ANTI-THEFT

Audible anti-theft ignition key reminder • Anti-theft steering column lock • Inside hood release.

A word about assembly, components and optional equipment in these vehicles.

The vehicles described in this brochure are assembled at various Divisions of General Motors Corporation. These vehicles incorporate thousands of different components produced by General Motors of Canada Limited and related companies and their suppliers. From time to time during the manufacturing process, it may be necessary, in order to meet public demand for particular vehicles or equipment, or to meet federally mandated emission and safety requirements or fuel economy guidelines, or for other reasons, to produce vehicles with different components or differently sourced components than initially scheduled. All such components have been approved for use in our products by General Motors of Canada Limited or related companies and will provide the quality performance associated with our name.

Please note that a certain optional equipment can be ordered only in conjunction with other optional equipment. Also, upgrading from specified standard equipment may be necessary when certain optional equipment is ordered. Ask your sales representative for details.

With respect to extra cost optional equipment, make certain you specify the type of equipment you desire on your vehicle when ordering it from your dealer. Some options may be unavailable when your car is built. Your dealer receives advice regarding current availability of options. You may ask the dealer for this information. GM also requests the dealer to advise you if an option you ordered is unavailable. We suggest you verify that your car includes the optional equipment you ordered or, if there are changes, that they are acceptable to you.

All illustrations and specifications contained in this catalogue are based on the latest product information available at time of publication approval. The right is reserved to make changes at any time, without notice, in prices, colours, materials, equipment specifications and models, and to discontinue models. Some of the equipment shown or described throughout this catalogue is available at extra cost. Check with your Chevrolet dealer for complete information.

January 1982

1982 Camaro

A new way to capture motion.

Even standing still, Camaro is a beautiful study in balance. For example, Camaro Z28, the maximum Camaro is a lean, taut machine that properly belongs to the test track, but takes on city streets with equal aplomb. Even its shadow boasts performance.

Its lean, aerodynamic shape knifes through the air. But then, the all-new Camaro is designed to help you master the road.

Its modified MacPherson strut front suspension, torque arm rear suspension and radial ply tires give it an uncommon ability to hug the road.

And for the aficionado, the F41 Sport Suspension is available for stiffer, tighter cornering.

Step inside, and get the feel of reclining front bucket seats. Grasp the new square hub steering wheel. Discover the new console and note how it keeps the glove compartment within easy reach.

Power brakes and power steering are both standard, as well as a new 2.5 litre 4-cylinder engine teamed with a four-speed manual transmission.

Camaro could be the road car you've been waiting for. At a price, we believe, you can afford.

Camaro Berlinetta Coupe.

Camaro Sport Coupe.

Berlinetta's Custom interior is standard.

Camaro standard high-contour front bucket seats are fully reclinable.

With the rear seat back down, more than 30 cubic feet cargo carrying capacity.

Full instrumentation is standard on Z28.

Camaro's new instrument panel includes an integrated console.

Camaro Z28 Sport Coupe. Even its shadow boasts performance.
