BENTLEY COLLECTION | LUGGAGE

Tactile and aromatic, nothing surpasses the sheer elegance and astonishing pleasure of handmade leather luggage. Whether it's a last-minute business trip, a country house weekend or a vacation adventure, it has to be the ultimate travel companion.

Traditional English natural tanning methods are used to produce the full rich colour and character of the leather. The hides are finished by hand, using original saddlery techniques to give unequalled strength and durability together with a superb soft, waxy look and feel.

A team of skilled craftsmen are involved in making every single item, with four people required to create and hand stitch each handle. It is this unrivalled attention to detail that gives each item its truly unique appeal and simply makes it the world's best.

The range includes suitcases, weekend holdall, ladies vanity bag, golf bag, briefcase and document case. Available in a choice of Beluga or Saddle exterior finishes, all items (except golf bag) are trimmed in contrasting leather.

Such perfection cannot be made overnight so we would like you to appreciate that your order may take up to 12 weeks to complete.

For the latest information on product specification, pricing and availability, please contact your local Bentley dealer.
