PERFORMANCE

Cruze Limited LTZ in Blue Ray Metallic with available features.

GO TURBO OR ECO. EITHER WAY, YOU HAVE THE POWER.

EFFICIENCY MAXIMIZED. You don't have to sacrifice power to save a buck. Cruze with the available ECOTEC® 1.4L turbocharged engine and manual transmission has a highway fuel consumption rating of 6.2 L/100 km.¹ Cruze Eco with manual transmission can take efficiency even farther by offering a highway fuel consumption rating of 5.6 L/100 km.¹

138-HP ECOTEC TURBO. The available 1.4L turbocharged engine delivers a gutsy 148 lb.-ft. of torque. The turbo increases engine power, allowing for a robust, immediate driving experience. Engine features include dual overhead camshafts and Continuously Variable Valve Timing.

DRIVER SHIFT CONTROL. With the available 6-speed automatic transmission, Driver Shift Control lets you switch from automatic to manual operation. Just move the gearshift into Driver Shift Control mode and a quick tap is all that's required for smooth, crisp shifts.

MORE WAYS TO POUNCE. With rack-mounted Electric Power Steering, an available race-proven Z-link rear suspension² and the fuel-maximizing choice of an Eco model, the 2016 Cruze Limited has the poise and confidence of a carefully tuned sport sedan.

IN CRUZE ECO, LITTLE THINGS ADD UP TO OUTSTANDING EFFICIENCY.

INGENIOUS DESIGN. The advanced technology of Cruze Eco contributes to excellent fuel efficiency. By incorporating smooth underbody panels, a rear spoiler and a lower front grille air shutter that closes at high speeds, air resistance is decreased.

ENHANCED EFFICIENCY. We've also chosen lightweight wheels and ultra-low rolling resistance tires. These innovative features help Cruze Eco with a manual transmission offer a highway fuel consumption rating of 5.6 L/100 km.¹

¹ 2016 Cruze Limited fuel consumption estimates based on GM preliminary testing in accordance with Government of Canada approved test methods. Refer to vehicles.nrcan.gc.ca for details. Your actual fuel consumption may vary. ² Z-link rear suspension standard on LTZ; included with available RS Appearance Package on 1LT and 2LT.

1 A NOTE ON CHILD SAFETY: Always use safety belts and the correct restraint for your child's age and size, even with airbags. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with a passenger airbag. See the Owner's Manual and the child safety seat instructions for more safety information. **2** Before making a lane change, always check the Side Blind Zone Alert display, check the exterior and interior rear-view mirrors, look over your shoulder for vehicles and hazards and start the turn signal. **3** U.S. Government 5-Star Safety Ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program (www.SaferCar.gov). **4** Visit onstar.ca for coverage maps, details and system limitations. Services vary by model, conditions and geographical and technical restrictions. OnStar with 4G LTE connectivity is available on select vehicle models and in select markets. Customers will be able to access OnStar services only if they accept the OnStar User Terms and Privacy Statement and Software Terms. OnStar acts as a link to existing emergency service providers. Not all vehicles may transmit all crash data. After the trial period (if applicable), an active OnStar service plan is required.

STATE-OF-THE-ART SAFETY. Our approach to safety includes a high-strength steel safety cage, 10 standard airbags,¹ plus available rear vision camera, Rear Cross Traffic Alert and Side Blind Zone Alert² features that set the bar for safety. The 2016 Cruze Limited received a 5-Star Overall Vehicle Score for safety from the U.S. National Highway Traffic Safety Administration (NHTSA).³

ONSTAR.⁴ Standard for six months with the Guidance Plan, OnStar[®] features the Automatic Crash Response system. In a crash, built-in sensors can alert a specially trained OnStar Advisor, who can be immediately connected into your vehicle. Even if you can't respond, OnStar can send whatever help you need, based on GPS coordinates and crash data.

SIDE BLIND ZONE ALERT.² This available feature uses radar sensors on both sides of the vehicle to help “look” for other vehicles in the blind zone areas and alerts you of their presence.

REAR VISION CAMERA. When travelling in reverse this available system provides audible alerts, as well as visual alerts on the rear vision camera screen, that are triggered if approaching vehicles are detected.

SAFETY STARTS WITH YOU. Safety features are no substitute for the driver's responsibility to operate the vehicle in a safe manner. The driver should remain attentive to traffic, surroundings and road conditions at all times. Read the Cruze Limited Owner's Manual for more important safety information.
