THE NEW  
**CITROËN C3 PLURIEL**

### The Citroën C3 Pluriel...

Prepare to take a step out of the ordinary. Prepare to open your mind to a whole new range of possibilities. Prepare for a little touch of magic. You're about to encounter a brand new concept ... the new C3 Pluriel from Citroën.

The flowing lines of the contemporary and curvaceous styling could well be the first thing you notice. And the rounded, plunging bonnet with funky 'teardrop' headlamps give you a hint of the C3 Pluriel's boundless individuality and charisma.

You'll also be impressed by the spaciousness of the interior – there's room for four to travel in comfort. But where does the magic come into it?

The C3 Pluriel can transform at the touch of a button into what you want it to be. From a 3-door Saloon into a Panoramic Saloon ... or a Cabriolet ... or a Spider ... or a Spider Pickup. Decide who you want to be today and choose your C3 Pluriel to match. So you can dream your own dream, create your own reality and take the C3 Pluriel along for the ride.

## A unique concept with so much more

Who knows what you'll be doing tomorrow? If the mood is right, you go with the flow and your car needs to be able to react to the spontaneity of the moment too. That's what the C3 Pluriel is all about.

And it does it in real style, but the C3 Pluriel is so much more than a pretty face. Rest assured, the C3 Pluriel has real strength of character and inner beauty too. It's packed with a level of equipment, safety features, technology and storage unheard of until now.

You have the option of either the 1.4i or 1.6i 16V SensoDrive model. Whatever your choice, both engines provide an effective blend of performance and economy.

#### 1 The body colour flows into the interior too

#### 2 Even storage can be stylish

Express your personality from the range of cool classic and contemporary body colours available to you. Whichever you choose, the colour flows through into the cabin for a truly co-ordinated feel. There are body-coloured inserts on the front and rear door panels, together with the back of the front seats on the 1.6i 16V SensoDrive version.

The roof and roof arches contrast in either 'anthracite' or 'aluminium' finish, according to your selected body colour. And all this is complemented by the weather proof interior trims. So whether the upholstery is 'Geo' or '3D Apiculla', there's a perfect match for harmonious synergy and stylish impact both inside and out.

# THE NEW CITROËN C3 PLURIEL

Versatility, individuality and practicality ... it's a winning combination

The C3 Pluriel - a car that's as versatile and individual as you are. OK, you're really tempted. But hang on a minute. Don't let your heart rule your head. What about equipment? What about comfort? What about safety? What about the practicalities and all those details that really make a difference?

Sorted. One of the first things you'll notice is just how roomy the C3 Pluriel really is. In fact, there's more space than many other cars in its class so it really is a true 4-seater. There's no need for your passengers to get up close and personal. Unless they want to, that is!

And they'll stay safe and sound too. Because the C3 Pluriel benefits from a whole host of active and passive safety features. For starters, there's the responsive and stable road holding complemented by ABS with Electronic Brakeforce Distribution (EBD) and Emergency Braking Assistance (EBA). The speed-variable power assisted steering and automatically activated hazard warning lights in the event of sudden deceleration. And, if the worst should happen, the reinforced body shell, protective roof arches and four airbags could make all the difference.

So picture it now. You get behind the wheel. You easily adjust the height of the seat. Then the

height and tilt of the steering wheel too. Now you're in the most comfortable driving position and it feels good. You can't help but notice that the design of the dashboard means everything is to hand and you feel really in control. You switch on the stereo and turn up the CD volume with the steering wheel mounted control.

Now comes the really serious decision of the day. Is it to be the Panoramic Saloon or the Cabriolet? Or perhaps the Spider? But don't get too hung up on it. After all, if you change your mind, the C3 Pluriel changes too.

## The SensoDrive sensation

Does the comfort and relaxation of driving an automatic appeal? But what about the enjoyment and pure pleasure of fingertip gear changes that comes with a manual gearbox? It can all be a bit of a dilemma.

The good news is that now with the C3 Pluriel 1.6i 16V you don't have to chose. Because with the SensoDrive paddle shift, five speed sequential gearbox, you can have both.

So whatever your mood and whether it's urban driving with all the stops and starts or motoring out on the open road, you can chose automatic or manual mode. And really get the maximum from your driving experience.

## Options you won't want to be without

Whether you wish to enhance the vehicle's appearance, add to its convenience, storage or safety features, or partake of high-quality in-car entertainment including the 5 CD autochanger and satellite navigation systems, we have the accessory solution for you.
