

BUICK

CENTURY, REGAL 1977

CENTURY AND REGAL

*Let's see... Susie's nose is in place,
Bobby's eye patch is on straight, and your Regal
is set to take the little tykes on their yearly rounds.*

Sure, they could walk.

*But gosh, they'll get more candy if you drive them.
And, (ahem) it gives you a chance to show off your new Buick.
Great idea of yours, driving the kids this year.*

Buick Century is a notable exception to what the term "mid-size" car has traditionally implied. Century fuses some of the best full-size Buick features into a mid-size car with content; to provide a superb blend of comfort and manoeuvrability. It's worth noting that Century was the first mid-size North

American car to use timely V6 power. And this year, in the interest of weight-saving, our Buick V6 is pounds lighter.

With eight available models, Century is truly a car for all reasons. There's Regal, the ultimate Century, with its formal lines and rich

interior... all the way to Century Special, designed to be the least expensive Century of all. In between you'll find a range of Coupes, Sedans and Wagons that let your personality and Century's match almost perfectly.

If you're used to big cars, Century is a mid-size means of getting V6 power

and retaining family room at the same time. For people used to low-priced cars, Century is a move up. And, for still others, Century is a personal road car. So consider your needs. Then consider Century. It's definitely a car worth owning. More than that, it's a car worth showing off.
