**OVERALL VEHICLE
SCORE FOR SAFETY.³**

— U.S. NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION (NHTSA)

³ U.S. Government 5-Star Safety Ratings are part of the U.S. Department of Transportation's New Car Assessment Program (www.SaferCar.gov). ⁴ A NOTE ON CHILD SAFETY: Always use safety belts and the correct restraint for your child's age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with a passenger airbag. See the Owner's Manual and the child safety seat instructions for more safety information. ⁵ Visit onstar.ca for details and system limitations. OnStar acts as a link to existing emergency service providers. Not all vehicles may transmit all crash data. ⁶ Available on select Apple, Android, BlackBerry and Windows devices. Requires an active OnStar service plan. Services vary by device, vehicle, conditions and the type of service plan you have. Please visit onstar.ca for vehicle availability, system limitations, geographical and technical restrictions and further details.

CORE STRENGTH. With high-strength steel forming a rigid structure around the passenger compartment and 10 standard airbags⁴, Impala establishes a solid foundation for safety.

ONSTAR AUTOMATIC CRASH RESPONSE.⁵ In a crash, built-in sensors can alert a specially trained OnStar Advisor, who is connected into your Impala to see if you need help — even if you can't ask for it. Advisors can use GPS technology to pinpoint your location and

request emergency help. OnStar with the Guidance Plan is standard for six months.

ONSTAR REMOTELINK® MOBILE APP⁶

Now you can control your car from virtually anywhere with an app that lets you remote start your vehicle (requires

available factory-installed and enabled remote vehicle starter system), pinpoint your vehicle's location on a map, manage your Wi-Fi hotspot, unlock your doors, and monitor your fuel level and oil life — all from your smartphone. You're connected wherever you go.

SAFETY

¹ Before making a lane change, always check the Side Blind Zone Alert display, check the exterior and interior rear-view mirrors, look over your shoulder for vehicles and hazards and start the turn signal. ² Adaptive Cruise Control is no substitute for the driver's personal responsibility to operate the vehicle in a safe manner. The driver needs to remain attentive to traffic and road conditions and provide the steering, braking or other inputs necessary to retain control of the vehicle. The Front Automatic Braking feature may help reduce crash damage under certain conditions discussed in the Owner's Manual. Never rely on this feature to brake the vehicle.

WE'VE GOT YOUR BACK. AND SIDES. AND FRONT.

TECH THAT PROTECTS. Some of the most impressive Impala features are the ones you can't see, including available Forward Collision Alert, Lane Departure Warning, Side Blind Zone Alert¹ with Lane Change Alert and Rear Cross Traffic Alert.

FORWARD COLLISION ALERT. This available feature identifies vehicles ahead and warns the driver of possible front-end collision threats, helping provide time to stop and/or change course. If the system determines that a front-end collision with a detected vehicle is imminent, it alerts the driver to a potential crash. It also warns the driver if their Impala is following a detected vehicle much too closely.

LANE DEPARTURE WARNING. If you unintentionally change lanes without signalling, this available camera-based system sends an alert. The camera, mounted near the interior rear-view mirror, reads traffic lane markings when identifiable and provides audible and visual alerts.

SIDE BLIND ZONE ALERT¹ With radar sensors on both sides of the vehicle, the available Side Blind Zone Alert¹ helps to "look" for other vehicles in your side mirror blind zones and indicates their presence with LED-lit symbols in the exterior mirrors.

REAR CROSS TRAFFIC ALERT. Using the same radar sensors as the available Side Blind Zone Alert¹ system, this available feature alerts you to crossing traffic behind your Impala when backing up. Audible warnings, as well as visual alerts on the rear vision camera screen, are triggered if approaching vehicles are detected.

LANE CHANGE ALERT. Working with Side Blind Zone Alert¹, available Lane Change Alert employs radar sensors in the rear quarter panels to help detect and warn the driver of fast-approaching vehicles in the adjacent lane from up to 25 m (82 ft.) away, not just in the side-view mirror blind zones.

REAR VISION CAMERA. When travelling in reverse at low speeds, the available rear vision camera provides a real-time picture of the area immediately behind your Impala on the touch-screen display.

FULL-SPEED-RANGE ADAPTIVE CRUISE CONTROL² Using grille-mounted radar, this available feature maintains your selected cruise speed and following gap distance, automatically braking when necessary in stop-and-go traffic.

FRONT AUTOMATIC BRAKING. Using the same radar sensors as Adaptive Cruise Control², available Front Automatic Braking helps prevent or mitigate collisions at low speeds. The system alerts the driver if the lead vehicle slows unexpectedly.

SAFETY STARTS WITH YOU. Safety features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Read the vehicle Owner's Manual for more important safety information.
