CHEVROLET
Drive the difference

STATE-OF-THE-ART DESIGN

It's outstanding, modern and stylish, from all angles!

Chevrolet Optra is a tribute to the finest design of Pininfarina, a leading Italian auto design company. The six greenhouse glass panes around the car enhance the sense of style, space and elegance. The door handles, body-side molding and exterior mirror are treated in the same color scheme as the trunk. All this plus the optional alloy wheels that make the car look elegant from front to rear.

The elegant newly designed chrome grille with the 'Bow Tie', a unique symbol of Chevrolet.

Multi-reflector headlights enhance visibility and safety.

Slide and Tilt Sunroof (Optional)

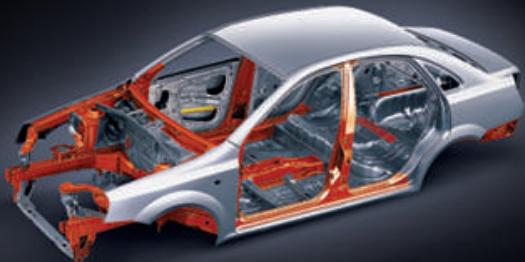

Anti-Fog lamps enhance visibility. (L.S. Model)

Hidden antenna in the rear windshield frame and an extra brake lamp increase your safety.

See-through elegant and stylish rear light panels.

Front single airbag

Survival Zone - High Strength
Steel Safety Structure

EURO-RIDE TUNING SUSPENSION

The new four-wheel-independent MacPherson struts with Euro-Ride Tuning Suspension makes your Chevrolet Optra grip the road in all circumstances. The Dual Control Arm Suspension system with coil springs, gas shock-absorbers and anti-roll bars at the front and Dual Link Suspension at the rear radically enhance handling. Preventing roll and giving a smooth ride in all road conditions - steep inclines, sharp curves or rugged terrain - luxury is foremost.

MAXIMUM PROTECTION

Chevrolet Optra has passed all the stringent internationally recognized tests. It is guaranteed to offer optimum safety, in case of a 64 km/h collision, by the Insurance Institute of Highway Safety under the American Insurance Association. One Hundred & Ninety Chevrolet Optras were crash tested across the world. Chevrolet Optra went through 1.8 million kilometers of durability, inclement weather adjustment and mountain performance tests in the USA, United Kingdom, Australia, Spain and Sweden. Nearly 40% of the trunk is made from hexagonal steel structural beams which are designed to absorb shock. This makes the interior incredibly safe. That's why it is referred to as the "Survival Zone". The stabilizing effect of anti-roll bars on the Dual Control Arm makes handling a dream.

COMPLETE CONVENIENCE AND COMFORT

Every last centimeter of the Chevrolet Optra was designed for ultimate convenience and comfort. It's fully equipped with a wealth of features that enhance the experience for driver and passenger.

Wood grain

Sporty instrument dial

BONAFIDE LUXURY

An elegant and stylish interior, made just for your comfort. The Chevrolet Optra interior was developed on the "Horizontal Theme" which is usually only found in top-of-the range models. The two-tone information display looks even classier against wood grain. The aluminum-effect middle console features a chrome trimmed control panel. The Chevrolet Optra's spaciousness makes you feel comfortable and relaxed. You can stretch out in 1,460 mm width x 1,925 mm length x 1,180 mm height.

Tilt column for steering wheel.

Power assisted steering.

Audio control on the steering column. (Optional)

Interior lamp with focus spot.

Control panel for power windows and door locks.

Driver accessible locking controls for tailgate.

Remote control locking for doors and tailgate with anti-theft alerts.

Sunglass Holder.

Power socket for mobile phone, video camera etc.

Mobile phone pocket on the rear doors.

Rear arm rests for front seats.

Seat Side Pocket.

Rear Arm rests with cup holder.

Foldable headrest in 2nd bench up to 60/40.

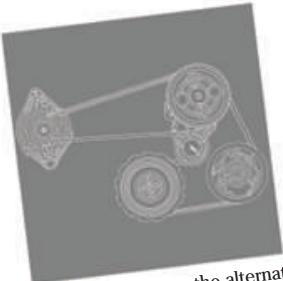

Cooling storage - the first of its kind in a sedan of its class!

QUIET RIDE TECHNOLOGY

Technology for undisturbed driving...

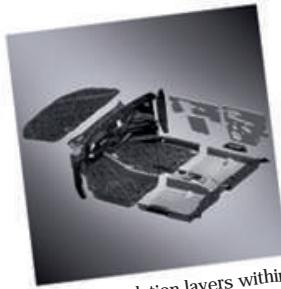

The revolutionary Total Noise Restraint System (TNRS) utilizes an insulated engine cover and a hydraulic engine mount to help absorb shock and reduce engine noise when starting, accelerating or braking. The Chevrolet Optra is equipped with a "Maintenance Free Battery" which is self charging and does not require battery water refills. The exhaust system is equipped with three chambers and a special noise suppression system in the tailpipe. A sound-absorbent foam is applied to all joints throughout the vehicle and helps make your journey more pleasant, relaxed and peaceful.

Single v-belt drives the alternator and compressor to reduce the engine noise

Hydraulic engine moldings reduce engine vibrations

Special insulation layers within the body reduces engine noise in the passenger cabin

Four cylinder, 16 valve DOHC engine

ULTIMATE PERFORMANCE

Sheer excitement...

The Chevrolet Optra offers outstanding performance to satisfy your deepest driving desires. A four cylinder, 16 valve DOHC engine with multi-point fuel injection has all the power you've dreamed about. The 1.6 litre engine (1,598 cc displacement) produces 107 hp at 5,800 rpm, maximum torque 150 Nm at 4,000 rpm, with a top speed of 187 Km/h for manual transmission models and 175 Km/h for auto transmission models.

- Both the 5-speed manual and 4-speed automatic are equipped with a light, yet powerful transmission system. Power-assisted electro-hydraulic rack-and-pinion steering gives you total control effortlessly.
