*THIS IS*  
ACURA

---

Every so often, it happens. A milestone is achieved, setting the stage for even greater things to come.

After almost three decades of continuous innovation, we've reached a point where technology no longer enhances the driving experience – it enables it. The outcome is an unprecedented level of connection between driver and vehicle, and a new vision for the future of luxury.

*When man and machine connect, the extraordinary happens.*

## Innovation Across Acura

### **SUPER HANDLING ALL-WHEEL DRIVE™ (SH-AWD®)**

The available Super Handling All-Wheel Drive system is engineered to detect road conditions and distributes torque as needed between front and rear wheels, and between left and right rear-wheels for enhanced traction and increased driver confidence.

### **ACURALINK™**

The available AcuraLink<sup>†</sup> connectivity system connects the driver to an unprecedented combination of technology and convenience. Using embedded two-way communications and web-enabled devices, AcuraLink curates a truly digital experience, including navigation, entertainment, remote control features, emergency services and 24-hour live concierge operators.

### **ACURA/ELS SURROUND® PREMIUM AUDIO SYSTEM**

An available multi-channel surround sound system developed in part with Grammy<sup>®</sup> Award-winning producer and sound engineer Elliot Scheiner that utilizes strategically placed speakers to flood the cabin with aural richness.

### **JEWEL EYE™ LED HEADLIGHTS**

An available array of high-intensity LED lamps, utilizing ultra-reflective optical lenses designed to provide powerful down-the-road illumination.

### **BLIND SPOT INFORMATION SYSTEM<sup>††</sup>**

Acura's available Blind Spot Information System senses where your field of vision ends and expands it by providing information about vehicles that are in, or about to enter, your blind spot when you're passing, being passed, merging, or changing lanes.

### **COLLISION MITIGATION BRAKING SYSTEM™**

Acura's available Collision Mitigation Braking System (CMBS<sup>®</sup>) uses a radar transmitter located behind the vehicle's front grille is engineered to determine the distance and closing speed of the car directly in front, alerting you so you can react accordingly and apply braking when necessary.

## INTRODUCING THE ALL-NEW 2014 ACURA RLX SPORT HYBRID SH-AWD®

Progress never stops. The 2014 RLX Sport Hybrid SH-AWD surges ahead with the world's first three-motor Sport Hybrid system with electric SH-AWD. Paired with an all-new dual clutch transmission, the result is superior 377-horsepower performance with 4-cylinder-like fuel efficiency. This is nothing short of a breakthrough, and the most powerful, luxurious and technologically advanced Acura yet.

Coming in Spring 2014.

U.S. model shown.

### LANE KEEPING ASSIST SYSTEM (LKAS)

The available Lane Keeping Assist System (LKAS) works proactively to keep the vehicle inside the lane. If you guide the car out of a detected lane without signaling your intention to exit it, the system is designed to apply light steering torque to the wheel and guide the car back to the centre of the lane.

### ADAPTIVE CRUISE CONTROL (ACC) WITH LOW-SPEED FOLLOW<sup>††</sup>

The available Adaptive Cruise Control System with Low-Speed Follow allows you to set a desired speed, but also keeps a set distance from the car ahead, so cruise control is useable even in stop and go traffic.

### KRELL ULTRA-PREMIUM AUDIO SYSTEM

An available car audio system designed specifically for Acura by Krell Industries, a name known among audiophiles for its fundamental research into amplifier design and performance. The use of Krell's unique technologies is a first for Acura, delivering incredibly linear and accurate sound.

### PRECISION ALL WHEEL STEER™ SYSTEM

A revolutionary system designed to allow the RLX's rear wheels to angle in or out by small degrees, resulting in incredible agility and handling, and enhanced stability, maneuverability and control.

### VARIABLE CYLINDER MANAGEMENT<sup>®</sup>

The available Variable Cylinder Management (VCM<sup>®</sup>) helps realize significantly improved fuel efficiency by automatically switching the engine to run on fewer cylinders, depending on driving conditions.

### SURROUND VIEW CAMERA SYSTEM<sup>††</sup>

An available surround view camera system comes equipped with four different cameras that are designed to assist the driver in checking a variety of blind spots when parking. Multiple views, including a 360° bird's-eye view, are available when traveling at 12 km/h or less.

### INTEGRATED DYNAMIC SYSTEM (IDS)

The available Integrated Dynamic System allows you to switch between Normal, Sport and Comfort modes to adjust steering effort, throttle response, SH-AWD<sup>®</sup> and even the sound of the engine to match your mood.

<sup>†</sup>Only compatible with certain devices.

<sup>††</sup>Does not replace the driver's responsibility to exercise due care while driving.

Certain features may not be available on all trim levels, or may only be available on a particular trim level as part of a specific feature package. See [acura.ca](http://acura.ca) or your Acura dealer for details.
