# Chrysler

The 1974 Chrysler is a totally new expression of an idea that has never changed. The idea is that you buy a luxury car for its extraordinary convenience, comfort and beauty. The 1974 Chrysler measures up in every way.

If beauty is in the eye of the beholder, behold Chrysler. The exterior lines are crisp and contemporary. They pamper your sense of good taste. And inside there's new interior elegance and richness.

The ride is superbly quiet... Torsion-Quiet. Chrysler's Unibody construction is strong and solid and helps to minimize squeaks and rattles. A host of sound isolating elements reduce outside road noise to a whisper. Control is sure and firm due to torsion bar suspension up front.

An Electronic Ignition System which has no points or condenser to replace at tune-up time saves you money; and due to the fact that it delivers a consistently higher voltage, makes for fast starts even on cold, wet days. It's practically maintenance-free.

There's a lot more to the Chrysler value, convenience, comfort and luxury story. Drive one and learn for yourself the difference that extra care in engineering makes. You'll appreciate it!
