

Blazer

CHEVROLET

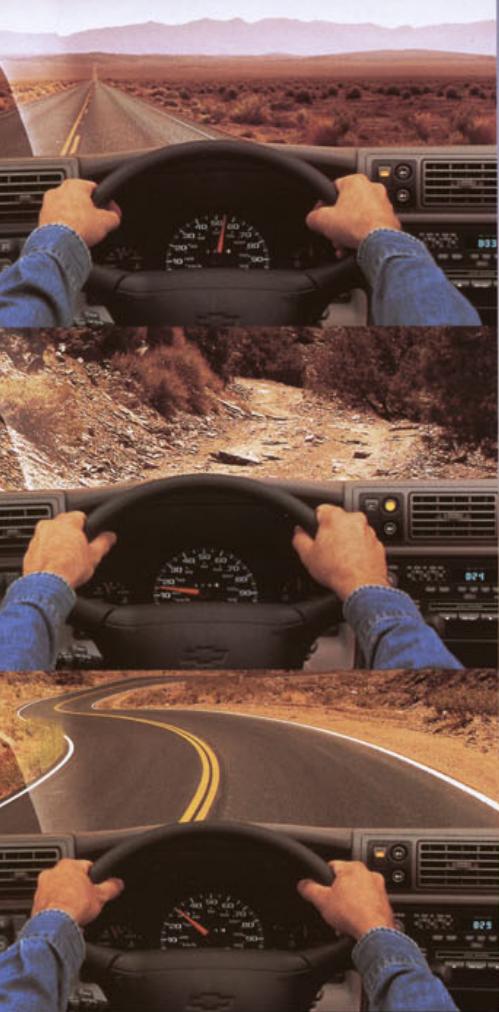

**Blazer: The first of its kind and still the classic all-American off-road vehicle.**

But the 1995 Blazer is better than it's ever been before.

It's been re-engineered, re-built and re-styled to unleash its true potential. While still combining all the handling characteristics and comforts of a car with the ruggedness, power and strength the Blazer has made uniquely its own.

Giving you the freedom to go where you want to go. When you want to go.

Blazer: the genuine off-road Chevrolet.

### **Total re-engineering and re-design.**

The all-new '95 Blazer incorporates a considerable number of technological on-road/off-road advances to create the Blazer Driver Control System. Giving you comfort and performance with off-road power and toughness.

The new chassis is made with a heavy steel frame for greater rigidity (there really is no substitute). The specially designed tires produce formidable traction, yet remain amazingly quiet. And the variable ratio power steering allows you to maneuver easily.

The new Blazer means safe and predictable control, regardless of the driving conditions. It even has a push-button 4WD capability with Insta-Trac on demand.

And it's powered by the acclaimed 4.3 litre, 193 h.p./142 kw V-6 (4speed auto/5speed manual) engine.

The all-new 1995 Blazer turns this legendary car into a completely new off-road motoring experience.

**Take whatever you want, wherever you want.**

**you want.** Once you've loaded everything you need into many so-called all-terrain vehicles you're lucky if there's any room left for people, let alone give them room to relax and enjoy.

Fold away the seats and you've got 2100 litres of unobstructed space. Split the rear seats (60-40) and you have even greater flexibility.

Take the Blazer. Take the family. Take practically anything you want. And take off.

**Go where you please, but go there in comfort.** Blazer is almost a contradiction in terms. A rugged, tough off-roader, yet with all the smooth ride and comfort of a sedan. (An eminently civilized combination, we think.) Superb ride comfort. Power steering. Air-

conditioning (CFC-free). Speed control. Analog instrumentation. Tinted glass. Cup holders. Electric windows. Two front tow hooks. Head lamp washers. All fitted as standard. We've also produced an optional overhead console which includes a compass and an out-

side temperature readout. Deep supportive leather seats are also an available option.

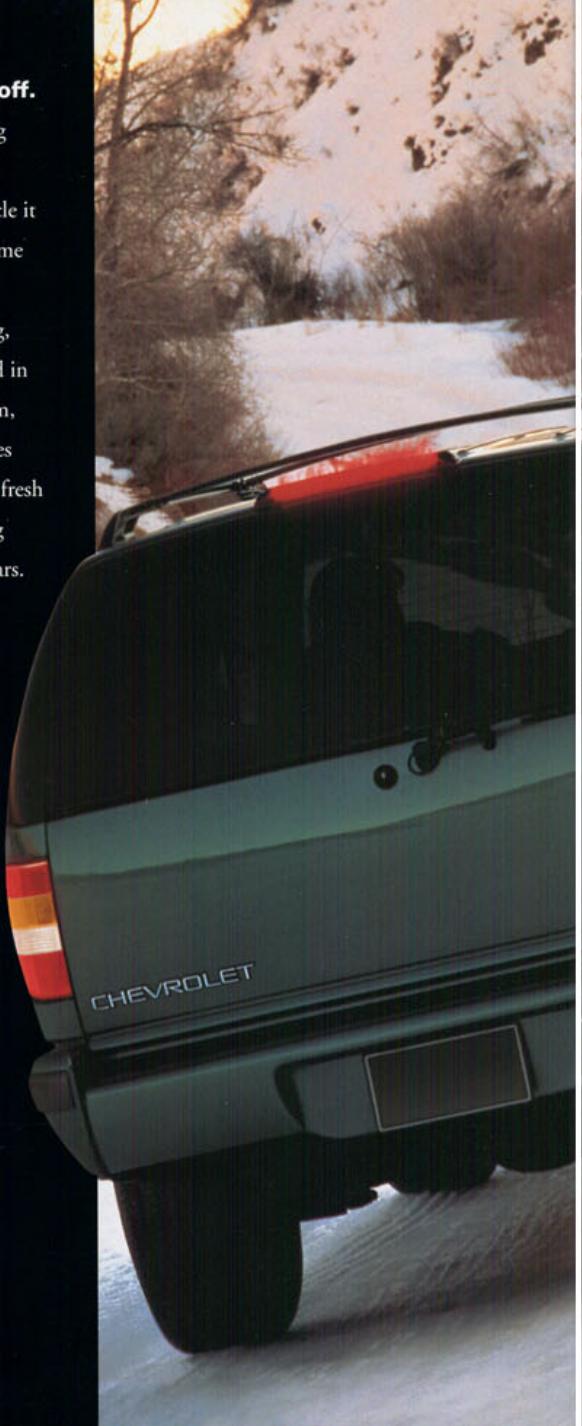

Sit back. Be comfortable. This is freedom motoring at its most exhilarating.

**Blazer will protect you on-road or off.**

Your safety and security is vital to everything we do. But with Blazer that takes on extra importance. Because it is an all-terrain vehicle it had to be designed to cope with and overcome the unexpected.

The steering wheel incorporates an airbag, which is something you'll definitely not find in many off-road vehicles. It has an ABS system, which operates in 2WD or 4WD, and comes with air-conditioning to ensure you remain fresh and alert. Personal security includes a strong steel construction frame with side impact bars. And, of course, all fitted as standard.

It's tough. Surefooted. Safe and secure.

**Genuine Chevrolet.** A genuine Chevrolet is a car of undisputed quality, with all the features you want and with a comprehensive range of proven safety features, which combine to create a car that represents very real value for money.

**We'll deliver you safely.** Chevrolet benefits directly from the vast resources of General Motors and its commitment to every aspect of both car and people safety. No other car maker, has crash-tested more cars, invested more money, or actually given away more safety patents to the motor industry.

It's a matter of principle and pride. It is also intelligent.

For example, every Chevrolet has four-wheel ABS, driver side airbag and, to keep you alert, refreshed and relaxed, air-conditioning. All three are standard across the range.

We also regard your personal security as being important. So every automatic Chevrolet has an all-door door locking system which is activated the moment you engage 'Drive'. All doors are fitted with a steel cross beam to protect you and your passengers from side impact.

Our pursuit of safety, in all its aspects, is total.

#### We guarantee quality.

The standard of build quality, technology and equipment is such that every Chevrolet has a 3-year, or 100,000 km, guarantee. Plus a 6-year anti-corrosion guarantee.

#### We believe in true value for money.

By comparison with the majority of quality car makers Chevrolet is years ahead in what we give you for your money. What we fit as standard other manufacturers frequently make a charge for. The level of driver and passenger comfort is apparent the moment you sit in a Chevrolet.

More importantly, every safety system we fit is included as standard equipment. In our opinion your safety is not an optional extra – it's of paramount importance.

Value for money is not something we just talk about. We deliver it.

**We are always supportive.** Everybody who buys a Chevrolet automatically receives our on-going support and loyalty. And it is considerable. We will never let you down.

We give you the reassurance of our 24-hour, 365 days a year, breakdown service, which operates with 400 service points throughout Europe. Customer care to us is not an empty expression. It's real, it's operational and it is always there, when and wherever you might need help.

We believe that if you buy a Chevrolet the very least you should expect is 100% commitment from us once you're on the road.

And we will give it you.

**Now we would like to offer you a little temptation!** Every GM dealer throughout Europe wants to give you the opportunity to experience for yourself the pleasure and excitement of driving one of these Genuine Chevrolets.

You will, we assure you, find it a wonderful and pleasantly surprising driving experience.

## Technical Specifications

### Dimensions and Capacities

Length (mm)	4639
Width (mm)	1736
Height (mm)	1702
Fuel tank (l)	72
Curb weight (kg)	1950

### Engine

Bore x stroke (mm)	101.5 x 88.4
Cubic capacity (cm <sup>3</sup> )	4300
Compression ratio	9.1:1
Fuel system	Sequential Port Fuel Injection
Performance (kW/hp/rpm)	142/193/4400
Max. torque (Nm/rpm)	345/3400
Top speed (kph)	180

### Transmission

	4-Speed Autom.	5-Speed Manual
Four-wheel drive	•	•
Automatic transmission, 4-speed with overdrive	•	–
Manual transmission, 5-speed	–	•
Axle ratio	3.73:1	3.42:1

### Standard Equipment

• Anti-lock brakes	• Rear window wiper/washer
• Defogger, side windows and rear windows	• Mirror; inside sunshade
• Front tow hooks – 2	• Console, center, floor
• Glass, tinted, solar-ray	• Positraction – locking differential
• Power steering	• Tires: P235/70R15 R/Pe
• Safety, brake/transmission shift interlock	• Trailering wiring
• Seating: 5 passenger	• Underbody shield package
• Warning device: headlamps-on buzzer	• Power package: door locks, windows, mirrors
• Wipers, front: intermittent	• Headlamp washer
• Rear folding bench seat	• Automatic level control
• Air conditioning	• Heavy duty battery
• Occupant protection: side guard door beams	• Radio: AM/FM stereo with cassette, equalizer, clock
• Front bucket seats	• Frame mounted rear tow hook
• Driver airbag	

### Optional Equipment

• Front seat back, recliner (manual)	• Mirror electric remote defog – outside/rear view
• 6-Way power seat with lumbar support	• Leather wrapped steering wheel
• Seat heated, driver/passenger	• Two tone exterior color paint
• Cargo net	• Cargo security cover
• Overhead console with temperature and compass	• Roof rack
• Wheel, aluminum cast	• Tilt steering and cruise control
