2011 CHEVROLET TAHOE, SUBURBAN & AVALANCHE

TAKE ON THE REAL WORLD – ON YOUR OWN TERMS.

The challenges are formidable. Hauling tonnes of cargo. Transporting a full house of family or friends. Making your own tracks where the road ends. Chevrolet's family of full-size utility vehicles have the rock-solid credentials needed to make easy work of even the toughest demands. But for the 2011 Tahoe, Suburban and Avalanche that is only half the story. The flip-side of their colossal hauling capacity, power and strength is represented by their impressive fuel efficiency, a range of advanced technologies and highly refined cabins offering the latest in amenities. The quality is also unimpeachable, with Tahoe, Suburban and Avalanche each having won prominent industry quality awards in the past year. These trucks lead the way in other important areas, with the leading-edge technology of Tahoe Hybrid's Two-Mode Hybrid System. It is the most vivid demonstration of how the latest in Chevrolet engineering can help you take on your world your way.

Tahoe LTZ, shown in Red Jewel Tintcoat with available equipment.

LET'S GET SERIOUS.

With Chevrolet's full-size SUVs, rugged styling is only a starting point. What they are really all about are serious capabilities. The power is nothing short of commanding with a standard Vortec 5.3L V8 engine that generates 320 horsepower and 335 lb.-ft. of torque. That power, combined with the impressive rigidity of the frame, result in a massive 3856 kg (8500 lb.)* maximum towing capacity. But in today's world, another stat is equally important – fuel efficiency. Here, Tahoe beats every other vehicle in its class, with 9.5 L/100 km highway and 14.4 L/100 km city ratings on 4x4 models.** That's made possible by Active Fuel Management® technology

that shuts down four of eight cylinders when power demands are low, and Variable Valve Timing (VVT), in addition to the standard six-speed automatic transmission that includes two fuel-saving overdrive gears. Another important win for this truck: the 2010 Tahoe earned a Consumers Choice Best Buy award. The serious SUV: Chevrolet Tahoe.

* When properly equipped, requires available equipment.

** 2011 Chevrolet Tahoe fuel consumption ratings based on GM testing in accordance with approved Transport Canada test methods. Competitive fuel consumption ratings based on Ward's 2010 Large Sport/Utility segment for comparably equipped vehicles and Natural Resources Canada's 2010 Fuel Consumption Guide. Your actual fuel consumption may vary. Excludes hybrids and other GM models.

Tahoe Hybrid, shown in Summit White.

HOW CAN AN SUV THIS CAPABLE BE THIS SUSTAINABLE?

It's one thing to engineer a hybrid system for a compact or mid-size car. What makes Tahoe Hybrid such a technological marvel is how it delivers the capability of a Chevrolet truck, with a 332 horsepower Vortec 6.0L LIVC V8 AFM gasoline powered engine and a towing capacity of up to 2812 kg (6200 lb.). At the same time, the advanced GM Hybrid Propulsion Electric System delivers an astounding 10.1 L/100 km city fuel consumption rating that beats a six-cylinder Toyota Camry or Honda Accord.* That is made possible by the Two-Mode Hybrid System that can operate on electric power alone, on gasoline engine power alone, or with a combination of the two. The electric power even kicks in at highway speeds when passing, towing a trailer or climbing steep grades. The highly capable and remarkably sustainable Tahoe Hybrid.

* 2011 Chevrolet Tahoe Hybrid fuel consumption ratings based on GM testing in accordance with approved Transport Canada test methods.
Competitive fuel consumption ratings based on Natural Resources Canada's 2010 Fuel Consumption Guide. Your actual fuel consumption may vary.

TWO-MODE HYBRID SYSTEM

The Two-Mode Hybrid System automatically selects the most effective and efficient blend of power, based on demand. You can check its current mode of operation on the power flow display that is included with the Hybrid's standard Navigation System.

MODE 1

When driving at a low speed with a light load, Mode 1 can operate three ways: on electric power alone, on gasoline engine power alone, or with a combination of both. The engine is shut off entirely in stop-and-go traffic, allowing you to drive up to 48 km/h on electric power alone in certain situations, dramatically reducing fuel consumption and emissions.

MODE 2

At highway speeds, Mode 2 kicks in. It delivers Vortec V8 gasoline power with Active Fuel Management providing the fuel efficiency benefits of 4-cylinder operation when power demands are low – plus supplemental electric power in such demanding situations as passing, towing a trailer or climbing steep grades.

Suburban 2500 LT shown in Sheer Silver Metallic with available equipment.

EVEN MORE CAPABLE THAN TAHOE? HOW ABOUT EVEN MORE CAPABLE THAN ANY OTHER SUV?

What differentiates Suburban from Tahoe? Suburban offers more cargo space, more towing capacity and more power. In short, it represents the ultimate in SUV capability. In fact, it provides a class-leading 3891 L (137.4 cu. ft.) of cargo space,* in addition to Suburban 2500's best-in-class maximum trailer weight of 4355 kg (9600 lb.).* Suburban 2500 models also receive the added output of the Vortec 6.0L V8 that generates 352 horsepower and a substantial 382 lb.-ft. of torque. It features sophisticated, fuel-saving Variable Valve Timing (VVT).

Other beefed up Suburban 2500 components include a heavy-duty cooling package, a heavy-duty six-speed automatic transmission and an integrated trailer brake controller. Building on its heritage as the original sport-utility vehicle 75 years ago, Suburban continues to set the standard that all other SUVs are measured against.

* Based on Ward's 2010 Large Sport/Utility segment and the latest competitive information available at time of printing. Excludes other GM models.

SOME THINGS CHANGE. SOME DON'T.

Avalanche makes an effortless transition from luxuriously appointed SUV to a cargo-swallowing full-size pickup in less than a minute. That's thanks to the innovative Midgate™ that either forms the back of the SUV cabin or folds down to extend the floor of the cargo box to more than eight feet (2438 mm) in length. What doesn't change with Avalanche is Chevrolet's legendary capability. The same 320 horsepower Vortec 5.3L V8 that's under the hood of Tahoe and Suburban 1500 powers Avalanche, and with it come the fuel efficiency gains of Active Fuel Management and Variable Valve Timing (VVT). And the cargo box can handle a full-size load, with payload capacities that extend up to 601 kg (1326 lb.).* Ready for a change? So is Avalanche

* Payload includes weight of passengers, equipment and cargo. Payload is approximate and will change with the addition of optional or aftermarket equipment. Consult your dealer for details.

Avalanche LS, shown in Black with available equipment.

Suburban 1500 LT, shown in Red Jewel Tintcoat with available Z71 Off-Road Package and other available equipment.

**AND YOU THOUGHT
THE TERRAIN
WAS TOUGH.**

Canada has the climate and the terrain that can test any vehicle. Fortunately, there's a package that is built to revel in the challenge: the Z71 Off-Road Package that's available on Tahoe, Suburban and Avalanche LT models. The look is even more rugged, thanks to exterior features like Z71-specific 18-inch aluminum wheels, On-Off road tires, chrome tubular assist

steps, fog lights, colour-keyed wheel flares and a chrome grille insert. It's engineered to be more rugged, with off-road jounce bumpers, gas-charged monotube shock absorbers, a skid plate package, specially-tuned springs, front recovery hooks and a two-speed Autotrac™ transfer case on all 4x4 models. Z71 – your ticket to the untamed.

Suburban 1500 LTZ interior, shown with standard perforated-leather-appointed seating surfaces* in Light Titanium with available equipment.

* Third row is vinyl.

WELCOME HOME.

No matter how far from home your journey takes you, the Tahoe, Suburban and Avalanche cabins will always make you feel right at home. The amenities and appointments are strictly first class. That is particularly true of LTZ models that feature heated and cooled power 12-way front bucket seats with perforated leather-appointed seating surfaces. It isn't only the seats

that offer a high level of temperature control. All Avalanches include dual-zone climate controls with individual settings for the driver and front passenger. All Tahoe and Suburban models feature tri-zone climate controls, adding a setting for the rear passengers. There's even a rear auxiliary heater in all Tahoe and Suburban models. All the comforts of home – and then some.

CONTROLS

LTZ 4x4 instrument panel, shown with available equipment.

FAR FROM CIVILIZATION, BUT NEVER OUT OF TOUCH.

Bringing it all with you refers to more than the spacious passenger and cargo room inside Tahoe, Suburban and Avalanche. It also describes the vast array of information, communications and entertainment technology on board these trucks. The information is in the form of OnStar®* that includes six months of the Directions and Connections Plan with Turn-by-Turn Navigation – the simplest and smartest navigation available. That's in addition to an available DVD-based Navigation System.** Your communications are further enabled by the standard Bluetooth® wireless mobile phone connectivity. As for the entertainment, it ranges from the standard CD player with MP3 playback, an auxiliary audio input jack and XM Satellite Radio™† all the way to a Bose® centre channel sound system with a subwoofer standard on all LTZ models. You're always connected to the people and things that matter – in Tahoe, Suburban and Avalanche.

* Visit onstar.ca for coverage map, details and system limitations. Services vary by model and conditions.

** At time of print, detailed map coverage is available for most major urban areas of the United States and for certain metropolitan areas of Canada (Vancouver, Calgary, Edmonton, Winnipeg, Windsor, London, Toronto, Ottawa, Montreal, Quebec City and Halifax). Coverage is significantly limited outside these areas.

† Available in 10 Canadian provinces and the 48 contiguous United States. Subscription sold separately after trial period. Visit xmradio.ca for details.

INFOTAINMENT

CONNECTED. ENTERTAINED.

All Tahoe, Suburban and Avalanche models are equipped with an extensive list of standard information, communications and entertainment features. These trucks also offer a series of appealing options.

REMOTE DEVICES

A remote keyless entry system and remote vehicle starter are standard on all models. A 3-channel universal home remote transmitter with garage opener is standard on Tahoe and Suburban LT and LTZ, as well as Avalanche LTZ.

OnStar® and six months of the Directions & Connections Plan are standard on all Tahoe, Suburban and Avalanche models. Features include hands-free calling, vehicle diagnostics, Turn-by-Turn Navigation, Automatic Crash Response, Emergency and Security Services.

You can choose from up to 130 channels of the standard XM Satellite Radio.† It's already enjoyed by more than 9 million subscribers – and it's standard on all Tahoe, Suburban and Avalanche models. It includes everything from a vast range of musical genres, to news, talk, comedy and sports channels – including more than 1000 NHL games.

Standard Bluetooth hands-free wireless connectivity enables you to make, answer and end calls on compatible mobile phones, using standard steering wheel-mounted controls.

A Bose 8-speaker centre channel sound system with subwoofer is standard on Avalanche LTZ. A Bose 9-speaker premium sound system is standard on Tahoe and Suburban LT. The Bose 10-speaker centre channel sound system with subwoofer is standard on Tahoe and Suburban LTZ.

A standard USB port enables you to operate an MP3 player and access music on a flash drive. The connection even recharges your remote player while it's operating.

FILLING ALL THAT SPACE IS NO PROBLEM.

You have the friends. And you have the gear. That's why you'll find the spacious Tahoe and Suburban cabins so useful. Both can seat up to a maximum of nine – more than either the Ford Expedition or Nissan Armada.* Behind the third-row seats of Tahoe, you'll find 479 L (16.9 cu. ft.) of cargo space. Suburban more than doubles that capacity, with 1297 L (45.8 cu. ft.). Fold down the second-row seat and remove the third-row and you open up an enormous 3084 L (108.9 cu. ft.) in Tahoe and a class-leading 3891 L (137.4 cu. ft.) in Suburban. The 60/40 split-folding second-row bench and 50/50 removable third-row bench provide excellent versatility, enabling you to accommodate a variety of cargo and passenger needs. Tahoe and Suburban make it all so easy.

* Based on latest 2011 Model Year published competitive information available at time of printing.

Suburban 1500 LTZ interior, shown in Ebony with available equipment.

THE ULTIMATE IN MULTI-TASKING.

It's the SUV of pickups. Or the pickup of SUVs. Either way, it results in unrivalled versatility. And it's all due to the Convert-A-Cab™ system, with the Midgate as its centrepiece. When folded down it creates a cargo box that can carry 4' x 8' sheets of building material with the tailgate closed in its upright position. No hassles and no tools required. The cargo box itself makes easy work of loading, unloading and securing objects, thanks to features like grab handles, lockable 48 L (1.7 cu. ft.) top box storage compartments, eight cargo tie-downs and a cargo light. To keep your cargo dry and secure, Avalanche also includes a rigid three-piece cargo cover. No wonder Avalanche is called the Ultimate Utility Vehicle.

With the Midgate in the upright position, Avalanche provides a luxurious cabin with five or six passenger seating configurations.

Folding down the split rear seat increases cargo capacity and initiates the easy conversion of the cabin from SUV to pickup.

Avalanche LTZ interior, shown in Light Cashmere with available leather-appointed seating surfaces and other available equipment.

The transformation is completed by lowering the Midgate and removing the rear window, which is stored inside the Midgate. For oversized cargo, you can lower the tailgate and remove the rigid 3-piece cargo cover as shown.

THE SAFETY IS ALSO ADVANCED.

Advanced engineering and technologies are used to make Tahoe, Suburban and Avalanche that much safer. You can see that in technology that helps you avoid obstacles, including the available Side Blind Zone Alert on Tahoe and Suburban 1500 and the rearview camera system that’s available on Tahoe, Suburban and Avalanche LT and LTZ models. Enhanced driver control technologies like the standard StabiliTrak® electronic stability control system that helps maintain directional control and full-function all-speed traction control for added security on slippery surfaces. Occupant protection is comprehensive, including front-to-rear head curtain side-impact air bags* and seat mounted side-impact air bags* for the driver and right front passenger. And you have the added reassurance of OnStar** and its Automatic Crash Response. Safety – advanced. With Tahoe, Suburban and Avalanche.

* A NOTE ON CHILD SAFETY: Always use safety belts and proper child restraints, even in vehicles equipped with air bags.
** Visit onstar.ca for coverage maps, details and system limitations. Services vary by model and conditions. OnStar acts as a link to existing emergency providers.

HEAD CURTAIN AIR BAGS

Head curtain side-impact air bags* help reduce the risk of injuries to outboard occupants in certain side impacts, providing enhanced protection for all outboard seating rows. When deployed, the air bags remain inflated in the unlikely event of a rollover to help reduce the risk of ejection. Standard on all Tahoe, Suburban and Avalanche models.

ULTRASONIC REAR PARKING ASSIST

When in Reverse, ultrasonic rear parking assist detects obstacles in your path up to 2.5 m (8 ft.) behind the vehicle. The system then activates an audio warning. Standard on all Tahoe and Suburban LT, LTZ, Hybrid and Avalanche LTZ models; available on other models.

STABILITRAK

The standard StabiliTrak system compares your steering input with the vehicle’s actual track, intervening automatically whenever it detects a loss of lateral traction (sideslip), understeer (plowing) or oversteer (fishtailing). It helps return Tahoe, Suburban and Avalanche to your intended line by incrementally applying an individual brake or brakes and if necessary, by reducing engine torque. As an electronic stability control system, it has proven to reduce the risk of a fatal single-vehicle crash by a remarkable 63 percent.† Proactive Roll Avoidance is included with StabiliTrak to reduce a vehicle’s tendency to roll over during an extreme manoeuvre.

ONSTAR

OnStar** with six months of the Directions & Connections Plan are standard on all Tahoe, Suburban and Avalanche models. Also included is OnStar’s Automatic Crash Response that directs emergency help to your exact GPS location following a collision.

SIDE BLIND ZONE ALERT

Blind spots exist on both sides of a vehicle. The technologically advanced Side Blind Zone Alert uses radar technology to detect a vehicle entering a blind spot on either side. It then triggers an LED symbol alert in the appropriate exterior rear-view mirror. Available on Tahoe and Suburban 1500 LTZ models.

HIGH-STRENGTH STEEL SAFETY CAGE

The heavy-gauge steel safety cage helps protect the integrity of the passenger compartment in the event of a collision.

† According to information published by the U.S. Department of Transportation’s National Highway Traffic Safety Administration, July 2007.

ENORMOUS LOADS.
ENORMOUS POWER.

ACTIVE FUEL MANAGEMENT

The Active Fuel Management technology increases fuel efficiency by shutting down four cylinders under low-demand operating conditions, such as when cruising at highway speeds or on level stretches of road. When power demands increase, such as during acceleration or driving uphill, the engine switches back to eight-cylinder operation. Cylinder deactivation and reactivation are executed with seamless precision. Active Fuel Management helps Tahoe deliver best-in-class fuel consumption ratings.*

* 2011 Chevrolet Tahoe fuel consumption ratings based on GM testing in accordance with approved Transport Canada test methods. Competitive fuel consumption ratings based on Ward's 2010 Large Sport/Utility segment for comparably equipped vehicles and Natural Resources Canada's 2010 Fuel Consumption Guide. Your actual fuel consumption may vary. Excludes hybrids and other GM models.

* Gross Vehicle Weight Rating (GVWR) includes vehicle, passengers, equipment and cargo.
** Payload includes weight of passengers, equipment and cargo. Payloads are approximate and will change with the addition of optional or aftermarket equipment. Consult your dealer for details.
† Trailer Weight (also called Trailer Towing Capacity) is the weight of a trailer, its load or contents plus any other weight added to the tow vehicle. Many trailer towing applications require additional optional equipment. See your dealer or refer to the vehicle Owner's Manual for details. For more information on trailer towing go to gm.ca

Avalanche LT 4x4 with Z71 Off-Road Package, shown in Sheer Silver Metallic.

PUT EVEN MORE
OF YOURSELF
INTO YOUR TRUCK.

It's your vehicle – so why not personalize it to reflect who you are and what you want from it by adding Chevrolet Accessories? They are the only accessories that were created as part of Tahoe, Suburban and Avalanche's development process. That ensures they offer the same quality of fit, finish and function as the rest of your vehicle. They are backed by the 3-year/60,000 km New Vehicle Limited Warranty* and can be included in your finance agreement. Ask your dealer for a complete list of the Chevrolet Accessories available for Tahoe, Suburban and Avalanche, or visit gm.ca

* Whichever comes first, when permanently installed by the dealer at the time you purchased your new vehicle, or for the remainder of the New Vehicle Limited Warranty if installed after the time of your vehicle purchase, but no less than 12 months.

Chevrolet Accessories available for Tahoe and Suburban include:

- Grille inserts
- Chrome tubular assist steps
- Chrome fuel door
- Brush grille guard
- Hard cargo carrier
- Side-window weather deflectors
- Rear fascia closeout
- Hitch-mounted bike/ski carrier
- Chrome door handles
- Premium all-season floor mats
- Step shield and door sill plates
- 20-in. and 22-in. wheels
- Overhead portable DVD player
- Tail light guards
- Exterior rear-view mirror covers.

Chevrolet Accessories available for Avalanche include:

- Grille inserts
- Tubular assist steps
- Chrome fuel door
- Brush grille guard
- Side-window weather deflectors
- Box extender
- Moulded hood protector
- Premium all-season floor mats and cargo mats
- Step shield
- 20-in. and 22-in. wheels
- Recovery hooks
- Polished stainless steel exhaust tip
- Moulded splash guards.

TAHOE AND SUBURBAN MODEL OVERVIEW

TAHOE & SUBURBAN LS

Tahoe and Suburban LS include these standard features:

- 320 hp Vortec 5.3L V8 engine with Active Fuel Management and Variable Valve Timing (VVT) on Tahoe and Suburban 1500 models
- 352 hp Vortec 6.0L V8 with Variable Valve Timing (VVT) on Suburban 2500
- GM Oil Life Monitoring System
- 6-speed automatic transmission with Driver Shift Control, Tow/Haul mode and Grade Braking
- 4-wheel vented disc brakes with 4-wheel ABS and Dynamic Rear Proportioning (DRP)
- StabiliTrak electronic stability control system with Proactive Roll Avoidance
- Traction control
- Autotrac single-speed electronic transfer case (4x4 models) – 2-speed on Suburban 2500
- Locking rear differential
- 17-in. aluminum smooth 5-spoke wheels (Tahoe and Suburban 1500 models)
- 17-in. bright machined aluminum wheels (Suburban 2500 models)
- Tire pressure monitoring system
- Heated, power exterior mirrors, black, manual folding
- Black assist steps
- Roof rack side rails
- Liftgate with liftglass
- Heavy-duty Trailing Equipment
- Remote vehicle starter system
- Remote keyless entry system
- Dual-stage frontal air bags for driver and front passenger with Passenger Sensing System and passenger-side air bag suppression system (Tahoe and Suburban 1500)
- Single-stage frontal air bags for driver and front passenger (Suburban 2500)
- Seat-mounted side-impact air bags for driver and right front passenger
- Front-to-rear head curtain side-impact air bags with rollover sensor
- Seating for up to 9, with 40/20/40 split-folding front-row bench seat, 60/40 split-folding second-row bench and 50/50 third-row bench
- Power 6-way driver seat adjuster
- Tri-zone manual climate controls and rear auxiliary heater
- Driver Information Centre (DIC)
- Power windows with driver's express-down feature
- Tilt adjustable steering column
- Cruise control
- AM/FM stereo with CD player, MP3 playback, USB port, auxiliary audio input jack and 6 speakers
- XM Satellite Radio*
- Bluetooth connectivity
- OnStar** with 6 months of the Directions & Connections Plan with Turn-by-Turn Navigation.

TAHOE & SUBURBAN 1LT

1LT models enhance LS features with:

- Halogen fog lights
- Black roof rack cross bars
- Ultrasonic rear parking assist
- Seating for up to 8, with leather-appointed front bucket seats
- Power 6-way front-passenger seat adjuster
- Automatic tri-zone climate controls
- Power adjustable brake and acceleration pedals
- Bose premium sound system with subwoofer
- Centre floor console with two 12 volt power outlets
- Rear-seat audio controls
- Universal home remote transmitter.

TAHOE & SUBURBAN 2LT

2LT enhances 1LT features with:

- Heated, power exterior mirrors, body-colour, power folding, turn signal in glass, side-entry illumination and driver-side auto-dimming feature
- Power 8-way driver seat adjuster with 2-position memory
- Power 8-way front-passenger seat adjuster
- Power 2-way driver and front-passenger lumbar adjusters
- Heated driver and front-passenger seats
- Heated 2nd-row outboard seats
- Power release, fold-and-tumble 2nd-row bucket seats
- Auto-dimming interior rear-view mirror.

TAHOE & SUBURBAN LTZ 1500 4x4

LTZ models enhance LT features with:

- AutoRide™ suspension
- 20-in. polished aluminum wheels
- Bright chrome grille insert
- Power sunroof
- Power liftgate
- Heated and cooled perforated leather-appointed power 12-way front bucket seats
- Bose 10-speaker centre channel sound system including a subwoofer
- CD and CD/DVD player slots
- Rear entertainment system with DVD player, remote control, overhead display and 2 sets of wireless headphones.

TAHOE HYBRID LT

Tahoe Hybrid includes many of the Tahoe LT1 features, plus:

- Vortec 6.0L V8 LIVC (Late Intake Valve Closing) with Variable Valve Timing (VVT) and Active Fuel Management
- GM Hybrid Propulsion Electric System
- 300-volt nickel-metal hydride Energy Storage System located under the 2nd-row seat cushion
- 4-speed electronic variable automatic transmission
- Regenerative braking system
- Autotrac 2-speed electronic transfer case (4x4 models)
- Unique Hybrid aero design grille and fascias with fog lights
- 18-in. low-mass aluminum wheels
- Tire inflator kit in place of spare tire and wheel assembly
- Low-mass aluminum liftgate
- Rearview camera system
- Heated, power exterior rear-view mirrors, body-colour, power folding, turn signal in glass, side-entry illumination and driver-side auto-dimming feature
- Heated leather-appointed full-feature front bucket seats
- 115-volt household-style power outlet
- DVD Navigation System with voice recognition, AM/FM stereo with CD player, MP3 compatibility, USB port, auxiliary input jack and 6 speakers. Includes Hybrid power-flow display and Rearview Camera System display on navigation screen.

* Available in 10 Canadian provinces and the 48 contiguous United States. Subscription sold separately after trial period. Visit xmradio.ca for details.

** Visit onstar.ca for coverage map, details and system limitations. Services vary by model and conditions. OnStar acts as a link to existing emergency providers.

AVALANCHE MODEL OVERVIEW

AVALANCHE LS

Avalanche LS includes these standard features:

- 320 hp Vortec 5.3L V8 engine with Active Fuel Management and Variable Valve Timing (VVT)
- GM Oil Life Monitoring System
- 6-speed automatic transmission with Driver Shift Control and Tow/Haul mode
- 4-wheel vented disc brakes with 4-wheel ABS and Dynamic Rear Proportioning (DRP)
- StabiliTrak electronic stability control system with Proactive Roll Avoidance
- Autotrac single-speed electronic transfer case (4x4 models)
- Locking rear differential
- 17-in. aluminum smooth 5-spoke wheels
- Tire pressure monitoring system
- Heated, power exterior mirrors, black, manual folding
- Dark charcoal assist steps
- Front recovery hooks
- Heavy-duty Trailing Equipment
- Remote vehicle starter system
- Remote keyless entry system
- Dual-stage frontal air bags for driver and front passenger with Passenger Sensing System and passenger-side air bag suppression system
- Seat-mounted side-impact air bags for driver and right front passenger
- Front-to-rear head curtain side-impact air bags with rollover sensor
- Seating for up to 6, with 40/20/40 split-folding premium cloth front bench with fold-down centre armrest and 60/40 split-folding rear bench
- Power 6-way driver seat adjuster
- Dual-zone climate controls
- Driver Information Centre (DIC)
- Power windows with driver's express-down feature
- Tilt adjustable steering column
- Cruise control
- CD player, MP3 playback, USB port and auxiliary audio input jack
- XM Satellite Radio*
- Bluetooth connectivity
- OnStar** with 6 months of the Directions & Connections Plan with Turn-by-Turn Navigation.

AVALANCHE 1LT

Avalanche 1LT enhances LS features with:

- Halogen fog lights
- Premium cloth front bucket seats with centre console that includes two power outlets and rear air conditioning vents
- Power 6-way front-passenger seat adjuster
- 2nd-row audio controls and earphone jack.

AVALANCHE 2LT

Avalanche 2LT enhances 1LT features with:

- Leather-appointed front bucket seats
- Automatic dual-zone climate controls
- Power adjustable pedals
- Ultrasonic rear parking assist
- Universal home remote transmitter.

AVALANCHE 3LT

Avalanche 3LT enhances 2LT features with:

- Heated, power exterior mirrors, body colour with driver-side auto-dimming, turn signal in glass and ground illumination, power folding
- Power 8-way driver seat adjuster with 2-position memory
- Power 8-way front-passenger seat adjuster
- Power 2-way driver and front-passenger lumbar adjusters
- Heated driver and front-passenger seats
- Auto-dimming interior rear-view mirror
- Bose 7-speaker premium sound system with subwoofer.

AVALANCHE LTZ

Avalanche LTZ enhances LT features with:

- AutoRide suspension
- 20-in. polished aluminum wheels
- Chrome grille insert with chrome surround
- Colour-keyed rear fascia
- Luggage rack – black side rails and cross bars
- Heated and cooled perforated leather-appointed power 12-way front bucket seats
- CD and CD/DVD player slots
- Bose 8-speaker centre channel sound system
- Rear Entertainment System with DVD player, overhead display, CD/DVD player slots, remote control, and 2 sets of wireless headphones.

* Available in 10 Canadian provinces and the 48 contiguous United States. Subscription sold separately after trial period. Visit xmradio.ca for details.

** Visit onstar.ca for coverage map, details and system limitations. Services vary by model and conditions. OnStar acts as a link to existing emergency providers.

WARRANTY

IT ISN'T FINE PRINT – IT'S A COMMITMENT.

Chevrolet builds its cars and trucks for the way you use them and drive them. But that's only step one. Every Chevrolet is also built to continue to live up to the highest standards, year after year. You can take added peace of mind in knowing that every Chevrolet is also backed by the best coverage in Canada:

- 3-year/60,000 km New Vehicle Limited Warranty*
- 5-year/160,000 km Powertrain Component Limited Warranty, with \$0 deductible on repairs and the warranty is fully transferable at no charge*
- 5-year/160,000 km Courtesy Transportation*
- 5-year/160,000 km 24/7 Roadside Assistance*
- 6-year/160,000 km rust-through perforation coverage*
- 8-year/130,000 km coverage on catalytic converters and powertrain control modules (PCMs)*.

* Whichever comes first. Conditions and limitations apply, see dealer for details.

OTHER OWNERSHIP PRIVILEGES AND PROGRAMS:**

- **GM Protection Plan (GMPP)** – the only extended service plan backed by the resources and commitment of General Motors, GMPP may be purchased at the time of sale or subsequently during the New Vehicle Limited Warranty period
- **GM Goodwrench Service** – with GM-certified technicians and GM-approved parts, nobody knows your GM vehicle better.

** Conditions and limitations apply.

TO HELP YOU PURCHASE A NEW VEHICLE:

- **Purchase Financing** – on the spot financing at your GM dealership†
- **GM Student Bonus Program** – students or recent graduates of high school, college or university** may be entitled to receive a Student Bonus vehicle redemption allowance of \$500 or \$750† (tax inclusive) (purchased vehicle dependant) to use towards the purchase, lease or finance of one eligible new Chevrolet vehicle.
- **The GM Card** – GM cardholders may redeem up to \$3500 GM Card® Earnings (subject to Vehicle Redemption Allowances) toward the Total Purchase Price on eligible new GM vehicles††. For full program details please visit thegmcard.ca

† Subject to eligibility. †† Program subject to change. ** Conditions and limitations apply.

INFORMATION RESOURCES:

You can find more information about these programs from your GM dealer, or at these information centres:

- The GM website at **gm.ca**
- The GM Customer Communication Marketing Centre at **1-800-GM-DRIVE (1-800-463-7483 or 1-800-263-3830** for TDD users).

A WORD ABOUT THIS BROCHURE

Some of the equipment shown or described throughout this brochure may be available at extra cost. We have tried to make this brochure comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colours, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this brochure and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been adapted since the time of the printing, please check with your GM dealer for complete details. General Motors of Canada Limited reserves the right to lengthen or shorten the model year for any product, for any reason, or to start and end model years at different times.

A WORD ABOUT ASSEMBLY

GM vehicles are equipped with engines and components produced and assembled by different operating units of General Motors, its subsidiaries and suppliers and these engines and components may change or be obtained from different sources from time to time. All such engines and components are approved for use in GM vehicles. Certain equipment ordered may be unavailable at the time of assembly and we suggest that you verify that your vehicle includes the equipment you ordered, or if there are changes, that they are acceptable to you.

TRADEMARKS

The marks appearing in this brochure including, but not limited to: General Motors, GM, Chevrolet, the Chevrolet emblem, Avalanche, Suburban, Tahoe, Z71 and their respective logos, emblems, slogans and vehicle model names and body designs; and other marks such as Active Fuel Management, Auto Ride, Autotrac, Convert-A-Cab, Midgate, StabiliTrak and Vortec are trademarks of General Motors and/or General Motors of Canada Limited, its subsidiaries, affiliates or licensors.
