**OUTRUNS JETTA TDI.** The 2.0L turbocharged clean diesel engine in the Cruze Turbo Diesel has an SAE-certified 151 horsepower and 264 lb.-ft. of low-end torque – more than Volkswagen Jetta TDI.<sup>2</sup>

## SAFETY

1 Airbag inflation can cause severe injury or death to anyone too close to the airbag when it deploys. Be sure every occupant is properly restrained. Always use safety belts and the correct restraint for your child's age and size. Even in vehicles equipped with the Passenger Sensing System, children are safer when properly secured in a rear seat in the appropriate infant, child or booster seat. Never place a rear-facing infant restraint in the front seat of any vehicle equipped with a passenger airbag. See the Owner's Manual and the child safety seat instructions for more safety information. 2 Before making a lane change, always check the Side Blind Zone Alert display, check the exterior and interior rear-view mirrors, look over your shoulder for vehicles and hazards and start the turn signal. 3 U.S. Government 5-Star Safety Ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program ([www.safercar.gov](http://www.safercar.gov)). 4 Visit [onstar.ca](http://onstar.ca) for coverage maps, details and system limitations. Services vary by model and conditions. OnStar acts as a link to existing emergency service providers. After the trial period (if applicable), an active OnStar service plan is required. 5 OnStar acts as a link to existing emergency service providers. Not all vehicles can transmit all crash data.

**STATE-OF-THE-ART SAFETY.** Our approach to safety includes a high-strength steel safety cage, 10 standard airbags<sup>1</sup>, plus an available rear vision camera, Rear Cross Traffic Alert and Side Blind Zone Alert<sup>2</sup>, features that set the bar for safety. The 2015 Cruze received a 5-Star Overall Vehicle Score for safety from the National Highway Traffic Safety Administration (NHTSA).<sup>3</sup>

**ONSTAR.<sup>4</sup>** Standard for six months with the Directions & Connections Plan, OnStar<sup>®</sup> features the Automatic Crash Response system.<sup>5</sup> In a crash, built-in sensors can alert a specially trained OnStar Advisor, who can be immediately connected into your vehicle. Even if you can't respond, OnStar can send whatever help you need, based on GPS coordinates and crash data.

**SIDE BLIND ZONE ALERT.<sup>2</sup>** This available feature uses radar sensors on both sides of the vehicle to help "look" for other vehicles in the blind zone areas and alerts you of their presence.

**REAR CROSS TRAFFIC ALERT AND REAR VISION CAMERA.** This available system alerts you to crossing traffic behind your Cruze when travelling in reverse, such as backing out of a parking spot, including angled parking. Audible alerts, as well as visual alerts on the rear vision camera screen, are triggered if approaching vehicles are detected.

6 Visit [onstar.ca](http://onstar.ca) for coverage maps, details and system limitations. Services and connectivity may vary by model and conditions.
