

Get ready for the new
CHEVROLET TRAX

A blurred red Chevrolet Trax is driving from left to right in the foreground. In the background, there is a cafe named 'CAFFÈ UMBRO' with large glass windows. Inside the cafe, several people are visible, including a man in a striped shirt walking and a group of people sitting at a table. The cafe has a sign that says 'GELATERIA PANINOTECA'. The scene is set on a brick-paved street at night, with a tree and a street lamp visible on the left.

The new

CHEVROLET TRAX

DRIVE
sporty

Open up your road ahead with Trax, Chevrolet's all-new small SUV. Exterior lines are powerful and sporty, the stance broad and purposeful. Raked windscreen, upswept waist and silver painted 18" alloy wheels combine smoothly to create the athletic look. This vehicle has been built with all the knowledge and the heritage of the company that started building SUV's in 1935 inventing a new category that would meet customers' needs and change the automotive world forever. The Chevrolet Trax is perfect proof that we stay the course of building cars that go beyond the ordinary.

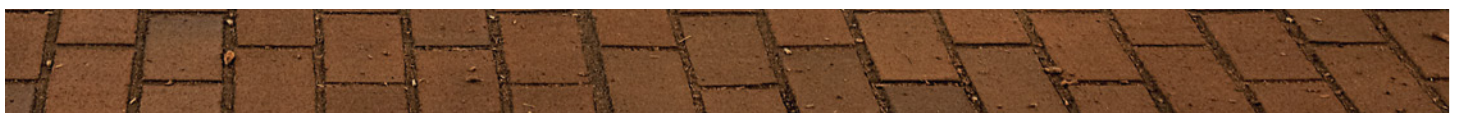

POWER
the adventure

Select the high-spec powertrain to match your sense of adventure. Choose from 1.4-litre turbo and 1.6-litre petrol engines, and 1.7-litre diesel engines. You can also choose between FWD and on-demand AWD, six-speed manual or automatic transmission. These new, economic engines all deliver a perfect balance between performance and class-leading fuel efficiency and with manual transmission all of them featuring start/stop technology as standard.

PARK
your worries

With a suspension especially tuned to European driving dynamics, the Chevrolet Trax is really fun to drive. Also because it actively helps you avoid accidents, StabiliTrak® Electronic Stability Control System scans your steering and engages Traction Controls to set you on your intended course. Premium-trim models also feature Hill Descent Control, so you can ease down steep, off-road gradients without braking.

CONNECT

everything

Yours with selected trims, Chevrolet MyLink connects the entertainment stored on your smartphone with the Trax's own system. Simply connect your device and a 7-inch touch screen shows all your playlists. So you can pick the tracks you want to hear. Or, once you're stationary, use the same high-resolution screen to view picture galleries and watch videos. In addition to the USB port Chevrolet MyLink also gives you Bluetooth® for hands-free calls and a rear-view camera, to help you park in tight city spaces.

TRAVEL

in space

Just 4.25 metres long, the compact Trax is made for city life. Yet its interior is airy and welcoming, with high-mounted, supportive seats for you and up to four passengers. Cargo-wise, you have a generous 356 litre boot and a rear seat with a 60/40 split. You can also fold flat the front passenger seat creating the ideal room for your payload. All in all the Chevrolet Trax offers you up to 8 different seating configurations.

EXPERIENCE THE CITY
