

RDX

ACURA 2007

Power comes from
more than horses

Introducing the all-new Acura RDX. Your technologically advanced connection to a world of satellite-linked navigation, voice-activated intelligence, and turbocharged urban versatility has arrived.

HANDSFREELINK™ AND BLUETOOTH® ENABLED TECHNOLOGY*

Program and link your Bluetooth enabled wireless device to the HandsFreeLink telephone interface to make, receive and transfer calls from your phone without interruption, or having to remove your hands from the steering wheel. Just say the word – and providing your programmed mobile device is located inside the RDX cabin – calling numbers will be displayed, your phone will respond to voice activation and you will hear the caller's voice over the RDX's audio system. What's more, the system operates in English or French, and is capable of seamlessly integrating up to six different compatible devices, turning your RDX into a veritable hub of connectivity.

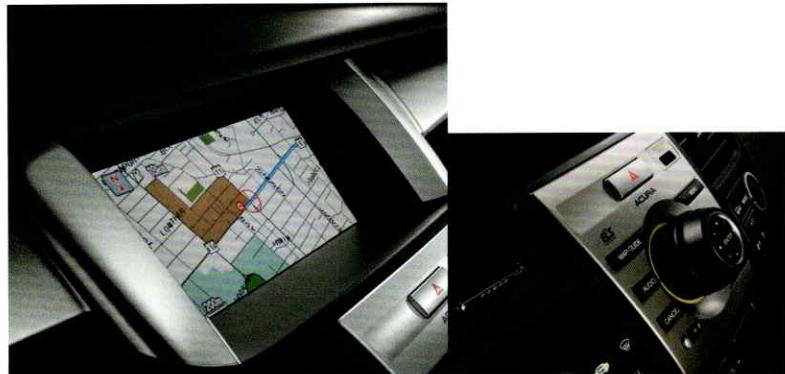

VOICE-ACTIVATED SATELLITE-LINKED NAVIGATION*

Choose your own urban adventure. Utilizing satellite-linked GPS technology, the RDX can pinpoint your location almost anywhere in North America or access its search directory to help you find directions to those hard-to-find places. The system is equipped with bilingual voice recognition software, and features real-time directions by voice or guiding map display. Simply ask the system to show you the most direct route to your destination, offer an alternate route or, with the Zagat Survey Ratings®, help you find a restaurant based on your choice of cuisine.

ELS PREMIUM 10-SPEAKER SURROUND™ SOUND SYSTEM*

How does 410 watts of power sound? Ten strategically positioned speakers enable the ELS Surround Sound system with DVD-Audio Pro Logic II to deliver a phenomenal 5.1 digital sound experience to all occupants. Plus, the RDX soundscape marks the introduction of the first automotive production digital signal processing amplifier, an 8-inch Super Low Distortion subwoofer and a new 1.5-inch soft dome tweeter, allowing an incredible boost of rich tones and silky high-frequency sound to fill the cabin.

The power to rule your world

Introducing cloud 10

URBAN VERSATILITY

From golf clubs to nightclubs, flexible seating configurations make the RDX perfectly suited for any adventure. Featuring a rear hatch for easy stow and storage, a spacious double deck cargo area and second row 60/40 fold-flat seating, there's more than enough room for you and your ever-changing lifestyle.

SMART, SECURE STORAGE

In a city that never sleeps, the unique RDX centre console offers an intelligent solution for keeping your valuables and everyday items out of sight and safely locked away. The multiple level console features a versatile 12.4-litre mode for laptops and handbags, a smart dual mode for smaller items, and a cavernous full mode for briefcases. And if that's still not sufficient, there's a lockable glove compartment too.

SPORTY LEATHER SEATS

Add a form-fitting degree of comfort to your cornering. Tightly bolstered sport seats with perforated leather trim yield a modern, sophisticated look and feel inside the cabin. Adding to the experience – heated front seats and an 8-way power-adjustable driver's seat with power-adjustable lumbar support lend an even greater measure of comfort to your driving pleasure.

A glimpse is worth a thousand words

A transition in power
has begun

The all-new 2.3-litre i-VTEC® turbocharged engine rewards you with the power of advanced technology, superior fuel efficiency and an immediate rush.

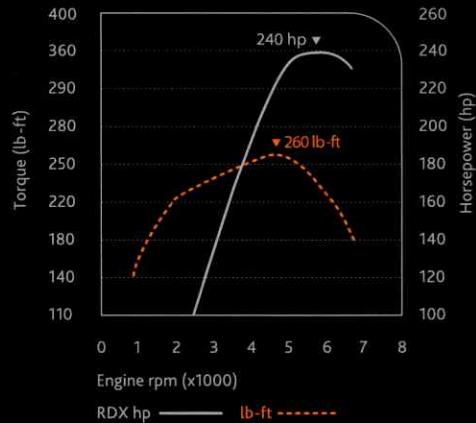

Some promise the future RDX drives it

2.3-LITRE DOHC i-VTEC TURBO

All-aluminum and all-powerful, the revolutionary 2.3-litre DOHC i-VTEC® four-cylinder turbocharged engine spoils you with the certainty and power of a V-6 from a more fuel-efficient four-cylinder engine. What's more, a lighter engine creates a lower centre of gravity, resulting in greater stability and driving manoeuvrability. Proof that higher power and excellent fuel efficiency can coexist without sacrificing driving performance.

HORSEPOWER AND TORQUE

Generating 240 horsepower and 260 lb.-ft. of torque, the 2.3-litre i-VTEC engine enables you to conquer even the busiest concrete jungle with amazingly high torque output at low speeds and thrilling acceleration at a wide range of higher speeds. It all adds up to a phenomenally sporty driving experience, quicker response than anything in its class, and a grin on your face two city blocks wide.

VARIABLE FLOW TURBO (VFT)

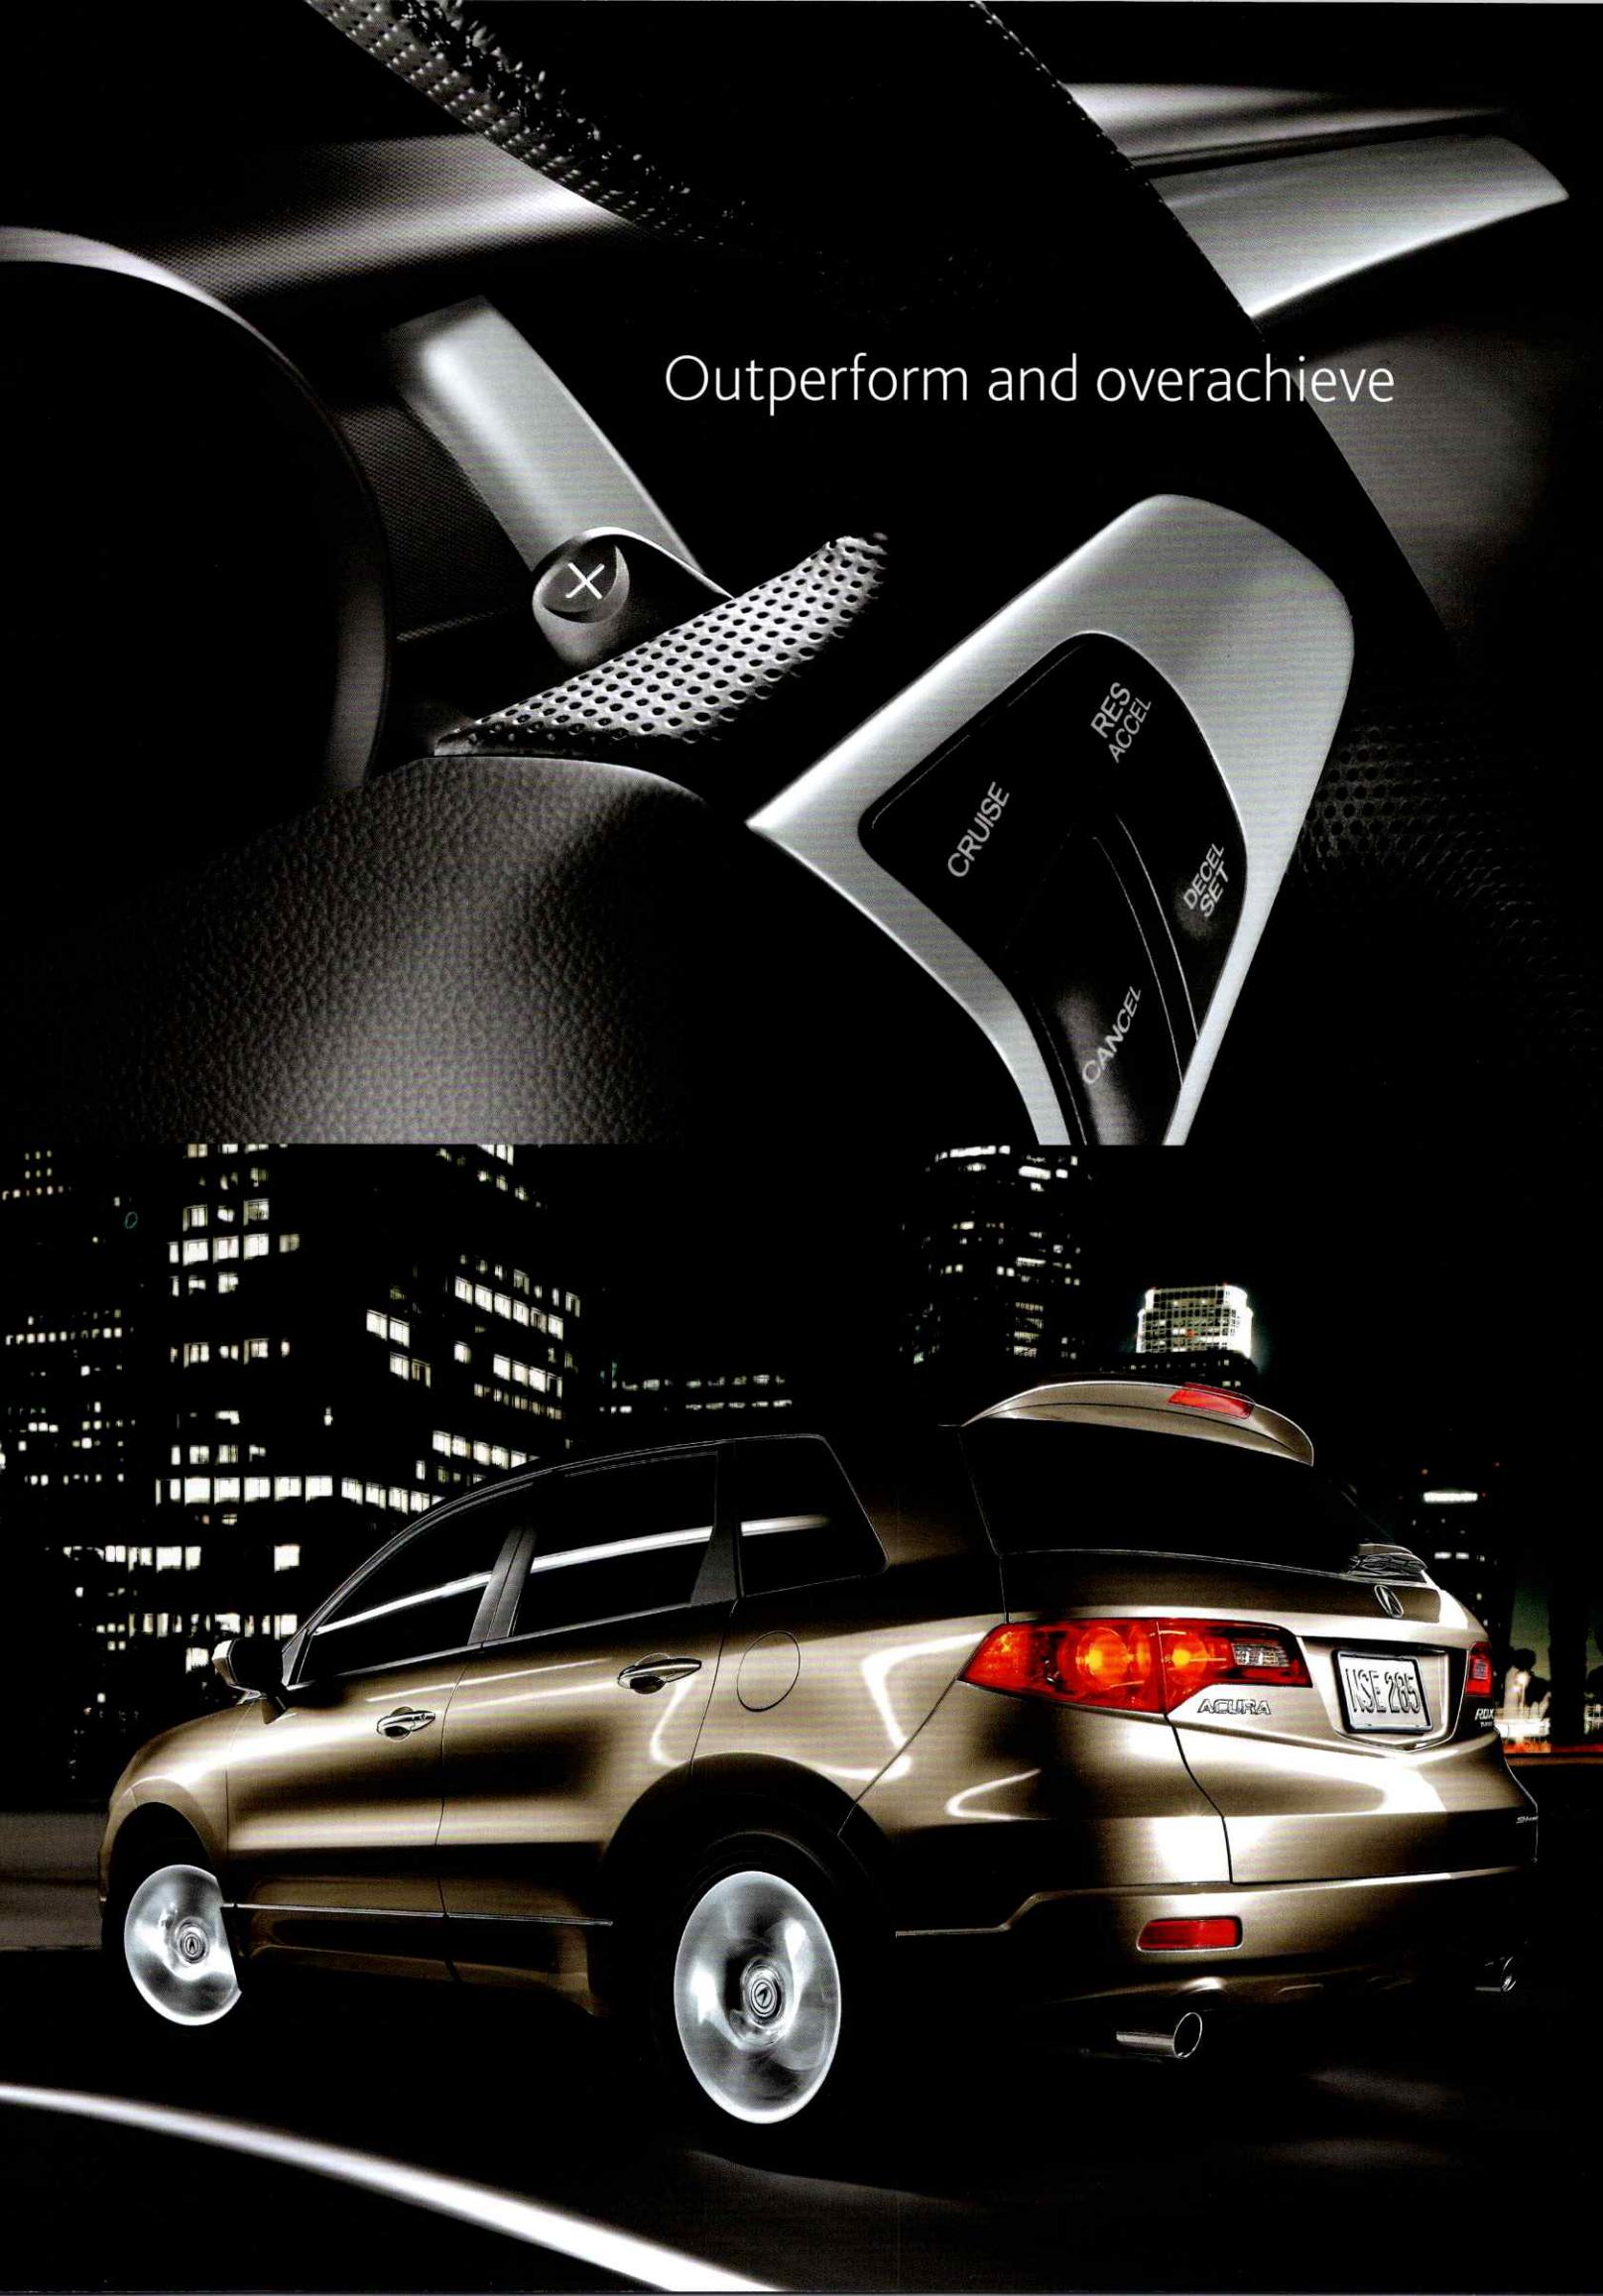

Exclusive to the RDX and a first in Acura's history, the breakthrough i-VTEC turbo engine utilizes Variable Flow Turbo technology to deliver plenty of torque at low engine speeds and eliminate turbo lag. Through forced induction and a constant variable exhaust valve, VFT keeps the exhaust velocity high, enabling instantaneous acceleration while still maintaining excellent fuel efficiency. Turbo reliability is achieved by circulating cool water throughout the engine so critical areas are kept cool even when the engine is stopped.

INTERCOOLER

Another unique achievement for Acura is the intercooler system, specifically developed to enhance the performance and combustion efficiency of the 2.3-litre i-VTEC turbocharged engine. Since compressing intake air makes it hotter, outside air is drawn through the intercooler to increase engine air density and enhance the combustion process.

DUAL-EXHAUST

At first sight, the RDX's large diameter, dual-outlet exhaust hints at an engine enriched with confident athletic attitude. And then hearing the throaty sound confirms it, there's a new player in town – you.

Outperform and overachieve

CRUISE

RES
ACCEL

DECEL
SEL

CANCEL

PADDLE SHIFTERS

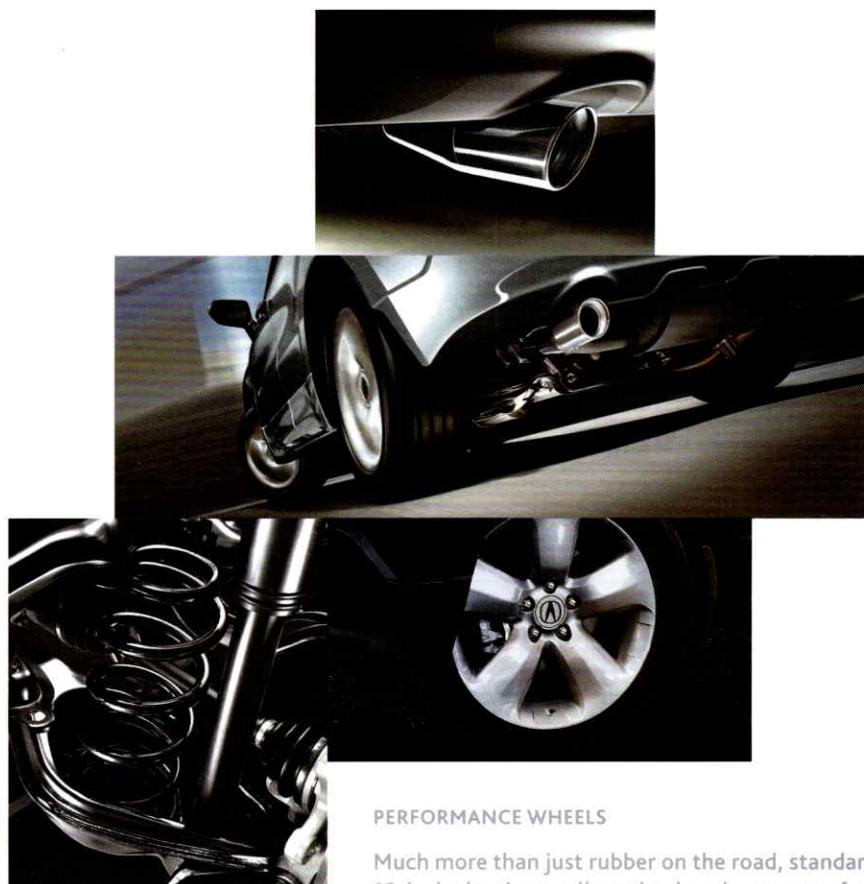

Experience the thrill of Formula One™ race-inspired performance and control with the touch of your finger. Mounted just behind the sporty leather-wrapped steering wheel, you'll find paddle shifting transmission control designed to add that extra boost of excitement to an already exhilarating 5-speed automatic.

SUSPENSION

The RDX's fully independent front and rear suspension provides exceptional handling normally experienced in a performance sports sedan. With front strut suspension enhancing ride comfort and rear double-wishbone suspension adding extra cornering stability, you'll feel Acura's signature precision come to life on any street.

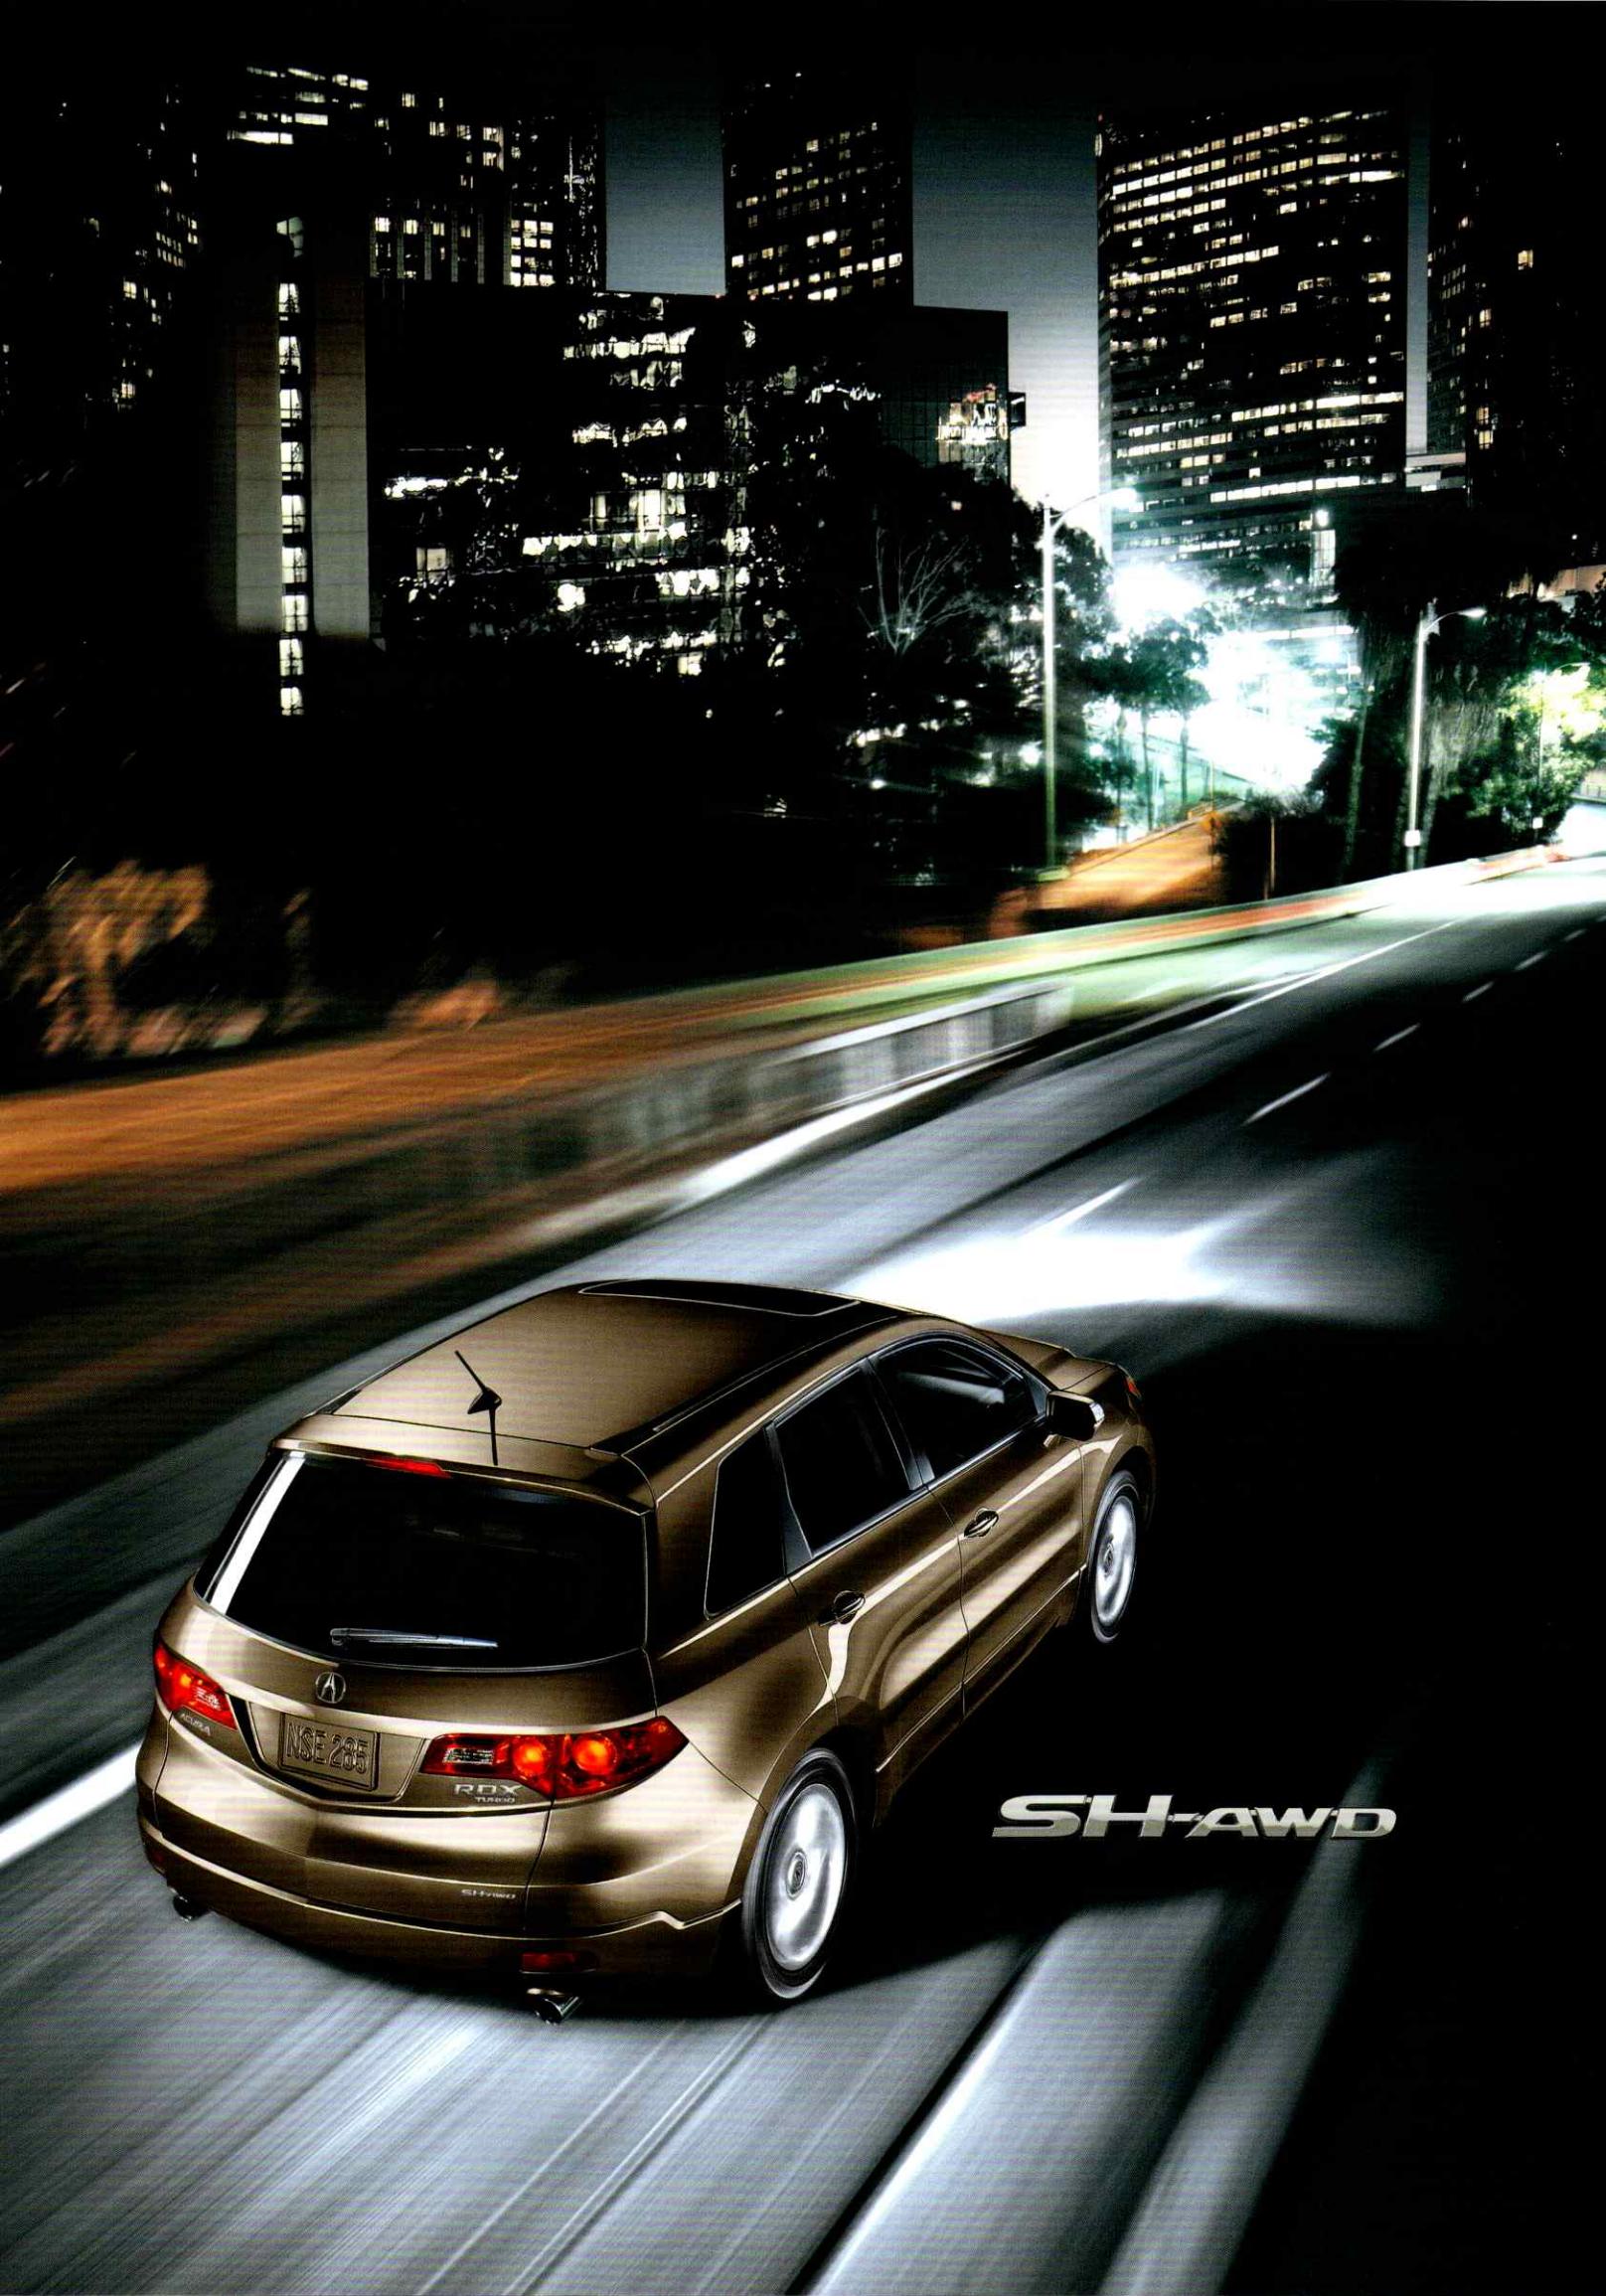

STOPPING POWER

City traffic can have a mind of its own, and that's where the RDX's remarkably intelligent braking system with 4-wheel disc brakes, Anti-lock Braking System (ABS) and Electronic Brake Distribution (EBD) is best put to use. The Anti-lock Braking System helps you maintain steering control when hard braking is required, while Electronic Brake Distribution helps optimize braking force at each wheel to compensate for weight distribution inside the cabin.

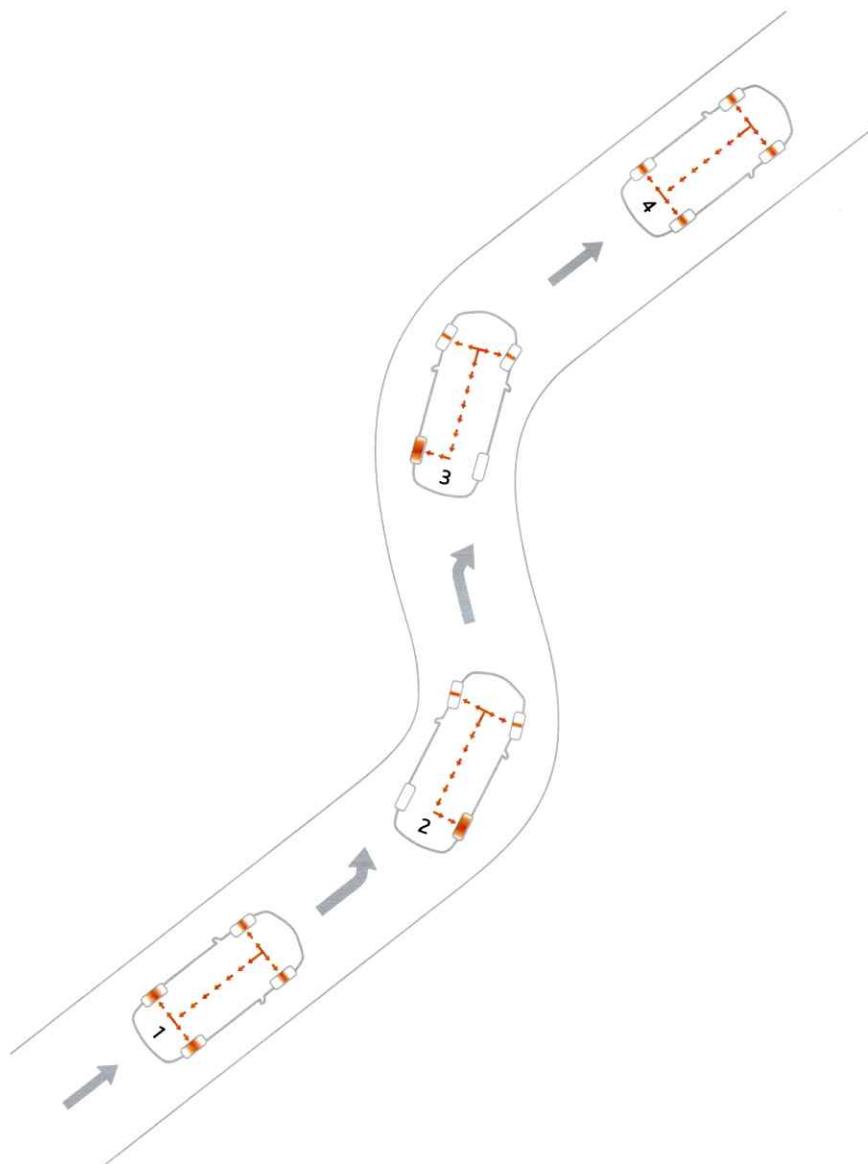

PERFORMANCE WHEELS

Much more than just rubber on the road, standard 18-inch aluminum-alloy wheels enhance your feel for the street and reinforce the RDX's prominent urban style and performance aesthetic.

SH-AWD

The closest anyone has come to reinventing the wheel:
The groundbreaking Acura Super Handling All-Wheel Drive™
system. The world's most advanced all-wheel drive technology,
fine-tuned for the RDX, helps you gain more traction in less
than perfect conditions, and gives you the confidence to carve
precision corners in every other condition.

1. DURING STRAIGHT-LINE ACCELERATION

The groundbreaking SH-AWD™ system offers dramatically enhanced traction, control and acceleration in all weather or loose road conditions. Accelerate and the system directs up to 45% of the engine's torque to the rear wheels to, in turn, deliver full power to the ground.

2. DURING A MODERATE CORNER

SH-AWD delivers a remarkably neutral steering feel as the rear wheels help generate cornering power. Electronic sensors monitor the speed and tightness of the turn, and automatically varies torque to the outside cornering rear wheel, resulting in enhanced stability and driver control.

3. DURING ACCELERATION THROUGH A CORNER

Here, the advanced SH-AWD technology stands alone. Like no other system, the outside cornering wheel gets up to 100% of the rear wheel torque and is accelerated to rotate faster than the inside cornering wheel, providing greater turning force and an incredibly stable corner line.

4. DURING STRAIGHT-LINE CRUISING

SH-AWD's sophisticated electronic controls automatically monitor road conditions and alternate torque from front to rear, as well as splitting rear wheel torque from left to right. The end result is a continuously smooth, stable ride in poor weather or road conditions.

The Acura "Safety Through Innovation" philosophy is the idea that an enhanced driving experience starts with the most advanced safety features. The proof is in the comprehensive standard driver and passenger safety measures and exceptional technologies in all Acura vehicles.

AIRBAGS

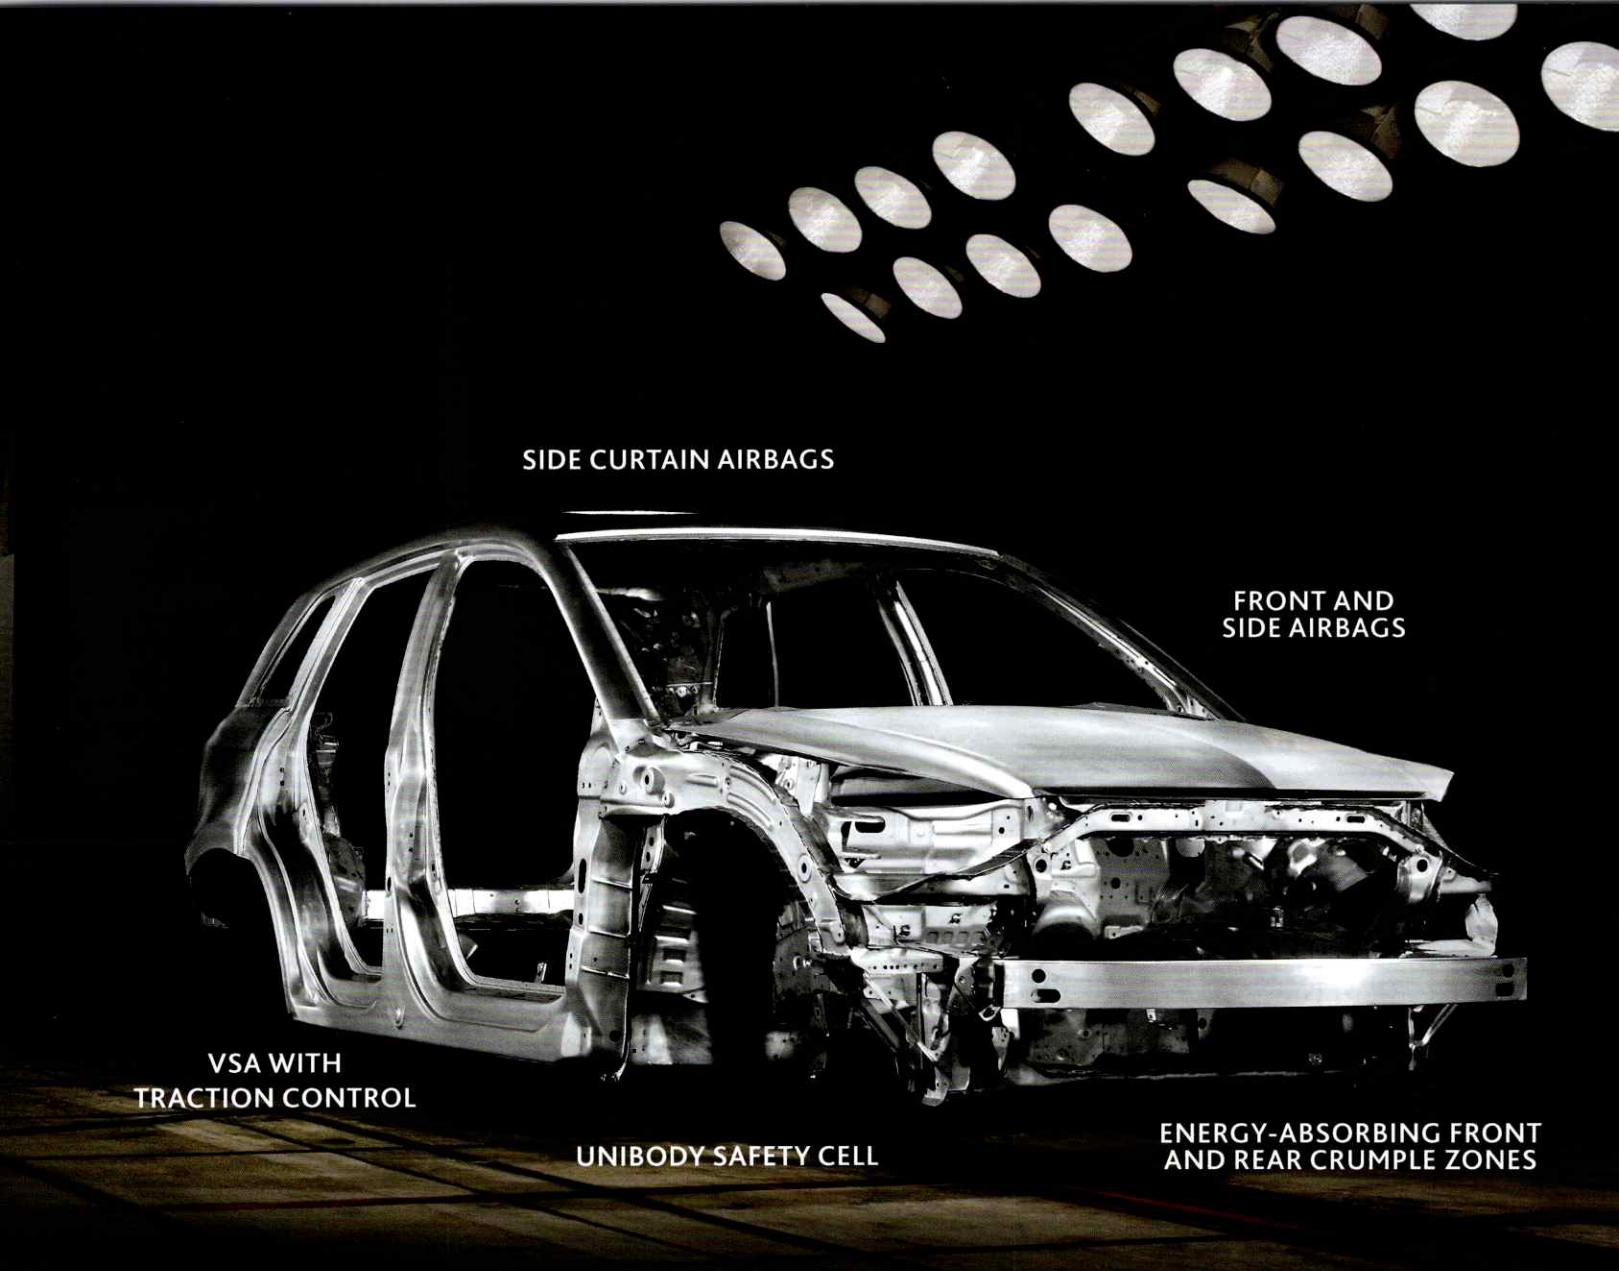

Maximum safety is achieved with six airbags designed to protect all occupants inside the cabin. Depending on the point and force of impact, the RDX will deploy: dual-stage, dual-threshold front airbags that activate at one of two rates depending on severity of impact; front side airbags with the innovative passenger-side Occupant Position Detection System (OPDS) that will not release if the system detects a child or small sized passenger; and side curtain airbags with state-of-the-art rollover sensors. Plus, for the driver and passenger, Active Head Restraints provide excellent neck protection in case of rear impact.

ABS

The Anti-lock Braking System (ABS) helps maintain steering control when braking hard on wet, slippery or loose surfaces, while Electronic Brake Distribution (EBD) balances braking forces at each wheel to help compensate for cargo and passenger weight distribution inside the cabin. Plus, there's a Brake Assist feature that senses a panic stop and applies maximum braking power to help you stop quickly.

TIRE PRESSURE

Correct tire pressure is critical to safety, performance, and fuel efficiency. Enter the RDX's innovative Tire Pressure Monitoring System (TPMS) that continually monitors the air pressure in each tire. If pressure drops in any of your tires, a transponder attached to the wheel's valve stem transmits the information to a receiver and a warning appears on your instrument panel indicating which tire requires attention.

REARVIEW CAMERA

Featured in the RDX Technology Package, the rearview camera shows a colour image on the navigation-system screen of the area directly behind the vehicle. Even if the navigation system is turned off, the camera is activated automatically when you engage reverse, giving you a clear picture of what is behind you.

SOLID STRUCTURE

The innovative Advanced Compatibility Engineering™ (ACE™) body structure adopts a high-tensile, high-efficiency steel body structure to provide enhanced protection from multi-directional collision. ACE reduces the concentrated force of a frontal impact by absorbing energy over a large area and dispersing it away from you and other occupants of the cabin area. Additionally, ACE is designed to help reduce occupant injuries caused by misalignment in collisions between vehicles of different sizes.

STABILITY AND TRACTION

The advanced Vehicle Stability Assist (VSA[®]) system with Traction Control will automatically detect and correct understeer or oversteer situations, sometimes before you're even aware there's a problem. The system intuitively analyses the conditions and then reduces throttle and/or applies braking to individual wheels. Should a loss of traction occur on a slippery surface, Traction Control will compensate to get you under way safely.

HIGH-INTENSITY DISCHARGE (HID) HEADLIGHTS

Light up more than just your nightlife with high-power HID headlights. Producing an intensely brilliant beam of focused light, HID headlights enhance your ability to identify what's ahead, and what to avoid.

SPECIFICATIONS

ENGINE

Engine	2.3L, 16-valve, DOHC i-VTEC® Turbo 4-cylinder
Displacement	2300 cc
Horsepower	240 hp @ 6000 rpm
Torque	260 lb.-ft. @ 4500 rpm
Redline	6800 rpm
Emissions	Tier 2 Bin 5
Bore and stroke	86 mm x 99 mm
Ni-P cylinder liners	
Variable Flow Turbo	
Intercooler	
Multi-Point Programmed Fuel Injection system	
Premium unleaded fuel	

DRIVETRAIN

5-speed automatic transmission with Sequential SportShift® paddle-shifters and Grade Logic Control
Automatic transmission cooler
Drive-by-Wire Throttle System™
Super Handling All-Wheel Drive™ (SH-AWD™)

CHASSIS

All-season tires P235/55R18
Front stabilizer bar: 21 mm
Rear stabilizer bar: 19 mm
18" aluminum-alloy wheels
MacPherson strut front suspension
Rear trailing arm type double-wishbone suspension
Power-assisted rack-and-pinion steering
Power-assisted ventilated front disc brakes
Power-assisted solid rear disc brakes

SAFETY

Vehicle Stability Assist (VSA®) with Traction Control
Dual-stage, dual-threshold front airbags (SRS)
Front side airbags with passenger-side Occupant Position Detection System (OPDS)
Side curtain airbags
4-wheel Anti-lock Braking System (ABS) with Electronic Brake Distribution (EBD)
Advanced Compatibility Engineering™ (ACE™) body structure
Active front seat head restraints
3-point seat belts with front pretensioners
3-point rear centre seat belt
Brake Assist
Child-proof rear door locks
Immobilizer Theft-Deterrent System
Lower Anchors and Tethers for Children (LATCH)
Tire Pressure Monitoring System (TPMS) with location indicator

EXTERIOR

Body-coloured bumpers
Body-coloured door mirrors
Chip-resistant lower body panels
Chrome door handles
Fog lights
Folding door mirrors with integrated turn indicators
Front and rear splash guards
Heated door mirrors
High-Intensity Discharge (HID) headlights
Intermittent rear window wiper/washer
Lift-up tailgate
Power door mirrors
Power moonroof with tilt feature
Rear window defroster
Tinted glass

SEATING & TRIM

60/40 split fold-down rear seatback
Driver's seat with 8-way power adjustment and power adjustable lumbar support
Floor mats
Fold-down rear seat centre armrest
Heated front seats
Leather-trimmed seats
Passenger's seat with 4-way manual adjustment

CAPACITIES

Cargo volume (seats up)	788 litres
Passenger volume	2871 litres
Windshield washer fluid tank	4.5 litres
Fuel tank	68 litres

FUEL ECONOMY

City	12.5 litres/100km
Highway	9.3 litres/100km

COMFORT AND CONVENIENCE

- 12-volt power outlets (2)
- Ambient cabin lighting
- Dual-zone automatic climate control with air-filtration system
- Auto-off headlights
- Digital odometer
- Digital fuel-mileage indicator
- Digital trip meter
- Driver's and front passenger's illuminated vanity mirrors
- Exterior temperature indicator
- Flip open door pockets
- Foot operated parking brake
- Courtesy lights
- Front beverage holders
- Glove-compartment light
- Hard cargo cover lid
- HomeLink® remote system
- Illuminated cargo compartment
- Lockable briefcase storage in centre armrest console
- Maintenance Minder system
- Map lights
- Power windows with auto-up/down driver's window
- Rear door pockets
- Rear-seat centre armrest with integrated beverage holders
- Rear-seat heater ducts
- Remote entry system
- Remote fuel filler door release
- Seat-belt warning chime
- Steering wheel-mounted audio controls
- Steering wheel-mounted cruise controls
- Tilt and telescoping steering column
- Variable intermittent windshield wipers
- Washer level sensor

ENTERTAINMENT

- 360-watt AM/FM 6-disc in-dash CD changer audio system with 7 speakers
- Anti-theft audio feature
- MP3/auxiliary input jack

Homelink® is a registered trademark of Johnson Controls.™

TECHNOLOGY PACKAGE

- Acura Satellite-Linked Navigation System with bilingual Voice Recognition™, off-road tracking, rearview camera and steering wheel-mounted controls
- HandsFreeLink™ - Bluetooth® wireless telephone interface with steering wheel-mounted controls
- 410-watt Acura/ELS Surround™ AM/FM/6-disc in-dash CD changer premium audio system with 10 speakers, DVD-Audio, MP3, WMA and Dolby Pro Logic II®
- Multi-Information Display

EXTERIOR DIMENSIONS

Wheelbase	2650 mm
Track – front/rear	1572/1590 mm
Length	4590 mm
Width	1870 mm
Height	1655 mm
Ground clearance	158.7 mm
Curb Weight (Technology Package)	1782 kg 1787 kg
Steering turns lock-to-lock	2.76
Turning diameter	5.97 m

INTERIOR DIMENSIONS

Headroom – front/rear	982/972 mm
Hiproom – front/rear	1383/1347 mm
Legroom – front/rear	1062/957 mm
Shoulder room	1479/1430 mm

ACCESSORIES

Remote engine starter system
Performance 19" alloy wheels
Performance front skirt
Performance rear diffuser
All-weather floor mats
Body side moulding (body-coloured)
Cargo tray
Running boards
Roof rack
Back-up sensor (body-coloured)
Bike attachment
Ski attachment
Trailer hitch with harness (class 1)
Full nose mask
Moonroof visor
Shift knob
Engine block heater
Cargo organizer
Locking wheel nuts

The Acura Experience. At Acura, we believe owning a luxury vehicle goes well beyond the engineering and amenities. That's why we are equally committed to making your ownership experience a luxurious one. So, every new Acura comes with: 24-hour Roadside Assistance for the first four years of ownership, which includes our Dispatch Emergency Roadside Service, Emergency Lockout Service, Traffic Accident Services and more. Complimentary tank of gas at time of delivery. See your Acura retailer for details.

WARRANTY

Your new Acura vehicle comes with the following warranties: • Major Component – 5-year/100,000-km limited warranty • Vehicle – 4-year/80,000-km Distributor's limited warranty • Rust Perforation – 5-year unlimited-distance warranty • Surface Corrosion – 4-year/80,000-km • Accessories – 4-year/80,000-km limited warranty (when installed by an authorized Acura retailer at time of new vehicle delivery). Regular maintenance items and parts are subject to normal wear and replacement, and are not covered by warranty. Certain other items are excluded, and certain conditions apply. See your Acura retailer for complete details.

ACURA PLUS

As a new Acura owner, you can help to prolong your worry-free ownership experience by purchasing additional coverage. Just choose from our flexible selection of Mechanical Coverage that extends up to 7 years or 160,000 km, whichever comes first. You can also extend your Roadside Assistance. Ask your Acura retailer for full details.

LEASING AND FINANCING

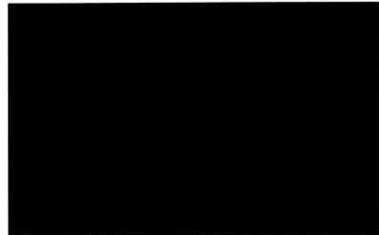

We offer an array of options to make owning an Acura easy. Ask your Acura retailer for complete details on: Acura Leadership Leasing*, Acura Future Value Financing* and Conventional Financing*.

*A genuine service of Honda Canada Finance Inc. Conditions, restrictions and pre-payment requirements might apply. O.A.C. "Acura Future Value Financing" does not apply in the province of Quebec.
