# OPTIONAL EQUIPMENT HIGHLIGHTS.

HEAD-UP DISPLAY.

The Head-up Display projects information relevant to the journey directly into your field of vision on the windscreen thereby allowing you to fully concentrate on driving. Display of full content is dependent on optional equipment ordered.

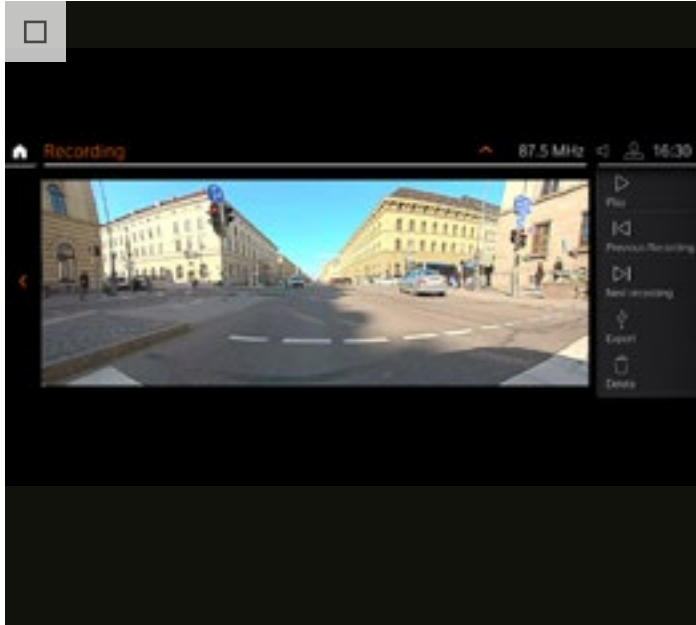

Exclusively available as part of Technology package.

DRIVER RECORDER.

The Drive Recorder allows you to record a video from the vehicle environment and play the video on the central Control Display or via USB export also on your device. Important vehicle information such as speed and GPS position are stored synchronously with the video. The Drive Recorder has two sub-functions, the Event recorder and the Crash recorder.

Exclusively available with Parking Assistant Plus.

STEERING WHEEL HEATING.

At the touch of a button, the steering wheel heating quickly warms up the steering wheel rim to a pleasant temperature. The steering wheel gives you a pleasant warm feeling even when it's cold outside, allowing you to comfortably and safely steer the vehicle without the encumbrance of gloves.

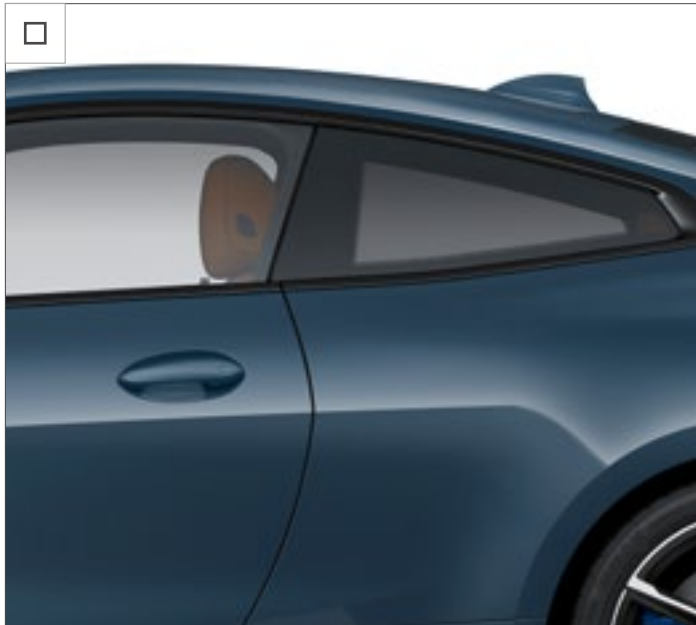

Included in Comfort package and Comfort Plus package.

SUN PROTECTION GLASS.

The sun protection glass is darkened and prevents the interior from heating up when exposed to direct sunlight. The darker glass behind the B-pillars absorbs more sunlight. It doesn't hinder outward visibility but does offer more privacy in the rear.

Standard for M Sport Pro Edition and M440i xDrive models. Included in M Sport Pro package.

M SPORT BRAKING SYSTEM, HIGH-GLOSS RED.

The M Sport brake has four-piston fixed calipers at the front and single-piston floating calipers at the rear in High-gloss Red with M lettering and features larger brake discs to ensure an outstanding braking performance. Adapted to the vehicle's very high dynamic potential, it also allows an exceptional athletic driving style and excellent braking on wet surfaces.

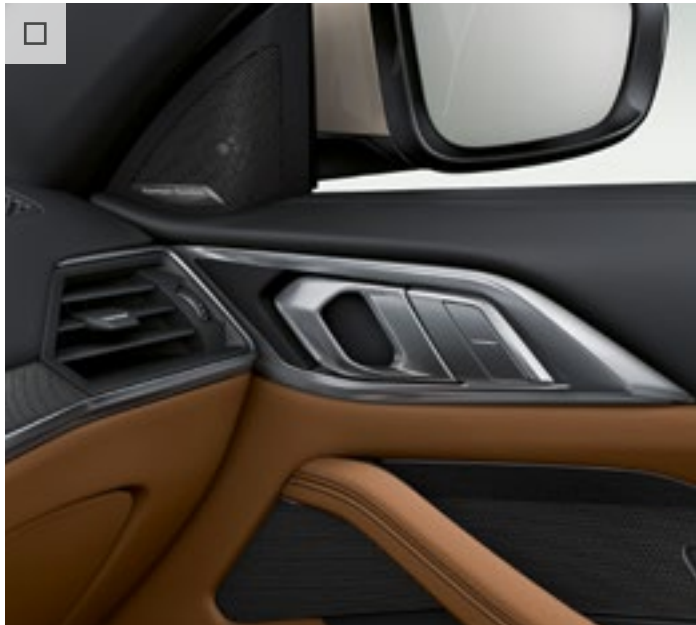

Standard for M440i xDrive models. Exclusively available as part of M Sport Pro package for M Sport models.

LOUDSPEAKER SYSTEM – HARMAN/ KARDON.

The harman/kardon loudspeaker system features a 464W digital amplifier, nine channels and 16 speakers. Its extremely harmonious sound perfectly fills the interior space. Fully automatic, speed-dependent equalising precisely compensates for any background driving noise.

Included in Technology package and Technology Plus package.

## GENERAL INFORMATION

BMW (UK) Ltd, Summit ONE, Summit Avenue, Farnborough, Hampshire, GU14 0FB (hereinafter referred to as "BMW") provides the customer with certain vehicle-related information and assistance functions (hereinafter called "Services") under the name of "BMW ConnectedDrive". BMW collects, stores or processes car-related data in compliance with applicable law and only to the extent necessary to provide the Services. BMW does not collect, store or process personal data in course of the Services – except where this is explicitly stated in the service description of the individual Services. In the case of Services that require personal data to be collected, stored and processed so that such Services can actually be provided, BMW informs customers of this in advance by providing this data protection notice. The Services are provided by means of a SIM card installed in the vehicle.

## DEACTIVATION

You can have the BMW ConnectedDrive services deactivated through an authorised BMW centre, a BMW subsidiary or a BMW authorised workshop at any time. This also has the consequence that aspects of the emergency call in the vehicle as well as all remaining Services will no longer function.

You can additionally arrange for the remaining Services to be deactivated via "My BMW ConnectedDrive".

If the vehicle is equipped with the legally required EU Emergency Call (as from April 2018) a deactivation of the BMW ConnectedDrive basic services will not deactivate the vehicle's built-in SIM card. It has to remain active, so that the EU Emergency Call is functional all the time.

Services that are available and active without runtime limitations, cannot be guaranteed for permanent usage due to potential future technical developments (of the Service availability and/or Smartphone compatibility/operating systems).
