STANDARD & OPTIONAL EQUIPMENT HIGHLIGHTS.

■ The Instrument panel in Sensatec lends the interior of the vehicle a highly exclusive atmosphere. The synthetic leather is applied directly to a semi-rigid foam, and features an impressively soft surface. The wear-resistant material is finished with attractive double lap seams. Standard for M Sport models.

■ BMW Icon Adaptive LED Headlights include BMW Selective Beam, cornering lights and adaptive headlights. The light colour is similar to daylight and provides an ideal, even illumination of the road to improve visibility and make driving in the dark less tiring. The iconic light design with four light elements makes the vehicle recognisable as a BMW even at night.

□ Comfort Access allows keyless entry to the vehicle via both the driver and passenger doors as well as the bootlid. It includes handle-area lighting in the outside door handles, front and rear.

□ When open, the Panoramic glass sunroof provides a great deal of fresh air. Closed, it creates a bright, light-flooded atmosphere in the interior. It opens and closes completely automatically at the push of a button, or remotely, and is equipped with slide and lift functions, roller sunblind and wind deflector. Standard for M Sport models.

□ The Bowers & Wilkins Diamond Surround Sound System with 1400W amplifier and two diamond tweeters features outstanding studio-quality sound for every seat in the car. The 16 carefully positioned speakers ensure a mesmerising sound experience. The speakers are illuminated, visually emphasising the system's outstanding sound quality.

■ The Active rear spoiler automatically extends and retracts according to the speed of the vehicle in order to improve stability. It can also be manually activated via a button on the centre console.

□ The Remote Control Parking<sup>3</sup> function allows the driver to conveniently get out of the vehicle before parking it via remote control by moving it forward into, or reversing out of, a tight parking space or garage. The driver activates the remote controlled parking function from outside the vehicle via the BMW display key.

■ The high-performance M Sport brakes are distinguished by exclusive Blue brake calipers with M designation and outstanding braking performance. Standard for M Sport models.

□ A smartphone holder within the centre console features inductive charging for compatible mobile telephones (using Qi wireless charging format) and connection to the vehicle's external aerial. Includes LED charge level indicator and forgotten mobile phone warning. A roof aerial connection improves mobile reception. Two mobile telephones and an audio player can be connected simultaneously via Bluetooth. Also included are Bluetooth Office and the technical capacity for a WiFi hotspot.<sup>1</sup>

■ The Surround View system makes parking easier by making the area around the car visible with Top View, a Panorama View with automatic activation as well as a 3D View.<sup>2</sup>

□ Parking Assistant Plus makes parking and manoeuvring the vehicle easier. It features Surround-view including Top-view, Remote 3D view, Panorama view, PDC and Park Assist with linear guidance, which parks the vehicle parallel or perpendicular automatically. The system works by measuring potential spaces while driving past at a low speed.

□ Rear-seat entertainment Experience includes two separate 10.2" colour screens that can be tilted and a Blu-ray drive. This makes it possible to use the navigation system or the internet while on the road (with an existing mobile phone contract). Features remote control, USB port and ports for MP3 players, games consoles and headphones (including wireless headphones).

<sup>1</sup> = Supports inductive charging for Qi-compatible mobile phones. Special charging cases are available from Genuine BMW Accessories for selected smartphones that do not support the Qi standard for inductive charging. <sup>2</sup> = Part of Parking Assistant Plus. <sup>3</sup> = Only available in conjunction with optional Parking Assistant Plus, Comfort Access and BMW Display key. ■ Standard equipment □ Optional equipment

## GENERAL INFORMATION

BMW (UK) Ltd, Summit ONE, Summit Avenue, Farnborough, Hampshire, GU14 0FB (hereinafter referred to as “BMW”) provides the customer with certain vehicle-related information and assistance functions (hereinafter called “Services”) under the name of “BMW ConnectedDrive”. BMW collects, stores or processes car-related data in compliance with applicable law and only to the extent necessary to provide the Services. BMW does not collect, store or process personal data in course of the Services – except where this is explicitly stated in the service description of the individual Services. In the case of Services that require personal data to be collected, stored and processed so that such Services can actually be provided, BMW informs customers of this in advance by providing this data protection notice The Services are provided by means of a SIM card installed in the vehicle.

## DEACTIVATION

You can have the BMW ConnectedDrive services deactivated through an authorised BMW centre, a BMW subsidiary or a BMW authorised workshop at any time. This also has the consequence that aspects of the emergency call in the vehicle as well as all remaining Services will no longer function.

You can additionally arrange for the remaining Services to be deactivated via “My BMW ConnectedDrive”.

If the vehicle is equipped with the legally required EU Emergency Call (as from April 2018) a deactivation of the BMW ConnectedDrive basic services will not deactivate the vehicle's built-in SIM card. It has to remain active, so that the EU Emergency Call is functional all the time.

Services that are available and active without runtime limitations, cannot be guaranteed for permanent usage due to potential future technical developments (of the Service availability and/or Smartphone compatibility/operating systems).
