WHEN ACHIEVEMENT  
LOOKS EFFORTLESS

# WHEN THE MOOD IS RELAXED

What sets the 2015 LaCrosse apart from other luxury sedans isn't one thing. It's a blend of comfort, technology and performance innovations interwoven to create a uniquely pleasurable driving experience. Advanced available safety features, including Lane Change Alert, Lane Departure Warning, Forward Collision Alert and the Safety Alert Seat, surround you with security. An available All-Wheel-Drive (AWD) system heightens your confidence. Our exclusive QuietTuning process turns the LaCrosse cabin into your personal sanctuary. And a standard engine technology called eAssist helps conserve fuel. All of which should put you in a very good mood.

WHEN YOU'RE IN CONTROL

LIGHT NEUTRAL LEATHER-APPOINTED SEATING

Settle into the available premium leather-appointed seating. Ice-blue ambient lighting and the soft-touch instrument panel surround you to make your ride more comfortable and enjoyable. Directly in front of the driver, there's a 203 mm (8") diagonal Driver Information and Cluster Display that can be configured with the information you use most often. Atop the centre console is a 203 mm (8") diagonal colour touch-screen that makes it easy to use the latest generation of IntelliLink.<sup>1</sup> Buick's acclaimed infotainment system. Below the centre screen, the dual-zone climate controls and available heated and ventilated front seats can be easily controlled by using intuitive capacitive touch controls, meaning fewer buttons and putting every control just where you need it. Your passengers' comfort isn't left to chance, either. In fact, our engineers designed first-class rear seating in this luxury sedan to have more rear leg room than even the Lexus ES 350, Acura TL and Infiniti Q70 sedans.<sup>2</sup>

<sup>1</sup>Full functionality requires compatible Bluetooth® and smartphone, and USB connectivity for some devices. Visit [intellilink.buick.ca](http://intellilink.buick.ca) for more details. <sup>2</sup>Based on latest competitive information available at time of printing.

QUIETTUNING

WHEN RUSH HOUR  
IS HUSHED

DEEP GARNET METALLIC  
shown with Premium II Group and optional equipment.

LaCrosse is engineered using a QuietTuning process. It's a carefully orchestrated application of sound-reducing, sound-blocking and sound-absorbing measures, including a windshield shaped to minimize turbulence, triple door seals, optimized engine mounts and special sealants. The result is a cabin that's quiet and calm. So go ahead. Close the door of your LaCrosse. Settle into a place where the noise of the world falls away and you can enjoy hearing the sounds you prefer—a favourite song, a good conversation or simply the smooth acceleration of the engine.

WHEN YOU'RE CONNECTED

Remarkably simple and intuitive, Buick IntelliLink<sup>1</sup> is designed to help drivers keep their hands on the wheel and eyes on the road. With IntelliLink, enhanced voice recognition allows for commands such as "Call my office." Or to navigate content, you simply use touch, drag and swipe gestures. The system lets you save up to 60 presets of your favourite music, equalizer settings, destinations and contacts. You can listen to selections from your MP3 music library or stream Internet radio from your compatible smartphone. Plus the built-in Bluetooth<sup>2</sup> lets you play music wirelessly. And since LaCrosse is available with Bose® Premium Audio, the music you choose will sound especially rich, reproduced with deep bass, complex midrange and clean, crisp highs. And with app tray customization, you can keep frequently used features at your fingertips.

<sup>1</sup>Full functionality requires compatible Bluetooth and smartphone, and USB connectivity for some devices. Visit [intellilink.buick.ca](http://intellilink.buick.ca) for more details. <sup>2</sup>Not compatible with all devices.

WHEN YOU ARE  
**THE HOTSPOT**

The next generation of OnStar brings you 4G LTE<sup>1</sup> – the simplest, most powerful way to stay connected on the road. The all-new available technology provides your LaCrosse with a fast, reliable Wi-Fi hotspot. Passengers can tap into high-speed wireless Internet and connect up to seven mobile devices to browse Web sites, stream movies, send e-mails and more. Built-in OnStar with 4G LTE provides a better in-vehicle experience than your smartphone. Our strong signal means you have a fast and reliable connection. You'll also see an enhancement to current OnStar services, including shorter response times and faster service delivery.

<sup>1</sup>Visit [onstar.ca](http://onstar.ca) for coverage maps, details and system limitations. Services and connectivity may vary by model and conditions. OnStar with 4G LTE connectivity is available on select vehicle models and in select markets. Customers will be able to access OnStar services only if they accept the OnStar User Terms and Privacy Statement (including software terms).

WHEN YOU  
FEEL SECURE

SIDE BLIND ZONE ALERT

What if your driver's seat vibrated as a way to alert you to a potential hazard? What if when you signaled a lane change and another vehicle entered your side blind zones, an icon flashed in the driver-side mirror? What if your car sensed the threat of a forward collision, and not only warned you but, if necessary, applied the brakes to help you avoid the crash? Those are some of the ways Buick LaCrosse can help protect you. Available FORWARD COLLISION ALERT warns the driver of a potential collision with a vehicle ahead. If necessary, the available FRONT AUTOMATIC BRAKING can even automatically apply the brakes if it detects you may not be reacting quickly enough to this threat. Available ADAPTIVE CRUISE CONTROL automatically adjusts the vehicle speed to maintain a driver-selected following gap to vehicles ahead, even in stop-and-go traffic. Available LANE CHANGE ALERT and SIDE BLIND ZONE ALERT warn you of vehicles in the next lane approaching fast

from behind and of vehicles in your side blind zones. To help you avoid unintentional slow lane drifts, available LANE DEPARTURE WARNING reads the lane markings at speeds above 56 km/h (35 mph). If you haven't put on your turn signal and the system senses your car departs its lane, it flashes a yellow icon to alert you. And with the available SAFETY ALERT SEAT, when the Lane Departure Warning system's camera detects your LaCrosse is leaving a lane without a turn signal active in that direction, a vibration in the driver's left or right seat bolster directs your attention to the side of the lane encroachment. When a potential collision ahead is detected by the Forward Collision Alert system, both sides of the seat vibrate. Safety features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Read the vehicle Owner's Manual for more important safety information.

## REAR CROSS TRAFFIC ALERT

This available technology helps you know something's headed your way when backing up. A camera in the rear captures a view behind the car, while radar sensors detect vehicles approaching from the left or right within 19.8 m (65 ft.). The system alerts you audibly and by flashing a warning signal on the Rear Vision Camera screen. And if equipped with the Safety Alert Seat, the left or right side of the seat bottom will vibrate.

## ONSTAR SERVICES

The 2015 LaCrosse comes with a 5-year OnStar Basic Plan.<sup>1</sup> This standard plan gives you access to the RemoteLink Key Fob Services,<sup>1</sup> which let you lock and unlock your car doors, activate the horn and lights and even start your LaCrosse remotely from your smartphone or tablet. Plus, get OnStar Vehicle Diagnostics and Dealer Maintenance Notification to make service scheduling simple. Along with the 5-year OnStar Basic Plan, you'll also receive a 6-month trial of the Directions & Connections Plan<sup>2</sup> that includes Automatic Crash Response, Emergency Services, Stolen Vehicle Assistance, Live Advisor Assistance and available Hands-Free Calling.

<sup>1</sup>Access is available for 5 years from the date of vehicle delivery and is transferable. Does not include any Emergency Services or other OnStar services. To cancel OnStar RemoteLink Key Fob Services or if your vehicle is sold, you must contact OnStar at 1.888.4.ONSTAR (1.888.466.7827). Subsequent owners will be able to activate the remaining term. <sup>2</sup>Visit [onstar.ca](http://onstar.ca) for coverage map, details and system limitations. After complimentary trial period, an active OnStar service plan is required.

# WHEN POWER IS BALANCED

LaCrosse is available with an ALL-WHEEL-DRIVE (AWD) system that offers enhanced traction. Combined with an electronic limited-slip differential, AWD helps maximize traction by sending power to the wheel(s) with the most grip. In low-traction situations — like rain, sleet or snow — it can send up to 50 percent of engine torque to either front wheel and up to 85 percent to either rear wheel. And on dry roads, the benefits include enhanced acceleration, providing torque to all four wheels.

WHEN THE RATING IS  
6.5 L/100 KM HWY<sup>1</sup>

QUICKSILVER METALLIC

<sup>1</sup>2015 Buick LaCrosse FWD equipped with the available 2.4L engine with eAssist. Fuel-consumption estimates based on GM preliminary testing in accordance with new 2015 model-year Government of Canada approved test methods. Refer to vehicles.nrcan.gc.ca for details. Your actual fuel consumption may vary.

eAssist is a fuel-saving engine technology available on LaCrosse. As the name implies, it uses a compact electric motor/generator and an advanced lithium-ion battery to assist LaCrosse and its 2.4L DOHC DI four-cylinder gasoline engine by conserving fuel in certain situations. When LaCrosse brakes to a stop, such as at a red light, eAssist switches its power source from the gasoline engine to the electric motor. It returns to gas power the instant the driver's foot leaves the brake pedal. eAssist also captures and stores energy in the battery as you coast or brake. This energy is used to run accessories when LaCrosse is stopped with the engine in auto stop mode. When needed, the stored energy also powers the electric motor, increasing the horsepower and torque of the 2.4L engine for an enviable fuel-consumption rating of 6.5 L/100 km hwy.<sup>1</sup>

## WHEELS

<sup>1</sup>E85 is a blend of 85 percent ethanol and 15 percent regular gasoline. Go to [gm.ca](#) and search E85 for more information about E85 as a fuel alternative. <sup>2</sup>Fuel-consumption estimates based on GM preliminary testing in accordance with the new 2015 model-year Government of Canada approved test methods. Refer to [vehicles.nrcan.gc.ca](#) for details. Your actual fuel consumption may vary. <sup>3</sup>Full functionality requires compatible Bluetooth and smartphone, and USB connectivity for some devices. Visit [intellilink.buick.ca](#) for more details. <sup>4</sup>Available in 10 Canadian provinces and the 48 contiguous United States. Subscription sold separately after trial period. If you decide to continue your service at the end of your trial subscription, the plan you choose will automatically renew at then-current rates until you call 1-877-209-0079 to cancel. Other fees and taxes will apply. All fees and programming subject to change. See SiriusXM "Terms & Conditions" and complete details at [siriusxm.ca](#). <sup>5</sup>Not compatible with all devices. <sup>6</sup>Visit [onstar.ca](#) for coverage map, details and system limitations. Services and connectivity may vary by model and conditions. 4G LTE service is available in select markets, and customers will be able to access this service only if they accept the OnStar User Terms and Privacy Statement (including software terms). <sup>7</sup>A NOTE ON CHILD SAFETY: Always use safety belts and the correct restraint for your child's age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with an active frontal air bag. See the Owner's Manual and child safety seat instructions for more safety information. <sup>8</sup>Visit [onstar.ca](#) for coverage map, details and system limitations. After complimentary trial period, an active OnStar service plan is required. <sup>9</sup>At time of printing, detailed map coverage is available for most urban areas of the United States and for certain metropolitan areas of Canada (Vancouver, Calgary, Edmonton, Winnipeg, Windsor, London, Toronto, Ottawa, Quebec City and Halifax). Coverage is significantly limited outside these areas. <sup>10</sup>Adaptive Cruise Control is no substitute for the driver's personal responsibility to operate the vehicle in a safe manner. The driver needs to remain attentive to traffic and road conditions and provide the steering, braking or other inputs necessary to retain control of the vehicle. The Front Automatic Braking feature may help reduce crash damage under certain conditions discussed in the Owner's Manual. Never rely on this feature to brake the vehicle. <sup>11</sup>Cargo and load capacity limited by weight and distribution.
