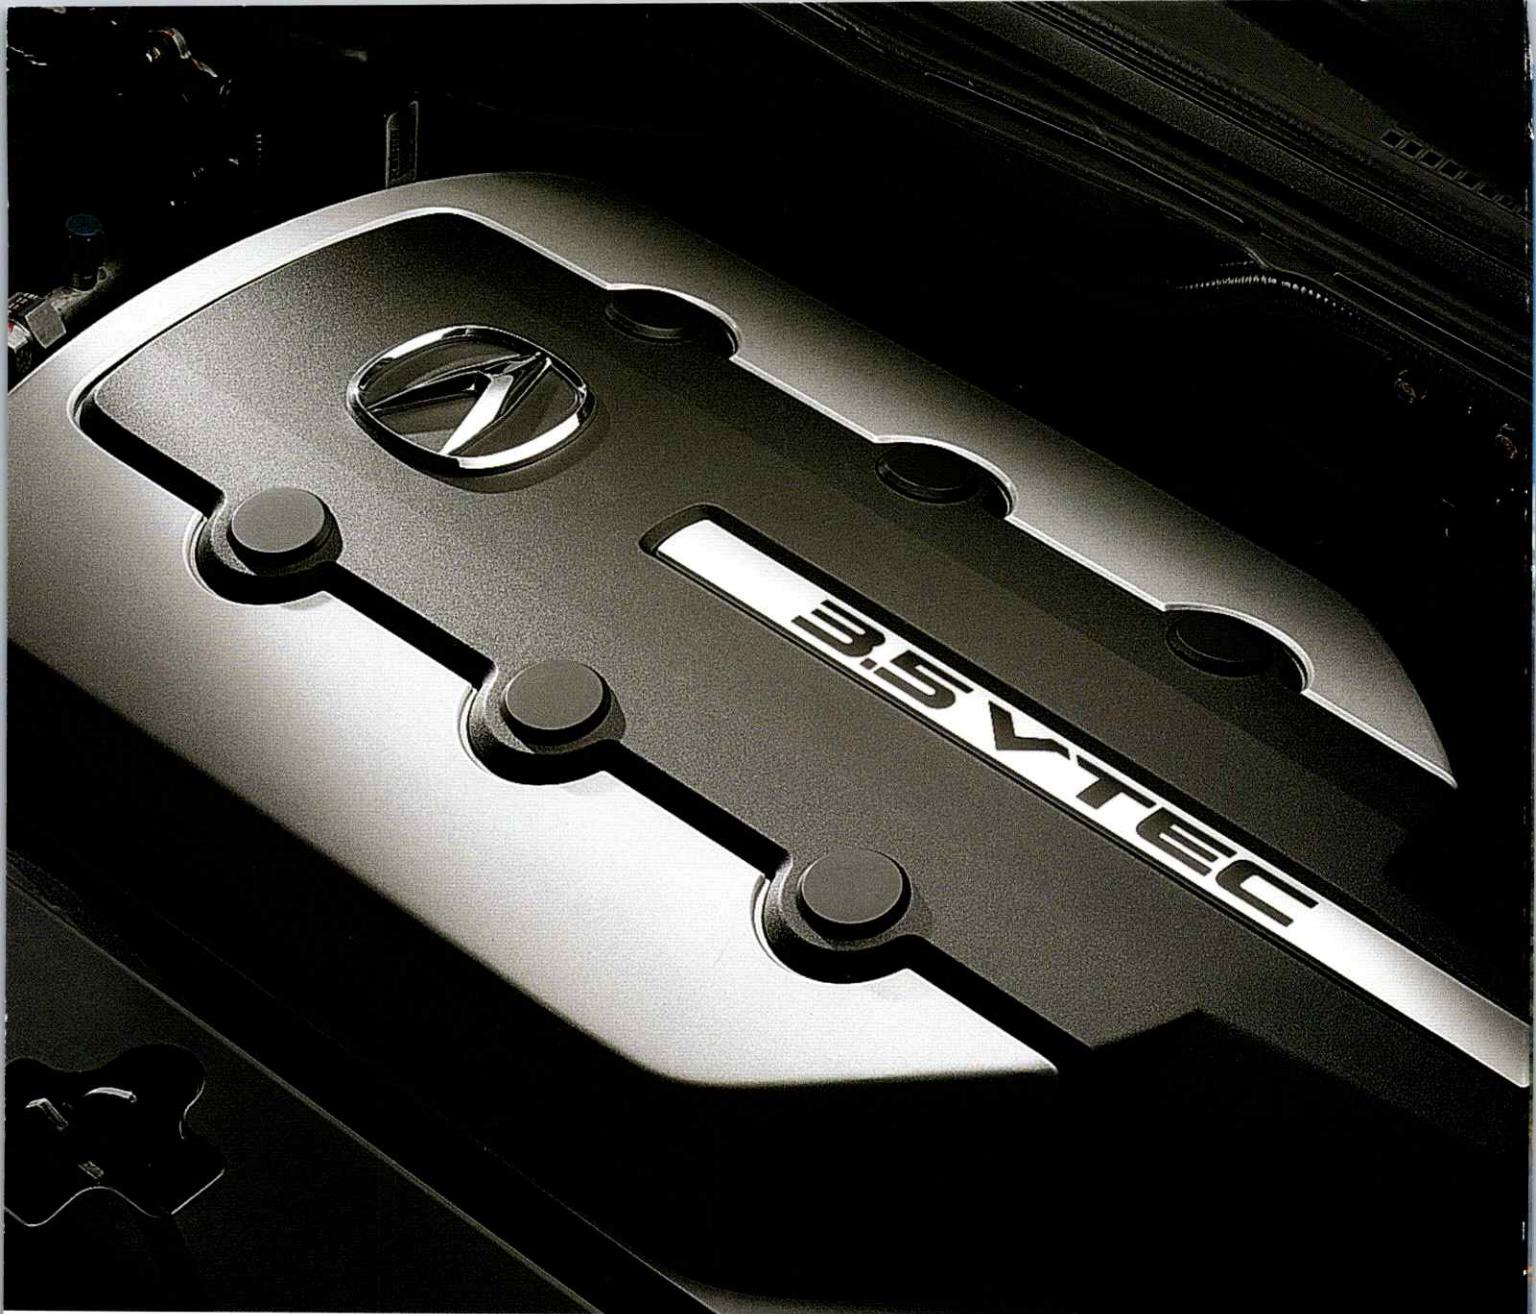

U.S. Model shown.

① In the event of a sufficient side impact or imminent rollover, the MDX deploys a side curtain airbag. The system is programmed to inflate appropriately if it detects any of three distinct rollover scenarios, providing added head protection for all three rows.

② The Acura Navigation System can pinpoint your location almost anywhere in North America and provides clear turn-by-turn directions to your destination. You can ask the system to show you the most direct route, or one that avoids highways. If traffic or roadwork delays your trip, you can get an alternate route in seconds.

③ The Acura DVD Rear Entertainment System will keep your second- and third-row passengers amused for hours. They can view movies on DVD, listen to music CDs or play video games displayed on the flip-down 7" colour screen.
