# DISCOVER THE BMW 3

Barely on the road and the BMW 3 Series Sedan is already leaving everything behind it, including conventions and expectations. Once again the icon displays how to reinvent itself. After all, with the pioneering design language, it stands for the dawning of a new era. Propelling the ultimate sports sedan are even more powerful and efficient engines. And a new force – simply say "Hey BMW" and the all-new BMW 3 Series recognises your voice and heeds your every word.

# 3 HIGHLIGHTS

## ATTRACTION REDEFINED

The new BMW 3 Series has always been the leader. Through the new design language, the sports sedan is connecting the successful history with the future. An appearance that meets the wish for the ultimate driving machine with every detail.

## LISTENS & LEARNS

Discover the future of driving with the BMW intelligent Personal Assistant – to get started, just say "Hey BMW".

## FOR ALL THE BENDS AHEAD

With a wider stance and tightened suspension, the BMW 3 Series Sedan delivers impressive driving dynamics in every turn.

## NEW POWER PLAY

The combination of an electric motor and the TwinPower Turbo petrol engine in the BMW 330e Plug-in Hybrid.

## INTELLIGENT DRIVING

The BMW 3 has the latest generation of connectivity, such as the BMW Operating System 7.0. This creates an experience that is seamless and effortless.

# THE BMW CONNECTED DRIVE

## REVERSING ASSISTANT

The Reversing Assistant also manoeuvres the vehicle self-assuredly out of challenging situations like: remembering the steering movements of the last 50 metres travelled.

This means that even challenging situations such as narrow roads, cul-de-sacs or tight parking spaces present no problems at all.

## CURVED DISPLAY

Nearly all vehicle functions can be controlled using the large BMW Curved Display. Angled towards the driver and equipped with intuitive widgets, it makes operation by touch even more convenient.

## PERSONAL ASSISTANT

Your personal digital assistant for the new BMW 3 Series Sedan is always at your side and responds to voice commands. Automate My Habits independently performs your preferred functions, such as opening the side window in the entrance to car parks. As an expert, it explains how to use vehicle functions to the optimum on request.

## BMW DIGITAL KEY

With the BMW Digital Key your smartphone becomes a digital key. Unlock the new BMW 3 Series Sedan by holding your smartphone next to the handle of the driver's door. Start the vehicle without the use of a key by pressing a button as soon as your smartphone is in the BMW charging cradle.

## THE INTELLIGENT ALL-WHEEL DRIVE SYSTEM FROM BMW

# BMW xDRIVE

Weather changes and road situations can change in a flash, whatever the season. But with xDrive, BMW's intelligent all-wheel drive system, your car will respond quickly to allow you to enjoy maximum driving pleasure, even on the most difficult road surfaces. 4WD, all-wheel drive and 4x4 are all terms that are used interchangeably, but all equate to the same thing. BMW xDrive is powered by an extra layer of intelligence, making it one of the most technically advanced all-wheel drive systems in the segment.

The xDrive system is automatically enabled each time the engine is started, so it is permanently engaged to ensure you have maximum grip in all conditions. Therefore, it is not necessary or possible to activate or deactivate the system.

# BMW WALLBOX

Stay charged and ready to go with the BMW Wallbox Gen 3. With its safe and high-charging capacity of up to 22kW\*, start charging any vehicle as soon as it's connected. Featuring clever compact design and easy to use cable management, the Wallbox connects directly to the power supply, so you always have the power you need for the journey ahead. BMW Wallbox's are suitable for all fully electric and hybrid vehicles that have a type 2 charging socket.

**To discover more about how the BMW Wallbox works please click to watch a quick information video.**

Each BMW 3rd Generation Wallbox package includes all mounting hardware and fixings including the Wallbox itself, installation instructions, the operating manual and drilling template. The BMW Wallbox is designed for indoor and outdoor use. When selecting the installation site, consider access from the charging socket to the vehicle and the direction in which the vehicle is normally parked.

MEDIUM SUV

**7.5 Hours to charge 0–100%^**  
**55% charged in 4 hours**

LARGE SUV

**7.15 Hours to charge 0–100%^**  
**56% charged in 4 hours**

^The calculation takes into account consumption and charging performance. Values refer to 29-33 degrees Celsius battery start and ambient temperature with certification values excluding additional auxiliary consumers such as seat heating, displays, air conditioning. Individual consumption may vary (depending on e.g. driving profile, temperature, ambient conditions) as well as the individually achievable charging performance (depending on e.g. battery state of charge, vehicle air conditioning). Charging performance is based on the maximum possible charging performance (depending on charging type and vehicle).

# MY BMW APP

STAY IN THE DRIVER'S SEAT,  
WHEREVER YOU ARE.

Connect your vehicle to your life. The My BMW App keeps you at the wheel with total control of your BMW, whether you're in your vehicle or not.

- **Remote control**  
Lock and unlock your BMW from wherever you are.
- **Location location location**  
Access your car's location remotely and send locations to your car's GPS, so you're always ready for the journey.
- **Driving conditions**  
Set the temperature of your car remotely for the perfect climate the moment you open the door.
- **Great service**  
Let your BMW tell you when it's time for a service, then schedule it with just a touch.
- **It's personal**  
It's MyBMW, after all. Enter your BMW's colour palette, and the app design follows suit.

# THE 3 EQUIPMENT

# STANDARD EQUIPMENT

## 320i SEDAN

### ENGINE, POWERTRAIN AND TECHNOLOGY

- 8-Speed Steptronic Sport automatic transmission with gearshift paddles
- Auto Start/Stop function
- BMW TwinPower 4-cylinder petrol engine
- Brake pad wear indicator
- Driving Experience Control with Adaptive mode including SPORT, COMFORT and ECO
- Electric power steering with Servotronic
- Variable sport steering

### EXTERIOR DESIGN AND EQUIPMENT

- M Sport Package
- 18" M light alloy wheels Double-spoke style 848 M Bicolour with mixed tyres and runflat tyres
- BMW Individual High-gloss Shadow Line, window frame and air breather surround in black
- M Aerodynamics package, aerodynamic front and rear bumper trims, side sills

### LIGHT AND SIGHT

- LED headlights
- Exterior mirrors with automatic anti-dazzle function driver's side, electrically adjustable and heated, with electric fold-in function
- Follow-me-home function, if the headlight flasher is activated after the ignition is shut off, the low-beam headlights continue to shine for a set time
- High-Beam Assistant
- Interior anti-dazzle mirror
- LED Fog lights
- Rain sensor

### DRIVER ASSISTANCE

- Driving Assistant, incl. lane departure warning, lane change warning, front collision warning with brake intervention, rear crossing traffic warning, rear collision prevention
- Parking assistant, incl. Lateral Parking Aid, Rear View Camera
- Speed Limit Info
- Speed limiter
- Active Cruise Control

### INTERIOR DESIGN, COMFORT AND EQUIPMENT

- Alcantara/Sensatec Upholstery
- Comfort Access
- Electric seat adjustment
- Seat heating, front
- Sport Seats
- Galvanic embellishers
- Ambient Lighting

### SAFETY

- Airbags, 8 in total: front airbags for driver and front passenger, side airbags for driver and front passenger integrated in the seat backrest bolsters, head airbags for all 4 outer seats.
- Automatic Stability Control (ASC), Dynamic Stability Control (DSC), Anti-lock Braking System (ABS), Braking Assistant, Cornering Brake Control (CBC), Dynamic Traction Control (DTC)
- Central locking with electronic immobiliser
- Dynamic braking lights
- Runflat tyres
- Warning triangle and first aid kit

# STANDARD EQUIPMENT

## ENTERTAINMENT, COMMUNICATION AND INFORMATION

- BMW Live cockpit Professional with 12.3" instrument display, 14.0" Control Display with BMW Operating System 8.0
- DAB+ digital radio
- Extended Bluetooth connectivity
- HiFi Loudspeaker system, 10 speakers, 205 W Digital amplifier
- Personal Profile, customised control functions can be saved into the keys
- Storage for wireless smartphone charging
- Wireless charging tray

## CONNECTEDDRIVE FEATURES

- Connected Package Professional incl. Remote Services\*, Real Time Traffic Information (RTTI)\* and Apple CarPlay
- ConnectedDrive Services\* incl. BMW Connected+ and includes free usage of vehicles apps via BMW Online (News and Weather)
- Connectivity via in-built SIM card, 4G LTE network compatible
- Intelligent Emergency Call
- TeleServices

\*3 year subscription

## 330e SEDAN

### IN ADDITION TO 320i

- 19" M alloy wheels
- Leather Upholstery
- Instrument panel in Sensatec
- M Sport Seats
- Lumbar Support, front
- M Sport Brakes, Blue
- Adaptive M Suspension
- Electric tailgate
- Acoustic protection for pedestrians

## M340i xDRIVE

### IN ADDITION TO 330e

- 19" M alloy wheels w Sport Tyres
- Tyre repair kit
- Glass roof, electric
- Adaptive LED Headlights
- Driving Assistant Professional
- Harman/Kardon sound system

# SUSTAINABILITY AT BMW

## ACTIONS AND TECHNOLOGIES THAT HAVE A REAL EFFECT.

No competitor comes close to matching the comprehensive and diverse BMW Group portfolio of electrified models (fully electric BEV, partly electric PHEV), with half a million such vehicles delivered to customers to date.

- In co-operation with Charge Net, BMW i customers in New Zealand can access the ChargeNow 'electric highway' - 100 fast-charging stations from Kaitia to Invercargil.
- BMW Group considers sustainability a fundamental aspect of its past, present and future corporate strategy.
- Decades-long history of action to protect the climate and significantly reduce fuel consumption.
- Focus on further electrification of the product roster as the key measure for lowering CO2 emissions.
- Largest range of plug-in hybrids as the most versatile form of electrification.
- Greatest benefit of plug-in hybrids: enabling both customary range and driving without generating local emissions.
- Fully electric BMW i3 is uniquely sustainable, with sales figures still rising six years after launch.
- By 2023: 25 models with electrified powertrains, half of them pure battery electric vehicles.
- Numerous awards for eco-conscious design covering the entire product lifecycle.

## MEET THE ELECTRIFIED BMW FAMILY

For an electric vehicle it is not only important to consider how fast and safely it travels, but also how far it will take you. In this consideration, the range of an electric vehicle also depends on factors such as the speed, driving style and outside temperature as well as the use of the air conditioning or seat heating. These are factors that we cannot calculate. But all the others we can. Here you can find out all about the ranges of our electric cars and plug-in hybrid vehicles.

# FURTHER INFORMATION ON CO<sub>2</sub> DATA

The values of fuel consumptions, CO<sub>2</sub> emissions and energy consumptions shown were determined according to the European Regulation (EC) 715/2007 in the version applicable at the time of type approval. The figures refer to a vehicle with basic configuration in Germany and the range shown considers optional equipment and the different size of wheels and tires available on the selected model.

The CO<sub>2</sub> efficiency specifications are determined according to Directive 1999/94/EC and the European Regulation in its current version applicable. The values shown are based on the fuel consumption, CO<sub>2</sub> values and energy consumptions according to the NEDC cycle for the classification.

When charging times are shown they can be affected by a number of factors such as type of charger, voltage supplied to the charger/car and type of current (AC or DC) supplied to the charger/car. The car also plays a role in charging times as it can be set by the driver to accept various different amperage and should preconditioning be used to heat or cool the vehicle while charging this will also affect the charging time.

The basis for the calculation of the charging times for 100 km range is the electric consumption of the vehicle based on the use of a high-Powered Charging station (HPC) or charging type and current as indicted in the literature above. The testing procedure measures are based on a 23 degrees Celsius battery start and ambient temperature with certification values excluding additional auxiliary consuming devices and systems within the vehicle such as seat heating, displays, air conditioning.

Individual consumption (fuel economy) may differ due to driving profile, vehicle load profile, auxiliary consumer usage, temperature, and ambient conditions. Consumption is based on WLTP or NEDC (whichever is indicated) best case conditions and is independently tested for BMW Group. If you are comparing this range with other models or brands make sure they are stating the same WLTP or NEDC testing regime. These results can be used to compare vehicles on a close to "like for like" basis but are unlikely to be achieved in real world conditions for reasons including temperature variation, driving conditions and the use of the auxiliary systems referred to above.

Information provided and images displayed in this brochure include overseas models and may show some features not available in New Zealand. Please contact an authorised BMW dealer for specific information on vehicles and features available in New Zealand. Product changes may have been made since production of this content.

Note: To obtain NZ CO<sub>2</sub> figures for vehicles imported by BMW Group NZ in relation to the NZ Clean Car discount or "FeeBate" you will need to contact your preferred dealer. The Clean Car discount figures sourced from your dealer will differ from those listed in the BMW owner's handbook and reported figures as they have been converted by the NZ government to WLTP3 from figures derived through one of the following testing procedures: WLTP4 or NEDC.

For more information on the New Zealand Clean Car Programme, please visit [www.nzta.govt.nz/vehicles/clean-car-programme](http://www.nzta.govt.nz/vehicles/clean-car-programme)
