PERFORMANCE

A BOLD DISPLAY OF POWER.

Sonic LT Hatchback in Silver Ice Metallic with available features.

POWERFULLY EFFICIENT. Sonic offers a combination of power and efficiency that keeps the fun going longer between fill-ups. The ECOTEC® 1.4L turbocharged engine — standard on LTZ and RS, available on LT — has a highway fuel consumption rating of 6.2 L/100 km.¹

LIFE MOVES FAST, SO KEEP UP. With 138 horsepower and 148 lb.-ft. of torque, the turbocharged Sonic takes you from 0–96 km/h (0–60 mph) in less than 8 seconds.² Which means Sonic has all the passing and merging power you'll need.

WIDER RPM RANGE

CHARGED-UP TECHNOLOGY. For the ultimate driving experience, Sonic RS includes a standard 1.4L turbocharged engine with a sporty final drive ratio (4.18 for manual and 3.53 for automatic). RS also features a lowered and stiffened suspension with performance-tuned dampers to keep the good times rolling smoothly along.

TAKE-CHARGE STYLE. Great performance meets great style in Sonic RS. Aggressive rocker panel extensions and custom fog lamps make a formidable first impression. Slide into the leather-appointed front bucket seats with sueded microfibre inserts, grasp the leather-wrapped wheel, and you're ready to take to the road.

IN-CHARGE HANDLING. Sonic RS delivers the performance of a sport sedan with a suspension that lowers the centre of gravity for an improved stance and optimized handling. An available dealer-installed accessory suspension provides a lowered ride height that enhances the sporty feel.

SAFETY

5 STARS. 10 AIRBAGS. ONE CONFIDENT RIDE.

AVAILABLE FORWARD COLLISION ALERT This camera-based system issues an auditory and visual warning to alert you to a possible front-end collision.

AVAILABLE LANE DEPARTURE WARNING An audible alert sounds if you change lanes without signalling.

10 AIRBAGS Sonic is the first and only car in its class¹ with 10 standard airbags² including knee airbags for the driver and front passenger.

ONSTAR AUTOMATIC CRASH RESPONSE³ In a crash, built-in sensors can alert a specially trained OnStar Advisor who is connected into your Sonic to see if you need help — even if you can't ask for it. Advisors can use GPS technology to pinpoint your location and request emergency help. The OnStar Guidance Plan⁴ is standard for the first six months.

STABILITRAK[®] ELECTRONIC STABILITY CONTROL SYSTEM This system helps you stay on course by detecting the difference between the path being steered and the direction the vehicle is travelling.

HIGH-STRENGTH STEEL CONSTRUCTION Front and rear “crush zones” are designed to compress in a controlled manner, helping absorb and channel energy away from the cabin.

AVAILABLE REAR VISION CAMERA When travelling in reverse at low speeds, the rear vision camera provides a real-time picture of the area immediately behind your vehicle to let you see if anything is in your way.

SETTING A HIGHER STANDARD. Sonic is engineered with safety technologies that are unsurpassed in its class.¹ In fact, Chevrolet Sonic was the first small car to receive a 5-Star Overall Vehicle Score for safety from the NHTSA⁵ and was named a 2015 Top Safety Pick by the Insurance Institute for Highway Safety.⁶

DRIVER CONFIDENCE PACKAGE. Designed to help you avoid a collision, this available package includes Forward Collision Alert, which monitors how close your vehicle is to other vehicles in front of you and advises you if you get too close. The Lane Departure Warning will alert you if you change lanes without signalling.

SAFETY STARTS WITH YOU. Safety features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Read the vehicle Owner's Manual for more important safety information.
