

Break Through

DATSUN GO

WELCOME TO THE BIG LEAGUE

Waiting for an opportunity is over. It is time to seize it. To steer it forth. To pilot your destiny. To come out of the comfort of the known. Now is when you re-define limits. Accelerate your way to a level above, powered by Datsun GO.

WELCOME TO THE BIG LEAGUE. WELCOME TO DATSUN GO.

SO STYLISH, IT WILL MAKE HEADS TURN.

The Datsun GO is here to stay. With a robust body, strong and dynamic shoulder line, distinctive headlights and impressive arches, it is the new benchmark in design. Its D-cut grille with chrome lining shows Datsun GO's strong characteristics. From the athletic rear shoulders to its cozy cabin space, the Datsun GO is the style statement that will mark your entry into the Big League.

1. Headlamps: The signature hexagonal headlamps make it look premium and stylish.

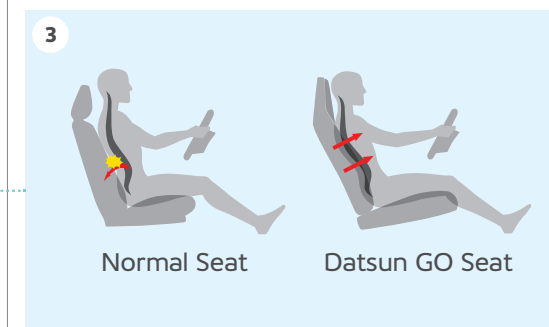

2. Rear Shoulders: Its robust, wide body with deeply curving shoulders makes it stand apart from anything else in its segment.

3. Front Fenders: The Datsun GO with its bold fenders adds a touch of class. And its three-dimensional silhouette gives it a modern character that's a class apart.

4. D-cut Grille: Sleek horizontal lines combine with strong D-shaped contours formed by metal bars on either side to symbolize the spirit of Datsun in a contemporary way.

BIG ON
SPACE

THE THING ABOUT REAL CLASS - IT GOES DEEPER THAN THE SURFACE.

Thanks to the Datsun GO's best-in-class cabin length, you can look forward to a comfortable ride. Its generous knee room gives you the freedom to stretch out and its luxuriously cushioned seats make it a pleasure to journey in. The Datsun GO is spacious enough to accommodate friends and family and there's always enough boot space for cricket kits and picnic baskets.

1. Luggage Room & Boot Space: With best-in-class boot space of 265L, luggage fits easily.

2. Connected Front Seat: The connected design of the front seat offers space for a briefcase or handbag. It also makes it possible to slide out of either doors for your convenience while maintaining individual seat adjustability for the driver and the passenger in the front seat.

3. Spinal Support Front Seat: With our advanced technology, conceived to meet the human body's neutral posture. Unlike conventional seats, this minimizes loads on the body, reducing muscular activity and fatigue through optimizing blood flow by spreading pressure from pelvis to chest during journey.

4. Head Room: Ample headroom that provides comfort and makes sure that you have a ride to remember, every time.

5. Seat Comfort: It gives you seating comfort from a class above with little touches for that premium feel.

1. Mobile Docking Station: Control your world with MDS. It gives you everything on your smartphone in your car - navigation, your music, USB charging and hands-free telephony.

2. Passenger Side Storage: Offers ample storage space in the cockpit, so you can swiftly place and remove your belongings.

3. Door Pockets: The holder in the door trim can contain bottles of different sizes.

INTERIORS THAT MAKE OTHER HATCHBACKS ENVIOUS.

On the inside, the Datsun GO is clean and simple. There's emphasis on thoughtful details that add to the driving experience and reflect the Datsun GO's elevated class.

Consider the elegant, dipping line of the dash, the right touch

of silver accents and the shift lever placed on the instrument panel at an arm's length from the steering wheel for easy driving in heavy traffic conditions. These along with the clever shape of the door handles make the Datsun GO a breakthrough at many levels of innovation.

4. 360° Air Vents for Surround A/C Ventilation: Allows better control of airflow and air goes all around for your comfort.

5. Blue Color Print Meter with White Letters: Provides enhanced visibility, so you're in control at all times.

6. Leather-feel Grain Dashboard: The dashboard and interior trim with leather-feel grain pattern gives the interiors a nice touch-feel.

DRIVE A LEAGUE AHEAD OF THE CROWD.

The Datsun GO is integrated with cutting-edge technologies for its power train. A newly developed powerful engine, a superior front suspension, the generous ventilated disc brakes in the class and electronically controlled accelerator pedal enable greater control and a smoother driving experience.

With functions such as smart meter with drive computer, follow-me-home and intelligent wiper system, the Datsun GO will take you to a different league. That aside, the speed sensitive electric power steering gives you better handling and control. And despite its wide wheel base, the Datsun GO has a conveniently small turning radius. To top it all, it gives excellent fuel economy, and a fuel consumption of 20.63km/litre.

1. Engine and Power: The Datsun GO comes with a **1200cc powerful engine** which is largest in its class and also uses race car engine technology which is adapted to give you maximum torque and power.

2. Suspension System: A double-pivot front arm enables greater agility, while the tension created by the rough road is absorbed by a high-response damper.

3. Electronic Accelerator Pedal: The smooth electronic accelerator ensures less maintenance and lower emissions.

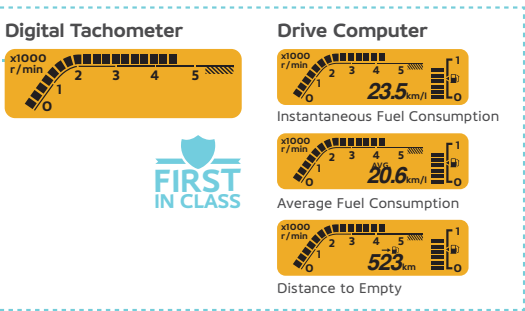

4. Ventilated Disc Brakes: The Datsun GO uses ventilated disc brakes in front. The brake system ensures enduring brakes, which implies more secure and consistent hauling for your car.

7 Smart Meter

6. Intelligent Wiping System: It automatically selects appropriate wiper intervals in INT mode as vehicle speed changes. When using wipe and washer function, 3 seconds after the wiper motion stops, it comes back to wipe away the last few drops.

8. Speed Sensitive Electric Power Steering: The Datsun GO's special electric power steering gives more assist while its streamline body makes for powerful handling.

9. Turning Radius: Despite its long wheelbase, the Datsun GO has the shortest turning radius.

5. Follow-me-home Headlamps:
The Datsun GO has the follow-me-home headlamps, which light up your path as you walk home even after locking your car.

6. Intelligent Wiping System: It automatically selects appropriate wiper intervals in INT mode as vehicle speed changes. When using wipe and washer function, 3 seconds after the wiper motion stops, it comes back to wipe away the last few drops.

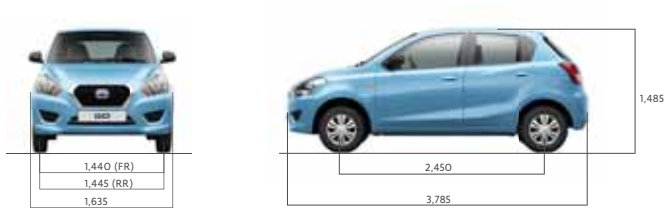

SPECIFICATIONS

Model	Datsun GO	
Dimensions	Overall Length (mm)	3,785
	Overall Width (mm)	1,635
	Overall Height (mm)	1,485
	Wheelbase (mm)	2,450
	Front Track (mm)	1,440
	Rear Track (mm)	1,445
	Minimum Ground Clearance (mm)	170
	Minimum Turning Radius (m)	4.6
	Luggage Capacity (L)	265
	Fuel Tank Capacity (L)	35
Engine	Seating Capacity	5 Persons
	Fuel Type	Petrol
	Engine Type	DOHC 12 Valve 3 Cylinders
	Fuel System	Electronic Gasoline Injection System
	Displacement (cc)	1,198
	Configuration	In-line 3, DOHC
	Max Power (Ps/rpm)	68/5,000
	Max Torque (Nm/rpm)	104/4,000
Transmission	5 - Speed MT (Cable Type With Hydraulic Clutch Operation System)
