

TL

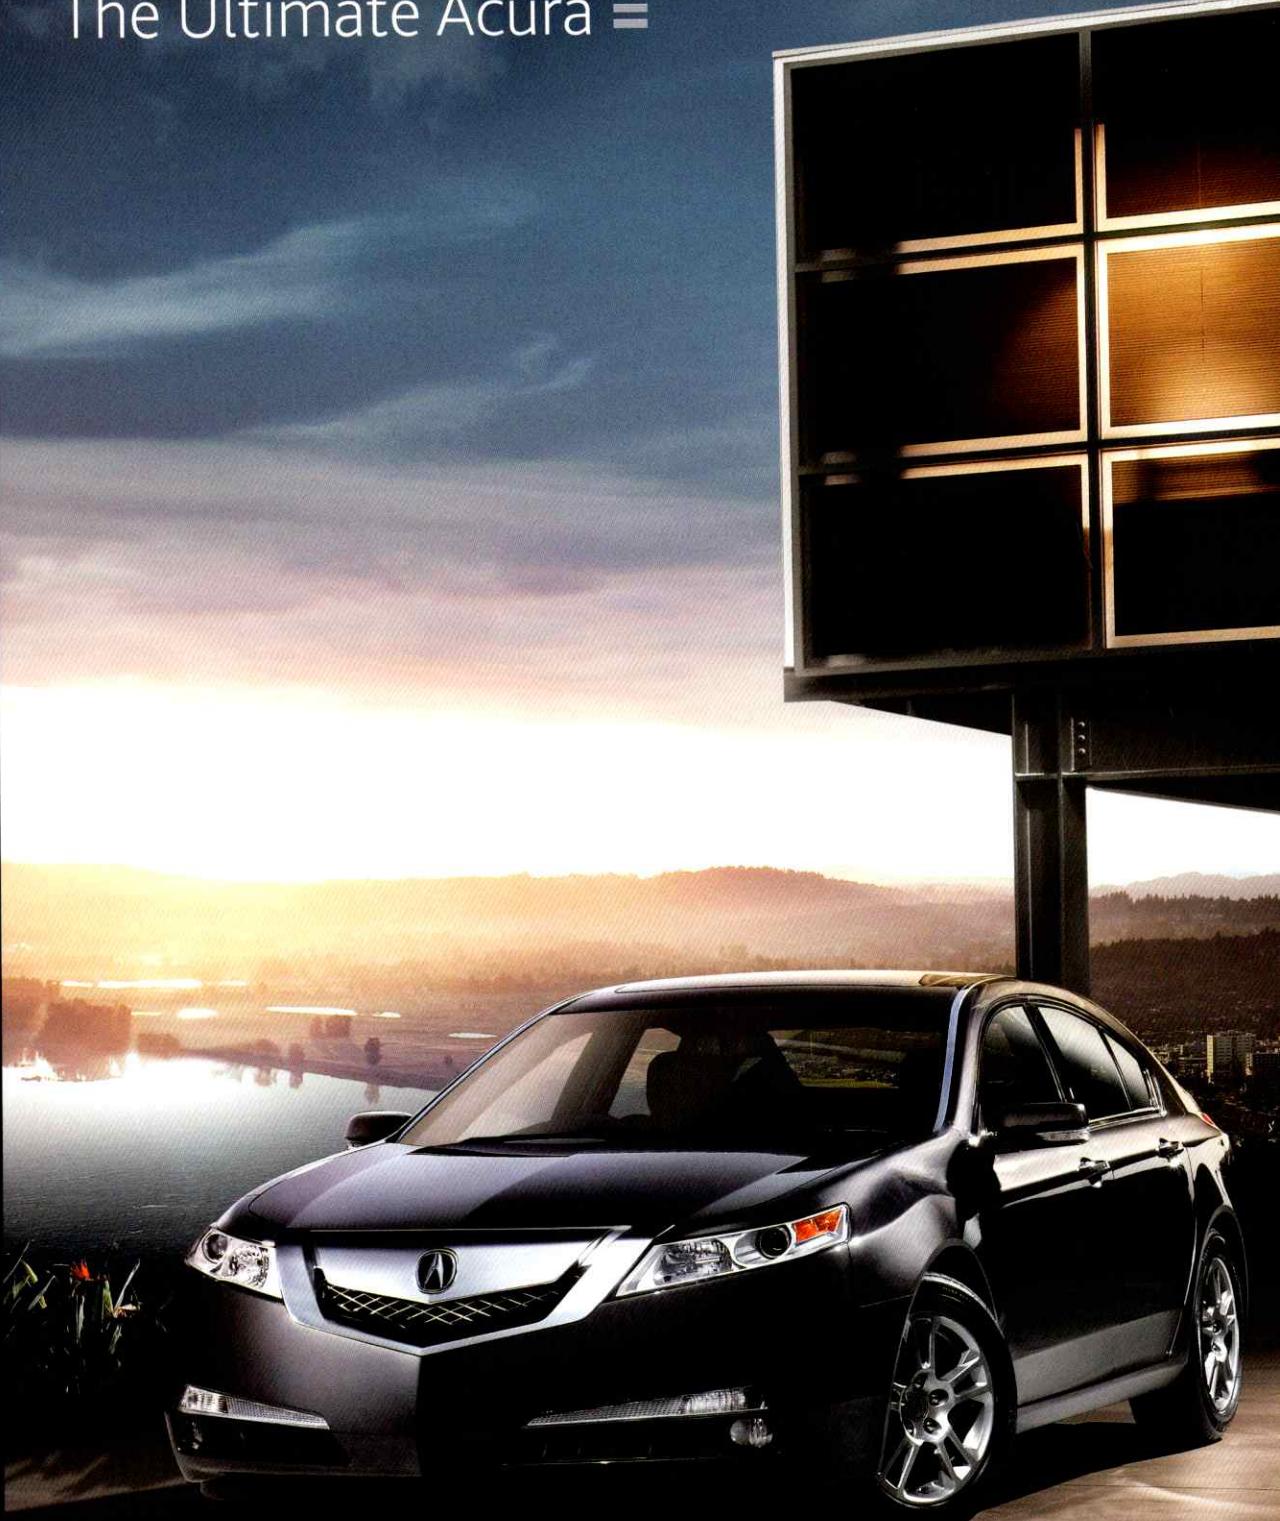

ADVANCE.

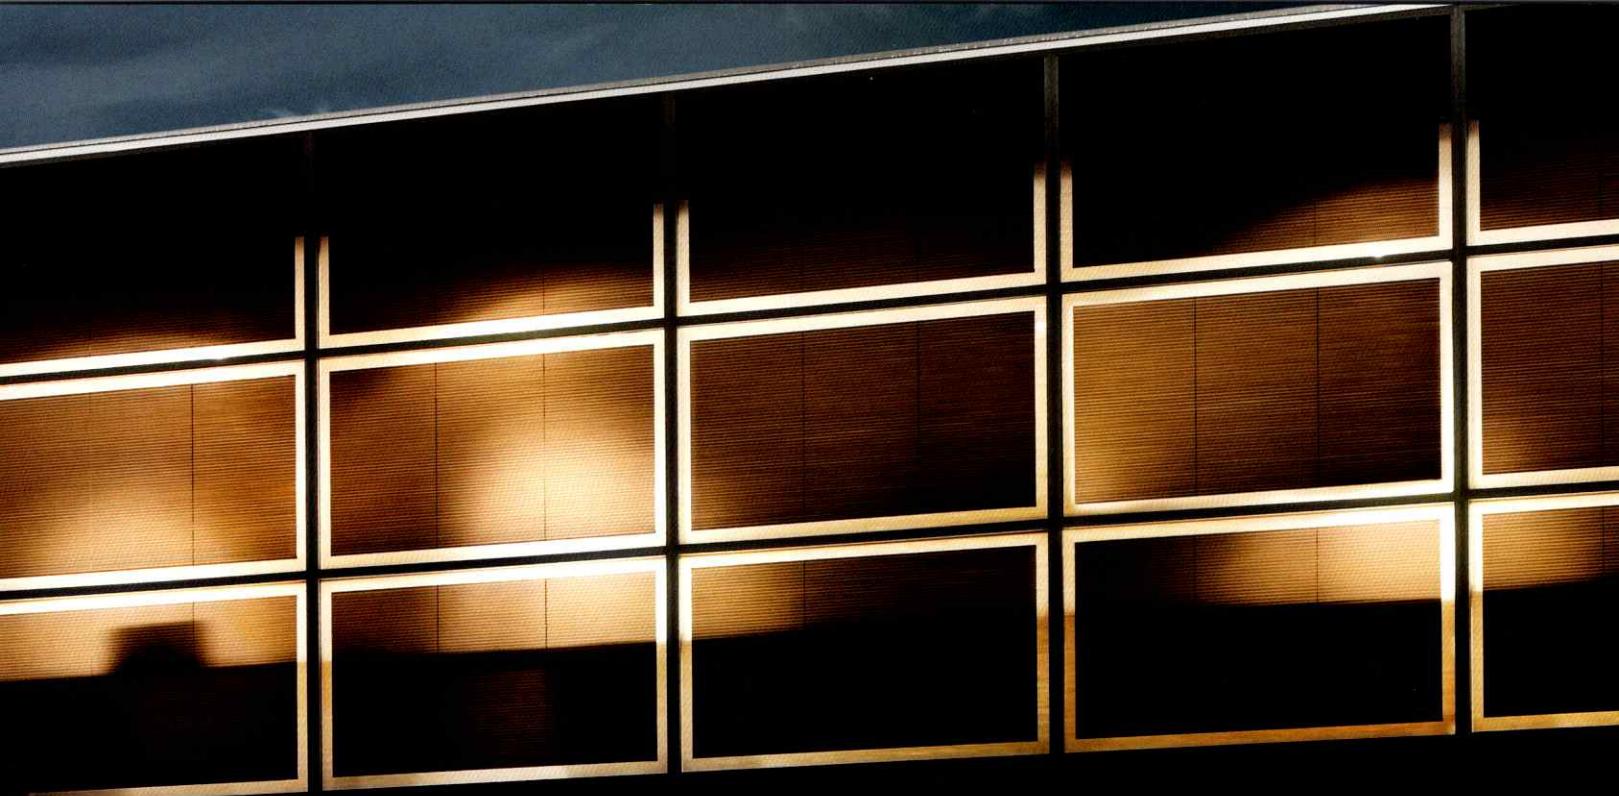

2009

TL

The Ultimate Acura =

The all-new, totally redesigned 2009 Acura TL. Beyond its dramatic new styling, precision handling and cutting-edge amenities, the TL integrates driver and machine – horsepower and adrenaline – unlike any other. It's confidence unlimited, with a host of advanced technology at your command. It's a higher level of luxury and a new breed of refinement. It's a sophisticated work of performance art designed to empower the way you drive and redefine your experience behind the wheel.

ENGINE

Horsepower +

### 3.7 or 3.5-LITRE, 24-VALVE, SOHC, VTEC®, V-6 ENGINE

For the ultimate blend of performance and power, TL models with Super Handling All-Wheel Drive™ (SH-AWD™) are propelled by a 3.7-litre, VTEC, V-6 engine. Not only is this the most powerful Acura engine on the road right now, but it's also one of the most advanced. But there's also an equally adrenaline-friendly, 3.5-litre, VTEC V-6 engine to consider. Both engines feature Multi-Point Programmed Fuel Injection (PGM-FI®) to calculate the precise air/fuel ratio for optimum power output. And both engines are forged in aluminum for lightweight efficiency, better heat dissipation and improved durability.

### HORSEPOWER AND TORQUE

When it comes to horsepower and torque, the new TL rises to the occasion in ways that no other Acura can. From the 305 hp and 273 lb.-ft. of torque produced by the available 3.7-litre, VTEC power plant, to the 280 hp and 254 lb.-ft of torque offered by the 3.5-litre, VTEC engine, there's plenty of power to go around. And, thanks to innovative VTEC engine refinement and other powerband enhancements, the broad, flat-torque curve allows for virtually instant and endless acceleration.

### VTEC

The TL's performance-inspired, Variable Valve Timing and Lift Electronic Control, VTEC engine utilizes two entirely different camshaft profiles to offer you amazingly responsive power across the complete rpm range. Off the line, the engine provides lower valve lift and a shorter cam profile opening, resulting in higher fuel velocities and greater low-end torque. As your demand for engine speed increases, VTEC switches to a cam profile with a higher valve lift and a longer opening duration, resulting in greater airflow and a bigger boost of high-end horsepower.

HANDLING

Performance +

#### SPORT SUSPENSION

The TL's 4-wheel, independent, front double-wishbone and rear multi-link suspension system offers you the kind of stability and flat cornering response you might expect. The front suspension utilizes a short upper arm for maximum grip and turning compression while a high-placed lower suspension arm delivers superb vehicle control with a stiffer steering feel. The rear suspension features a precision pillow joint for enhanced handling and stability. Further handling prowess comes from the TL's oversized front and rear stabilizer bars for quick, flat cornering and a dose of exhilaration.

#### PADDLE SHIFTERS

The thrill of F1™, manual, up-and-down gear shifting performance and control at your fingertips is truly something to behold. Mounted just behind the TL's leather-wrapped steering wheel, you'll find paddle-shifting transmission controls designed to add an extra boost of race-inspired excitement to the already quick-shifting, 5-speed automatic transmission.

#### ELECTRIC POWER STEERING (EPS)

For performance steering at high speeds and increased manoeuvrability at lower speeds, the TL relies on an advanced speed sensing, Electric Power Steering (EPS) system. Now, from quick hairpins and sweeping highway curves to tight, city-centre agility, the TL empowers your every move.

SH-AWD

Confidence =

Super Handling All-Wheel Drive™ (SH-AWD™). Precision-tuned and optimized for the new Acura TL, the available SH-AWD system is the difference between taking turns and cutting them. It's where control instantly becomes confidence.

It helps you gain more traction when the weather is less than perfect and it encourages you to carve absolutely perfect corners in every other condition.

#### 1. STRAIGHT-LINE ACCELERATION

The SH-AWD system offers dramatically enhanced traction, control and vehicle acceleration in all kinds of conditions. Accelerate, and the system directs increased torque to the rear wheels to deliver full power to the ground.

#### 2. MODERATE CORNERING

SH-AWD delivers a remarkably neutral steering feel as the rear wheels help generate cornering power. Electronic sensors monitor the speed and tightness of turns and automatically vary the amount of rear wheel torque up to 60%, resulting in enhanced stability and control.

#### 3. ACCELERATING THROUGH CORNERS

Here, the advanced SH-AWD technology stands alone. The outside cornering wheel gets up to 100% of the rear wheel torque and is accelerated to rotate faster than the inside cornering wheel, providing greater turning force and an incredibly stable corner line.

#### 4. STRAIGHT-LINE CRUISING

SH-AWD's sophisticated electronic controls automatically monitor road conditions and alternate torque from front to rear, as well as splitting rear wheel torque from left to right. The end result is a continuously smooth, confident ride in poor weather or on less-than-perfect road conditions.

## Style +

**RIGID FRAME DESIGN**

The TL's rigid, high-tensile steel, unit-body framework was designed to create higher front and rear torsional rigidity to provide you with exceptionally smooth, confident handling. Plus, with larger front bulkhead struts and oversized box-section cross members, the TL has a noticeably enhanced athletic agility and nimble nature – at any speed – noticeably enhanced.

When it comes to striking exterior design, the new TL makes a dramatic visual statement. It's a look that starts with Acura's signature, platinum-plated front grille, which flows into a highly aerodynamic body style defined by strong raked lines, pronounced wheel arches and finished with a boldly sculpted back-end design. Overall the TL seamlessly fuses motion with emotion – encompassed in a split-second look.

#### AVAILABLE QUAD EXHAUST AND 18-INCH WHEELS

Integrated quad-exhaust outlet finishers hint at the self-assured attitude of the TL's high-powered engine. Plus, available performance, 18-inch, aluminum-alloy wheels with an 8-inch tread width strengthen the TL's aggressive style, sporty appearance and your feel for the road.

#### HIGH-INTENSITY DISCHARGE (HID) HEADLIGHTS

Shed light on potential hazards with high-powered, HID headlights. Producing an intensely brilliant beam of focused light, HID headlights enhance your ability to identify what's ahead and what to avoid.

# Technology +

## SATELLITE-LINKED NAVIGATION

The TL's available Acura Navigation System with trilingual Voice Recognition can pinpoint your location almost anywhere in North America or access its search directory for easy-to-follow driving directions. Recognizing up to 800 verbal commands, the system is equipped with trilingual voice recognition software and features real-time directions by voice or on-screen map display. The system can show you the most direct route to your destination, offer an alternative route or, should you have an appetite for something new, use the Zagat Survey® ratings to help you find a restaurant.

## HANDSFREELINK™ AND BLUETOOTH®-ENABLED TECHNOLOGY

Stay connected and in control without ever having to take your hands off the wheel or your eyes off the road. Simply program and link your Bluetooth-enabled wireless device to the HandsFreeLink mobile phone interface to make, receive and transfer calls from your phone without interruption or having to remove your hands from the steering wheel. Just say the word and – providing your programmed mobile phone is located inside the cabin – calling numbers will be displayed, your phone will respond to voice activation and you will hear the caller's voice over the TL audio system. What's more, the system operates in English or French and is capable of integrating up to six compatible phones.

#### VOICE-ACTIVATED CONTROL

A majority of the advanced functions and features available with the Acura TL Technology and SH-AWD Technology Packages can be controlled just by the sound of your voice. Press the steering wheel-mounted voice control button to set or adjust the dual-zone automatic climate control, audio system or to explore the world through your navigation system.

#### REARVIEW CAMERA

Available with the TL Technology and SH-AWD Technology Packages, a rearview camera located in the rear spoiler shows a colour image of the area directly behind the vehicle with steering gridlines on your navigation-system screen. Plus, even if the navigation system is turned off, the camera is activated automatically when you engage reverse.

## Luxury =

### INTERIOR REFINEMENT

When it came to crafting the interior cabin space of the new TL, Acura designers went to great lengths, and widths, to ensure every detail excels in its ability to comfort, engage and inspire. A distinctive, high quality combination of premium leather, metallic accents and wood-pattern trim abounds. The available Technology Package includes full-grain, perforated Milano leather seats and trim. With the TL SH-AWD Package, this includes more supportive seat bolsters, a thicker, sport-grip steering wheel and colour accent stitching.

#### POWER-ADJUSTABLE, HEATED FRONT SEATS

Even the most uncivilized commutes will feel more luxurious when you're sitting comfortably in one of the TL's two tightly bolstered, perforated leather-trimmed, heated front seats. For drivers the ideal seating position is never far away thanks to a 10-way power adjustment driver's seat including 2-way power lumbar support and 2-position memory. And for front passengers, they get all the soft, form fitting perks that come with their own 8-way power adjustable seat.

#### CLIMATE CONTROL

The TL's advanced dual-zone, dual-mode adaptive climate control system automatically maintains temperature levels in two different zones inside the cabin. The dual-mode part of the climate equation enables you to set two vent levels for these two zones. And for the ultimate in comfort and temperature control, the TL's available Keyless Access System with driver recognition will have your seat position, side mirrors, climate, audio and navigation system set and ready before you even enter the vehicle.

## High-fidelity =

## ACURA / ELST™ PREMIUM SURROUND SOUND SYSTEM

The first of its kind in a production automobile, the TL's available multi-channel surround sound system was developed in part with Grammy® Award-winning producer and sound engineer Elliot Scheiner. This 10-speaker, 6-channel system delivers an astonishing 440 watts of rich audio sound power throughout the cabin. Plus, the in-dash 1-disc CD changer with DVD-Audio, Dolby® Pro Logic® II and DTS®, with MP3 and Windows Media® Audio capabilities, allows you to enjoy your music in the format of your choice. Add to that the experience of steering wheel-mounted audio controls or available voice-activated audio control, and you've got the makings of the ultimate audio system.

## HARD DISC DRIVE (HDD)

As much as the TL's navigation system can inform, it also likes to entertain. The system's available Hard Disk Drive (HDD) contains enough storage space for you to record and store more than 217 hours of music, the equivalent of over 2,610 songs. Simply insert your CD into the system's single disc slot and your music will be automatically uploaded into the database as it plays. And with disc and track information provided through the Gracenote® interface, you can easily scan to your preferred music based on title, artist or genre.

#### BLUETOOTH AUDIO INTERFACE

A first for the Acura TL, and practically unheard of in other sedans, is the Acura Bluetooth-enabled audio interface. Not only is this advanced technology the perfect way to enjoy your music without the wires, but it also satisfies both the technophile and audiophile in you.

#### XM® RADIO

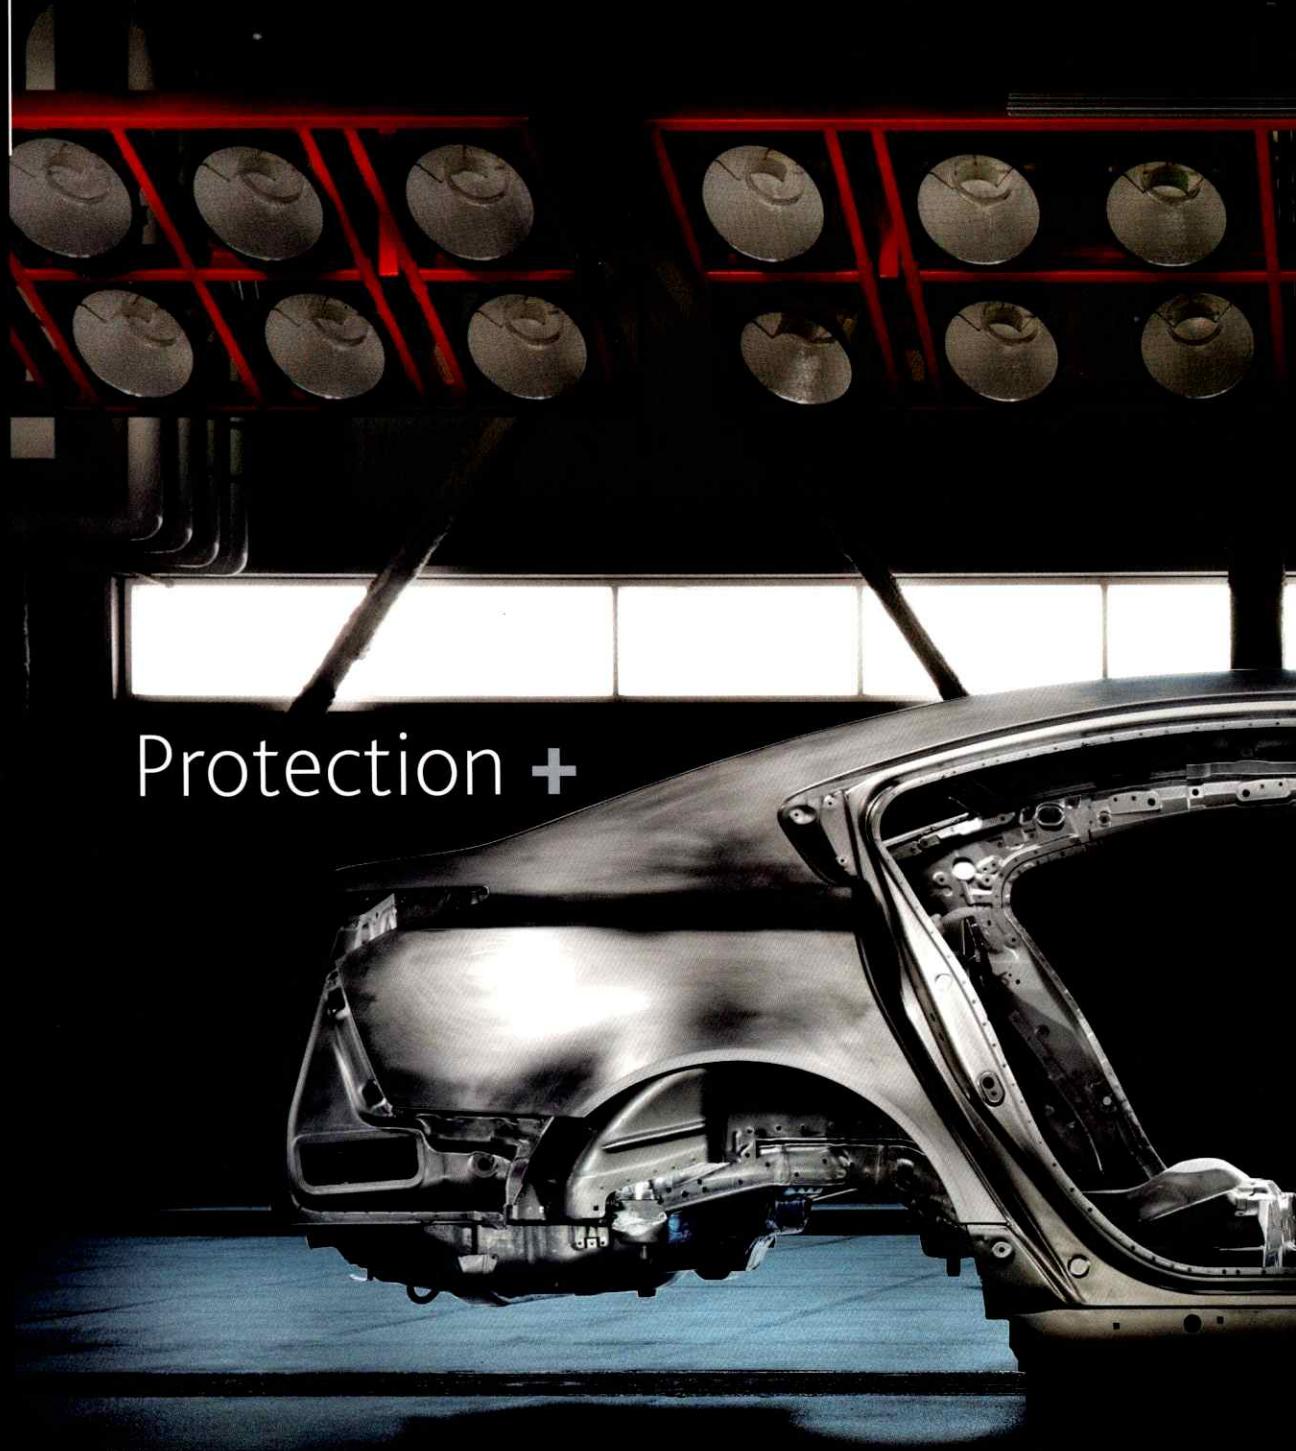

The TL audio system features an integrated XM Satellite Radio that allows you to sample some of the best music the world has to offer, all from the comfort of the TL's tastefully appointed cabin.

#### DIGITAL-MEDIA AUXILIARY INPUT JACK

For the ultimate in personalized audio, bring your MP3 player along for the ride. Simply plug your MP3 player into the TL's digital-media auxiliary input jack and enjoy a world of music created by you.

#### USB AUDIO PLAYBACK

Conveniently housed in the centre console, the TL's USB device connector enables you to connect any number of compatible portable audio devices. Plus, you can control the playback volume and track selection from your steering wheel-mounted controls.

## Protection +

### AIRBAGS

Maximum safety is achieved with six airbags designed to protect all occupants inside the cabin. Depending on the point and force of impact, the TL will deploy dual-stage, dual-threshold front airbags that activate at one of two rates depending on the severity of the impact; front side airbags with the innovative passenger-side Occupant Position Detection System (OPDS) that will not release if the system detects a small-size or improperly positioned passenger; and side curtain airbags with state-of-the-art rollover sensors.

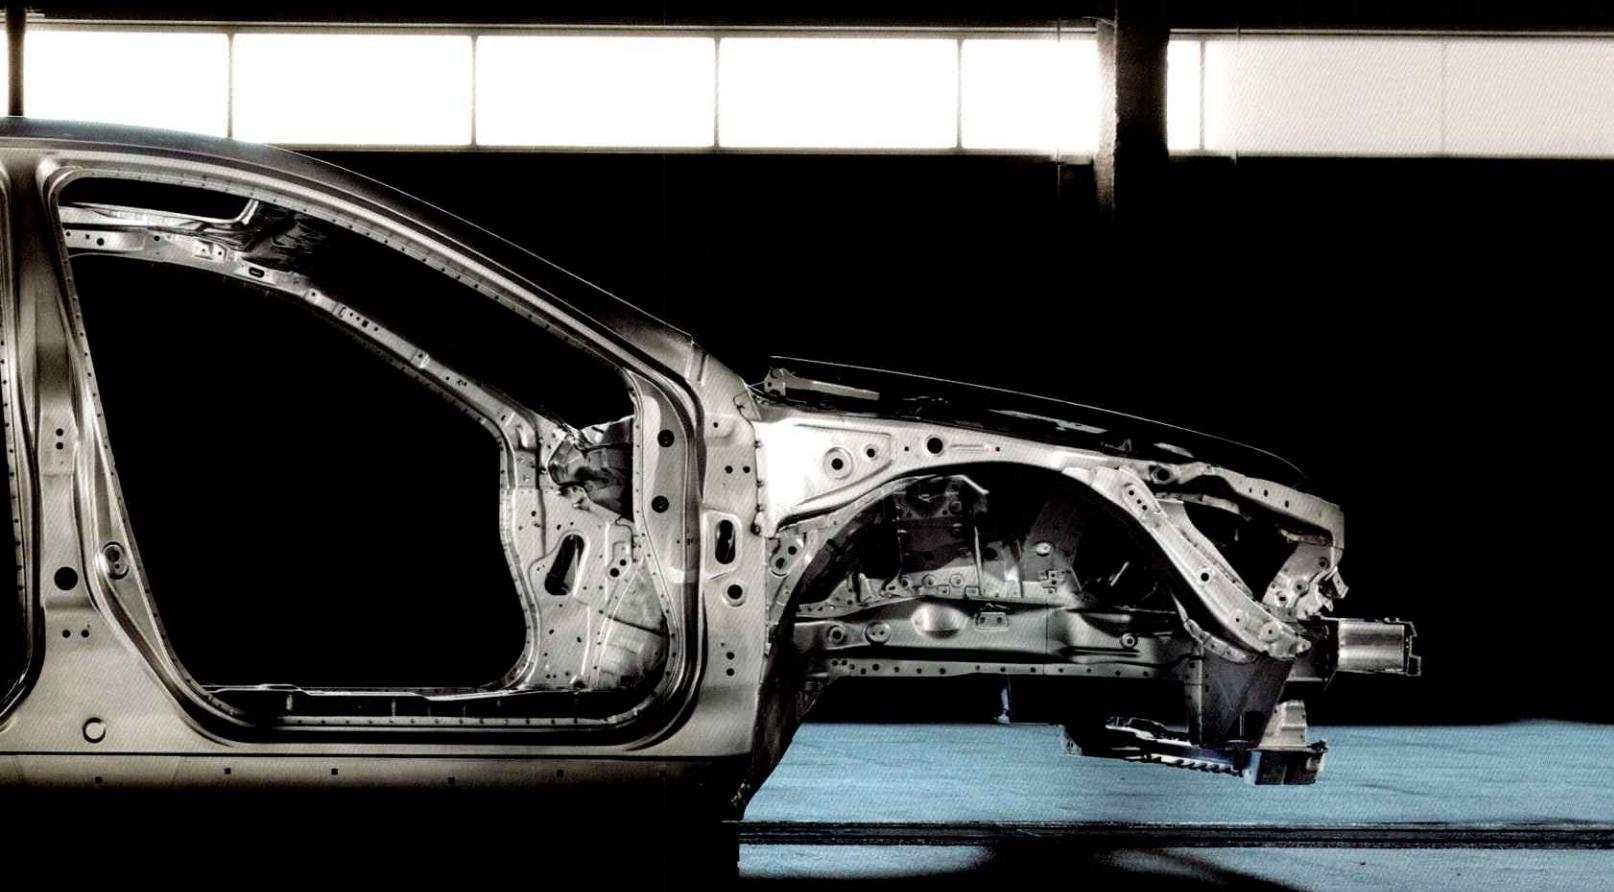

### VSA®

Vehicle Stability Assist (VSA) with Traction Control will automatically detect and correct understeer or oversteer situations before you're even aware there's a need. The system intuitively monitors your driving conditions and automatically reduces the throttle and/or applies braking to individual wheels. Should a loss of traction occur during acceleration on slippery road surfaces, Traction Control will compensate to get you safely underway.

### ABS

The Anti-lock Braking System (ABS) helps maintain steering control when braking hard on wet, slippery, or loose surfaces, while Electronic Brake Distribution (EBD) balances braking forces at each wheel to help compensate for weight distribution inside the cabin. Plus, there's a Brake Assist feature that senses a panic stop and applies maximum braking power to help you stop quickly.

At Acura, Safety Through Innovation is based on the idea that an advanced driving experience starts with advanced safety features. This guiding principle is reinforced through the extensive number of standard safety features and use of innovative technologies you'll find in all Acura vehicles.

#### ACE™

The innovative Advanced Compatibility Engineering™ (ACE) body structure adopts a high-tensile, high-efficiency, unit-body, safety cell structure to provide enhanced protection from multi-directional collision. ACE reduces the concentrated force of a frontal impact by absorbing energy over a large area and dispersing it away from you and other occupants inside the interior cabin space. Additionally, ACE is also designed to help reduce occupant injuries caused by misalignment in collisions between vehicles of different sizes.

#### TIRE PRESSURE MONITORING SYSTEM

Correct tire pressure is critical to safety, performance and fuel efficiency. Enter the TL's Tire Pressure Monitoring System (TPMS) which continually monitors the air pressure in each tire. If pressure drops in any tire, a transponder attached to the wheel's valve stem transmits the information to a receiver, and a warning appears on your instrument panel indicating which tire requires attention.

#### MAINTENANCE MINDER SYSTEM

Instead of following a traditional kilometre-and-calendar maintenance schedule, the TL instinctively calculates service needs based on your driving habits. This advanced system takes into account engine revolutions, stop-and-go traffic experience, weather extremes and the frequency of short trips to determine when your next service visit should be. The system helps coordinate oil servicing dates and other routine maintenance as well.

TL

## SPECIFICATIONS

## ENGINE

Engine	3.5-litre, 24-valve, SOHC, VTEC® V-6
Horsepower	280 hp @ 6200 rpm
Torque	254 lb.-ft. @ 5000 rpm
Displacement	3471 cc
Bore and stroke	89 x 93 mm
Compression ratio	11.2:1
Multi-Point Programmed Fuel Injection system	
Electronic direct ignition system	
Recommended fuel	Premium

Horsepower &amp; Torque (SAE net, Rev. 8/04, SAE J1349)

## DRIVETRAIN

5-speed automatic transmission with paddle shifters and Grade Logic Control
Drive-by-Wire Throttle System™
Front-wheel drive

## SAFETY

3-point height-adjustable seat belts with load limiters and Automatic Tensioning System (front)
3-point seat belts (rear)
4-wheel Anti-lock Braking System (ABS) with Electronic Brake Distribution (EBD) and Brake Assist
Active front seat head restraints
Advanced Compatibility Engineering™ (ACE™) body structure
Child-proof rear door locks
Dual-stage, dual-threshold front airbags (SRS)
Front side airbags with passenger-side Occupant Position Detection System (OPDS)
Immobilizer Theft-Deterrent System and security system
Impact-absorbing crumple zones – front and rear
LED mirror-integrated directional signals, taillights, brake lights and Centre High Mount Stop Light
Lower Anchors and Tethers for Children (LATCH) child-seat mounting system
Phosphorescent emergency trunk opener
Side curtain airbags with rollover sensors
Tire Pressure Monitoring System (TPMS) with location indicators
Vehicle Stability Assist (VSA®) with Traction Control

## CHASSIS

17" x 8" aluminum-alloy wheels
4-wheel independent double-wishbone front suspension with multi-link rear suspension
All-season tires: P245/50 R17
Electric Power Steering (EPS)
Solid rear disc brakes
Stabilizer bars – front/rear: 30/19 mm
Ventilated front disc brakes

## EXTERIOR

Acoustic front windshield
Auto-on/off headlights
Body-coloured front splash guards
Fog lights
Heated side mirrors with driver recognition, reverse gear tilt-down and LED integrated directional indicators
Heat-rejecting green-tinted glass
High-Intensity Discharge (HID) headlights
Integrated dual-outlet exhaust with finishers
Platinum-plating front Acura grille
Power moonroof with tilt, auto-open/close, auto-reverse, key-off operation and sliding shade

## CAPACITIES

Cargo volume	371 litres
Fuel tank	70.0 litres

## FUEL ECONOMY

City	11.6 litres/100 km <sup>†</sup>
Highway	7.5 litres/100 km <sup>†</sup>

## COMFORT & CONVENIENCE

12-volt power outlets  
 Auto-dimming rearview mirror  
 Blue LED ambient roof console lighting  
 Blue LED ambient driver's and front passenger's footwell lighting  
 Dual-zone, dual-mode automatic climate control with auto humidity control and air-filtration system  
 Electric trunk and fuel-filler-door releases  
 Exterior temperature indicator  
 Front centre console with adjustable armrest, dual-level storage compartment  
 HandsFreeLink™ (with Phonebook Link) bilingual Bluetooth® wireless mobile phone interface  
 HomeLink® remote system  
 Illuminated driver's and front passenger's vanity mirrors  
 Illuminated steering wheel-mounted audio, phone, MID and cruise controls  
 Maintenance Minder system  
 Multi-Information Display (MID)  
 Overhead LED map lights – front and rear  
 Power windows with driver's and front passenger's auto-up/down, auto-reverse and key-off operation  
 Rear-seat centre armrest with locking trunk pass-through and dual beverage holders  
 Remote-linked 2-position memory system for driver's seat, side mirrors and climate control  
 Speed-sensing, variable intermittent windshield wipers  
 Tilt and telescoping steering column  
 Trip computer  
 User-programmable interior lighting

## ENTERTAINMENT

Acura 276-watt Sound System with 6-disc CD changer, Dolby® Pro Logic® II and DTS®, AM/FM/XM\* tuner (RDS-enabled), MP3/Windows Media® Audio changer and 8 speakers  
 Anti-theft feature

Auxiliary input jack  
 Bluetooth® audio  
 Disc title display  
 Integrated glass antenna  
 USB device connector

## SEATING & TRIM

Adjustable head restraints – front and rear  
 Carpeted floor mats  
 Driver's seat with 10-way power adjustment including 2-way power lumbar support and 2-position memory  
 Dual-level heated front seats  
 Front passenger's seat with 8-way power adjustment  
 Leather-trimmed interior

## EXTERIOR DIMENSIONS

Curb weight	1683 kg
Height	1452 mm
Length	4961 mm
Track – front/rear	1605/1620 mm
Weight distribution – front/rear	60/40%
Wheelbase	2775 mm
Width	1880 mm (excluding sideview mirrors)

## ACCESSORIES

18" or 19" Alloy wheels	Front, rear and side skirts
All-season floor mats	Full nose mask
Car cover	Rear back-up sensor**
Cargo hook and net	Rear splash guards
Door edge film	Remote engine starter
Engine block heater	Trunk tray

Ask for the TL accessories brochure for a full list.

## INTERIOR DIMENSIONS

Headroom – front/rear	976/932 mm
Hip room – front/rear	1415/1392 mm
Interior volume	2781 litres
Legroom – front/rear	1080/920 mm
Shoulder room – front/rear	1477/1428 mm
Seating capacity	5

## SH-AWD

### SUPER HANDLING ALL-WHEEL DRIVE™

3.7-litre, 24-valve, SOHC, VTEC® V-6 engine  
 Horsepower: 305 hp @ 6300 rpm  
 18" x 8" exclusive aluminum-alloy wheels  
 All-season tires: P245/45 R18  
 Bore and stroke: 90 x 96 mm  
 Co-operative Vehicle Stability Assist (VSA®) with Traction Control  
 Curb weight: 1797 kg  
 Displacement: 3364 cc  
 Exhaust finishers – quads

Fuel economy:  
 (City/Hwy): 12.3/8.1 litres/100 km†  
 Headlight washers  
 Hill Start Assist (HSA)  
 Sport-grip steering wheel and interior coloured stitching  
 Stabilizer bars – front/rear: 31/20 mm (rear wall thickness: 4.5 mm)  
 Torque: 273 lb.-ft. @ 5000 rpm

### TECHNOLOGY PACKAGE

Acura Navigation System with trilingual Voice Recognition, rearview camera with onscreen display guidelines, wallpaper function and illuminated steering wheel-mounted controls  
 Acura/ELS Surround™ Premium 440-watt Sound System with 1-disc CD, DVD-Audio and DTS® changer, AM/FM/XM®\* tuner (RDS-enabled), MP3/Windows Media® Audio compatibility, Dolby® Pro Logic® II and 10 speakers  
 Curb weight: 1689 kg (TL)  
 Curb weight: 1803 kg (SH-AWD)

GPS-linked, solar-sensing, dual-zone, dual-mode automatic climate control system  
 Hard disk drive (HDD) storage (navigation and audio)  
 Keyless access system with (smart entry and push button start) with driver recognition for driver's seat, side mirrors, climate control and select audio and Navi settings.  
 Perforated, Premium Milano leather-trimmed interior  
 Rear decklid spoiler (with integrated rearview camera)

Add the Technology Package to the TL or TL SH-AWD trim level.

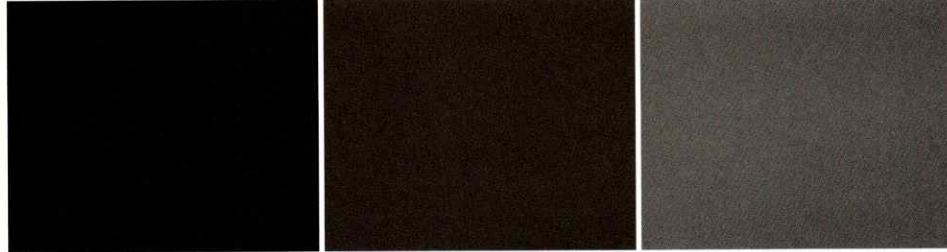

2009 marks Acura's continued participation in the American Le Mans Series. This highly competitive endurance series offers the perfect proving ground for Acura's automotive technology, from electronics and aerodynamics to fuel efficiency and engineering. It's true track-tested performance, advanced.
