## CATCH THE DISCERNING EYE

The Chevrolet Captiva stands out in any crowd. Finely formed, sweeping lines suggest elegance and more than a hint of power. Prism style headlamps, integrated LED turn signals in the rear-view mirrors and dual-opening grille add refinement. With tasteful metal touches perfectly highlighting the design, the result is **a car that simply says style.**

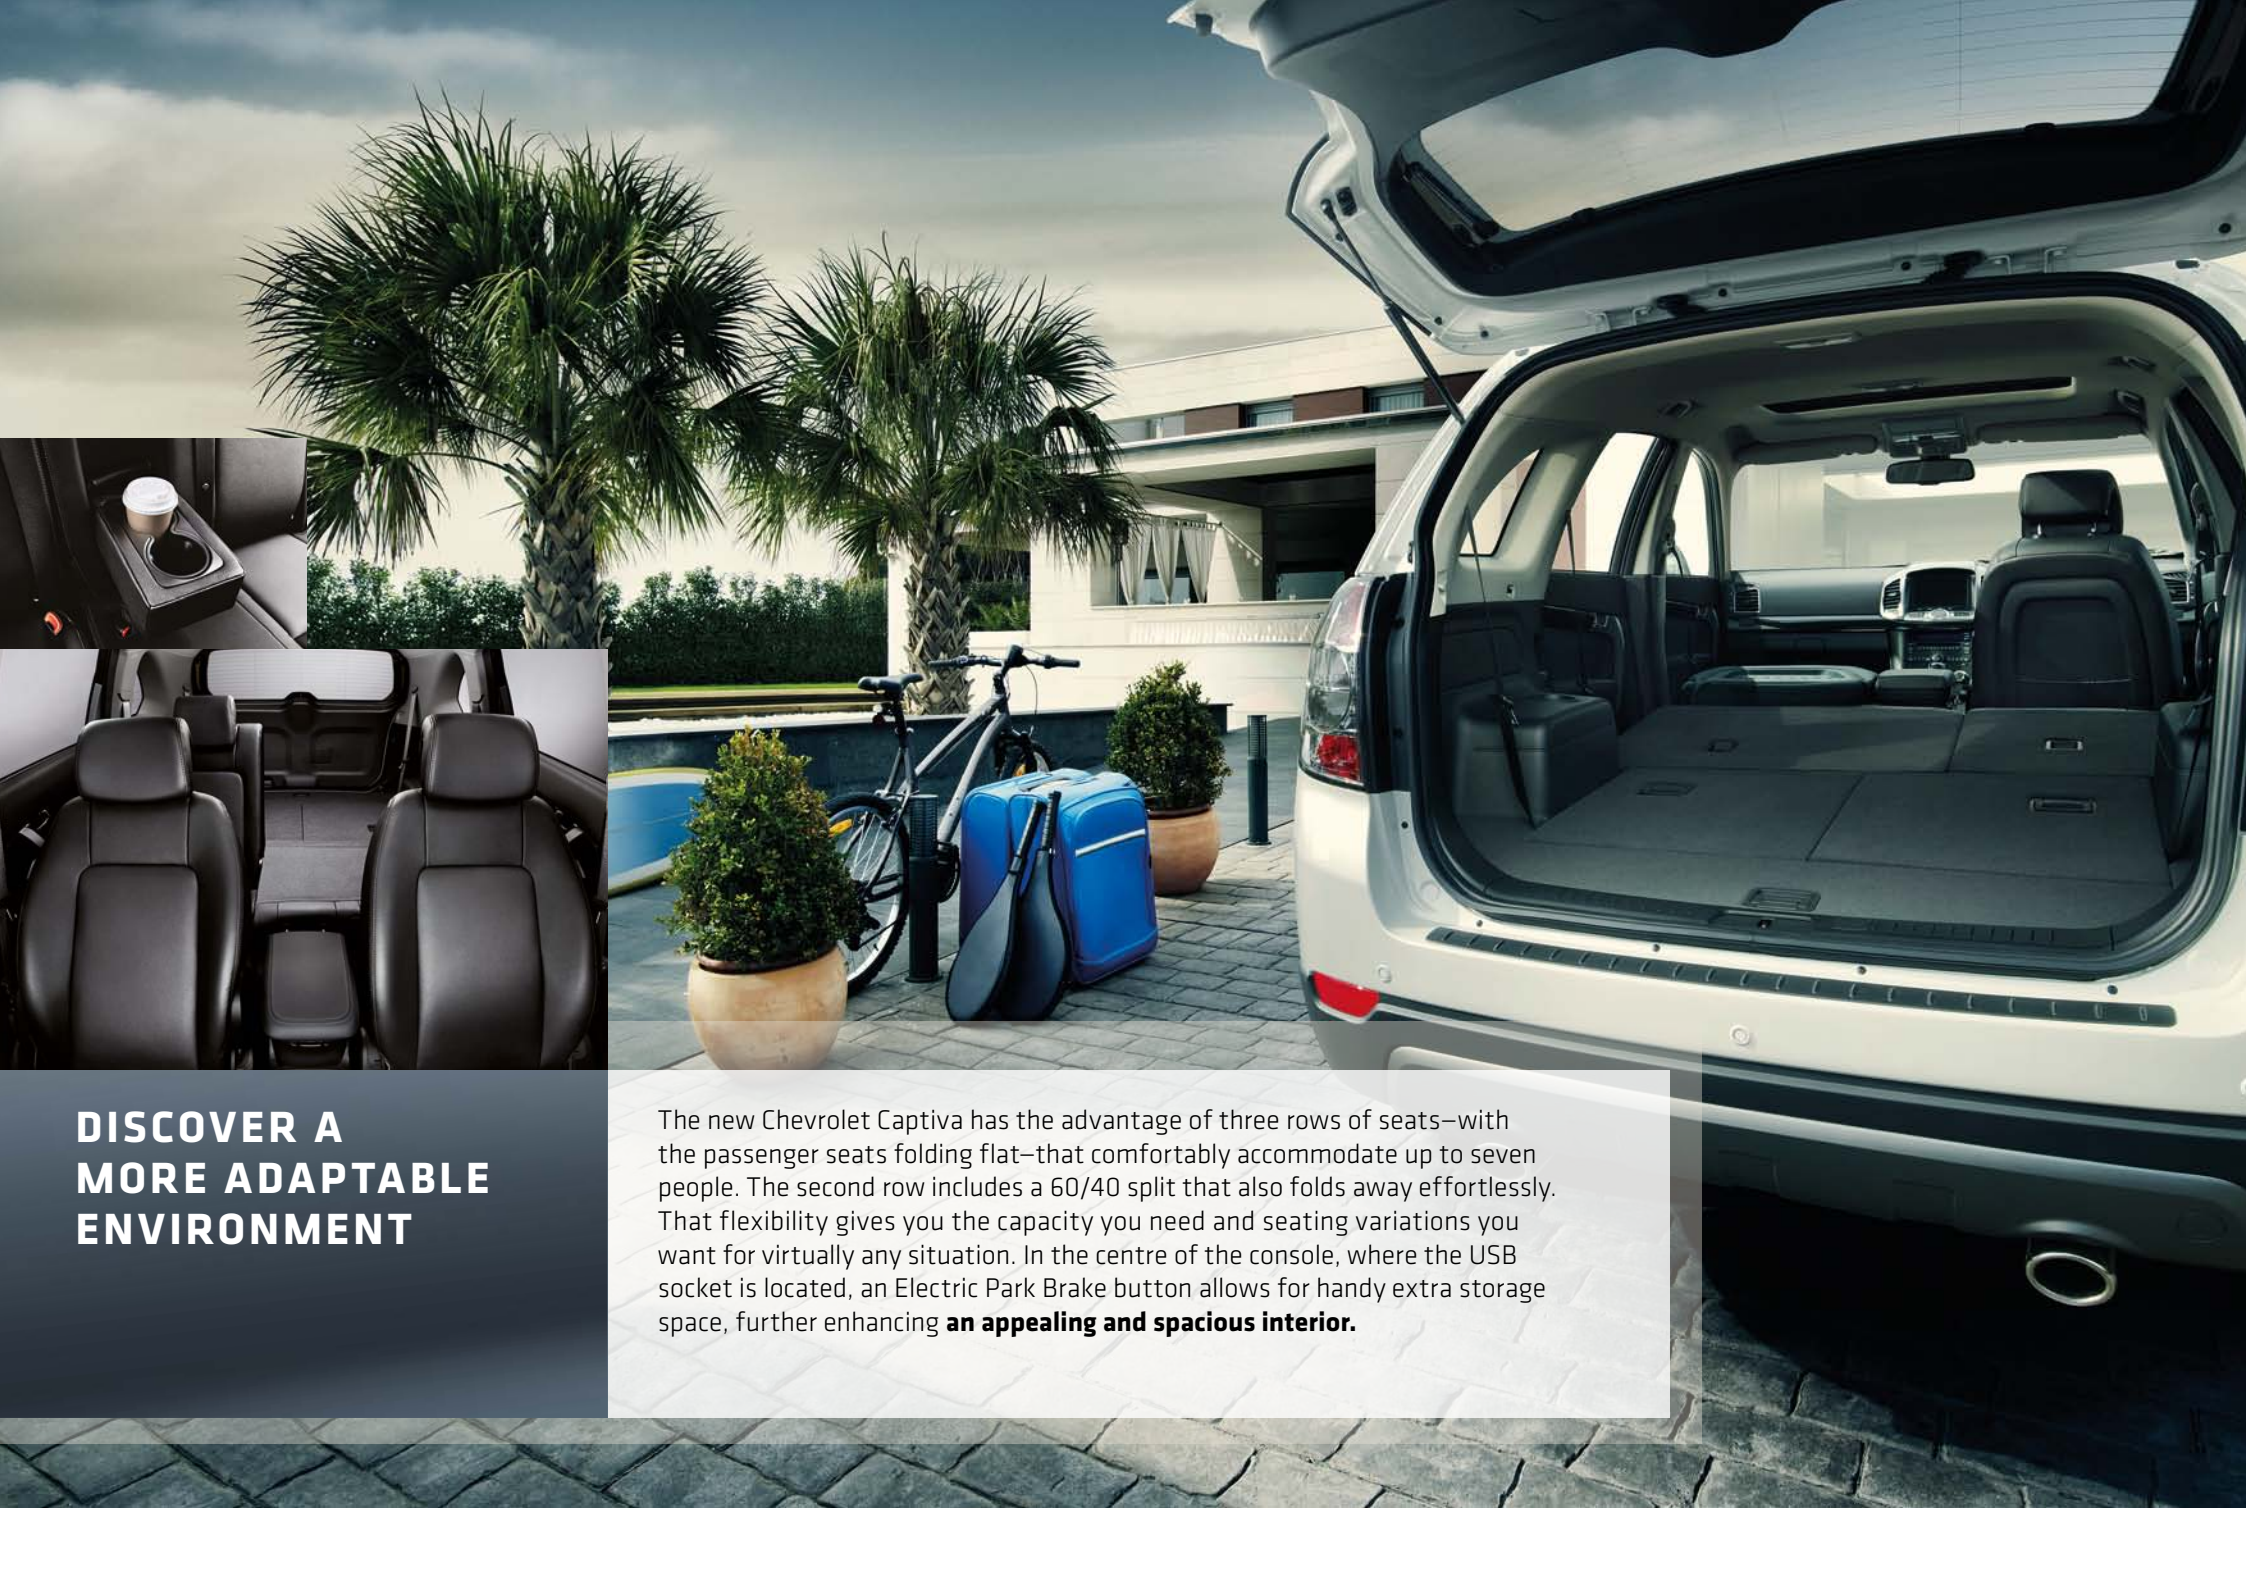

The image is a composite of three photographs showcasing the interior of a Chevrolet vehicle. The largest photo at the top shows the dashboard with a central infotainment screen displaying trip information, the steering wheel with the Chevrolet logo, and the instrument cluster. A smaller inset photo on the left shows a close-up of the infotainment screen displaying a map. A third inset photo at the bottom right shows a close-up of the steering wheel controls.

## BE CAPTIVATED BY THE INTERIOR

Slip into the wrap-around cockpit that flows effortlessly from door to door. An ice-blue backlighting glow catches the eye. The sheer quality of the interior is instantly apparent in the detail of the finishes and textures.

Steering wheel-mounted operation includes audio, Bluetooth and cruise controls. Acoustic engineering reduces road, wind and engine noise to a murmur. **It's a world that will entice you like no other.**

## DISCOVER A MORE ADAPTABLE ENVIRONMENT

The new Chevrolet Captiva has the advantage of three rows of seats—with the passenger seats folding flat—that comfortably accommodate up to seven people. The second row includes a 60/40 split that also folds away effortlessly. That flexibility gives you the capacity you need and seating variations you want for virtually any situation. In the centre of the console, where the USB socket is located, an Electric Park Brake button allows for handy extra storage space, further enhancing **an appealing and spacious interior.**

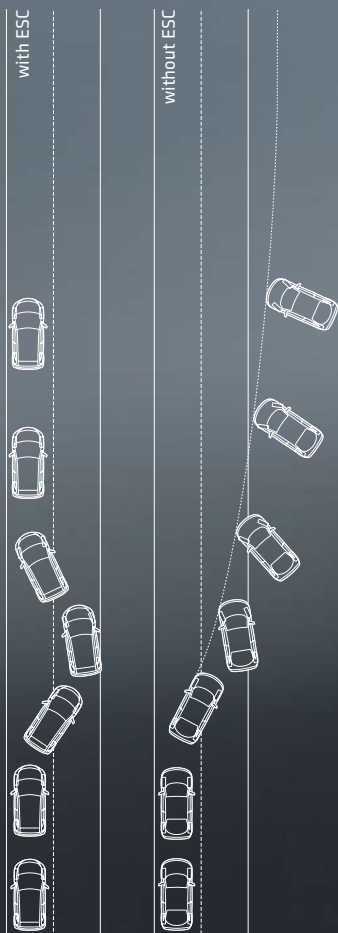

## TAKE CONTROL OF PERFORMANCE

Belying their quiet efficiency, the high torque and sheer horsepower of Chevrolet Captiva's new turbo diesel engines deliver responsiveness and energy you can really feel, and a powerful, smooth drive that combines performance and fuel economy. And to enhance the sense that you're in charge, there is a choice of manual or automatic 6-speed gearbox. Front wheel drive and active on-demand four-wheel drive systems **keep you on top of any conditions.**
