

 **CITROËN C1**

Unique curvaceous styling

An interior that's
pure and simple

For an easy drive

The driving controls around the wheel are in an ideal position making the C1 easy to handle.

It's the little details that make all the difference. The manually adjustable interior door mirrors play their part in the C1's original and fun design. The doors mirrors are body coloured on Rhythm models.

The elevated and rounded headlamps give C1 a distinctly friendly look.

The C1 has a great 'transparent' effect at the rear. Check out the triangular crystal rear lights.

Constructed from a backlit translucent material, the heating control panel is illuminated in orange when the headlamps are on.

Nothing interrupts the interior harmony - even the air vents have curves.

Style comes guaranteed with the upper door colour matching the exterior paint.

Go wherever you please

The C1 is the ultimate urban car thanks to its tight turning cycle and variable power steering that comes as standard.

The funky rev counter completes the main dashboard on Rhythm models.

The speedometer contributes to the fun design of the car.

The freedom of the road is at your fingertips

A CD player comes as standard and an MP3 player can be plugged into the front panel.

Even the switch that controls the air-conditioning is designed to fit the shape of the dashboard and shares the C1 sense of fun.

Comfort and convenience

Two storage compartments situated above and below the CD player are handy for easy access.

Electric front windows come as standard on Rhythm models.

All in all, the Citroën C1 boasts no less than 12 storage compartments in the dashboard, central console and doors.

The boot volume converts easily from 139 litres under the parcel shelf up to an impressive 751 litres once the rear seats are folded down (712 litres on the 3-door model).

The rear window provides an extended glazed area for optimal access to the boot.

Two cup holders and a 12-volt plug are located under the central console.

Safety without compromise

ABS comes as standard coupled with Electronic Brakeforce Distribution for optimal braking whatever the circumstances.

Driver's and front passenger's airbags are inclusive on all versions and front lateral airbags are fitted on Rhythm models.

Central locking with high frequency remote control is standard on Rhythm models.

The Isofix anchor points are fitted with the 50/50 split folding rear seats on Rhythm models.

Optimal rear vision is provided courtesy of the large rear window and rear wiper.
