

2010 **CHEVY CARS,
CROSSEOVERS & TRUCKS**

WHAT MAKES A CHEVY – A CHEVY.

It's the precise design and premium quality exemplified in Malibu.

It's the kind of technical sophistication that allows Equinox to be the most fuel-efficient crossover on the highway at 32 MPG¹ with up to 600 miles between fill-ups.

It's stylish, high-quality crossovers like Traverse, rated at 24 MPG² highway, that can carry up to eight people and all the things they want to take along.

It's Silverado, with better fuel economy than any competitor³ – 22 MPG highway. One reason Silverado is America's Best Truck.

It's stunning performance and incredible efficiency in a totally modern context with Camaro⁴ and Corvette.

It's the security, entertainment and connectivity of OnStar⁵, XM Radio⁶ and Bluetooth[®] wireless technology⁷ – available on many Chevy models.

It's five different 2009 Chevy models⁸ each receiving a *Consumers Digest* "Best Buy" award.

It's the total assurance of the best coverage in America with a 100,000 mile/5-year⁹ transferable Powertrain Limited Warranty plus Roadside Assistance and Courtesy Transportation Programs.

It's technological breakthroughs like the Volt (launch targeted late 2010), an Extended-Range Electric Vehicle that could one day use zero gasoline and produce zero emissions for someone who drives less than 40 miles a day.¹⁰

It's the philosophy of building vehicles that anyone would be proud to own – and putting them within reach.
