Welcome to the extraordinary world of Bentley and The Little Car Company. Where tradition meets innovation and luxury is more than just a statement - it's a way of life.

In a distinguished partnership with Bentley, The Little Car Company invites you to immerse yourself in the rich heritage of British craftsmanship and the golden era of engineering with the Bentley Blower Jnr.

Being a Bentley owner isn't merely about driving a car; it's about joining a tradition, a legacy, a lineage. Welcome to the family.

Not merely a vehicle, this faithful 85% scale recreation of the iconic 1929 Bentley Blower is a true testament to enduring quality, luxury, and the celebration of illustrious automotive history.

This fully road-legal* scaled car, the largest ever made by The Little Car Company, has been designed to reflect the iconic design and characters that the original Bentley Blower is renowned for.

The Blower Jnr is our salute to the past but with a fully electric 48-volt powertrain to deliver modern performance and enjoyment. A homage to the trailblazers who established the brand and a recognition of the discerning motorists who have kept the Bentley spirit alive through the years.

From the artisan-crafted carbon fibre body with an aluminium bonnet to the iconic supercharger repurposed as a charging port, each component is a testament to our relentless pursuit of quality and sophistication.

**In selected territories.*

First Edition.

SPECIFICATIONS

The first 99 examples of Blower Jnr will be First Edition Models. These will feature First Edition badging on the hood, door sill plate, the dash, as well as an engraved and numbered '1 of 99' plaque.

All First Edition models will be finished in Blower Green, with matching painted chassis and wheels, and a Union flag hand-painted on both sides of the body as per the original, while the seats and interior are upholstered in the Dark Green Lustrana Hide used by Mulliner for the Blower Continuation Series. The side panel and radiator carry the period-correct racing number, while the steering wheel is rope-bound.
