

1983 CHEVROLET CAPRICE CLASSIC AND IMPALA

# CAPRICE CLASSIC 4-DOOR SEDAN

Room, ride and value have helped make the full-size Chevrolets the most popular cars of their kind in the world.

And qualities like elegance, comfort and classic styling helped establish Caprice

Classic as the hallmark among full-size cars.

Caprice Classic continues to be a car of substance—but it's also ready to face today's driving realities. It's aerodynamic. It offers the choice

of a standard V6 engine, along with available gasoline or diesel V8 power.

And you can even have an optional automatic transmission with overdrive. We invite you to compare. We don't

think you can find a better value for your driving pleasure. Feature for feature. Comfort for comfort. Dollar for dollar. You can spend more, but why?

The elegant Caprice Classic Sedan CL Special Custom Interior. Its tailored look is complemented by a soft knit luxury fabric.

Shown here and on cover, Caprice Classic Sedan.

## CAPRICE CLASSIC WAGON

The Caprice Classic Station Wagon features unexpected comfort and luxury. Like the Caprice Sedan, there's a smooth, hushed ride thanks to Full Coil suspension and the acoustical components of the Quiet Sound Group. A 50/50 split front seat

with passenger recliner is available. There's a standard quartz clock to keep time. Make no mistake about it, the Caprice Classic also has a full measure of station wagon features: The loading and unloading convenience of a power tail-

gate window and a three-way door-gate. The security of lockable storage compartments. The ability to carry 87.9 cubic feet of cargo - or you can have seating for up to eight passengers with the standard third seat.

## IMPALA 4-DOOR SEDAN

Impala is Chevrolet's full-size value leader. One look at its long list of standard features and you'll know why. Like the Caprice Classic, the Impala comes with automatic transmission, 3.8 Litre V6 engine, power steering, power front disc brakes, Easy Roll steel-

belted radial ply tires, colour-keyed cut-pile carpeting, extensive anti-corrosion measures and much more built-in Chevrolet value. Inside, there's room for six adults to stretch out in full-foam cushion comfort. And a trunk able to hold almost 21

cubic feet of vacation needs. If you plan to tow on your trip, your Impala can be equipped for trailering. See your Chevrolet dealer for details. Chevrolet Impala. For over 25 years, it's been making a lot of sense for a lot of North Americans.

### A WORD ABOUT ENGINES

Some Chevrolets are equipped with engines produced by other GM divisions, subsidiaries, or affiliated companies worldwide. See your dealer for details.

# YOU'VE CHANGED...WE'VE CHANGED

In this catalogue you can see what that statement means in changes to our products.

Just as important are the changes in our thinking.

To begin with, we exist for you.

What you want in a car is not the important thing, it is the only thing.

You have told us you want quality. We have responded with robotics, lasers, space age materials and, more importantly, with human care and we believe these cars are the best we have ever made.

You have told us you want economy. We have responded by giving you a combination of room, comfort and fuel economy which is outstanding in the entire industry worldwide.

You have told us you want lasting value. We have responded by designing quality into our cars in the first place, building reliability into the cars throughout, and then standing behind our products.

We cannot exist without your approval. And for that reason it is our goal that you will be more satisfied with your General Motors car or truck than the purchaser of any other car or truck made anywhere in the world.

Not only have our cars changed – so has our thinking. It had to.

## A WORD ABOUT ASSEMBLY, COMPONENTS AND OPTIONAL EQUIPMENT IN THESE VEHICLES.

The vehicles described in this brochure are assembled at various Divisions of General Motors Corporation. These vehicles incorporate thousands of different components produced by General Motors of Canada Limited and related companies and their suppliers. From time to time during the manufacturing process, it may be necessary, in order to meet public demand for particular vehicles or equipment, or to meet federally mandated emission and safety requirements or fuel economy guidelines, or for other reasons, to produce vehicles with different components or differently sourced components than initially scheduled. All such components have been approved for use in our products by General Motors of Canada Limited or related companies and will provide the quality performance associated with our name.

Please note that certain optional equipment can be ordered only in conjunction with other optional equipment. Also, upgrading from specified standard equipment may be necessary when certain optional equipment is ordered. Ask your sales representative for details.

With respect to extra cost optional equipment, make certain you specify the type of equipment you desire on your vehicle when ordering it from your dealer. Some options may be unavailable when your car is built. Your dealer receives advice regarding current availability of options. You may ask the dealer for this information. GM also requests the dealer to advise you if an option you ordered is unavailable. We suggest you verify that your car includes the optional equipment you ordered or, if there are changes, that they are acceptable to you.

All illustrations and specifications contained in this catalogue are based on the latest product information available at time of publication approval. The right is reserved to make changes at any time, without notice, in prices, colours, materials, equipment, specifications and models, and to discontinue models. Some of the equipment shown or described throughout this catalogue is available at extra cost. Check with your Chevrolet dealer for complete information.
