BERLINGO
LOADSPACE

Berlingo

ACCESSING THIS NEW WORLD IS MADE EASY BY REAR DOORS THAT SWING OUT TO LEAVE A YAWNING 180 DEGREE OPENING – PERFECT FOR BACKING RIGHT UP TO LOADING BAYS.

EVERYTHING IN ITS PLACE

The new Berlingo features numerous load retention configurations, so whatever you need to transport, you can do so safely with minimal hassle.

SPARK OF INNOVATION

In the new Berlingo LX models you also get a removable and rechargeable torch that's always there when you need it – such as when you're looking for tools in the pitch dark. It's pure original thinking.

THE BULKHEAD

A range of bulkheads are available, including an easy to configure half-height steel bulkhead with removable panel. This helps you divide up the loadspace how you need to – this is modularity at its very best.

MAKE SHORT WORK OF LONG LOADS

Place the removable bulkhead panel behind the driver's seat, fold forward the passenger seat and you've freed up enough space to take really long, awkward loads.

SECURE AND PROTECTED

The new Berlingo's load space features six chrome plated anchorage points and LX models have a tough synthetic floor cover to shrug off scuffs.

IT'S YOUR STORY. THE NEW BERLINGO IS INGENIOUSLY FLEXIBLE SO THAT ANYTHING YOU NEED TO LOAD AND CARRY CAN BE SWALLOWED WITHOUT A HEADACHE.

A BIG, UNINTERRUPTED LOAD FLOOR AND A CABIN PACKED WITH NEAT MODULAR FUNCTIONS MEAN THAT THIS IS A HARD WORKING VAN THAT ADAPTS TO YOUR NEEDS. FOR ULTIMATE EASY LOADING, OPTIONAL OFFSIDE OR NEARSIDE SLIDING SIDE LOADING DOORS ARE AVAILABLE.

BLUE SKY THINKING

The optional opening roof flap on L1 versions allows you to carry awkward long loads whilst keeping all doors securely locked.

REINVENTING THE SEAT

The new Berlingo LX's modular EXTENO[®] cabin is truly in the Citroën innovative tradition.

MOBILE OFFICE

The middle seat backrest can be folded forward to provide you with a desk on the move, whilst the passenger seat base folds back cinema style to accommodate a fragile load. You can fold the passenger seat completely flat to take on a load up to 3m on L1 versions and 3.25m on L2 versions.

BERLINGO

ENVIRONMENTAL

THE BALANCE OF POWER. EACH NEW BERLINGO BRINGS YOU A BALANCE OF PERFORMANCE, RELIABILITY AND ECONOMY.

BUT OUR CHOICE OF 1.6i 16V 90HP PETROL OR 75HP AND 90HP HDI DIESEL ENGINES DON'T ONLY WORK FOR YOU: THEY WORK HARD TO MINIMISE ENVIRONMENTAL IMPACT TOO, AS YOU WOULD EXPECT FROM A MANUFACTURER WHOSE ENVIRONMENTAL CREDENTIALS ARE AMONGST THE VERY BEST.

THE SAFETY EXPERT. NEW BERLINGO SPECIALISES IN YOUR SAFETY. IT'S PACKED WITH NEW TECHNOLOGY - BOTH STANDARD AND OPTIONAL - THAT'S WORKING HARD ON YOUR BEHALF.

THERE'S CRUISE CONTROL WITH DRIVER ADJUSTABLE SPEED LIMITER, ANTI-LOCK BRAKING SYSTEM (ABS), ELECTRONIC BRAKEFORCE DISTRIBUTION (EBD) AND ELECTRONIC STABILITY PROGRAMME (ESP).

GREEN EFFICIENCY. CITROËN HAS BEEN PIONEERING CLEANER, MORE FUEL-EFFICIENT MOTORING, SUCH AS THE COMMON RAIL HDi ENGINES NOW FITTED IN ALL NEW CITROËN DIESELS, LONG BEFORE ALL THE HYPE...

CITROËN HAS ALWAYS BEEN AT THE FOREFRONT OF GREENER TECHNOLOGY AND THE NEW BERLINGO MAINTAINS THE TRADITION. IT'S WHY WE HAVE WON THE LCV MANUFACTURER OF THE YEAR 2008 AWARD. TODAY, WE HAVE ONE OF THE UK'S WIDEST RANGES OF LOW EMISSION VEHICLES. WE ALSO PRODUCE ONE OF THE UK'S MOST ECONOMICAL LIGHT COMMERCIAL VEHICLES, THE NEMO VAN.

airdream

AIRDREAM - A BENCHMARK

When it comes to the environment we wanted to show our genuine commitment as well as our profound expertise, so we have devised a benchmarking scheme with the signature 'Airdream' reserved exclusively for the cleanest vehicles in our range. To qualify for the AIRDREAM signature, vehicles must meet three standards: 1. Stop & Start, Natural Gas or CO₂ emissions must be less than 130g/km, 158g/km for DPFS diesel engines or bio-diesel compatible vehicles and 200g/km for vehicles running on E85 fuel. 2. Manufacturing quality of ISO14001. 3. 95% of recoverable materials.

INTRODUCING THE ECOLOGICAL CAR

Citroën is always a leader in the manufacture of low CO₂ emission vehicles

All Citroën vehicles are designed to be 85% recyclable

The Citroën C-Cactus concept (above), a car designed on ecological principles. It includes a significant proportion of recycled or recyclable materials and, like the plant it is named after, it is low on liquid consumption. At the same time, C-Cactus is designed to be no more expensive than a mid-range family car. This can be attributed to the use of new materials and to a rational design process using a smaller number of parts. C-Cactus is an essential vehicle reflecting a new vision of the car, many of its thoughts and themes will appear in modern Citroën vehicles to come.

HIGH-PRESSURE DIRECT INJECTION DIESEL ENGINE

Our HDi diesel engines operate with the fuel under extremely high pressure, enabling microscopically precise injection control. With this level of management it's possible to inject at different times during the same engine stroke allowing total control over the combustion process. This has allowed our engineers to reduce carbon monoxide emissions by 40%, unburned hydrocarbons by 50% and engine particulates by 60%. Fuel consumption is 20% lower than a prechamber diesel engine, resulting in an equivalent reduction in CO₂ emissions and thanks to the torque available at low engine speed it could be argued that driveability is now better than in petrol engined vehicles.

ANTI-LOCK BRAKING SYSTEM (ABS)

Computer-controlled braking assistance designed to prevent the wheels from locking under extreme braking. This enables the vehicle to continue being steered and therefore controlled during this braking incident.

GUIDE-ME-HOME HEADLAMPS

Parking in the evening or in a poorly lit car park is made easier with Citroën's 'guide-me-home' system. On locking the vehicle the headlights stay on for a few seconds to allow you time to get to your front door or garage exit with sufficient illumination to navigate your way safely.

SMARTNAV

Smartnav is a journey management system, a touchscreen satellite navigation unit which uses real-time traffic and road incident data to provide the best available route, which is then updated in response to evolving traffic conditions. Destinations can be entered on-screen by address or postcode. Mapping updates and new speed camera locations are downloaded instantly to the vehicle, ensuring routes are planned using the latest information. The Trackstar feature enables a stolen vehicle to be tracked and located 24/7, every day of the year.

Smartnav comes with the following features as standard:

- 3 years' unlimited Smartnav Touchscreen routes
- 3 years' Trackstar Stolen Vehicle Tracking
- 3 years' automatically downloaded live traffic information
- 15 Personal Assistant Smartnav routes
- 1 month Safe Speed safety camera alerts

ON-BOARD TRIP COMPUTER

Berlingo's multi-function on-board trip computer provides you with information at your fingertips. At the touch of a button you can view a range of data like fuel consumption, average speed and mileage possible at your current fuel level.

EXTENSO®

The EXtenso® modular foldable passenger bench seat can be configured in three positions, for maximum flexibility:

EXTENSO® mobile office position

The middle seat folds forward so the area on the back of the middle seat can be used as a writing table with integral retaining strap. There is also a 7.5 litre storage compartment under the middle seat cushion, which can be padlocked for added security (not supplied).

EXTENSO® retracted position

The outer passenger seat can also be folded forward, and the whole of this seat can then be lowered into the floor. This EXtenso® feature increases the load length of the new Berlingo by 1200mm and its load volume by 0.4m³, allowing you to load longer items. The back of the seat has a protective metal shell which can support loads of up to 50kg.

EXTENSO® foldaway position

Alternatively, the base of the outer passenger seat can be lifted up to meet the seat back, in a similar way to a cinema seat, to create an extra space in the cabin area.
