Spark 2LT in Red Hot.

***THE ULTIMATE MOBILE
DEVICE CONNECTING YOU
TO THE BEST OF YOUR CITY.***

Living large comes naturally for this small car that gets you where you want to go. Nimble handling and on-point style take you places – and help you pivot as the situation demands.

Smart technology connects you to the people, places and experiences that help you live your Canadian Dream. Available Low Speed Forward Automatic Braking¹ and a standard Rear Vision Camera¹ help provide added confidence in the driver seat.

A new front fascia and projector-beam headlamps help Spark make a stylish initial impression wherever it goes. The city never sleeps – and neither does the Chevrolet Spark.

SAFETY

SAFETY STARTS WITH YOU. Safety or driver assistance features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Visibility, weather and road conditions may affect feature performance. Read the vehicle Owner's Manual for more important feature limitations and information.

LOW SPEED FORWARD AUTOMATIC BRAKING.¹

The available camera-based Low Speed Forward Automatic Braking feature is designed to help prevent or mitigate front-end collisions with detected vehicles when travelling at low speeds by automatically applying the brakes if you haven't already done so.

FORWARD COLLISION ALERT.¹

This available feature is engineered to monitor how close your vehicle is to a detected vehicle in front of you. If the system determines that a front-end collision with a detected vehicle is imminent, it is designed to alert the driver to a potential crash. It also can warn the driver if their Spark is following a detected vehicle much too closely.

REAR VISION CAMERA.

When the transmission is in Reverse, the Rear Vision Camera with dynamic guiding lines allows the driver to view objects directly behind the vehicle via the screen in the centre stack. So it's easier to back up or park.

LANE DEPARTURE WARNING.¹

This available camera-based system is designed to read traffic lane markings, when identifiable, and provide audible and visual alerts if the vehicle drifts out of its detected lane when the driver is not actively steering and the turn signal is not activated.

STABILITRAK® ELECTRONIC STABILITY CONTROL.

In challenging weather and road conditions, this standard system helps you stay the course by detecting the difference between the path being steered and the direction the vehicle is actually going. It then uses the brakes and, if necessary, adjusts engine torque to help you keep your Spark on track. This innovative safety technology is especially helpful during emergency manoeuvres and difficult driving conditions.

REAR PARK ASSIST.¹

This feature is designed to alert the driver, when in Reverse, by sounding an audible alert and providing visual indication on the Rear Vision Camera screen when it detects certain stationary objects in close proximity behind the vehicle.

¹ Standard and only available on 2LT.

A WORD ABOUT THIS BROCHURE Some of the equipment shown or described throughout this brochure may be available at extra cost. We have tried to make this brochure comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colours, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this brochure and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been updated since the time of printing, please check with your Chevrolet dealer for complete details. General Motors of Canada Company reserves the right to lengthen or shorten the model year for any product, for any reason, or to start and end model years at different times. Certain vehicle features may lose their usefulness over time due to obsolescence from technological changes. Unless otherwise noted, all claims based on the latest available competitive information. Excludes other GM vehicles.

ENGINES Chevrolet products are equipped with engines produced by GM Global Propulsion Systems or other suppliers to GM worldwide. The engines in Chevrolet products may also be used in other GM makes and models.

ASSEMBLY Chevrolet vehicles and their components are assembled or produced by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Chevrolet vehicles with different or differently sourced components than originally scheduled. Since some options may be unavailable when your vehicle is assembled, we suggest you verify that your vehicle includes the equipment you ordered and that, if there were changes, they are acceptable to you.

AN IMPORTANT NOTE ABOUT ALTERATIONS AND WARRANTIES

Installations or alterations to the original equipment vehicle (or chassis) as distributed by General Motors are not covered by the New Vehicle Limited Warranty. The special body company, assembler, equipment installer or upfitter is solely responsible for warranties on the body or equipment and any alterations (or any effect of the alterations) to any of the parts, components, systems or assemblies installed by GM. General Motors is not responsible for the safety or quality of design features, materials or workmanship of any alterations by such suppliers.
